PROSPECTUS AND LIST OF THE OXFORD POCKET CLASSICS.

A New Series of the Greek and Latin Classics,

FOR THE USE OF SCHOOLS.

THE advantages of this Series of Classics are, that they are PRINTED FROM THE BEST TEXTS EXTANT, and not only this, but each volume has, during its progress through the press, been superintended by some competent member of the University.

There have also been supplied, where necessary, SUMMARIES, CHRONOLOGICAL TABLES, BIOGRAPHICAL NOTICES, INDICES, and the like—aids which are often wanted in other editions. Lastly, they are printed in a good plain type, and on a firm, fine paper, capable of receiving writing ink, for notes, and at the same time they are supplied at moderate prices.

It is hoped that the advantages which the "OXFORD POCKET CLASSICS" possess over other Series will not fail to increase the circulation which they have already attained in both our public and private schools, as also in our Universities.

CARTE'S Life of James Duke of Ormond; containing an account of the most remarkable affairs of his time, and particularly of Ireland under his government. *A new Edition, carefully compared with the original MSS.* 6 vols. 8vo. cloth lettered, 2l. 6s.

"In studying this period, the most important, the most wonderful in all history, I suppose you will make Lord Clarendon's incomparable performance your groundwork. After this will follow 'Whitelocke's Memoirs.' It is only a journal or diary, very ample, and full of important matters. The writer was learned in his own profession, and thought largely in religion by the advantage of his friendship with Selden. 'May's History of the Parliament' is a just composition, according to the rules of history. It is written with much judgment, penetration, manliness and spirit; and with a candour which will greatly increase your esteem, when you understand that he wrote by order of his masters, the Parliament. It breaks off (much to the loss of the history of that time) just when their armies were new-modelled by the self-denying ordinance. The loss was attempted to be supplied by 'Sprigg's History of Fairfax's Exploits.' He was chaplain to the general."—*Bp. Warburton's Letter to Bp. Hurd, August 16, 1753.*

A NEW DICTIONARY of the **ENGLISH LANGUAGE.** Combining Explanation with Etymology, and copiously illustrated by Quotations from the best Authorities. By CHARLES RICHARDSON, LL.D.

The Words—with those of the same Family—are traced to their Origin. The Explanations are deduced from the primitive meaning through the various usages.

The Quotations are arranged chronologically, from the Earliest Period to the Present Time.

The **SUPPLEMENT** separately, 4to. cloth, price 12s.

"In most cases Richardson's Dictionary, the only one from which I can promise you effectual help, for it is the only English one in which Etymology assumes the dignity of a science, will put you in the right position for judging why the Word has been suggested to you."—*Trench on the Study of Words.*

By the same Author, 8vo. cloth, price 15s.

A SMALLER EDITION, with all the Explanations and Etymologies, but without the Quotations.

CLASSICAL SCHOOL-BOOKS,

By EDWARD WALFORD, M.A.,

Late Scholar of Balliol College, Oxford; formerly Assistant-Master of Tunbridge School.

WALFORD'S HANDBOOK of the GREEK DRAMA.

Fep. 8vo. 6s.

"A brief sketch of the old Greek stage, the playwrights, the players, the plays, the theatre itself, and the mode of acting, with a general account of the metres used by the Greek dramatists. It is a well-executed little guide that will be useful, we should think, to many."—*Examiner*.

"This handbook contains a disquisition on the origin and progress of the Greek drama, with short biographical notices of the principal dramatists, a critical account of their surviving works, and some episodic matter, as a description of the festival of Bacchus. An analysis of Aristotle's Poetry follows, with a variety of topics bearing upon the Grecian drama. It is a useful publication, bringing together a quantity of information in a small compass."—*Spectator*.

"This little volume is of the *multum in parvo* order. After a brief history of the origin and development of domestic poetry in Greece, in connexion with religious festivals, the author gives an outline of the scenic arrangements of the Greek theatre, and thence proceeds to treat, in a series of sketches, of the principal dramatists, both tragic and comic. This is followed by an analysis of Aristotle's treatise on Poetry, and by an account of the various metres employed in dramatic composition, and (in an appendix) by a variety of matters, such as the canons of Porson, Blomfield, and Monk, the whole forming a complete apparatus for the use of the teacher, who will here find ready to his hands much that it would cost him considerable trouble to search for in more voluminous and expensive works."—*John Bull*.

WALFORD'S SHILLING LATIN GRAMMAR. 12mo. 1s.

"Mr. Walford's *Shilling Latin Grammar* is a very useful little manual, not only cheap, but convenient to lie by the side of the young student's book. The accidence is very complete, and so much in a tabular form as to be easily referred to: the syntax contains a great deal in five pages."—*Weekly Register*.

"The object of the author has been 'to compile a more simple grammar of the Latin language than he believes has yet appeared in England.' The basis is the Charter-House Grammar, not the Eton; and there is a good deal for a shilling, from the Alphabet to the Prosody."—*Spectator*.

PREPARING FOR PUBLICATION.

ATHENÆ CANTABRIGIENSES,

BY C. H. COOPER, F.S.A.

(Author of *The Annals of Cambridge*)

AND

THOMPSON COOPER.

THIS work is intended to illustrate the Biography of the authors and other notable and eminent men who have been members of the University of Cambridge.

A chronological arrangement, commencing with the year 1500, will be adopted.

The number of Lives will be about seven thousand, and will comprise—1. Authors. 2. Cardinals, Archbishops, Bishops, Abbots and Heads of Religious Houses and other Church Dignitaries. 3. Statesmen, Diplomats, Military and Naval Commanders. 4. Judges and eminent Practitioners of the Civil or Common Law. 5. Sufferers for religious or political opinions. 6. Persons distinguished for success in Tuition. 7. Eminent Physicians and Medical Practitioners. 8. Artists, Musicians, and Herald. 9. Heads of Colleges, Professors, and principal Officers of the University. 10. Special Benefactors to the University and Colleges, or to the Public at large.

Much attention will be paid to Bibliography, especially as regards the works of the somewhat considerable number of persons whose lives have never been published at all, or of whom but scattered and imperfect notices have hitherto appeared. With respect to the more important persons whose lives have been published, either in a separate form or in well-known standard works, and as to whom no additional facts of importance can be supplied, brevity combined with perspicuity will be studied. Of some persons but brief notices can be given, and there are not a few of whom any lengthened account can hardly be required. To every life, however, will be appended the authorities on which it is grounded, so that the accuracy of the work may be tested, and those readers who require additional information may be guided in the attainment of the same.

It is intended to publish in octavo volumes, closely but clearly printed in columns, each volume containing about 600 pages. The price of each volume will be eighteen shillings. Every volume will form a complete work and have an Index. No subscriber therefore need be under obligation to take more than one volume.

The First Volume will be ready in October, 1857.

Gentlemen wishing to subscribe are desired forthwith to communicate either directly or through their booksellers to the Publishers.

Cambridge :

DEIGHTON, BELL, AND CO.; MACMILLAN AND CO.

London : BELL AND DALDY, 186, FLEET STREET.

 Subscribers sending their names direct and paying 16s. in advance, will receive a volume as soon as published, free of carriage.

CHURCH PASTORAL AID SOCIETY.

President :

The **EARL of SHAFTESBURY.**

Instituted 1836.

Object.—Salvation of souls in our own land.

Plan.—To provide means for maintaining Curates and Lay-Agents in largely-peopled Districts.

Principle.—That they who are thus employed shall be men who will faithfully and fully proclaim the Gospel of the Lord Jesus Christ.

Operations.—Grants for 372 Clergymen and 159 Lay-Agents are made to 426 Parishes or Districts,—total population 3,178,000 ; or, about 7,500 souls to each Incumbent. Average Income £200 per annum—218 without parsonage-houses.

Indirect Benefits.—The Grants of the Society have led to the erection or keeping open of 182 Churches,—172 Rooms are licensed for Divine service in districts at present aided.

Funds.—Receipts for the year ending 31st March, 1856, £37,264. 18s. 9d. Expenditure, £38,018 13s. 8d. When all the Grants are occupied, an Income of £45,415 will be required.

Applications for Aid.—The Committee have now before them many urgent Applications for Aid ; the most pressing even of these cannot be responded to.

Persons whose lives are proposed for Assurance are not required to appear before the Directors.

"Free Policies" are issued, at a small increased rate of Premium, which remain in force although the Life Assured may go to any part of the World.

Policies do not become void by the Life assured going beyond the prescribed limits—so far as regards the interest of Third Parties—provided they pay the additional Premium so soon as the fact comes to their knowledge.

Parties assuring within Six Months of their last Birthday are allowed a proportionate diminution in the Premium.

Eighty per cent. of the Profits are divided at the end of every Five Years among the Assured. At the First Division, to the end of 1849, the addition to the amount assured averaged 50 per cent.; and at the second, to the end of 1854, 55 per cent. on the Premiums paid during the preceding five years.

THE FOLLOWING ARE EXAMPLES:—

Date of Policy	18th March, 1845.	24th April, 1845.	7th Nov. 1845.

English and Irish Church and University Assurance Society— (Continued).

The following are some of the numerous privileges enjoyed by the Assured in this Society:—

1. One-half of the Premiums for the whole of Life may remain unpaid until death, thus affording the opportunity to Insurers of effecting a Policy for £2000. at the Premium which would be otherwise required for £1000.

2. Policies are granted for any amount, from £20. upwards, on rates which, from the peculiarly favourable character of the lives assured, are somewhat lower than those of many other Assurance Societies.

3. The Payment of Premiums may be *annual, half-yearly, or quarterly*, at choice; or the Composition Premium, commonly called the *Single Premium*, may be adopted. Or, should it be desired, the payment may be made on an *ascending* or a *descending* scale, according to the various circumstances of the Assured.

SCHOLARSHIPS.

At each division a portion of the Profits will be set aside to form a Fund for the establishment of **Scholarships**, to be competed for by **the Relations or Pupils of Members** holding not less than Five Shares in the Society's Stock, and who shall, by the time of the election, have introduced to the Society Assurances, on their own lives or the lives of others, to the extent of at least £250.

In accordance with the estimate prepared for this Society by the eminent authority, Mr. SCRATCHLEY, M.A., President of the Friendly Societies' Institute, the Board propose that the number of **Scholarships** to be established should be seven, viz.:

One Scholarship of £50 per annum for Three Years, tenable at Oxford.

Ditto	50	ditto	ditto	Cambridge.
Ditto	50	ditto	ditto	Dublin.
Ditto	40	ditto	ditto	Oxford.
Ditto	40	ditto	ditto	Cambridge.
Ditto	40	ditto	ditto	Dublin.
Ditto	40	ditto	ditto	Durham.

Examiners will be chosen from Members of the several Universities, and the first Examination will take place in January 1859.

The attention of the Public is invited to the Share-Capital of this Society as a profitable means of investment. The present capital on which £1. per share has been paid, is subscribed for by an extensive and wealthy proprietary; it bears interest at the rate of £5. per cent. per annum, increasing from the Bonuses of 25 per cent. on the profits of the Society, which are declared quinquennially. The liability of Shareholders is strictly limited by the Deed of Settlement. The Society has already upwards of four hundred Local Treasurers and Local Directors.

Temporary Assistance to Governesses in distress, afforded privately and delicately through the Ladies' Committee.

Annuity Fund. Elective Annuities to Aged Governesses, secured on invested capital, and thus independent of the prosperity of the Institution.

. The Hon. Mrs. Ashley has most kindly opened a Fund to raise all the Society's Annuities to £25. Any Donations which may be kindly given, may be addressed "The Hon. Mrs. Ashley, to the care of the Secretary."

Provident Fund. Provident Annuities purchased by Ladies in any way connected with Education, upon Government security, agreeably to the Act of Parliament. This branch includes a Savings' Bank.

A Home for Governesses during the intervals between their engagements.

A System of Registration, entirely free of expense.

An Asylum for the Aged.

Membership consists in the payment of an Annual Guinea, or of Ten Guineas in one Sum. Subscribers are entitled to vote for Annuities in the proportion of one vote for each Annual Half-Guinea, not in arrear, and for each Donation of Five Guineas. Subscriptions are due on the 1st of January, and can always be remitted by Post-office Order, or by a Cheque crossed "Sir S. Scott and Co."

ONE-THIRD of the Premium on Insurances of £500 and upwards, for the whole term of life, may remain as a debt upon the Policy, to be paid off at convenience; or the Directors will lend sums of £50 and upwards, on the security of Policies effected with this Company, for the whole term of life, when they have acquired an adequate value.

Four-Fifths, or Eighty per cent., of the Profits are assigned to Policies every fifth year, and may be applied to increase the sum insured, to an immediate payment in cash, or to the reduction and ultimate extinction of future Premiums.

At the fifth appropriation of Profits for the five years terminating Jan. 31, 1856, a reversionary bonus was declared of £1 10s. per cent. on the sums insured, and subsisting additions for every premium paid during the five years. This Bonus, on Policies of the longest duration, exceeds £2 5s. per cent. per annum on the original sums insured, and increases a Policy of £1,000. to £1,638.

Proposals for Insurances may be made at the Chief Office, as above; at the Branch Office, 16, Pall-mall, London; or to any of the Agents throughout the kingdom.

BANK OF DEPOSIT,

3, *PALL-MALL EAST*, LONDON, S.W.

ESTABLISHED A.D. 1844.

PARTIES desirous of INVESTING MONEY are requested to examine the Plan of the BANK OF DEPOSIT, which differs materially from that of ordinary Banks in the mode of investing Capital. Ultimate profit and security being the main objects regarded, the Board of Management principally employ their Funds in Loans upon vested Life Interests and other similar securities, and in the purchase of well-secured Reversions, a class of securities which, although not immediately convertible, it is well known yields the greatest amount of profit, combined with the most perfect safety.

Rate of Interest.

The present rate of Interest is five per cent. per annum, payable half-yearly; and the Board of Management confidently anticipate that a careful and judicious selection from securities of the above description will enable them to continue this rate to the Depositors.

Deposit Accounts.

Money is received daily, between the hours of TEN and FOUR o'clock. Investment Accounts may be opened with capital of any amount, and increased from time to time, at the convenience of Depositors.

A Stock Voucher, signed by two Directors, is given for each sum deposited.

Dividend.

The Dividends are due and payable in *January* and *July* on the amount standing in the name of the Depositor on the 30th of June and 31st of December, and for the convenience of parties residing at a distance, may be received at the Branch Offices, or through Country Bankers.

PETER MORRISON, *Managing Director.*

Prospectuses and Forms for opening Accounts sent free on application.

NEW SYSTEM OF LIFE ASSURANCE.

THE Directors of the NATIONAL ASSURANCE AND INVESTMENT ASSOCIATION invite attention to the New System of Life Assurance exclusively adopted by this Association—viz., that of allowing Interest on all Premiums paid, *instead of the remote and uncertain System of Bonuses usually adopted.*

By this plan, the Policy-holder will secure to himself a constantly increasing annual income during life, as well as the payment of the sum assured to his representatives at his death.

Tables of Rates specially adapted to this System of Assurance may be obtained at the Office of the Company, 3, Pall Mall East or forwarded free, on application.

CAMBRIDGE, *April*, 1857.

PROSPECTUS of a Series of **Manuals for Theological Students** now in course of publication by **MACMILLAN and Co.**, Cambridge.

It is now about four years since the Prospectus of this Series was first issued. Four volumes have now been published, and several others are in an advanced state. The reception which the volumes already published have met with has fully justified the anticipation with which the publishers commenced the Series, and warrants them in the belief, that their aim of supplying books "concise, comprehensive, and accurate," convenient for the professional Student and interesting to the general reader," has been not unsuccessfully fulfilled.

The following paragraphs appeared in the original Prospectus, and may be here conveniently reproduced:—

"The Authors being Clergymen of the English Church, and the Series being designed primarily for the use of Candidates for office in her Ministry, the books will seek to be in accordance with her spirit and principles; and therefore (*because* the spirit and principles of the English Church teach charity and truth) in treating of the opinions and principles of other communions, every effort will be made to avoid acrimony or misrepresentation.

"It will be the aim of the writers throughout the Series to avoid all dogmatic expression of doubtful or individual opinions."

THE FOLLOWING ARE NOW READY.

- I. A General View of the History of the Canon** of the NEW TESTAMENT during the First Four Centuries. By BROOKE FOSS WESTCOTT, M.A., Assistant Master of Harrow School, formerly Fellow of Trinity College, Cambridge. Crown 8vo. Cloth, 12s. 6d

EXTENSION
OF THE
University Life Assurance Society,
(ESTABLISHED 1825.)

INCORPORATED BY ROYAL CHARTER.

CAPITAL 600,000.

THE superior advantages derived from Assurances on the Lives of the Educated Classes having been confirmed by the experience of more than a Quarter of a Century, the Society petitioned Her Majesty for an Extension of their Powers under the original Charter of Incorporation, and Her Majesty was graciously pleased to grant them a SUPPLEMENTARY CHARTER, empowering them to "effect Assurances and grant Annuities on the Lives and Survivorships of all persons who at the time of effecting such Assurances shall be, or shall have been, Members of *any University of the United Kingdom of Great Britain and Ireland, or of any College, Hall, or other similar Institution for the purpose of Education* in the said United Kingdom,"—IN ADDITION to effecting Assurances on the lives of all persons whose names are, or have been, on the Books or Boards of any College or Hall, at OXFORD or CAMBRIDGE.

Assurances may be effected on the lives of such persons against the lives of any persons whatsoever.

NINE-TENTHS OF THE PROFITS ARE APPROPRIATED TO THE ASSURED, either by a proportionate diminution of Premium, by Addition to the amount of the Policy, or by a present payment of the value in money, at the option of the party. It will thus be observed, that this Society is based on *a better principle than that of a Society proceeding on Mutual*

PROSPECTUS.

Assurance only, as there is a *guaranteed capital* for the Assured without *any* liability on their part, besides a division of **NEARLY ALL THE PROFITS**.

A Division of **PROFITS** is made **every five years**.

As some persons may be desirous of effecting a larger Assurance than their present income will permit, this Society will, if required, increase the amount of any new Assurance, for the whole period of life, 25 per cent., without adding to the amount of the Annual Premium immediately payable on the lesser sum, provided the Premium on such Extra Assurance, with compound interest at 4 per cent., be agreed to be repaid out of the proceeds of the Policy when it becomes a claim, or at any time previous, that may be convenient to the person Assured.

EXAMPLE.—A person, age 30, can assure his Life for £1000 by paying an Annual Premium of £20 6s. (being the Premium for £800 only), leaving the Premium on £200 to be paid, with interest, at some future time, or when the Policy becomes a claim.

In all cases in which the answers of the Referees and those to other inquiries instituted by the Society are perfectly satisfactory, personal appearance is dispensed with.

The Society will be always ready to purchase from the party in possession any unexpired Policy, or the Additions thereon.

The Society will also advance on Loan, at Interest, to the extent of nine-tenths of the actual *present value* of Policies effected in their own Office, and of *such other* Policies as they may deem it *expedient* to accept as security. Also to the extent of *one-half* the amount of an Assurance in this Office, on approved personal security of the borrower and two other persons.

SUSPENSION OF THE PAYMENT OF PREMIUMS.

1. A person having assured his life for the whole period of its continuance, and having paid 5 Annual Premiums, may suspend the payment of **HALF** the Premium during 10 years,

PROSPECTUS.

on agreeing to pay the Premiums so suspended, with compound interest at 4 per cent.

2. A person having assured his life for the whole period of its continuance, and having paid 10 Annual Premiums, may suspend the payment of the WHOLE of the Premiums for 10 years, on agreeing to pay the Premiums so suspended, with compound interest at 4 per cent.

From the institution of this Society to the present time no Claim has been disputed, while on more than one occasion, under peculiar circumstances, sums have been paid for which there was, under the terms of the Policy, no legal claim.

. On the 20th of June, 1855, the SIXTH QUINQUENNIAL Division of PROFIT was declared. The Addition made for the preceding 5 years was $8\frac{3}{4}$ per cent. on the amount of the Policy, making, with former Additions, $56\frac{1}{4}$ per cent. on all Policies effected before June 1, 1826; and on each Quinquennial Division a considerable Bonus was allotted to the Shares, being for the 5 years preceding 1855, £1. 8s. per Share.

The Reversionary Bonus, declared in 1855, amounting to £128,377, with former Reversionary Bonuses, made a total exceeding £550,000 of Additions to Policies granted out of the Profits of the Society, which Profits, on the five former Quinquennial Divisions, amounted together to £260,000, and on the present occasion to £80,000.

This Society does not allow any Commission to Agents and Solicitors on each annual payment, which is the practice in many other Offices, from whose Divisible Profits such yearly payments constitute a very considerable deduction; but this Society relies on its liberal mode of doing business, and the advantages it offers for its recommendation to the public.

PROSPECTUS

AMOUNT OF CAPITAL originally subscribed £600,000,	
on which has been paid up	£30,000
AMOUNT ACCUMULATED FROM PREMIUMS	720,000
ANNUAL INCOME	76,000
AMOUNT OF POLICIES IN EXISTENCE	1,550,000

By which it is seen, that this Society possesses ample means in proportion to its liabilities.

The Fee to the Medical Referee is in each case paid by the Society.

No charge for Policy Stamps.

Persons assured in this Office for the whole period of life may go by sea, during peace, without obtaining a Licence or paying an extra Premium, from any part of Europe to any other part of Europe.

Rather more than *five-sixths* of the Assured in this Office are Clergymen.

Proposals for Assurances to be addressed to the SECRETARY, or to JOHN WRAY, Esq. Chairman of the Committee, 24, Suffolk Street, Pall Mall East, London; to the CORRESPONDING DIRECTORS at *Oxford* or *Cambridge*; or to the CORRESPONDENTS at *Dublin* or *Durham*; from whom Forms of Proposal and Prospectuses may be obtained.

University Life Assurance Society.

TERMS AND CONDITIONS.

PERSONS wishing to effect an ASSURANCE must state the Name, Residence, and Profession of the Party on whose behalf the ASSURANCE is proposed, and of the Party whose life is proposed to be Assured; the College at which the latter Party has been entered; the place and date of birth; the age next birth-day; whether married or single; whether he has resided abroad; and if so, where and for what period; whether he has been employed in the military or naval service; whether he has had the small-pox, the cow-pox, or the gout; whether he has been, since his childhood, afflicted with rupture, fits, insanity, dropsy, asthma, or spitting of blood; whether, during the last seven years, he has been afflicted with any severe or constitutional disease or disorder; the sum proposed to be Assured; and the term for which the ASSURANCE is required.

Reference must also be given to two respectable persons (not being near relations of the party) for information as to his present and general state of health, one of whom must be (if possible) the medical person who has usually attended him.

A declaration as to all the points contained in the above statement will form the basis of the contract between the ASSURED and the SOCIETY; and should any untrue allegation be contained in such declaration, the Policy will become void, and all payments of premium made thereon will be forfeited.

The DIRECTORS have the power of fixing the premium in every case where any extra risk may attend the life to be Assured.

Policies will not be considered to be in force beyond 30 days after the expiration of the year, unless the premium then due shall have been paid to the SOCIETY. But it shall be lawful for the COURT OF DIRECTORS to revive and restore Policies on such Terms and Conditions, and at such period or periods, in all respects as the DIRECTORS at any Court shall think fit.

TERMS AND CONDITIONS.

Policies will become void if the parties whose lives have been Assured shall go beyond the limits of Europe, or shall die at sea; or, being or becoming military or naval men, shall be called into actual service; unless, in each case, permission shall have been granted by the DIRECTORS, which may be obtained on such parties attending personally, to give every requisite explanation, and paying a premium adequate to the extra risk, to be settled by the DIRECTORS: but all persons Assured for *a limited term of years* may pass direct from any part of the United Kingdom to another, or from any part of the United Kingdom, in time of peace, to and from any part of the Continent situate between the Elbe and Brest, in steam or other decked vessels; and all persons whose lives are Assured for *the whole period of life* (not being seafaring persons by occupation) may go by sea, during peace, without obtaining a licence from the COURT OF DIRECTORS, and without paying any additional premium, from any part of Europe to any other part of Europe, in steam or other decked vessels; and their respective Policies will not be forfeited in case of their dying on the seas under such circumstances.

ASSURANCES made by persons on their own lives will become void if they die at any time by their own act, whether in a state of lunacy or otherwise; or by duelling, within a twelvemonth after the ASSURANCE is effected; or by the hands of justice; *but shall remain in force so far as regards any other person or persons who shall then have acquired a bona fide interest therein, by assignment for a valuable consideration; the extent of such interest to be proved to the satisfaction of the Directors.* But if any person who has effected an ASSURANCE on his own life shall die by his own hands, and not be *felo-de-se*, the DIRECTORS shall, if they think proper to make any payment, be at liberty to pay any sum, according to their discretion, not exceeding what would have been payable in the event of natural death.

Unless the age of the Party Assured be endorsed as admitted on the Policy, it must be proved before payment is made.

The time for payment of claims is within three calendar months, after proof of the death of the parties whose lives are ASSURED.

* * On payment of these Premiums, the receipt of £100 is secured on the dropping of the Life within the time for which the Premium is paid, but not afterwards.

The University Life Assurance Society has adopted the Tables of the *Equitable*, deducting five per cent. on the Premiums payable on all ages up to 47;—this deduction is gradually lessened by equal decrements in each successive year, up to the age of 56. After this period of life, the rates are the same as those of the *Equitable*.

OBSERVATIONS.

STATUTABLE CONGREGATIONS.—One upon the last day of each Term; two on the 10th day of October; one on the 3d, and one on the 4th, of November; two on the day after the second Tripos; two on the 11th of June.

The Divinity, Law, and Physic Schools are open during the whole of every Term, and the keeping of all Acts, except the former, which are confined to every other Thursday, is entirely at the discretion of the respective Professors.

All Festivals, Saints' days, and Sundays, are surplice-days, and the evenings preceding are surplice-evenings; but on May 29, June 20, and November 5, surplices are worn in the morning only.

On Litany days the Doctors and Noblemen wear their robes, and the Proctors their congregation-ruffs.

Commemoration of Benefactors is at St Peter's, Clare, Pembroke, Caius, Queens', Catharine, Jesus, Christ's, and St John's Colleges, the day after the end of each Term, on which occasion there is a feast in the several College-halls.

UNIVERSITY OF CAMBRIDGE.

HINC LUCEM ET POCULA SACRA.

DEUM TIMETO: REGEM HONORATO: VIRTUTEM COLITO:
DISCIPLINIS BONIS OPERAM DATO.

Stat. Acad. Cantab.

THE UNIVERSITY of CAMBRIDGE is a society of students in all and every of the liberal arts and sciences, incorporated (13th Eliz. c. 29,) by the name of "*The Chancellor, Masters, and Scholars of the University of Cambridge.*" This commonwealth is a union of seventeen colleges, or societies, devoted to the study of learning and knowledge, and for the better service of the Church and State. All these colleges¹, have been founded since the beginning of the reign of King Edward I.² and are maintained by the endowments of their several founders and benefactors. Each college is a body corporate, bound by its own statutes; but is likewise controlled by the paramount laws of the University. The present University Statutes were given by Queen Elizabeth in the 12th year of her reign. They are the foundation upon which all new laws are framed.

Each of the seventeen colleges, or departments, in this literary republic, furnishes members both for the executive and legislative branch of its government. The place of Assembly is the Senate-House.

All persons who are Masters³ of Arts, or Doctors in one or other of the three faculties, *viz.* Divinity, the Civil Law, or Physic,

¹ Colleges and Halls are synonymous here, though not so at Oxford. Thus Clare College is called "*Collegium sive Domus, sive Aula de Clare.*" ² Henry III. and to be found among the records in the Tower. ³ Those Bachelors in Divinity who are Members of the Senate, deduce their privilege from having previously taken the degree of M. A.

⁴ The first authentic charter is said to be dated

having their names upon the College-boards a sufficient time, have votes in this assembly. Those who erase their names from their respective College-boards, lose the privilege of Members of the Senate, unless they *re-enter* their names, and reside the greater part of *three* several Terms.

The SENATE is divided into two Houses, denominated the Regents' and Non-Regents' House, with a view to particular duties allotted to the members of the Regents' House, by the Statutes of the University.

Masters of Arts of less than five years' standing, and Doctors of less than two, compose the Regent or Upper House, or, White-Hood House, from its members wearing their hoods lined with white silk. All the rest constitute the Non-Regent or lower house, otherwise called the Black-Hood House, from its members wearing black silk hoods. But Doctors of more than two years' standing, and the Public Orator of the University, may vote in either House, according to their pleasure.

Besides the two Houses, there is a council called the Council of the Senate, by which every University Grace must be approved before it can be introduced to the Senate.

The COUNCIL consists of the Chancellor, the Vice-Chancellor, four heads of Colleges, four Professors of the University, and eight other Members of the Senate, chosen from the Electoral Roll, published by the Vice-Chancellor. Two of the heads of Colleges, two of the Professors, and four other Members of the Senate are elected by the Persons, whose names are on the Electoral Roll, on the seventh of November in every other year, and they all hold office for four years.

A few days before the beginning of each Term, the Vice-Chancellor publishes a list of the several days on which a Congregation or assembly of the Senate will be held for transacting University business; these fixed days occur once a fortnight; but in case of emergency, the Vice-Chancellor summons a Congregation for the dispatch of extraordinary affairs. There are also Statutable Congregations, or days of assembling, enjoined by the Statutes, for the ordinary routine of University affairs, such as conferring degrees, electing officers, &c. for which no notice is required. A Congregation may also be held without three days' previous notice, provided at least *forty* Members of the Senate be present at its *first* assembling, and twenty-five at the second.

An assembly of the Senate held out of Term-time is called a Convocation: in such a case a Grace is immediately passed to convert the Convocation into a Congregation, after which the business proceeds in the ordinary manner.

No degree is ever conferred without a Grace for that purpose. After the Grace has passed, the Vice-Chancellor is at liberty to confer the degree. The Grace in this instance is termed a Supplicat. Every degree must have been allowed, or passed, by the College to which the Candidate belongs. It is signed by the Præ-

lector of the college to which the Candidate belongs, and the subscriber is made responsible for the assertion it contains. The penalty for subscribing a false Supplicat, is, "*ipso facto*," two years' deprivation of the privilege of voting in the Senate, or holding any public office in the University. *Lib. Stat.* p. 234.

For every degree there is a proper form.

The executive branch of the University is committed to the following officers:—

A CHANCELLOR, who is the head of the whole University, and presides over all cases relating to that body. In him is placed the sole executive authority within the precincts, except in matters of mayhem and felony.

A HIGH STEWARD, who has special power to take the trial of scholars impeached of felony within the limits¹ of the University, and to hold and keep a leet according to the established charter and custom. He appoints a Deputy.

A VICE-CHANCELLOR, who is elected annually on the 4th of November, by the Senate. His office, in the absence of the Chancellor, embraces the execution of the Chancellor's powers, and the government of the University according to her Statutes. He must, by Statute 19 and 20 Vict. c. 88, be the Head of some college; and during his continuance in office he acts as a magistrate for the University, Town and County.

A COMMISSARY, who is an officer under the Chancellor, and appointed by him. He holds a court of record for all privileged persons and scholars under the degree of M.A.

A PUBLIC ORATOR, who is the voice of the Senate upon all public occasions. He writes, reads, and records the letters to and from the body of the Senate, and presents to all honorary degrees with an appropriate speech.

The ASSESSOR is an officer specially appointed, by Grace of the Senate, to assist the Vice-Chancellor in his court, *in causis forensibus et domesticis*.

TWO PROCTORS, who are peace-officers, elected annually. It is their especial duty to attend to the discipline and behaviour of all persons in *statu pupillari*, to search houses of *ill* fame. Another part of their duty is to be present at all Congregations of the Senate, to read the Graces in the Regent-House, to take secretly the assent or dissent, and openly to pronounce the same. They must be Masters of Arts of two years' standing at the least; and, of whatever standing in the University, are Regents, by virtue of their office. They determine the seniority of all Masters of Arts at the annual Commencement.

A LIBRARIAN, to whom the regulation and management of the University Library is confided.

¹ The jurisdiction of the University is a mile every way round, reckoning from any part of the suburbs.

A REGISTRARY, who is obliged, either by himself, or by deputy properly authorized, to attend all Congregations, to give directions (if it be required) for the due form of such Graces as are to be propounded, to receive them when passed in both Houses, and to register them in the University records.

TWO SCRUTATORS, who are Non-Regents, and whose duty it is to attend all Congregations, to read the Graces in the Lower House, to gather the votes secretly, or to take them openly in scrutiny, and publicly to pronounce the assent or dissent of that House.

TWO MODERATORS, nominated by the Proctors, and appointed by a Grace of the Senate. They act as the Proctors' substitutes in the Philosophical Schools, superintending the exercises and disputations in philosophy, and the examinations for the degree of Bachelor of Arts. They are also generally appointed Deputies in the absence of the Proctors.

TWO PRO-PROCTORS, who are appointed, in consequence of the increasing magnitude of the University, to assist the Proctors in that part of their duty which relates to the discipline and behaviour of those persons who are in *statu pupillari*, and the preservation of public morals; but in the other parts of the Proctor's office they have not any concern, or control.

THREE ESQUIRE BEDELLS, whose office is to attend the Vice-Chancellor, whom they precede with their silver maces upon all public occasions and solemnities; to attend the Doctors present in the Regent House, by bringing them to open scrutiny, there to deliver their suffrages either by word or writing, according to the order of the Statutes; to receive from the Vice-Chancellor the Graces delivered unto them, and to deliver them first to the Scrutators in the Lower House, and from thence, if they be granted, to carry them to the Proctors in the Upper House; to attend the Professors and Respondents in the three faculties from their colleges to the Schools, and during the continuance of the several acts; to collect fines and penalties from all members of the University; and to summon to the Chancellor's Court all members of the Senate.

The UNIVERSITY MARSHAL is appointed by Letters Patent under the hand and seal of the Vice-Chancellor.

The TWO MEMBERS, whom the University sends to the Imperial Parliament of the United Kingdom of Great Britain and Ireland, are chosen by the collective body of the Senate.

The UNIVERSITY COUNSEL are appointed by Grace of the Senate, and are consulted upon various occasions.

The SOLICITOR is appointed by the Vice-Chancellor.

SYNDICS are the members of special committees of members of the Senate, appointed by Grace from time to time for specific

duties, such as the framing of laws, regulating fees, inspecting the library, building, printing, &c.

The PROFESSORS are paid from various sources: many of them have ancient stipends which were considerable at the period at which they were fixed, but which have become inadequate from the diminished value of money; to some professorships foundation estates are attached, and to the Regius and Lady Margaret's professorships of Divinity the impropriate rectories of Somersham and Terrington: others are paid by stipends from the Privy Purse, or by Government, one of them receiving £400, another £200, and others £100 per annum.

The ANNUAL INCOME of the University arises from various sources, of which the following are the principal:

The Rectory of Burwell and a farm at Barton, producing about £1000 per annum.

The produce of fees at matriculation, for degrees, cautions for certain academical exercises for degrees, and other irregular sources of income not easily enumerated, the gross amount of which is very variable, but does not average more than £2000 per annum.

The trading profits of the PITT [University] PRESS, which have as yet seldom been very considerable.

In the statement of the ordinary income and expenditure of the University, no account has been taken of the amount of fees paid to the Bedells, Proctors, Moderators, Pro-proctors, their servants, the Registry, amounting to about £2400 per annum, by which these officers are entirely paid: nor of the Library-tax (of 6s. per annum upon every member of the University), which is appropriated entirely to the purchase of books for the Public Library: nor of various *trust* funds, appropriated to specific objects, over the distribution of which the University possesses no control.

The whole of the funds of the University are managed by the Vice-Chancellor, or by specific Trustees, and the accounts are examined annually by three Auditors, who are appointed annually by the Senate.

The STATUTES of the University were printed in 1785, and a copy of them may be found in the Public Library, in the Library of every College, and in the Senate-House; the Vice-Chancellor and the two Proctors for the time being have also each one copy.

GRACES of the Senate possess generally the force of Statutes; but no Grace of the Senate is valid which is inconsistent with the Statutes of the 12th of Elizabeth, and certain nearly contemporary interpretations of them, or with King's Letters which have been accepted and acted upon by the University.

The TERMS of this University are three, and are fixed by inviolable rules. Michaelmas, or October, Term begins on the tenth of October, and ends on the 16th of December. Lent, or January

Term begins on the 13th of January, and ends on the Friday before Palm Sunday. Easter, or Midsummer, Term begins on the eleventh day (the Wednesday se'nnight) after Easter-day, and ends on the Friday after Commencement-day. Commencement-day is always the First Tuesday in July.

If any member of the Senate change his College, twenty-four hours *only* are allowed for that purpose: if he exceed that time he must again keep three terms, before he can be reinstated as a member, or qualified to vote.

The respective Orders in the several Colleges are as follow :

1. A HEAD of a College or House, who is generally a Doctor in Divinity; excepting of Trinity-Hall, Caius College, and Downing College, where they may be Doctors in the Civil Law or Physic. The Head of King's is styled Provost; of Queens', President; of all the rest, Master.

2. FELLOWS, who generally are Doctors in Divinity, the Civil Law, or Physic; Bachelors in Divinity; Masters or Bachelors of Arts; some few Bachelors in the Civil Law or Physic, as at Trinity-Hall and Caius College. The number of Fellowships in the University is 430.

3. NOBLEMEN GRADUATES, DOCTORS in the several faculties, BACHELORS IN DIVINITY (who have been Masters of Arts), and MASTERS OF ARTS, who are not on the foundation, but whose names are kept on the boards for the purpose of being members of the Senate. The expense of keeping the name upon the boards varies in different Colleges from about £2 to about £4 per annum.

4. TEN-YEAR MEN; these are allowed to take the degree of Bachelor in Divinity without having been B.A. or M.A., by the 9th chapter of statutes of the 12th of Queen Elizabeth, which permits persons, who are admitted at any college when 24 years of age and upwards, to take the degree of Bachelor in Divinity after their names have remained on the boards *ten* years or more. After the first eight years, they must reside in the University the greater part of three several terms, and perform the exercises which are required by the statutes.

5. BACHELORS in the CIVIL LAW and PHYSIC, who sometimes keep their names upon the boards till they become Doctors. They wear the habit, and enjoy all the ordinary privileges of Masters of Arts, except that of voting in the Senate.

6. BACHELORS OF ARTS, who are in *statu pupillari*, and pay for tuition whether resident or not, and generally keep their names on the boards, either to shew their desire to offer themselves candidates for Fellowships, or to become members of the Senate. If they erase their names, they save the expense of tuition and College *detrimenta*; and may nevertheless take the degree of M.A. at the usual period, by putting their names on the College boards a few days previous to incepting: but under such circumstances they

cannot become members of the Senate, unless they reside again during the greater part of three several terms.

7. **FELLOW-COMMONERS**, who are generally the younger sons of the nobility, or young men of fortune, and have the privilege of dining at the Fellows' table, from whence the appellation originated.

8. **SCHOLARS**, who are generally foundation members of their respective Colleges, and who enjoy various advantages; in some cases they have their commons paid for, their chambers rent-free, and various weekly or other allowances: in other cases they have specific stipends only, in conformity with the conditions of their foundation. They are for the most part elected, by direct examination or otherwise, at different periods subsequent to the commencement of their residence at the University, from the most promising and distinguished of the Students.

9. **PENSIONERS**, who form the great body of the Students, who pay for their commons, chambers, &c., and enjoy generally no pecuniary advantages from their respective colleges.

10. **SIZARS** are generally Students of limited means. They usually have their commons free, and receive various emoluments.

THE METHOD OF PROCEEDING IN ARTS.

IN order to take the degree of Bachelor of Arts at the regular time, the person must be admitted of some College before the end of the Easter Term of the year in which he purposes to come into residence. The mode of admission is, either by a personal examination before the Tutor and some of the College officers, or, which is more usual, by sending to the Tutor a recommendatory certificate, signed by some Master of Arts of this University, stating the name, age, qualifications, &c. &c. of the candidate, and transmitting with it the caution-money¹. If this certificate be considered satisfactory, the admission takes place, and the person's name is immediately placed on the boards which are suspended in the butteries of the several Colleges. The person thus admitted usually comes into residence about the 20th of October following, and then commences his Academical Course².

The Matriculation in the University, or enrolment of the Students' names in the University Books, is done on the day after the division of the Term. At this time also the fees to the University are paid to the Registrary; he presents to each Student a Book of Extracts from the Statutes, containing such directions as relates to his duty.

Besides a constant attendance on lectures, the Undergraduates are examined in their respective Colleges yearly, or half-yearly, in those subjects which have engaged their studies; and, according to the manner in which they acquit themselves in these examinations, their names are arranged in classes, and those who obtain the honour of the first places receive prizes of different value.

By this course the Students are prepared for those *public* Examinations which the University requires candidates for the degree to pass. The first, viz. the Previous Examination, takes place in the Lent and October Terms, according to the following plan, confirmed by Grace of the Senate.

1 See p. 48.

2 For Matriculation Fees, see p. 48.

PREVIOUS EXAMINATION.

REGULATIONS adopted by Grace of the Senate, March 23, 1849, and February 5, 1855.

1. THAT the subjects of the Examination shall be one of the four Gospels in the original Greek, Paley's Evidences of Christianity, one of the Greek and one of the Latin Classics, the Elements of Euclid, Books I. II. and III., and Arithmetic.
2. That the appointment of the particular Gospel, and in regard to the Classical subjects, the appointment both of the authors and of the portions of their works which it may be expedient to select, shall rest with the Vice-Chancellor for the time being, the three Regii Professors of Divinity, the Civil Law, and Physic, the Regius Professor of Greek, and the Public Orator (provided that not more than two of them are members of the same College); upon this clear understanding, that in the exercise of the powers thus to be vested in them, they shall so limit the Examination, that every one who is to be examined may be reasonably expected to shew a competent knowledge of all the subjects.
3. That in case three or more of those to whom the appointment of the subjects of Examination has been assigned shall belong to the same college, deputies for any number exceeding two shall be appointed, every year, by a Grace of the Senate.
4. That public notice of these subjects of Examination in each year shall be issued in the first week of the Lent Term of the year preceding.
5. That the Examination in the Evidences of Christianity, Euclid, and Arithmetic, shall be conducted entirely by printed papers.
6. That, in regard to the Greek Testament and the Classical Subjects, every person, when examined, shall be required (1) to translate some portion of each subject, (2) to construe and explain passages of the same, and (3) to answer both in writing and *viva voce*, such plain questions in Grammar, Geography, and History, particularly the Old Testament History, as may arise immediately out of the Subjects.
7. That previously to the commencement of the Examination, the Examiners shall prepare an alphabetical list of all the persons to be examined, and divide them into six portions as nearly equal as possible: and that they shall send a copy of such list to the Prælector of each College, notifying the days and hours when each of the persons to be examined belonging to that College shall be required to attend the Examination.
8. That the Examination shall begin on the Monday in the week before the end of the Lent Term in each year.
9. That the days of Examination shall be Monday, Tuesday, Wednesday, Friday and Saturday, in the first week; and Monday, Tuesday, Wednesday, and Thursday, in the following week; and the hours of Examination each day from 9 till 12 in the morning, and from 1 till 4 in the afternoon.
10. That on the first day the subject of Examination shall be the Evidences of Christianity, and on the second day Arithmetic; the students whose names are in the first three divisions being examined in the morning, and those whose names are in the last three divisions in the afternoon of each day: and on the third day the subject of Examination shall be Euclid, the

Students who are Candidates for Honors being examined in the morning, and those who are not Candidates for Honors in the afternoon.

11. That during the last six days each of the six divisions shall be examined for one day in the remaining subjects, *viz.* in the Greek and Latin subjects, and in the Greek Testament; the students under Examination being employed in translating the passages proposed, and in answering questions, and each student being called upon in turn during the time of Examination to construe and explain passages of the appointed subjects.

12. That the Examination of each person in the Greek and Latin subjects and in the Greek Testament shall be concluded in one day, and that the result of the whole Examination with regard to him shall be notified to the Praelector of his College as soon as conveniently may be after the end of the Examination of all the Six Divisions.

13. That every Undergraduate shall be required to attend the Examination in the Lent Term of the year next but one after that in which he has kept his first term.

14. That in case any person who has been a resident member of either of the Universities of Oxford or Dublin shall become a resident member of this University before the time at which he would have been required, had he been originally of this University, to attend the Previous Examination, such person be required to attend that Previous Examination which he would have been called upon to attend if he had come to reside in this University at the time he actually did commence his residence at Oxford or Dublin.

15. That in case any person who has been a resident member of either of the Universities of Oxford or Dublin shall become a resident member of this University after the time at which he would have been required, had he been originally of this University, to attend the Previous Examination, such person be required to attend that Previous Examination which shall take place next after his becoming a resident member of this University.

16. That two Classes (each of them arranged alphabetically) shall be formed¹ out of those examined—the first consisting of those who have passed their examination with credit—and the second, of those to whom the Examiners have only not refused their certificate of approval.

17. That in case any one shall be prevented by illness, or any other sufficient cause, from attending the proper Examination of his year, a certificate of such illness or other cause shall be submitted by the Tutor of his College to the Vice-Chancellor and Proctors for the time being, for their approbation in writing.

18. That if any one shall absent himself from the proper Examination of his year, without the written approval of the Vice-Chancellor and Proctors, he shall not be allowed the Lent Term of that year.

19. That there shall be a second Examination commencing on the second Monday in the Michaelmas Term of each year, for those who have been absent with the approval of the Vice-Chancellor and Proctors from the preceding Lent Examination, and for those who have not been approved by the Examiners at that Examination; and that such Second Examination shall be in the same subjects as those of the preceding Lent Examination, shall be conducted by the same Examiners, and in a manner similar to that described in the preceding Regulations.

¹ See the subsequent Regulations respecting the Additional Examination of Candidates for Honors, Regulation 5.

10 ADDITIONAL EXAMINATION FOR HONORS.

20. That those who shall not have been approved at either the Lent or October Examination of their year, or who shall have been absent from both those Examinations, shall be required to attend the Lent Examination of the following year, subject to the same conditions as before; and that no degree of B.A., M.B., or LL.B., shall be granted, unless a certificate be presented to the Caput shewing that the candidate for such degree has passed, to the satisfaction of the Examiners, some one of these Examinations.

21. That in every year, at the first Congregation after the 10th day of October, the Senate shall elect six Examiners, (who shall be members of the Senate, and nominated by the several Colleges according to the cycle of Proctors, Taxors, and Scrutators) to conduct the Lent and October Examinations of the succeeding year, provided that no one of such examiners shall also hold the office of Pro-Proctor at the time of the Lent Examination.

22. That the Pro-Proctors and four, at least, of the Examiners shall attend each portion of the Examination during the first three days; and that all the six Examiners shall attend each portion during the last six days.

23. That each of the Examiners shall receive £20 from the University Chest.

24. That the four Pro-Proctors' men shall be in attendance upon the Examiners during each of the first three days; and two of the Proctors' men during each of the last six days of Examination.

25. That the foregoing Regulations shall not interfere with the composition between the University and King's College.

REGULATIONS *for the* ADDITIONAL EXAMINATION, *of Candidates for Honors, adopted by Grace of the Senate, February 5, 1855.*

1. THAT there shall be Additional Subjects of Examination in Mathematics for those Students, who intend to be Candidates for Honors in Mathematics, or Classics, or Law; and that no Student shall be admitted to Examination as a Candidate for such Honors, who has not passed an Examination in the said Additional Subjects to the satisfaction of the Examiners.

2. That the said Additional Subjects shall be the Elements of Euclid, Books iv. and vi; the following elementary parts of Algebra, *viz.* addition, subtraction, multiplication, and division of simple algebraical quantities, and simple algebraical fractions, the elementary rules of ratio and proportion, easy equations of a degree not higher than the second, involving one or two unknown quantities, and questions producing such equations; and Elementary Mechanics treated so as not to require a knowledge of Trigonometry, *viz.* the composition and resolution of forces acting in one plane on a point, the mechanical powers, and the properties of the center of gravity.

3. That the Examination in the Additional Subjects shall be conducted by printed papers, containing questions in Algebra, propositions in Euclid and in Mechanics, and such questions and applications as arise directly out of the said propositions.

4. That the Examination in the Additional Subjects shall be held as follows: viz. in Euclid on the third day of the Previous Examination from 9 till 12; in Algebra on the Thursday following the commencement of the Previous Examination from 9 till 12, and in Mechanics on the same day from 1 till 4.

5. That the names of those Students who have passed the Previous Examination, together with the Examination in the Additional Subjects, to the satisfaction of the Examiners, shall be placed alphabetically in a first class, the two classes named in Regulation 16 being called the Second and Third Classes respectively.

6. That there shall be a Second Examination in the Additional Subjects every year at the time of the Second Previous Examination in the Michaelmas Term, and that such Examination shall be open only to those Students who have been absent, with the approval of the Vice-Chancellor and Proctors, from the preceding Lent Examination, or who were not approved in the Additional Subjects by the Examiners at that Examination.

7. That those Students who, at the time of passing the Previous Examination, did not present themselves for Examination in the Additional Subjects, shall be allowed to present themselves for such Examination in the Lent Term of the succeeding year, it being provided that they be then examined in the first three Books of Euclid, as well as in the fourth and six Books; and that the names of the persons who so pass the Examination to the satisfaction of the Examiners shall be placed alphabetically in a distinct class.

8. That before the commencement of the Previous Examination in every year the names of all Students, who intend to present themselves for Examination in the Additional Subjects, shall be sent by the Prælectors of the several Colleges to the Examiners.

9. That in every year, at the first Congregation after October 10, the Senate shall elect two Additional Examiners (members of the Senate and nominated by the Colleges which nominated the Scrutators in the preceding year,) to conduct the Lent and October Examinations in the Additional Subjects of the succeeding year, and to assist in conducting the general Previous Examinations of that year also, provided that neither of such Examiners shall also hold the office of Pro-Proctor at the time of the Lent Examination.

10. That each of the Additional Examiners shall receive £20 from the University Chest.

11. That the Pro-Proctors, with their men, and four at least of the Examiners shall attend the Examination in the Additional Subjects.

BOARD OF MATHEMATICAL STUDIES,

ESTABLISHED BY GRACE, OCT. 31, 1848.

WITH a view to encourage attendance at the Lectures of the Mathematical Professors, and to secure a correspondence between those Lectures and the Mathematical Examinations of the University; and also as a means of communicating to the Students themselves, from a body of experienced Examiners and Lecturers, correct views of the nature and objects of the Mathematical

Examinations: The *Lucasian Professor of Mathematics*, the *Plumian Professor of Astronomy*, the *Lowndean Professor of Geometry and Astronomy*, and the *Jacksonian Professor of Natural and Experimental Philosophy*, together with the *Moderators and Examiners for Mathematical Honors* for the time being, as well as those of the two years immediately preceding, are constituted a *Board of Mathematical Studies*: whose duty it is to consult together from time to time on all matters relating to the actual state of Mathematical Studies and Examinations in the University; and to prepare annually and lay before the Vice-Chancellor a Report, to be by him published to the University in the Lent or Easter Term of each year.

BOARD OF CLASSICAL STUDIES.

ESTABLISHED BY GRACE, MAY 3, and MAY 17, 1854.

THAT there should be a Board of Classical Studies consisting of the Regius Professor of Greek, the Public Orator, the Professor of the Latin language and literature (if such Professorship be established), together with the Examiners for the Classical Tripos in the current and two preceding years.

That it shall be the duty of the Board of Classical Studies to consult together, from time to time, on all matters relating to the actual state of the Classical Studies and Examinations in the University, meeting for that purpose at least once in every year, and to prepare, whenever it appears to them desirable, and lay before the Vice-Chancellor a Report to be by him published to the University.

EXAMINATION FOR THE DEGREE OF BACHELOR OF ARTS.

THE Candidate for the degree of Bachelor of Arts must be in the tenth Term of his residence; the Term in which he entered and that in which he takes the degree are reckoned to him among the *twelve* required to be kept, by the Statutes.

This Examination extends over *twenty-two* days. The Moderators form the Questionists (this being the appellation of the Students during the last six weeks of preparation) into two alphabetical lists, of Candidates for Honors, and Questionists not Candidates for Honors, and these lists are published previously to the Examination Day.

On the *Tuesday* succeeding December 30, the Candidates for Honors enter the Senate-House a little before nine o'clock; the other Questionists at the same hour on the morning of the *Tuesday* preceding the first Monday in the Lent Term, preceded by a Master of Arts, who, on this occasion, is styled the Father of the College to which he belongs¹.

The Examination of those who contend for Honors commences on the Tuesday succeeding the 30th of December, according to the following REGULATIONS, confirmed by Grace of the Senate.

¹ All the Questionists are required to pay their fees to the Registry and the Junior Proctor on the Saturday or Monday preceding the first day of the Examination for Honors.

Plan of Examination for Questionists who are Candidates for Honors in Mathematics.

1. THAT Questions and Problems being proposed to the Questionists on eight days, the first three days be assigned to the more elementary, and the last five to the higher parts of Mathematics: that after the first three days, there shall be an interval of eight days; and that on the seventh of these days the Moderators and Examiners shall declare, what persons have so acquitted themselves as to deserve Mathematical Honors¹.

2. That those who are declared to have so acquitted themselves, and no others, be admitted to the Examination in the higher parts of Mathematics; and that after that Examination, the Moderators and Examiners, taking into account the Examination of all the eight days, shall arrange all the Candidates who have been declared to deserve Mathematical Honors into the three classes of Wranglers, Senior Optimes and Junior Optimes, and that these classes be published in the Senate-House at nine o'clock on the Friday morning preceding the general B.A. Admission.

3. That the subjects of the Examination on the first three days shall be those contained in the following Schedule:

Euclid. Books I to VI. Book XI, Props. 1 to XXI. Book XII, Props. 1, II.

Arithmetic and the elementary parts of *Algebra*; namely, the Rules for the Fundamental Operations upon Algebraical Symbols, with their proofs; the solution of simple and quadratic Equations; Arithmetical and Geometrical Progression, Permutations and Combinations, the Binomial Theorem, and the principles of Logarithms.

The elementary parts of *Plane Trigonometry*, so far as to include the solution of triangles.

The elementary parts of *Conic Sections*, treated geometrically, together with the values of the Radius of Curvature, and of the Chords of Curvature passing through the Focus and Center.

The elementary parts of *Statics*, treated without the Differential Calculus; namely, the Composition and Resolution of Forces acting in one plane on a point, the Mechanical Powers, and the properties of the Center of Gravity.

The elementary parts of *Dynamics*, treated without the Differential Calculus; namely, the Doctrine of Uniform and Uniformly Accelerated Motion, of Falling Bodies, Projectiles, Collision, and Cycloidal Oscillations.

The 1st, 2nd, and 3rd Sections of Newton's *Principia*; the Propositions to be proved in Newton's manner.

The elementary parts of *Hydrostatics*, treated without the Differential Calculus; namely, the pressure of non-elastic Fluids, specific Gravities, floating Bodies, the pressure of the Air, and the construction and use of the more simple Instruments and Machines.

The elementary parts of *Optics*; namely, the laws of Reflection and Refraction of Rays at plane and spherical surfaces, not including Aberrations; the Eye; Telescopes.

The elementary parts of *Astronomy*; so far as they are necessary for the explanation of the more simple phenomena, without calculation.

4. In all these subjects, Examples, and Questions arising directly out of the Propositions, shall be introduced into the Examination, in addition to the Propositions themselves.

¹ By Grace of Nov. 2, 1850, the Examination for Honors begins on the Tuesday after the 30th of Dec.: but the Moderators and Examiners make

their declaration of the persons who have been approved for Honors on the Saturday next.

5. The Examination for Mathematical Honors shall be conducted according to the following Schedule.

6. The Moderators and Examiners shall be authorized to declare Candidates, though they have not deserved Mathematical Honors, to have deserved to pass for an Ordinary Degree, so far as the Mathematical part of the Examination for such Degree is concerned; and such persons shall accordingly be excused the Mathematical part of the Examination for an Ordinary Degree, and shall only be required to pass in the other subjects, but such excuse shall be available to such persons only for the Examination then in progress. These do not need a Professor's Certificate.

Students who may have been candidates for Mathematical Honors and failed altogether to obtain the approval of the Moderators and Examiners, are subject to the same requirements with respect to attendance on Professors' Lectures and Examinations as though they had not been Candidates for Mathematical Honors. But it shall not be necessary for such Students to have attended the Professor's Lectures *before their Examination* for the B.A. Degree.

That the names of all such Questionists, Candidates for Honors, as shall in the judgment of the Examiners, have passed their Examination in these subjects with credit, be published, in alphabetical order, by the Proctors, in the Senate-house, upon the day of the Bachelor of Arts' Commencement.

SCHEDULE OF THE ORDER OF DAYS, HOURS, SUBJECTS, AND EXAMINERS AT THE EXAMINATION OF CANDIDATES FOR HONORS.

The first Tuesday here mentioned is the first Tuesday after December 30. The Monday is the second Monday after the commencement of the Examination.			
Days.	Hours.	Subjects.	Examiners.
Tues.	9 to 12	Euclid and Conics.	Jun. Mod. and Sen. Exam.
	1½ to 4	Arith. Alg. and Plane Trig.	Sen. Mod. and Jun. Exam.
Wednes.	9 to 12	Statics and Dynamics.	Sen. Mod. and Jun. Exam.
	1½ to 4	Hydrostatics and Optics.	Jun. Mod. and Sen. Exam.
Thurs.	9 to 12	Newton and Astronomy.	Sen. and Jun. Examiners.
	1 to 4	Probs. in all the prec. Sub.	Sen. and Jun. Moderators.
Mon.	9 to 12	Natural Philosophy.	Sen. Mod. and Sen. Exam.
	1½ to 4	Pure Mathematics.	Jun. Mod. and Jun. Exam.
Tues.	9 to 12	Easy Problems.	Sen. and Jun. Moderators.
	1½ to 4	Natural Philosophy.	Sen. and Jun. Examiners.
Wednes.	9 to 12	Problems.	Senior Moderator.
	1½ to 4	Pure Mathematics.	Sen. and Jun. Examiners.
Thurs.	9 to 12	Problems.	Junior Moderator.
	1½ to 4	Pure Math. and Nat. Phil.	Sen. and Jun. Moderators.
Friday.	9 to 12	Pure Math. and Nat. Phil.	Sen. Mod. and Sen. Exam.
	1½ to 4	Pure Math. and Nat. Phil.	Jun. Mod. and Jun. Exam.

Plan of Examination for Questionists who are Candidates for Honors in Classics.

That in the year 1857 and in every subsequent year the Examination of Candidates for Honors in the Classical Tripos be open to all Students who are of the proper standing to be Candidates for Honors in the Mathematical Tripos of that year: and that all persons who obtain Honors in the Classical Tripos be entitled to admission to the Degree of Bachelor of Arts.

On two pillars at the entrance of the Senate-House are hung the two Lists of the Questionists, one of the Candidates for Honors, and the other of the πολλοι, and a paper denoting the hours and order of examination.

The Examination of the other Questionists, viz. those who are *not Candidates for Honors*, takes place according to the following Plan, confirmed by Grace of the Senate.

1. THAT the Subjects of Examination shall be the Acts of the Apostles in the original Greek, one of the Greek and one of the Latin Classics, the History of the English Reformation, Euclid, Books i. ii. iii. iv. and Props. 1—6 of Book vi, together with such parts of Algebra, Mechanics, and Hydrostatics, as are prescribed by the Schedule.

2. That the appointment of the Greek and Latin Classics which are to be the Subjects of Examination in any year shall be with the persons who appoint the Classical Subjects for the Previous Examination.

3. That public notice of the Classics so appointed for any year shall be issued in the last week of the Lent Term of the year next but one preceding.

4. That the Examination shall commence on the Tuesday preceding the first Monday in the Lent Term.

5. That on the Saturday previous to the commencement of the Examination the Examiners shall publish the names of the Students to be examined, arranged in alphabetical order, and separated into two divisions.

6. That the distribution of the Subjects and times of Examination shall be according to the annexed Schedule.

7. That the Examination shall be conducted entirely by printed papers.

8. That the papers in the Classical Subjects and in the Acts of the Apostles shall consist of passages to be translated and explained, accompanied with such plain questions in Grammar, History and Geography, as arise immediately out of the Subjects; and that in the Acts of the Apostles the Students shall be required also to illustrate the Subject by reference to the Epistles of the New Testament in the way shewn by Paley in the *Horæ Paulinæ*.

9. That the papers in the Mathematical Subjects shall consist of Propositions in Euclid, and of questions in Algebra and Propositions in Mechanics and Hydrostatics according to the Schedule; and also of such questions, applications, and deductions as arise directly out of the said Propositions.

10. That there shall be a general meeting of the Examiners previous to the Examination, when the papers set by each Examiner shall be submitted to all the Examiners for their approval.

11. That the names of the Students who pass the Examination shall be placed by the Examiners in four classes, viz. a fourth, fifth, sixth, and seventh class, according to merit, the names in each class being arranged alphabetically; and that these classes shall be published in the Senate-House at 2 P.M. on the Friday preceding the general B.A. admission.

12. That no person shall be approved by the Examiners, unless he shew a competent knowledge of all the Subjects of Examination.

13. That there shall be three additional Examinations in every year; the first commencing on the Thursday preceding Ash Wednesday, the second on the Thursday preceding the division of the Easter Term, and the third on the Thursday preceding the division of the Michaelmas Term.

14. That in these additional Examinations the distribution of the Subjects and times of Examination shall be at the discretion of the Examiners, the Subjects being the same as at the Examination in the preceding January.

15. That no person shall be allowed to attend any Examination whose name is not sent by the Prælector of his College to the Examiners before the commencement of the Examination.

16. That in every year at the first Congregation after the tenth day of October the Senate shall elect four Examiners (who shall be members of the Senate and nominated by the several Colleges according to the cycle of Proctors and Taxors) to assist in conducting the Examinations of the three following terms.

17. That of these Examiners the two nominated by the Colleges which appoint the Proctors shall confine themselves to the Classical Subjects, and the two nominated by the Colleges which appoint the Taxors shall confine themselves to the Acts of the Apostles and the History of the English Reformation.

18. That the two Examiners in the Mathematical Subjects at the Examination in January shall be, as hitherto, the Moderators of the year next but one preceding; and that at the other three Examinations the Moderators for the time being shall examine in the Mathematical Subjects.

19. That each of the six Examiners shall receive Twenty Pounds from the University Chest.

20. That the Pro-Proctors and two at least of the Examiners shall attend each portion of the Examination in January.

SCHEDULE OF SUBJECTS AND TIMES OF EXAMINATION.

Days.	Hours.	Subjects.
Tuesday . . . 1st Div. 2nd Div.	9 to 12 12½ to 3½	Euclid. Algebra.
Wednesday . . . 1st Div. 2nd Div.	9 to 12 12½ to 3½	Algebra. Euclid.
Thursday . . . 1st Div. 2nd Div.	9 to 12 12½ to 3½	Mechanics and Hydrostatics. Mechanics and Hydrostatics.
Friday . . . 1st Div. 2nd Div.	9 to 12 12½ to 3½	Latin Subject. Greek Subject.
Saturday . . . 1st Div. 2nd Div.	9 to 12 12½ to 3½	History of the Reformation. Acts of the Apostles.
Second Saturday . 1st Div. 2nd Div.	9 to 12 12½ to 3½	Acts of the Apostles. History of the Reformation.
Monday . . . 1st Div. 2nd Div.	9 to 12 12½ to 3½	Greek Subject. Latin Subject.

SCHEDULE of MATHEMATICAL SUBJECTS of Examination, for
the Degree of B.A. of Persons *not Candidates for Honors*.

ARITHMETIC.

Addition, subtraction, multiplication, division, reduction, rule of three; the same rules in vulgar and decimal fractions: practice, simple and compound interest, discount, extraction of square and cube roots; duodecimals, together with the proofs of the Rules and the reasons for the processes employed.

ALGEBRA.

- Definitions and explanations of algebraical signs and terms.
- Addition, subtraction, multiplication and division of simple algebraical quantities and simple algebraical fractions.
- Algebraical definitions of ratio and proportion.
- If $a : b :: c : d$, then $ad = bc$, and the converse :
also $b : a :: d : c$,
and $a : c :: b : d$,
and $a + b : b :: c + d : d$.
- If $a : b :: c : d$,
and $c : d :: e : f$,
then $a : b :: e : f$.
- If $a : b :: c : d$,
and $b : e :: d : f$,
then $a : e :: c : f$.

7. Geometrical definition of Proportion. (Euc. Book v. Def. 5.)
8. If quantities be proportional according to the algebraical definition, they are proportional according to the geometrical definition.
9. Definition of a quantity *varying as* another, *directly*, or *inversely*, or as two others *jointly*.
10. Easy equations of a degree not higher than the second, involving one or two, unknown quantities, and Questions producing such Equations.

EUCLID.

Book I. II. III.

Book VI. Props 1. 2. 3. 4. 5. 6.

MECHANICS.

Definition of Force, Weight, Quantity of Matter, Density, Measure of Force.

The Lever.

Definition of Lever.

Axioms.

Prop. 1. A horizontal prism or cylinder of uniform density will produce the same effect by its weight as if it were collected at its middle point.

Prop. 2. If two weights acting perpendicularly on a straight lever on opposite sides of the fulcrum balance each other, they are inversely as their distances from the fulcrum; and the pressure on the fulcrum is equal to their sum.

Prop. 3. If two forces acting perpendicularly on a straight lever in opposite directions and on the same side of the fulcrum balance each other, they are inversely as their distances from the fulcrum; and the pressure on the fulcrum is equal to the difference of the forces.

Prop. 4. To explain the kinds of levers.

Prop. 5. If two forces acting perpendicularly at the extremities of the arms of any lever balance each other, they are inversely as the arms.

Prop. 6. If two forces acting at any angles on the arms of any lever balance each other, they are inversely as the perpendiculars drawn from the fulcrum to the directions in which the forces act.

Prop. 7. If two weights balance each other on a straight lever when it is horizontal, they will balance each other in every position of the lever.

Composition and Resolution of Forces.

Definition of Component and Resultant Forces.

Prop. 8. If the adjacent sides of a parallelogram represent the component forces in direction and magnitude, the diagonal will represent the resultant force in direction and magnitude.

Prop. 9. If three forces, represented in magnitude and direction by the sides of a triangle, act on a point, they will keep it at rest.

And also of such Questions and Applications as arise directly out of the aforementioned Propositions.

Mechanical Powers.

Definition of Wheel and Axle.

Prop. 10. There is an equilibrium upon the wheel and axle when the power is to the weight as the radius of the axle to the radius of the wheel.

Definition of Pulley.

Prop. 11. In the single moveable pulley where the strings are parallel, there is an equilibrium when the power is to the weight as 1 to 2.

Prop. 12. In a system in which the same string passes round any number of pulleys, and the parts of it between the pulleys are parallel, there is an equilibrium when power (P) : weight (W) :: 1 : the number of strings at the lower block.

Prop. 13. In a system in which each pulley hangs by a separate string, and the strings are parallel, there is an equilibrium when $P : W :: 1$: that power of 2 whose index is the number of moveable pulleys.

Prop. 14. The weight (W) being on an inclined plane, and the force (P) acting parallel to the plane, there is an equilibrium when $P : W ::$ the height of the plane : its length.

Definition of Velocity.

Prop. 15. Assuming that the arcs which subtend equal angles at the centres of two circles are as the radii of the circles, to shew that if P and W balance each other on the wheel and axle, and the whole be put in motion, $P : W :: W$'s velocity : P 's velocity.

Prop. 16. To shew that if P and W balance each other in the machines described in propositions 11, 12, 13, and 14, and the whole be put in motion, $P : W :: W$'s velocity in the direction of gravity : P 's velocity.

The Centre of Gravity.

Definition of Centre of Gravity.

Prop. 17. If a body balance itself on a line in all positions, the centre of gravity is in that line.

Prop. 18. To find the centre of gravity of two heavy points; and to shew that the pressure at the centre of gravity is equal to the sum of the weights in all positions.

Prop. 19. To find the centre of gravity of any number of heavy points; and to shew that the pressure at the centre of gravity is equal to the sum of the weights in all positions.

Prop. 20. To find the centre of gravity of a straight line.

Prop. 21. To find the centre of gravity of a triangle.

Prop. 22. When a body is placed on a horizontal plane, it will stand or fall, according as the vertical line, drawn from its centre of gravity, falls within or without its base.

Prop. 23. When a body is suspended from a point, it will rest with its centre of gravity in the vertical line passing through the point of suspension.

HYDROSTATICS.

Definitions of Fluid; of elastic and non-elastic Fluids.

Pressure of non-elastic Fluids.

Prop. 1. Fluids press equally in all directions.

Prop. 2. The pressure upon any particle of a fluid of uniform density is proportional to its depth below the surface of the fluid.

Prop. 3. The surface of every fluid at rest is horizontal.

Prop. 4. If a vessel, the bottom of which is horizontal and the sides vertical, be filled with fluid, the pressure upon the bottom will be equal to the weight of the fluid.

Prop. 5. To explain the *hydrostatic paradox*.

Prop. 6. If a body floats on a fluid, it displaces as much of the fluid as is equal in weight to the weight of the body; and it presses downwards and is pressed upwards with a force equal to the weight of the fluid displaced.

Specific Gravities.

Definition of Specific Gravity.

Prop. 7. If M be the magnitude of a body, S its specific gravity, and W its weight, $W = MS$.

Prop. 8. When a body of uniform density floats on a fluid, the part immersed : the whole body :: the specific gravity of the body : the specific gravity of the fluid.

Prop. 9. When a body is immersed in fluid, the weight lost : whole weight of the body :: the specific gravity of the fluid : the specific gravity of the body.

Prop. 10. To describe the *hydrostatic balance*, and to shew how to find the specific gravity of a body by means of it, 1st, when its specific gravity is greater than that of the fluid in which it is weighed ; 2ndly, when it is less.

Prop. 11. To describe the common *hydrometer*, and to shew how to compare the specific gravities of two fluids by means of it.

Elastic Fluids.

Prop. 12. Air has weight.

Prop. 13. The elastic force of air at a given temperature varies as the density.

Prop. 14. The elastic force of air is increased by an increase of temperature.

Prop. 15. To describe the construction of the common *air-pump* and its operation.

Prop. 16. To describe the construction of the *condenser* and its operation.

Prop. 17. To explain the construction of the common *barometer*, and to shew that the mercury is sustained in it by the pressure of the air on the surface of the mercury in the basin.

Prop. 18. The pressure of the atmosphere is accurately measured by the weight of the column of mercury in the barometer.

Prop. 19. To describe the construction of the common *pump* and its operation.

Prop. 20. To describe the construction of the *forcing pump* and its operation.

Prop. 21. To explain the action of the *siphon*.

Prop. 22. To shew how to graduate a common *thermometer*.

Prop. 23. Having given the number of degrees on *Fahrenheit's* thermometer, to find the corresponding number on the *centigrade* thermometer.

REGULATIONS concerning the PROFESSORS' EXAMINATIONS, an additional Condition for the ordinary B.A. Degree appointed by Grace, Oct. 31, 1848.

1. That, at the beginning of each academical year, the Vice-Chancellor shall issue a Programme of the subjects, places, and times, of the several Professors' Lectures for the year then to ensue.

2. That all Students, who, being Candidates for the Degree of B.A.¹, or for the Honorary Degree of M.A., are not Candidates for Honors, shall, in

¹ With reference to the corresponding Examination appointed as a condition for the LL.B. degree, see Proceedings in Law, page 42.

addition to what is now required of them, have attended, before they be admitted to Examination for their respective Degrees, the Lectures delivered during one Term at least, by one or more of the following Professors :

Regius Professor of Laws,	Jacksonian Professor of Natural and
Regius Professor of Physic,	Experimental Philosophy,
Professor of Moral Philosophy,	Downing Professor of the Laws of
Professor of Chemistry,	England,
Professor of Anatomy,	Downing Professor of Medicine,
Professor of Modern History,	Professor of Mineralogy,
Professor of Botany,	Professor of Political Economy ;
Woodwardian Professor of Geology,	

and shall have obtained a Certificate of having passed an Examination satisfactory to one of the Professors whose Lectures they have chosen to attend.

The Professors by whom these certificates are to be given, wish to make known to those Members of the University whom it may concern, the subjects of the Examinations on which the certificates will be given, and the books which may be consulted as a preparation for them.

It is to be understood, in general, that each Professor will deliver, in his public Lectures, a large portion of the information which he will require in his Examination ; and that the books here recommended are to be consulted in the way which the Lectures relative to each subject respectively point out. The books on the respective subjects are to be regarded as a preparation *in addition to* that supplied by the Lectures on the corresponding subject.

In stating the nature of the Examination, the method will be followed, where it can conveniently be done, which was adopted by the University in 1837, to define the nature and extent of the Examination then instituted in Mechanics and Hydrostatics ; namely, to refer to a Syllabus of the portion of the subject intended to be included : and to give it to be understood that the Examination on each occasion will consist of questions referring to a small number of the whole list of propositions, &c., there enunciated : (the whole number of articles in the list being, in that case, about sixty.)

The Regius Professor of Laws : As a *Syllabus* indicating the range of his Examination, refers to the *Table of Contents* of Dr Whewell's *Elements of Morality*, B. iv. *Jus*, B. vi. *International Law* ; the requisite knowledge to be sought in the Professor's Lectures.

The Professor of Moral Philosophy. *Syllabus* : The *Table of Contents* of Dr Whewell's *Elements of Morality*, B. i. ii. iii. ; for the knowledge, see the book itself, and the illustrations given in the Professor's Lectures.

The Professor of Modern History refers to the following books for information which he will require in his Examination for certificate : (1) *Précis de l'Histoire des Français*, par J. C. Simonde de Sismondi. Paris. 1839. Treuttel et Wurtz : (2) Sharon Turner's *History of the Anglo-Saxons*. It is proposed to publish, before the end of the long vacation, a *Syllabus* of both these books. Candidates will be at liberty to answer questions, at their choice, in both of these books, or in one of them only.

The Downing Professor of the Laws of England gives the following statement of the range of his Examination :

The Examination for Certificates of proficiency in English Law will be confined to the following subjects :

The Law concerning the principal Relations of Society, as Husband and Wife, Parent and Child, Master and Servant.

The Law relative to the principal Contracts of Society, as Sale, Bailment, Leasing, Mortgaging, Bills of Exchange.

The Duties of Magistrates.

The Definitions of Crimes.

The Church Establishment, including the Law regarding Tithes, Dilapidations, Parochial Rates, Pews, Parochial Registers.

The principal rules of the Law of Evidence, such as those regarding Presumptive Evidence, Hearsay Evidence, and Secondary Evidence. Elementary information upon all the subjects of the Examination may be found in Blackstone's *Commentaries*, (Serjt. Stephens', or some other modern edition): and Kent's *Commentaries*.

The *Table of Contents* of Blackstone's *Commentaries*, so far as it relates to the above subjects, may be considered as the Professor's *Syllabus* for the present purpose.

The Examinations will be confined to such parts of the above subjects, as are treated of in the lectures. And in the course of the lectures the students will receive more particular information as to the questions which will be proposed at the examinations, and as to the books from which a competent knowledge of the above subjects may be best acquired.

The Professor of Political Economy has published a *Syllabus* of his subject, for the present purpose, containing reference to the requisite books.

The Regius Professor of Physic will examine for certificates in the subject on which his Lectures are given; namely, the Principles of General Pathology. He refers to Dr Alison's *Outlines of Pathology*, and the first three chapters of Dr C. J. B. Williams's *Principles of Medicine*, as containing information on this subject.

The Professor of Chemistry refers to Daubeny's *Introduction to the Atomic Theory*, and Fownes's *Manual of Chemistry*, as containing all he will require in his examination for certificates. The *Table of Contents* of these two volumes may be regarded as his *Syllabus* for the present purpose.

The Professor of Anatomy will draw up a *Syllabus* of his subject, with a view to his Lectures and Examinations.

The Professor of Botany has published a *Syllabus*, and gives the requisite information in his Lectures.

Part I. of Balfour's *Manual* contains all, or nearly all, that will be required on the Structure and Physiology of Plants. And our British plants should be examined by the *Floras* of either Hooker and Arnott, or Babington, for obtaining such information as will be necessary to qualify a student for describing plants contained in the few orders named in the *Syllabus*, and illustrated during the Lectures.

The Professor of Geology intends to publish a *Syllabus*, and to make it the guide of his Examinations.

The Jacksonian Professor will examine for certificates in the general principles of *Mechanism*, and in certain processes and Machines employed in manufactures, as delivered in his Lectures. He will draw up a *Syllabus*.

The Downing Professor of Medicine will publish a *Syllabus* of the Course of Lectures he intends to give, to meet the new Professorial Regulations, and will point out in it the subjects in which he will examine, and the books to be consulted respecting them.

The Professor of Mineralogy has published a *Treatise on Mineralogy*; in which he determines the range of subject to be included in his Examination for certificate.

Each Examination for a Professor's Certificate will require the candidate to answer a small number (say 10 to 15,) of questions such as correspond to each article of the above *Syllabuses*.

Examinations with a view to granting Certificates will be held by the above Professors according to the Programme published early in the Michaelmas Term.

ADDITIONAL REGULATIONS FOR THE EXAMINATION FOR PROFESSORIAL CERTIFICATES ADOPTED BY GRACE OF THE SENATE,
March 21, 1855.

1. THAT there shall be joined with each Professor, in the Examination for his Certificate, an Assistant Examiner, who shall be M.B., LL.B., M.A., or of a superior Degree, nominated by the Vice-Chancellor, and appointed by Grace of the Senate for one year at the first Congregation after the division of Michaelmas Term; and that the Assistant Examiner for each subject shall be of equal authority with the Professor of the same subject in the Examination.

2. That an Examination for Professors' Certificates shall be held publicly on certain days near the beginning of each Term; namely, commencing on the third Monday in the Michaelmas and Lent Terms, and on the first Monday in the Easter Term; at some one or more of which times, selected by themselves, the Professors shall hold their Examinations; and that no Certificate shall be granted to any person but those who have been approved at some one of such Examinations; and that on the days of Examination either the Professor of each subject in which an Examination is held, or the Assistant Examiner for that subject, shall attend the Examination.

3. That in the Programme of Professors' Lectures and Examinations issued by the Vice-Chancellor at the beginning of the Michaelmas Term, notice shall be given of the days of each Professor's Examination, for the Lent, Easter, and Michaelmas Terms next following.

4. That the Prælectors of the several Colleges shall send in to the Registry, at least one week before the Examination begins, the names of the Candidates for Professors' Certificates, with notice of the subject in which each Candidate wishes to be examined.

5. That no Candidate shall be admitted to Examination by any Professor until he has attended a Course of the said Professor's Lectures; and that the attendance so required be not less than fifteen and not more than twenty lectures, it being understood that the Professor may make allowance for cases of unavoidable absence.

6. That the names of the Candidates who pass in Examination shall be published in the Senate-House on the Saturday following the Monday on which the Examination begins; those being especially noted who have passed with especial credit; and that this publication shall be accepted as the certificate required by the University.

7. That the Examinations on the scheme here proposed shall be notified in the Vice-Chancellor's Programme in Michaelmas Term, 1855, and shall take place beginning with Lent Term, 1856.

8. That, in order to entitle any Student to attend Professors' Lectures for the purpose of obtaining a Professor's Certificate, he shall be required to pay a fee of three guineas to the Registry, and that this shall entitle him to attend any number of courses of Professors' Lectures: the sum so raised to be called the *Professorial Fund*.

9. That in virtue of each appointment of Assistant Examiner according to Regulation 1, the Examiner shall receive five pounds out of the Professorial Fund.

10. That the residue of the Professorial Fund be divided between the Registry and the Professors in a manner to be agreed upon among themselves.

The following Grace was passed by the Senate, Oct. 29, 1856 :

That, in addition to the Examinations for Professors' Certificates appointed by the Grace of March 21, 1855, any of the Professors may, with the approval of the Vice-Chancellor, (in conjunction with his Assistant Examiner) hold an Examination for his Certificate on a day in the latter half of the Michaelmas Term, of which public notice shall be given at least a fortnight previous.

IN order to check the practice of Degrading, the following Regulations were adopted by Grace of the Senate, Feb. 27, 1829.

1.—That no person who has degraded, be permitted to become a Candidate for University Scholarships or any other Academical Honors during his Undergraduateship, or for Honors in the Mathematical Tripos, unless he shall previously have obtained special permission for so doing, from a Syndicate hereafter to be appointed for that purpose.

2.—That the Syndicate do consist of the Vice-Chancellor, the Public Orator, the Greek Professor, and the two Moderators for the time being, who shall be invested with full power to examine into the cases of Applicants for permission to become Candidates for Honors after they have degraded, and to grant or withhold such permission, as they may think proper.

3.—That this Syndicate do meet on a certain day in October in each year, of which notice is to be given by the Vice-Chancellor, for the purpose of taking into consideration the cases of applicants ; and that all applications be made in writing by the Tutor of the person or persons making such application, accompanied with certificates of ill health, or such other certificates as he may consider necessary.

THE following Regulations respecting standing of which Candidates for the Degree of B.A. ought to be before they are allowed to be examined for that degree, and respecting the period after examination for which the certificate of approval signed by the Examiners shall remain in force—were adopted by Grace of the Senate, May 8, 1833 :

1.—That no person be admitted on or before Ash-Wednesday in the Lent term of each year, *ad respondendum quæstioni*, who shall not have been publicly examined at the usual time of examination in the month of January of that year, and produce a certificate from the Examiners of examination and approval ; except those who in consequence of ill health may, by the permission of the Proctors and Examiners, have absented themselves from such examination.

2.—That no person be admitted to examination for the degree of B.A. until he has entered into his eleventh term, he having previously kept nine terms exclusive of the term in which he was admitted, and that no certificate of approval, in the case of a person so examined in his eleventh term, shall be valid, unless it shall appear when such person applies for the admission *ad respondendum quæstioni*, that he has kept the said eleventh term.

The Syndicate appointed to consider whether any and what additional tests should be adopted for ascertaining that the Candidates for the Several Honor Triposes in each year are of the proper standing, and to report to the Senate, beg leave to report,

That, upon enquiry into the rules and customs of the University relating to the subject, they find that a Student in Arts is of the proper standing to be a Candidate for Honors in the Mathematical Tripos, or in the Classical Tripos, or among the Commencing Bachelors in the Moral Sciences or Natural Sciences Tripos of any year, if at the time of publication of such Tripos he shall have entered into his Eleventh Term at least, having previously kept Nine Terms, exclusive of the Term in which he was admitted, provided however that not more than Eleven Terms shall have passed after the first of the said Nine Terms; and that no Student in Arts of a different standing can be a Candidate for such Honors, unless he shall have obtained permission from the Syndicate appointed to consider the cases of persons who have degraded.

The Syndicate further find that a Student in Arts is of the proper standing to be a Candidate for Honors among the Middle Bachelors in the Moral Sciences or Natural Sciences Tripos of any year, if at the last preceding Examination for such Tripos he was duly qualified in point of standing and other circumstances, to be a Candidate for Honors in that Tripos among the Commencing Bachelors.

Also, that Students in Law or Medicine are of the proper standing to be Candidates for Honors in the Moral Sciences Tripos, and in the Natural Sciences Tripos among the Commencing Bachelors in the fourth Lent Term after the completion of their first Term of residence, and among the Middle Bachelors in the fifth Lent Term after the completion of their first Term of residence, provided that they shall have kept Nine Terms before such fourth Lent Term.

The Syndicate further find that a person entitled to an Honorary degree may, without passing the Previous Examination, be a Candidate for Honors in the Mathematical Tripos, or in the Classical Tripos, or among the Commencing Bachelors in the Moral Sciences or Natural Sciences Tripos of any year, if at the time of publication of such Tripos he shall have entered into his Eighth Term at least, having previously kept Six Terms exclusive of the Term in which he was admitted, provided however that not more than Eight Terms shall have passed after the completion of his first Term of residence.

The Syndicate are of opinion that it is highly desirable that some efficient means should be provided for securing compliance with the rule and customs of the University on the part of Candidates for Honors.

They recommend for this purpose that, in the case of every Candidate for Honors in any Tripos, the Prælector of his College should be required to send to the Registry before the commencement of the Examination a Certificate of the date of admission of such Candidate and of the Terms which he has kept, signed and sealed, as usual, by the Master of the College or his Locum-tenens.

Also, that a Syndicate should be appointed consisting of the Vice-Chancellor, the Vice-Chancellor of the preceding year, the two Proctors, and the Registry, who should meet together in every year on the first day of Examination for each of the Honor Triposes, or as soon after as may be, to examine the certificates sent as above required; to ascertain in what cases persons who have degraded have received permission to be Candidates for Honors,

and in the case of any Candidate claiming to be entitled to an Honorary degree whether such claim be valid; to ascertain further, whether the Candidates have passed the Previous Examination according to the rules prescribed for it, and also in the case of Candidates for Honors in the Classical Tripos, the Moral Sciences Tripos, and the Natural Sciences Tripos, whether they have passed the other requisite Examinations and performed the requisite Exercises; and finally to make known to the Examiners in each case, as soon as may be after the commencement of the Examination, the names of those persons who are duly qualified in point of standing and other circumstances to be Candidates for Honors.

Confirmed by GRACE of the Senate, March 17, 1852.

ADMISSION OF THE QUESTIONISTS.

ON the last Saturday in January there is a Congregation in the forenoon; at ten o'clock, the whole number of Candidates for degrees appear in the Senate-House. Two papers exhibiting a list of the Questionists arranged¹ according to their merits, or seniority, are hung on the pillars for public inspection.

One of the Bedells calls up the Houses, and the Senior Moderator makes a Latin speech²; the Vice-Chancellor sitting in the chair, and the Moderator standing on his left hand.

The Junior Proctor delivers to the Vice-Chancellor the list of Honors and Seniority, subscribed thus, "*Eraminati et approbati a nobis*;" (*viz.* the Proctors, Moderators, and other Examiners.)

The Council is previously called for passing the Supplicats of the Questionists.

The Prælector, or Father of his College, presents to the Council two papers on behalf of each Candidate:

1. The Supplicat having the name of the Candidate in full, and of his College on it, and signed by himself.
2. A certificate, signed and sealed by the Master of the College (or his locum-tenens), shewing that each Questionist has kept the required number of terms; if otherwise, the deficiency is mentioned in the Supplicat, and a certificate explaining the cause is delivered to the Council by the Father.

If any Questionist have been prevented by *illness* from keeping all his terms, the Certificate to be delivered to the Council is to be in the following form³:

I hereby certify to the Senate and University of Cambridge, that Mr —, of — College, has been under my care from the — day of — till the

¹ The order of the Tripos is published in the Senate-House, on Friday Morning at nine.

² At present omitted.

³ The Council scarcely ever grants more than one *ægotat* term. An *ægotat* term is never allowed if the applicant has omitted to reside any single term subsequent to that for which he applies, without indeed he produces a formal certificate of illness to account for such omission. An *ægotat* term is never allowed for sickness before residence.

The dates in the certificate of illness must cover the first or second half of the term; for example,

"A.B. has been under my care from the 28th Oct. to 14th Nov." or "from the 12th Nov. to 17th Dec."

In the Easter term the certificate must cover the first half.

If the certificate of illness be for the Michaelmas or Lent Term and only covers the first half, the applicant is expected to come up and reside the remainder of the Term.

— day of —; and that during that time he could not with safety, on account of his health, return to Cambridge.

Witness my hand this — day of —, 18—.

C. D.

(Residence.)

(M.D. or Surgeon.)

The Registry shews to the Council that every Candidate has passed the Previous Examination.

One of the Bedells carries the Supplicats into the Non-Regent House, to the Scrutators; the senior reads them, and if all are approved, he says, *Omnes placent*. But if any are disapproved of, he says, *A.B. &c. non placent, reliquæ placent*.

The Supplicats are then carried into the Regent-House, where the Senior Proctor reads them. If all are approved of, he says, *Placent omnes; placeat vobis ut intrent*. If any are disapproved of, he says as above.

The Supplicats are then delivered to the Registry, who writes on them, *Lect. et conces. die — Jan. —*

The Vice-Chancellor takes the chair before the table, and a Bedell having desired the respective Fathers to be in readiness with their Sons, he precedes the Father of the Senior Wrangler (the rest of the Fathers following with their Sons) to the Vice-Chancellor.

The Father, taking the Senior Wrangler by the right hand, presents him in these words:

Dignissime Domine, Domine Pro-Cancellarie, et tota Universitas; præ-sento vobis hunc juvenem, quem scio, tam moribus quam doctrinâ, esse idoneum ad respondendum quæstioni, idque tibi fide meâ præsto, totique Academiæ.

The Senior Wrangler then kneels down before the Vice-Chancellor, who, taking his hands between his own, admits him in these words:

Auctoritate mihi commissâ, admitto te ad respondendum quæstioni, in nomine Patris, et Filii, et Spiritus Sancti. Amen.

The Father of King's next presents his Sons: then the Questionists of Trinity and St John's are commonly presented, and after them those of the other Colleges according to the seniority of the Fathers. Four or five are presented at once, the Father saying, *Præsentō vobis hos juvenes quos, &c.*

As soon as they have been presented, they are directed by one of the Bedells to the south side of the Senate-House.

When all have been presented, they are admitted by the Vice-Chancellor in the order in which their names stand in the list signed by the Proctors and Examiners.

When the admissions are concluded, the Vice-Chancellor dissolves the Congregation.

28 REGULATIONS FOR THE MORAL SCIENCES TRIPOS.

Bachelors of Arts are called either *Ordinarii* or *ad Baptistam*. The *Ordinarii* are admitted on the last Saturday in January, or on any day after that Saturday, and not later than Ash-Wednesday. The last day of the admission of *Ordinarii* is Ash-Wednesday. All who are admitted after Ash-Wednesday are called *ad Baptistam*. These lose their year: for example, a Bachelor admitted after Ash-Wednesday in 1853, is a Bachelor of 1854. No person (except an invalid with a certificate from the Examiners) is allowed to take a degree as an *Ordinarius* who has not undergone the general examination in the January of that year: if unsuccessful in that examination, he may be re-examined before Ash-Wednesday; and, if approved, he may be admitted on Ash-Wednesday. Those who are admitted to their degree of B.A. at any other time are said to go out in Bye Term. Their examination takes place in one of the Schools, and is similar to that of the ordinary πολλοι. When "examined and approved" by the Moderators and Examiners, their names are arranged alphabetically, and not according to merit. Their seniority is reserved in the class of οἱ πολλοι after those who are admitted as *Ordinarii* of the succeeding year.

REGULATIONS FOR THE MORAL SCIENCES TRIPOS, ADOPTED BY THE SENATE, OCT. 31, 1848¹.

1.—That a New Honor Tripos be established, to be called the *Moral Sciences Tripos*, the places in which shall be determined by an Examination in the following subjects:

Moral Philosophy²,
Political Economy,
Modern History,

General Jurisprudence,
The Laws of England.

2.—That the Examiners for the *Moral Sciences Tripos* be the Regius Professor of Law, the Professor of Moral Philosophy, the Professor of Modern History, the Downing Professor of the Laws of England, the Professor of Political Economy, together with one additional Examiner to be nominated by the Vice-Chancellor and appointed by Grace of the Senate; and in case any of the above-mentioned Professors be prevented from examining in any year, Deputies to examine instead of them shall be nominated by the Vice-Chancellor and appointed by Grace of the Senate.

3.—That the Examination for the *Moral Sciences Tripos* shall commence on the 2nd Monday after the general admission *ad respondendum quæstioni* and shall continue four days.

¹ The Report of the Syndicate says, "The Syndicate admitting the superiority of the study of Mathematics and Classics over all others as the basis of General Education, and acknowledging therefore the wisdom of adhering to our present system in its main features, are nevertheless of opinion that much good would result from affording greater encouragement to the pursuit of

various other branches of Science and Learning which are daily acquiring more importance and a higher estimation in the world, and for the teaching of which the University already possesses the necessary means."

² The account of the Prizes given by Dr Whewell is inserted in the Calendar after that of the Adams Prize.

REGULATIONS FOR THE NATURAL SCIENCES TRIPOS. 29

4.—That all Students who shall have passed the Examinations and kept the Exercises required for the Degree of Bachelor of Civil Law, or of Bachelor of Physic, be allowed to become Candidates for Honors in the *Moral Sciences Tripos* in the *fourth Lent Term* and *fifth Lent Term* after the completion of their first term of residence; and all students who shall have passed the Examinations entitling to admission *ad respondendum quæstioni*, may be Candidates for Honors in the *Moral Sciences Tripos* next and next but one succeeding such Examination.

5.—That the Candidates for Honors in the *Moral Sciences Tripos* whom the Examiners shall deem worthy of an Honor shall be arranged by them in three Classes, the places being determined by estimating the aggregate merits of each Candidate in all the Subjects of the Examination: and that in these Classes, marks of distinction shall be affixed to the names of such of the Candidates as have shewn eminent proficiency in particular subjects.

6.—That the Candidates for Honors who are of the standing of Middle Bachelors be classed separately in a *Middle Bachelors' Moral Sciences Tripos*.

7.—That Students who shall have passed the Examination for the B.A. degree be admitted to be Candidates for Honors in the *Middle Bachelors' Tripos*, whether they have been Candidates or not for such Honors in the *Moral Sciences Tripos* or *Natural Sciences Tripos* open to Commencing Bachelors of their standing. But that the two prizes now given to the best proficient in Moral Philosophy, be given only to Candidates for Honors in the Commencing Bachelors' Tripos.

8.—That both Students in Law and Students in Medicine becoming Candidates for Honors in the the new Triposes in the *fourth* and *fifth* Lent Terms after the completion of their first Term of residence be classed with the Commencing and Middle Bachelors respectively.

9.—That no Student who has degraded be allowed to become a Candidate for Honors in the *Moral Sciences Tripos*, without leave first obtained from the Syndicate appointed to examine into the cases of applicants for permission to become Candidates for Honors after they have degraded.

REGULATIONS FOR THE NATURAL SCIENCES TRIPOS, ADOPTED BY THE SENATE, OCT. 31, 1848.

1.—That a New Honor Tripos be established, to be called *The Natural Sciences Tripos*, the places in which shall be determined by an Examination in the following subjects:

Human and Comparative Anatomy,	Botany,
Physiology,	Geology.
Chemistry,	
Mineralogy, excluding the Mathematical part of Crystallography.	

2.—That the Examiners for the *Natural Sciences Tripos* be the Regius Professor of Physic, the Professor of Chemistry, the Professor of Anatomy, the Professor of Botany, the Woodwardian Professor of Geology, the Professor of Mineralogy, together with one additional Examiner to be nominated by the Vice-Chancellor and appointed by Grace of the Senate; and in case any of the above-mentioned Professors be prevented from examining in any year, Deputies to examine instead of them shall be nominated by the Vice-Chancellor and appointed by Grace of the Senate.

30 REGULATIONS FOR THE CLASSICAL TRIPOS.

3.—That the Examination for the *Natural Sciences Tripos* shall commence on the 6th Monday after the general admission *ad respondendum questioni* and shall continue four days.

NOTE.—The other Regulations are similar to those for the Moral Sciences Tripos.

REGULATIONS FOR THE CLASSICAL TRIPOS EXAMINATION¹, ADOPTED BY THE SENATE, OCTOBER 31, 1849.

1.—That the Classical Tripos Examination shall commence in each year on the fourth Monday after the general admission *ad respondendum questioni*, and shall continue during five days and the morning of the sixth day; the hours of attendance being from Nine till Twelve in the morning, and from One till Four in the afternoon.

2.—That the following persons only shall be admitted to Examination:

(1) Those who shall have obtained Honors at the Mathematical Examination of the preceding January.

(2) Those who, having been declared by the Moderators and Examiners for Mathematical Honors in the preceding January to have deserved to pass (according to the present standard) for an Ordinary Degree, so far as the Mathematical part of the Examination for such degree is concerned, shall have afterwards passed in the other subjects of that Examination.

(3) Those whose names shall have been placed (according to the present standard) in the first class in the Examination for an Ordinary Degree in the preceding January.

(4) Those persons, entitled to Noblemen's Degrees, who shall have entered into their Eighth term at least, having previously kept Six Terms, exclusive of the Term in which they were admitted, and shall have passed the Examination for an Ordinary Degree in the preceding January; provided, however, that not more than Eight terms shall have passed in the case of any such person after his first Term of residence.

3.—That on the Mornings of the first four days Composition shall be required, consisting of Translations from English into Greek and Latin, Prose and Verse; on the Afternoons of the same four days and on the fifth day passages shall be proposed for Translation selected from the *best* Greek and Latin authors, and written answers required to such questions as arise immediately out of such passages; on the Morning of the sixth day a paper of questions shall be given in Ancient History.

4.—That to conduct the Examination two Examiners shall be nominated every year by the Colleges whose turn it is to present the Proctors for that year; and the Examiners so nominated shall, if elected by the Senate, and also re-elected by the Senate in the following year, hold their office for two years. The Election shall be made by the Senate at the first Congregation after the 10th of October.

5.—That there shall be a general meeting of the Examiners previous to the Examination, when the Papers set by each Examiner shall be submitted to his colleagues for their approval; and that in the paper on History the questions shall be fixed upon by the four Examiners in common.

6.—That the Exercises in Composition and the answers to the questions in History shall be examined by each of the four Examiners; the Translations by not less than two.

¹ Vide Honors in Classical Tripos, p. 15.

7.—That there shall not be contained in any paper longer passages for Translation, nor more questions than Students well prepared have generally been found able to translate and answer in the time allowed for that paper.

8.—That the names of those persons who shall pass the Examination *with credit* shall be placed in three classes, of which the first and second shall be arranged in order of merit, and the third alphabetically.

9.—That the classes shall be published by the Examiners in the Senate-House on the fourth Thursday after the end of the Examination.

10.—That no person who has degraded shall be allowed to attend the Examination, unless he shall previously have obtained special permission for so doing from the Syndicate appointed to examine into the cases of applicants for permission to become Candidates for Honors after they have degraded.

11.—That each of the Examiners shall receive Twenty pounds from the University Chest.

12.—That the foregoing Regulations shall not interfere with the composition between the University and King's College.

ADDITIONAL PROFESSORS' REGULATIONS RESPECTING THE EXAMINATIONS FOR THE NEW TRIPOSES.

1. That at the time of the general B.A. Commencement, notices shall be issued to the University by some of the Examiners for each Tripos (as is done for the Classical Tripos), stating the place where and time when the Examination will begin, and the limit of time at which persons intending to offer themselves as Candidates for either of these Triposes must give notice of their intention to some one of the Examiners.

2. That all the Candidates for each Tripos should attend at the beginning of each of the Examinations for that Tripos; but should not be required to send in answers at each.

3. That the Additional Examiner in each Tripos should prepare the paper of Questions for the *fourth* day of Examination, being furnished by the other Examiners with such questions as they may think proper; and selecting from these, so that the paper shall be a proper length, and shall contain about equal portions of each of the subjects.

4. That for the present, the papers of questions shall be not longer than a Candidate well prepared could answer in *four hours*, and that four hours be allowed for answering each paper.

5. That about half the questions should be of a general, and half of a special nature.

6. That the merit of the Candidates should be compared by means of *marks*; complete answers to each paper being estimated as worth 100 marks, and twenty marks being, in like manner, assigned to each subject in the fourth day's paper.

7. That the places of Candidates in the Tripos should be determined by adding the marks obtained by each in the different subjects, as is usual in compound examinations.

FIRST TRIPOS DAY.

ON the day after Ash-Wednesday, at one o'clock, the bell rings for the first Tripos.

At two, the Vice-Chancellor and the Proctors meet in the vestry of Great St Mary's Church.

The whole company then proceed to the Law Schools; the Vice-Chancellor, preceded by a Bedell, goes into the gallery; the Senior Proctor with a Bedell into the Respondent's seat, and the Junior Proctor into the Opponent's seat.

The Tripos papers containing the names of the Wranglers and Senior Optimes of the year, and two copies of verses, written by two undergraduates whom the Proctors choose to honor on this occasion, are distributed among the undergraduates and the company present.

A Bedell reads from a Tripos paper :

Baccalaurei quibus sua reservatur Senioritas Comitibus prioribus.

He then pronounces the name and College of the Senior Wrangler, to which the Junior Proctor answers :

Nos reservamus ei Senioritatem suam.

To the second the Junior Proctor answers, *et ei*, and so on to all the names on the Tripos paper.

When all the names are read, the Junior Proctor says :

Nos continuamus hanc disputationem in horam primam diei Jovis post quartam Dominicam hujus Quadragesimæ.

SECOND TRIPOS DAY.

THE second Tripos is on the Thursday after Midlent Sunday; the bell begins to ring at one. The Moderators, dressed in the Proctors' Congregation habits, meet the Vice-Chancellor in the vestry of Great St Mary's Church at two o'clock, and from thence proceed to the Law Schools. The Vice-Chancellor, preceded by a Bedell, goes into the gallery; the Senior Moderator, with a Bedell, into the Respondent's seat; and the Junior Moderator into the Opponent's seat.

The Tripos papers, containing a list of the Junior Optimes of the year, and two copies of verses, written by two undergraduates at the request of the Moderators, are then distributed amongst the undergraduates and company present.

A Bedell reads from a Tripos paper, *Baccalaurei quibus sua reservatur Senioritas Comitibus posterioribus.*

He then reads the name and College of the first Bachelor, and the Junior Moderator answers, *Nos reservamus ei Senioritatem suam.*

To the second, the Junior Moderator answers, *et ei*, and so on, as in the first Tripos.

When all the names have been read he says :

Reliqui (i.e. the οἱ πολλοί, &c.) petant Senioritatem suam e Registro.

And lastly, *Auctoritate quâ fungimur, decernimus, creamus et pronunciamus omnes hujus anni determinatores, finaliter determinasse, ET ACTUALITER ESSE IN ARTIBUS BACCALAUREOS.*

A Bachelor of Arts is *in statu pupillari*.

INCEPTORS IN ARTS, ON THE DAY AFTER THE SECOND TRIPOS.

AN Inceptor must be a B.A. of three years' standing from *completion* of that degree.

On the Friday morning following the second Tripos, there is a Congregation *ex Statuto*.

The Council is called, and the several Fathers deliver to the Vice-Chancellor the Supplicats of the Candidates.

When the Supplicats have been approved by the Council, the Bedell takes them into the Non-Regent House, where they are read by the Senior Scrutator; and then into the Regent House, where they are read by the Senior Proctor.

Previously to the second Congregation, the Bedells have written the Names and Colleges of all the Inceptors on a sheet of paper, and against every one,

{ *placet*..... —
 { *non placet*..... —

At the bottom of the paper is written,

omnes { *placent* —
 { *non placent*..... —

At the Second Congregation the Supplicats are carried to the Scrutators, to be read a second time in the Non-Regent House.

When all have been read, a Bedell calls *ad Scrutinium*.

If all be approved, the two Scrutators and another Non-Regent mark the affirmative line against the word *placent*, whilst the Bedell calls at intervals, *Ad Scrutinium secundo—Ad Scrutinium ultimo—cessatum est a Scrutinio*.

The Senior Scrutator then says, *omnes placent*.

But if any Supplicat be objected to, by one or more persons saying *non placet* when that Supplicat is read, the Scrutators must take the votes by *placet* and *non placet*.

If the *non placets* be greater than, or equal to, the *placets* in number, the Supplicat is lost: and the Senior Scrutator says, *A. non placet: reliqui placent*.

If more than one person's Supplicat be objected to, the votes for each, in which an objection is made, must be taken in the same manner.

The Bedell takes the Supplicats to be read in the Regent House by the Senior Proctor; and they are put to the vote precisely in the same manner as in the Non-Regent House, the Vice-Chancellor and the two Proctors standing in Scrutiny.

The Senior Proctor (the Junior standing by him) pronounces the Scrutiny by saying *omnes placent*, or, (if any one have been rejected) *A. non placet: reliqui placent*.

The Vice-Chancellor then dissolves the Congregation.

ADMISSION OF INCEPTORS IN ARTS (M.A.)

THE Congregation for this purpose is on the Friday following at ten o'clock.

The Bedells have prepared a Scrutiny paper in the following form:—

A. { *scio* —
 credo —
 nescio..... —

B. { *scio*..... —
 credo —
 nescio..... —

At the bottom is written,

omnes { *scio*..... —
 credo..... —
 nescio..... —

As soon as the Senate is assembled, the Proctors go to their place, and the Senior reads from a paper prepared by the Registrar:

Placeat Vobis, ut omnes Inceptores, quibus Gratia à vobis nuper concessa fuit ad visitandum, bonâ vestrâ cum veniâ, intrent.

When this is granted, a Bedell desires the Fathers to assemble their respective Sons, who have previously put on the Bachelor's hood over the Bachelor's gown.

The Senior Father, following the Bedell presents four or five of his Sons at a time, (holding their right hands in his own) to the Vice-Chancellor sitting in the chair, in these words:

Dignissime Domine, Domine Pro-Cancellarie, et tota Universitas, presento vobis hos viros, quos scio, tam moribus, quam doctrinâ esse idoneos ad incipiendum in Artibus; idque tibi fide meâ præsto, totique Academiæ.

The rest of the Fathers, according to their Seniority, present their Sons, in the same form; and as they are presented they go to the south side of the Senate-House.

The Vice-Chancellor and Proctors then stand in scrutiny of

{ *scio* —
 credo —
 nescio —

and if the Scrutators be unanimous in approving all the Candidates, they mark either the *scio* or *credo* line.

Then one of the Bedells precedes the Candidates round the chair, and in passing they bow to the Vice-Chancellor and Proctors.

The Bedell calls the name of each Inceptor.

The Inceptor then kneels down before the Vice-Chancellor, who, taking both his hands between his own, admits him in the following words:

Auctoritate mihi commissâ admitto te ad incipiendum in Artibus, in nomine Patris, et Filii, et Spiritûs Sancti.

If on the incepting day there be any Candidates for the degree of Master of Arts, who were of sufficient standing to have taken their degree before the incepting day, they are to be *admitted* at the *second* Congregation, observing the same forms as the Inceptors.

*Degrees of NOBLEMEN, and of those who proceed to their
Degrees 'tanquam Nobiles.'*

By an interpretation made May 31, 1786, it was determined that the following persons are entitled to Honorary Degrees: viz.

1. Privy Counsellors.
2. Bishops.
3. Noblemen:—Dukes, Marquises, Earls, Viscounts, Barons.
4. Sons of Noblemen.
5. Persons related to the Sovereign by consanguinity or affinity: provided they be also Honourable.
6. The eldest sons of such persons.
7. Baronets, { to the degree of M.A. only.
8. Knights, {

By a Grace of the Senate, passed March 18, 1825, all the above persons (before they are admitted to any degree) are to be "examined and approved" of, in the same manner as others who are admitted *ad Respondendum Quæstioni*; but they have the privilege of being examined after they have kept *nine* Terms, the first and last excepted. They are then entitled to the degree of Master of Arts.

Though no person can claim a degree in right of Nobility, who has not previously undergone the usual examination, yet the University sometimes confers degrees, without either examination or residence, on such individuals of mature age, as are illustrious, not on account of their birth only, but also for the services they have rendered to the State, or to Literature.

No person taking a degree in right of Nobility, is entitled to a vote, unless he shall have resided three Terms.

PROCEEDINGS IN DIVINITY¹.

BOARD of THEOLOGICAL STUDIES.—Established by Grace,
Dec. 6, 1854.

That there should be a Board of Theological Studies, consisting of the Regius Professor of Divinity, the Margaret Professor of Divinity, the

¹ All Masters of Arts who do not declare for Law or Physic within four years after the completion of their M.A. degree, are considered as belonging to the Divinity line, and are not allowed to proceed either in Law or Physic.

Norrisian Professor of Divinity, the Regius Professor of Hebrew, and the Christian Advocate, together with the Examiners for the Theological Examinations of the current and two preceding years: and that it should be the duty of the said Board to consult together from time to time on all matters relating to the actual state of Theological Studies and Examinations in the University, meeting for that purpose at least once in every year, and to prepare, whenever it appears to them desirable, and lay before the Vice-Chancellor a Report to be by him published to the University.

PLAN of THEOLOGICAL EXAMINATION for Students who shall have been admitted *ad respondendum quæstioni*, adopted, Dec. 6, 1854¹.

1. That there shall be two Examinations in every year, one commencing on the Tuesday preceding the commencement of Easter Term, and the other commencing on the first Tuesday after the tenth day of October.

2. That each of the said Examinations shall be open only to those Students who have passed the Examinations entitling to admission *ad respondendum quæstioni*, or have passed the Examinations and performed the Exercises necessary for the degree of Bachelor of Laws or Medicine.

3. That all Students presenting themselves for Examination shall be required to produce certificates of having attended the Lectures delivered during one Term at least by two of the three Professors of Divinity.

4. That at the Easter Examination in every year the names of those Students, who, having been of the proper standing to be Candidates for Honors in the Moral Sciences Tripos of that year among the *Commencing Bachelors*, pass the Examination so as to deserve Honors, shall be placed according to merit in three classes, the names in each class being arranged alphabetically; the names of those Students, who, having been of the proper standing to be Candidates for Honors in the Moral Sciences Tripos of that year among the *Middle Bachelors*, pass the Examination so as to deserve Honors, shall be placed according to merit in three other classes, the names in each class being arranged alphabetically; and the names of all other Students, who pass the Examination to the satisfaction of the Examiners, shall be placed alphabetically in one class.

5. That at the October Examination in every year the names of all Students, who pass the Examination to the satisfaction of the Examiners, shall be placed alphabetically in one class.

6. That all Students, presenting themselves for Examination, shall be examined in the following subjects, viz. the Historical Books of the Old Testament, the New Testament in Greek, the Articles of Religion and the Liturgy of the Church of England, Ecclesiastical History of the first three centuries, and the History of the Reformation in England: and that no one shall be deemed to have passed the Examination, whether a Candidate for Honors or not, who has not shewn a competent knowledge of all the said Subjects.

7. That at the Easter Examination in every year the Candidates for Honors shall be further examined in the Greek Testament, in assigned portions of the Early Fathers and of the Septuagint version of the Old Testament, and assigned works or parts of works of standard Theological writers; public notice of the portions of the Early Fathers and of the Septuagint version and of the works or parts of works of standard Theological writers,

assigned for the Examination in any year, being given by the Board of Theological Studies in the first week of the Lent Term in the preceding year.

8. That the order of the Subjects and times of Examination shall be according to the following Schedules :

Easter and October Examinations.

Days.	Hours.	Subjects.
Tuesday	9 to 12 1 to 4	Historical books of the Old Testament. Greek Testament.
Wednesday	9 to 12 1 to 4	Articles of Religion. Liturgy of Church of England.
Thursday	9 to 12	Ecclesiastical History.

Additional Examination at Easter of Candidates for Honors.

Days.	Hours.	Subjects.
Thursday	1 to 4	Early Fathers.
Friday	9 to 12 1 to 4	Greek Testament and Septuagint. Standard Theological writers.

9. That immediately after each of the Easter and October Examinations an assigned portion of the Hebrew Scriptures shall form the subject of a new Examination for such of the Students already admitted to Examination as shall offer themselves to be examined therein ; public notice of the portion of the Hebrew Scriptures assigned for such Examination in any year being given by the Board of Theological Studies in the first week of the Lent Term in the preceding year.

10. That marks of distinction shall be affixed in the several classes to the names of those Students, who pass the Examination in the Hebrew Scriptures to the satisfaction of the Examiners ; and that at the Easter Examination the places of those Students, who are deemed worthy of Honors, shall be determined by estimating the aggregate merits of each Student in all the Subjects of Examination, including the Hebrew Scriptures.

11. That the Easter and October Examinations in every year shall be conducted by six Examiners ; two of whom may be appointed by the five official members of the Board of Theological Studies out of their own number, such appointments being signified to the Vice-Chancellor before the division of the preceding Michaelmas Term, and if one or both of such appointments be not made in any year, an Examiner or Examiners for that year shall be nominated by the Board of Theological Studies and elected by the Senate, such Examiner or Examiners, however, not being entitled thereby to sit on the Board of Theological Studies ; and the remaining four Examiners shall be nominated by the Board of Theological Studies and elected by Grace, two such Examiners being nominated in every year and proposed singly to

the Senate before the division of the said Michaelmas Term, who shall, if elected by the Senate, and also re-elected by the Senate in the following year, hold their office for two years.

12. That each of the Examiners elected by the Senate shall receive Twenty Pounds from the University Chest.

13. That the Examinations according to the new Regulations shall be first held in the year 1856; and that four Examiners shall be nominated and elected to conduct the Examinations for that year, two to hold office for one year only.

BACHELOR OF DIVINITY (B.D.)

A Master of Arts must be of at least seven years' standing before he can be admitted to the Degree of Bachelor in Divinity, for which degree the requisite Exercises are, one Act, two Opponencies, a Latin Sermon (*Concio ad Clerum*), and an English Sermon. The Act cannot be kept by a Master of Arts of less than four years' standing: the other Exercises may be kept at any time after the Degree of Master of Arts has been completed.

A Master of Arts, proceeding in this faculty, calls upon the Regius Professor of Divinity, for his approbation of the Question for his Act; on which Question a Latin Thesis must be written.

A second Question is given by the Professor; who also appoints the day on which the Act is to be kept.

A copy of these Questions is to be left with the Vice-Chancellor, the Senior Doctor in Divinity resident in the University, and the Regius Professor of Divinity.

Eight days, at least, before the Act is to be kept, three copies of the Questions are to be delivered to a Bedell, for the Opponents; and one copy to the University Marshal, to be affixed to the School-doors.

The Act commences, in the Divinity Schools, a quarter before two o'clock. The Professor having addressed the Respondent with the words "*Agas Domine*"—the Respondent begins with the following prayer:

Actiones nostras singulas, Domine, clementissimo tuo favore præveni, et perpetuo auxilio proseguere, ut in omnibus operibus nostris in te inceptis, continuatis et finitis, sanctum tuum nomen glorificemus, et tandem miseratione tuâ vitam æternam consequamur per Jesum Christum Dominum nostrum. Amen.

The Respondent then states his two Questions; and reads a Thesis, which lasts about half an hour, upon the first. After this the Opponents are in succession called up by the Professor; who, at the close of the Disputation, reads a *Determination* upon the second Question.

The regular time for proceeding to this Degree, in the case of a Master of Arts of seven years' standing, is on the eleventh of June. Masters of Arts of more than seven years' standing may be admitted on other days. For this Degree two Congregations are required; at which the Candidate must be present, in his gown and cassock, and a black hood.

BACHELOR IN DIVINITY, *by the 9th chapter of the Statutes of 2 ELIZABETH in the 12th year of her reign.*

A person, having been admitted of any College after the age of twenty-four years, and having continued a member for ten years at the least, during the last two of which he has resided in College the greater part of three several Terms, may proceed to the Degree of Bachelor in Divinity. The Exercises to be performed in this case are precisely the same as those required of a Master of Arts. The Candidate is moreover examined by the Regius Professor of Divinity, for the purpose of ascertaining whether he has complied with the provisions of the Statute, and actually devoted himself to the study of Theology.

It is recommended to all persons who intend to proceed to the Degree of Bachelor in Divinity under this statute, to call upon the Regius Professor of Divinity, at the commencement of their residence in the University, in order that due arrangements may be made for the performance of the requisite Exercises.

DOCTOR OF DIVINITY.

A Doctor in Divinity must be a Bachelor in Divinity of five, or a Master of Arts¹, of twelve years' standing. The Exercises are one Act, two Opponencies, a Clerum, an English Sermon, and a Determination.

PROCEEDINGS IN LAW².

PREPARATORY to the Degree of Bachelor of Laws, a student is obliged to pass the *Previous Examination*; to attend the Lectures of the Professor for the space of three terms; and to be examined by the Professor; and after four years' standing, and a residence of nine terms, he may keep his Act³. Prior to this exercise, he carries his Questions to the Vice-Chancellor for his approbation; after which they are affixed to the door of the Lecture-room under the Public Library.

At the expiration of six years, the Supplicat and the certificates of standing, residence, attendance on the Professor's Lectures, having declared for Law, and passed the Previous Examination, are presented to the Council, and the Supplicat is afterwards read in both Houses. At the next Congregation, after the Supplicat has again been read, and approved in both Houses, the Candidate is admitted to the degree of Bachelor of Laws.

BOARD OF LEGAL STUDIES.—Established by Grace, *May 2, 1854.*

THAT there should be a board of Legal Studies consisting of the Regius Professor of Laws, the Professor of Moral Philosophy, the Professor of

Modern History, the Downing Professor of the Laws of England, and the Professor of International Law (if such Professorship be established) together with the Examiners for the Degree of Bachelor of Laws in the current and two preceding years; and that it should be the duty of the said Board to consult together from time to time on all matters relating to the actual state of Law Studies and Examinations in the University, meeting for that purpose at least once in every year, and to prepare, whenever it appears to such Board desirable, and lay before the Vice-Chancellor a Report to be by him published to the University.

REGULATIONS *for the Examination for the Degree of Bachelor of Laws.*

That in the year 1858, and in all subsequent years, every Candidate for the Degree of Bachelor of Laws should be required to pass an Examination, established according to the following Plan:—

1. That there shall be an Examination in every year, commencing on the Tuesday preceding January 13, and open to all Students who have passed the previous Examination, and have kept eight Terms at least, exclusive of the Term of admission.

2. That the Subjects of Examination shall be portions of the Roman Civil Law, the Constitutional and General Law of England, International Law, and General Jurisprudence; and that the Examination shall be conducted according to a scheme formed by the Board of Legal Studies and approved by the Senate.

3. That the Examiners shall be the Regius Professor of Laws, and three other Members of the Senate nominated by the Board of Legal Studies and elected by Grace before the division of Michaelmas Term in every year: and if the Regius Professor of Laws shall be prevented from examining in any year, a Deputy to examine in his stead shall be nominated by the Vice-Chancellor and elected by the Senate.

4. That the names of those Students who pass the Examination with credit shall be placed according to merit in three Honor classes; and the names of those who pass the Examination to the satisfaction of the Examiners, yet not so as to deserve Honors, shall be placed alphabetically in a fourth class.

5. That no person shall have his name placed in any of the Honor classes if more than ten Terms have passed after his first Term of residence, unless he has obtained permission to be a Candidate for Honors from the Syndicate appointed to examine into the cases of applicants for permission to become Candidates for Honors after they have degraded.

6. That there shall be one additional Examination in every year, commencing on the Tuesday preceding the division of the Easter Term, and open to all Students who have passed the Previous Examination and have kept eight Terms at least, exclusive of the Term of admission; the subjects of Examination being the same as in the preceding Lent Term, and the Examination being conducted by the same Examiners according to a scheme formed by the Board of Legal Studies and approved by the Senate.

7. That the names of those Students who pass the Examination in the Easter Term shall be arranged alphabetically in one class.

8. That each of the three Examiners elected by the Senate shall receive Ten Pounds from the University Chest.

The following Scheme for the Examination of Candidates for the Degree of Bachelor of Laws has been formed by the Board of Legal Studies, in compliance with the foregoing Regulations, and approved by the SENATE.

1. That the fixed subjects for Students who are Candidates for Honors shall be:—"The Institutes of Gaius and Justinian," "Quintilian de Institutione Oratoria, Lib. vii." Hallam's "Constitutional History of England," Wheaton's "Elements of International Law," and some modern Edition of Blackstone's "Commentaries."

2. That, in addition to these fixed subjects, there shall be others selected by the Board of Legal Studies, of which one or more Books of the Digest shall always form part, public notice of which shall be issued in the Lent Term of the year next but one preceding the Examination.

3. That the fixed subjects of examination for Students not Candidates for Honors shall be:—Justinian's Institutes, Books I. and II. with Sandars's Annotations and Commentary, and the 2nd Title of the 1st Book of the Digest, "De Origine Juris," Hallam's Constitutional History, from the time of the Revolution, Warren's Blackstone, Jervis's Acts, the last edition.

4. That the Examinations shall be conducted in the following manner:

I.—Examination of Candidates for Honors, commencing on the Tuesday preceding Jan. 13.

Days.	Hours.	Subjects.
Tuesday	9 to 12 1½ to 4	Gaius and Justinian Translation into English. Paper of Questions on Roman Law.
Wednesday	9 to 12 1½ to 4	Quintilian de Inst. Or. Translation. Digest Translation.
Thursday	9 to 12 1½ to 4	Constitutional History. Blackstone.
Friday	9 to 12 1½ to 4	Wheaton's Elements. Paper of Questions on English Law. The extra subject.
Saturday	9 to 12	General Paper.

II.—Examinations of Candidates for ORDINARY DEGREES, commencing on the Tuesday preceding Jan. 13, and on the Tuesday preceding the division of the Easter Term respectively.

Days.	Hours.	Subjects.
Tuesday	9 to 12 1½ to 4	Justinian's Inst. Translation. Paper on Roman Law.
Wednesday	9 to 12 1½ to 4	Digest Book i., Title 2. Translation. Paper on Jervis's Acts.
Thursday	9 to 12 1½ to 4	Warren's Blackstone. General Paper.
Friday	9 to 12	Hallam.

The subjects for Candidates for Honors in the Examination to be held in January 1858, are as follows:

- I. Quintilian de Institutione Oratoria, Book vii.; the Commentaries of Gaius, Books i. and ii.; the Institutes of Justinian, Books i. ii. and iii.; and the Digest Book xlii., Titles 1, 2 and 3.
- II. Stephen's Blackstone's Commentaries, Vol. I., and Joshua Williams's Principles of the Law of Real Property, Parts i. iv. and v.
- III. Hallam's Constitutional History, from the commencement to the end of the Reign of Charles Second, and the State Trials of Lord William Russell, and Algernon Sidney, as bearing upon the Laws of Treason and Evidence.
- IV. Wheaton's International Law.

REGULATIONS *concerning an additional EXAMINATION BY A PROFESSOR, appointed as a Condition for the LL.B. Degree by Grace, Oct. 31, 1848.*

1. THAT all Students, who, being Candidates for the Degree of LL.B., do not pass the Examinations for the First Class in that Faculty, shall, in addition to what is now required of them, have attended, before they be allowed to keep their Act, the Lectures delivered during one Term at least, by one or more of the following Professors:

Regius Professor of Physic,
Professor of Moral Philosophy,
Professor of Chemistry,
Professor of Anatomy,
Professor of Modern History,
Professor of Botany,

Woodwardian Professor of Geology,
Jacksonian Professor of Natural and
Experimental Philosophy,
Downing Professor of Medicine,
Professor of Mineralogy,
Professor of Political Economy;

and shall have obtained a certificate of having passed an Examination satisfactory to one of the Professors whose Lectures they have chosen to attend.

A Bachelor of Arts of four years' standing may be admitted to this degree. His exercise is one Act, and he is not required to attend the Professor's Lectures.

Every Candidate for LL.B., or LL.D., pays to the Professor £7. 7s. for each Act.

A Doctor of Laws must be of five years' standing from the degree of LL.B., or a Master of Arts of seven years' standing¹. The exercises are two Acts and one Opponency.

PROCEEDINGS IN PHYSIC.

BACHELOR OF MEDICINE (M.B.)

A STUDENT before he can become a Bachelor of Physic must have entered on his sixth year, computed from the date of his first admission at the University (Stat. Reg.), have resided nine terms (Decree of Heads, 19th of Sept. 1684), and have passed the Previous Examination (Grace of the Senate, 13th of March, 1822).

A Bachelor of Arts may become a Bachelor of Physic after having entered on his sixth year, computed from the date of his first admission at the University, provided that one year at least has intervened between his final determination in Arts and his admission to the Degree of Bachelor of Physic (Graces, 1st of Dec. 1819, and 1st of June, 1821).

The Exercises for this Degree are one Act and one Opponency (Stat. Reg.).

Candidates for the Degree of Bachelor of Physic must, previously to the performance of these Exercises, in addition to the Examination by the Regius Professor of Physic, be examined by the Professors of Anatomy, Chemistry and Botany, and the Downing Professor of Medicine, and by one other Examiner, nominated by the Board of Medical Studies, and approved by the Senate at the first Congregation after October in each year (Grace, 2nd of May, 1854). The Examinations by the Professors of Chemistry and Botany may take place in the fourth year after admission (Grace, 5th of May, 1847). The other part of the Examination may take place in the fifth year after admission, but not earlier, (Grace, 27th of Feb. 1829). They must have diligently attended the Lectures of the Regius Professor of Physic for two Terms, (Graces, 1st of June, 1821, and 1st of April, 1841), and must bring to him Certificates of Examination by the above Professors, and

¹ A Master of Arts is required to declare himself a student in Law within four years of his Inauguration, in order that he may be a candidate for the Degree of Doctor in the Faculty.

of attendance on their Lectures, in case the Course of Lectures of the Professor of Botany consist of not less than twenty Lectures, and the Courses of Lectures of the Professors of Anatomy and Chemistry, and of the Downing Professor of Medicine, of not less than fifty Lectures each, (Grace, 27th of Feb. 1829). They must also deliver to the Regius Professor of Physic Certificates of having been diligently employed in attendance on Medical Lectures and the Practice of some well-known Hospital for two years, or for as long a time as they have been absent from the University during their Undergraduateship (Grace, 5th of March, 1834).

Every Candidate for the M.B. degree pays the Professor £7. for his Act.

If on or before the first of February in his fourth year, the candidate for LL.B. or M.B. does not declare, in writing, to the Master of his college, that it is not his intention to proceed to B.A. he forfeits £3. to the University Chest, over and above the usual fees; and if *after* this declaration he proceeds to B.A. he also pays £3. extra to the Senior Proctor.

LICENTIATE IN MEDICINE (L.M.)

A Licence *ad practicandum in Medicina* may be granted to a Bachelor of Physic in the term subsequent to that in which he has taken the Degree, (Grace, 5th of March, 1834); or to a Master of Arts of two years' standing.

Candidates for a Licence *ad practicandum in Medicina*, being previously Bachelors of Physic, are required to produce to the Regius Professor of Physic Certificates of their having attended on Hospital practice for three years exclusive of the nine Terms which they kept by residence for the Degree of Bachelor of Physic, and of their having attended Lectures on the following subjects; namely;

Practice of Physic and Pathology.
Anatomy and Physiology.
Chemistry and Botany.
Medical Jurisprudence.
Materia Medica and Pharmacy.

Principles of Surgery.
Principles of Midwifery.
Practical Anatomy for two seasons.
(Grace, 1st of April, 1841.)

Candidates for a Licence *ad practicandum in Medicina*, being previously Masters of Arts, are required to bring satisfactory evidence to the Regius Professor of Physic of their having been employed in the study of Physic for five years after they became Bachelors of Arts; and to produce to him Certificates of their having attended on Hospital practice for three of the said five years, and of their having attended Lectures on the subjects before mentioned. (Grace, 1st of April, 1841.)

Every Candidate for a Licence *ad practicandum in Medicina* is required to pass an Examination to the satisfaction of the Regius Professor of Physic, the Professor of Anatomy, the Downing Professor of Medicine, and a Doctor of Physic to be nominated by the

Board of Medical Studies and approved by the Senate at the first Congregation after the tenth of October in each year. (Graces, 1st of April, 1841, and 2nd of May, 1854.)

There are two such Examinations in every year; one in the week immediately preceding that in which the division of the Michaelmas Term falls; the other in the week immediately preceding that in which the division of the Easter term falls. (Grace, 1st of April, 1841.)

A Candidate for a Licence *ad practicandum in Medicina*, being previously Bachelor of Physic, cannot be examined for the said Licence until the Examination which shall occur next but one after his having passed the Examination required for the Degree of Bachelor of Physic. (Grace, 1st of April, 1841.)

A student who has declared for Law or Physic, may put on a full-sleeved gown, when those of the same year, who go out at the regular time, have taken their degree of Bachelor of Arts.

He is then styled a Harry-Sophi (επισοφος).

DOCTOR IN MEDICINE (M.D.)

The Degree of Doctor of Physic is granted to a Bachelor Physic of five years, or to a Master of Arts of seven years' standing.¹ (Stat. Reg.)

The Exercises for this Degree are two Acts and one Opponency. (Stat. Reg.)

Every Candidate for the Degree of Doctor of Physic, who has not previously obtained a Licence *ad practicandum in Medicina*, is required to produce to the Regius Professor of Physic the same Certificates and pass the same Examination as are required in the case of Candidates for a Licence *ad practicandum in Medicina*. (Grace, 1st of April, 1841.)

ADDITIONAL REGULATIONS APPOINTED BY GRACE OF THE SENATE, May 2, 1854.

That in the case of every Student who obtains Honors in the Natural Sciences Tripos, and passes with distinction or to the satisfaction of the Examiners for that Tripos the Examination in one or more subjects which are also subjects of Examination for the Degree of Bachelor of Medicine, the Examiners, if required, shall give to such Student a Certificate, stating that he has passed the Examination in such subjects; and that Candidates for the Degree of Bachelor of Medicine, or for a Licence to practise, possessing such Certificates, shall not be required to be examined again in those subjects to which the Certificates relate.

That, whereas by Grace of the Senate, April 1, 1841, Masters of Arts, who are Candidates for a Licence to practise, are required to bring satisfactory evidence to the Regius Professor of Physic of their having been

¹ A Master of Arts is required to declare himself a student in Physic, within four years of his inauguration, in order that he may be a candidate for the degree of Doctor in the Faculty.

employed in the study of Physic for five years after they became Bachelors of Arts, for all such Masters of Arts as have obtained Honors in the Natural Sciences Tripos and passed with distinction or to the satisfaction of the Examiners the Examination for that Tripos in those subjects which are also subjects of Examination for the Degree of Bachelor of Medicine, the period intervening between the time of passing the Previous Examination and the time of obtaining such Honors shall be reckoned as so much time employed in the study of Physic, and be deducted from the said required period of five years: provided however that such Candidates for a Licence be required, as at present, to produce Certificates of their having attended on Hospital practice for three years after they became Bachelors of Arts.

That there shall be a Board of Medical Studies, consisting of the Regius Professor of Physic, the Professor of Chemistry, the Professor of Anatomy, the Professor of Botany, the Downing Professor of Medicine, and the Professor of Comparative Anatomy and Zoology (if such Professorship be established) together with the Examiners for the Degree of Bachelor of Medicine and for the Licence to practise in the current and two preceding years; and that it shall be the duty of the said Board to consult together from time to time on all matters relating to the actual state of Medical Studies and Examinations in the University, meeting for that purpose at least once in every year, and to prepare, whenever it appears to them desirable, and lay before the Vice-Chancellor a Report to be by him published to the University.

PROCEEDINGS IN MUSIC.

A Bachelor in Music (Mus. B.) must enter his name in some College, and compose and perform a solemn piece of music, as an exercise, before the University.

A Doctor in Music is generally Mus. B., and his exercise the same.

"The University confers the Degrees of Bachelor and Doctor of Music. The conditions for either Degree are the same; namely, that the Candidate be a member of some College; and that he satisfy the Professor of Music as to his proficiency in the Art, more particularly by composing a solemn piece of Music* to be performed, at the appointment of the Vice-Chancellor, before the University."

Extract from Report of Cambridge University Commission.

The present Professor will hold one Examination in each term, due notice of which will be given to all those Candidates who previously send in their names and exercises.

COMPOUNDERS.

ALL persons are reputed and reckoned Compounders, who, before admission to their degree, have presentation to, collation, institution, induction, or any manner of possession of, any Living or Livings Ecclesiastical, of what kind soever, which are rated (even

* Canticum.—For the Degree of Bachelor, it is required that it be written for five Voices, with Orchestral Accompaniments. For the Degree of Doctor, a more extended Composition is expected, written in Eight Parts with Accompaniments for full Orchestra.

though discharged) to the yearly value of £26. 13s. 4d. in the King's Books.

Every person, who is admitted to any degree, must, if he be a Compounder, pay over and above the usual fees, the sum of £3. 6s. 4d.

Endowed Chapels, or other Ecclesiastical preferment not in the King's Books, are rated according to their real value.

Also any estate, annuity, or certain income for life, by whatever tenure possessed (except University, or College income) whether in the person's own right, that of his wife, or any other person, if of the annual amount of £26. 13s. 4d. makes the holder a Compounder.

Ten-year men B.D. and persons taking a degree *per saltum* if Compounders, pay the Composition money for the degree, or degrees, passed over, as well as for that taken.

CAUTION FOR EXERCISES.

THE University Statutes require certain exercises to be performed for the several degrees, which are sometimes granted to *non-gremials* with the omission of part, or of the whole, but with this condition, that they shall be performed within the following Term. The party deposits, as a pledge, the undermentioned sums with the Vice-Chancellor, which, on non-performance of the exercises, are forfeited to the University Chest:

THE money paid on admission at each College is for

Noblemen.....	£ 50	0	0
Fellow-Commoner	25	0	0
Pensioner	15	0	0
Sizar	10	0	0

The Caution Money remains in the hands of the Tutor, and is not returned till a person takes his name off the boards. Noblemen and Fellow-Commoners usually make a present of Plate to the College.

ADMISSION FEES.

IN addition to the Caution, every Student on admission, or coming into residence, makes a payment, differing at different Colleges.

MATRICULATION FEES.

By Graces of the Senate, it has been decreed that the Matriculation fees paid to the Registry should be as follows:

Noblemen.....	£16	0	0	Pensioner	£5	10	0
Fellow-Commoner.....	11	0	0	Sizar.....	1	5	0

The above sums include fees to the University Chest, fees to the Registry, and tax to Government.

On occasion of an extra Matriculation each person pays 10s. in addition.

COLLEGE PAYMENTS.

IN each College a quarterly payment is made by each Member of it, according to his degree and condition, on a scale which differs slightly in the several Colleges.

This payment includes the small annual contributions made to the University. These payments may be compounded for in several Colleges, subsequent to the degrees D.D., LL.D., M.D., B.D. and M.A.

TUITION.

THE quarterly payments of persons in *statu pupillari* in every College, are the following:

Rent of Rooms varies in the several Colleges from £4. to £30.

Price of Lodgings—8s. to 28s. per week: the most frequent Payment is 14s. or 16s.; and Half-Price is paid in Vacations.

Entertainment in Rooms, Attendance of a Gyp, Orders in the Hall, are extra and optional.

Private Tuition is for the most part £14., or £7. a Term.

Personal Expenses and Tradesmen's Bills are independent of the place: they are paid by the Student himself, or through the Tutor, as may be found expedient.

No person *in statu pupillari*, lodging in a house not duly licensed, is considered as resident in the University or keeping Terms.

Licenses to keep Lodging-Houses for the residence of persons *in statu pupillari* are granted under the following regulations:—

1. That a Syndicate shall be constituted, consisting of the Vice-Chancellor, the Proctors, the Proctors of the preceding year, and four other members of the Senate elected by Grace.
2. That one of the said four members shall retire from the Syndicate in every year on Oct. 10, the order for retirement being that of priority of election; and that his place shall be supplied by a person nominated by the Vice-Chancellor, and elected at the next ensuing Congregation.
3. That in the case of a vacancy occurring in any year by the death of one of the said four members, or otherwise, a new member shall be elected as soon as possible to supply the vacant place, and that the person so elected shall continue to be a member of the Syndicate for the same period as that during which the person, whose substitute he is, would have continued.
4. That the Syndicate shall be entrusted with the power of granting licences to the keepers of Lodging-Houses for the residence of persons *in statu pupillari*, subject to such Regulations as may be prescribed by Graces of the Senate. That they shall also have the power of hearing and adjudicating upon all complaints against the keepers of Lodging-Houses, and of suspending or revoking licences whenever it appears to them expedient.
5. That no business shall be transacted at any meeting of the Syndicate unless the Vice-Chancellor or his deputy and four other members at least be present.
6. That the Syndicate shall meet for the purpose of granting licences on the Monday before the division of every Term.
7. That all applications for licences to be granted on any one of such licensing days shall be sent to the Vice-Chancellor at least one week before the licensing day; and that every application shall state the name, residence, and occupation of the applicant, the number of sets of lodgings for which the licence is required, and the price per week of each set; and shall be accompanied by a Certificate, signed by the Master and Tutor of some College, that the applicant is a person of good character, that the lodgings are healthy and clean, and that the prices stated are reasonable.
8. That printed lists of the names, residences, and occupations of the applicants, together with the number of sets of lodgings in each house and their respective prices, shall be sent as soon as practicable after the last day appointed for receiving applications to the Master, Tutors, and Deans of every College, accompanied by a request that any remark or objection, which it may seem desirable to make, may be sent in writing to the Vice-Chancellor for the consideration of the Syndicate before the time of licensing, or that the person objecting may attend the Syndicate on the day of licensing and confer with them in person.
9. That no licence shall be granted to any person for more than one year, nor beyond certain limits in the Town, such limits to be defined and published from time to time by the Syndicate.
10. That every certificate of licensee shall be signed on behalf of the Syndicate by the Vice-Chancellor or his deputy and the two Proctors.
11. That a statement shall be sent after every licensing day to the Master, Tutors, and Deans of every College, containing the names, residences, and occupations of the persons to whom licences have been granted, together with the number of sets of lodgings in each case and their respective prices.

12. That in special cases the Syndicate may grant provisional licences, to continue in force until the next licensing day.

13. That registers shall be kept of the names, residences, and occupations (1) of all persons to whom licences are granted on any licensing-day together with the number of sets of lodgings in each case, and their respective prices, (2) of all persons to whom the Syndicate have refused to grant licences, together with the reasons of refusal, and (3) of all persons whose licences have been suspended or revoked by the Syndicate, together with the reasons for such suspension or revocation.

14. That before receiving a licence every applicant shall sign the following promise and declaration :

I hereby promise and declare :

1. That I will shew my licence to any Student desirous to take my lodgings, and will not require him to take them for more than one Term certain :
2. That I will not let my lodgings to any Student without an express permission signed by his College Tutor :
3. That I will lock the door of my house at ten o'clock every night :
4. That I will note down the time after ten o'clock at which any Student lodging in my house enters or leaves his lodgings, and will deliver or send a statement thereof every morning to the Porter of the College to which such lodger belongs, to be by him inserted in his gate-bill for the inspection of the College Officers ; and also will deliver or send to the Porter a weekly statement of the same particulars :
5. That I will specially report to the Tutor and Dean the next morning if any such lodger shall pass the night out of his lodgings :
6. That I will not allow on any account a key of any outer door of my house to any such lodger :
7. That I will not supply or receive into my house a dinner or a supper for any Student without an express permission signed by his College Tutor :
8. That I will not supply or receive into my house for any Student provision for any entertainment whatever on Sunday without an express permission signed by his College Tutor :
9. That when a Student of the University is lodging in my house, I will not receive as lodger any person, who is not a member of the University, without obtaining permission in writing from the Master and Tutor of the College to which such Student belongs :
10. That the house for which I apply for a licence, is in my own occupation.

The following Limits for Licensed Lodging-houses for Students within the Precincts of the University were published by the Syndicate, May 19, 1854.

No Licence will be granted for Students in general (married and unmarried) to houses situated on the North side of the Town beyond the road leading to Chesterton, and to none on that road beyond Wentworth House.

On the East and North East sides of the Town, to no houses beyond Belmont Place in the Newmarket Road, Emmanuel Road, Parker Street, Park Terrace, and Regent Terrace.

On the South, to no houses beyond St Andrew's Terrace, Downing Terrace, and Bene't Place.

On the West and North West, to no houses beyond the river, upwards from Magdalene Bridge.

Wider Limits will be allowed for houses licensed for married Lodgers only.

UNIVERSITY OFFICERS, &c.

[For distinguished characters unnoticed in this and the following pages, see the list of *Tripases*.]

CHANCELLORS.*

THE office of Chancellor is *biennial*, or tenable for such a length of time beyond two years as the *tacit consent of the University* may choose to allow. The election of a Chancellor must be within fourteen days after the vacancy—and is, *more burgensium*. At the time of election, the Vice-Chancellor, the two Proctors, and the junior D.D. present, stand in scrutiny, (in failure of the latter, the junior LL.D., and in the absence of such, the junior M.D.) and first write their votes. All members of the Senate then bring their votes written in the same form, and the Senior Proctor pronounces the election.

ELECTED.

- 1688 Charles, Duke of Somerset, Trinity.
 - 1748 Thomas-Holles, Duke of Newcastle, Clare.
 - 1768 Augustus-Henry, Duke of Grafton, M.A. St Peter's.
 - 1811 His Royal Highness William-Frederick, Duke of Gloucester, D.C.L. Trinity.
 - 1834 John Jefferies, Marquis Camden, LL.D. Trinity.
 - 1840 Hugh-Perey, Duke of Northumberland, F.R.S. LL.D. St John's.
 - 1847 HIS ROYAL HIGHNESS PRINCE ALBERT, LL.D. Trinity.
-

HIGH STEWARDS.

The election is by a Grace of the Senate.

ELECTED.

- 1721 Arthur, Earl of Anglesea, Magdalene.
 - 1737 Thomas-Holles, Duke of Newcastle, Clare.
 - 1749 Philip, Lord Hardwicke, D.C.L. Lord Chancellor, Corpus.
 - 1764 Philip, Earl of Hardwicke, D.C.L. Corpus.
 - 1790 Right Hon. William Pitt, M.A. Pembroke.
 - 1806 Philip, Earl of Hardwicke, M.A. Queens'.
 - 1834 Hugh-Perey, Duke of Northumberland, F.R.S. LL.D. St John's.
 - 1840 JOHN SINGLETON COPLEY, LORD LYNDHURST, LL.D. Trinity.

 1856 HENRY PHILPOTT, D.D. Cath.

REPRESENTATIVES IN PARLIAMENT.

JAMES I., by his Charter in the first year of his reign, granted power to the Chancellors, Masters, and Scholars of the two Universities, to elect and return two persons in each, to represent them in Parliament. Whenever there is a vacancy in the representation, the Sheriff sends the precept to the Vice-Chancellor; and the election, of which the Vice-Chancellor gives four days' notice at least, is to be within eight days from the receipt of it. At the time of election, the two Proctors, and the junior D.D. present, stand in scrutiny with the Vice-Chancellor, who is the returning officer. The members of the Senate then give their votes in writing, and a majority of such determines the election.

ELECTED.

- 1832 Rt. Hon. H. Goulburn, M.A. Trinity.
 Rt. Hon. Sir C. Manners Sutton,
 K.G.C.B., LL.D., Trinity.
 1834 Rt. Hon. H. Goulburn, M.A. Trinity.

 1852 Rt. Hon. H. Goulburn, M.A. Trinity.
 L. T. Wigram, M.A. Trinity.
 1856 Rt. Hon. S. H. Walpole, M.A. Trinity.

COMMISSARIES.

THE Commissaries are appointed by Letters Patent under the hand and seal of the Chancellor.

- 1824 J. F. Pollock, M.A. Trinity.
 1835 John Hildyard, M.A. John's.

- 1855 C. J. Selwyn, M.A. Trinity.

PROCTORS.

Two Colleges are every year to nominate persons for Proctors in the order prescribed in a cycle of 51 years; in which time, King's, Trinity, and St John's Colleges have each of them eleven turns; St Peter's, Christ's, Queens', and Pembroke, seven each; Clare, six; Corpus Christi, Jesus, Caius, Magdalene, Emmanuel, and Sidney, five each; Catharine, four; and Trinity Hall, one. Each of the two Colleges nominates one person. The person nominated may be a Regent or Non-Regent Master of Arts. If he be a Regent he must be in the third year of his Regency at least.

He must be presented to the Vice-Chancellor, in the presence of the Registrary, by the head of his College, or by some one in his name, before the 1st day of August.

If any one who has been presented should die, or refuse the office, or be found incapacitated, before the 10th of October following, the Council of the Senate nominate two persons to be offered to the Senate, one of whom is to be elected. The same course is observed in case any college neglects to present in due time.

If the office becomes vacant before the expiration of the year, Trinity Hall presents a Proctor for the remainder.

The Proctors are elected on the 10th of October, by the *Regents* only.

1855 A. Wolfe, Clare.
J. S. Wood, John's.

1856 R. Watson, Queens'.
J. F. Hardy, Sidney.

PROFESSORSHIPS.

LADY MARGARET'S PROFESSOR OF DIVINITY.

AN election to this Professorship, founded 1502, by LADY MARGARET, mother of Henry VII., is to be every *two* years. The Professor is to be chosen on the last day of Easter Term, and his two years are to commence from the next following feast of the Nativity of the Virgin Mary, (Sept. 8). When the Lectureship becomes vacant, the same person may be re-elected, but this ceremony is generally dispensed with, and the Professor continues in his office as before. When, however, an election does occur, the electors are, the Chancellor, or Vice-Chancellor, Doctors, Inceptors, and Bachelors in Divinity, who have been Regents in Arts. Lady Margaret's stipend was 20 marks per annum. Augmented by James I. with the rectorial tithes of Terrington, Norfolk, and by Mrs Alice Davers with a small garden in Cambridge.

 1855 J. Grote, B.D. Trin.

The Professor gives Lectures (this year in the Lent and Easter Terms) upon Moral and Political Philosophy, and upon the Special Subjects for Examination in the Moral Sciences Tripos.

CHEMISTRY.

FOUNDED by the UNIVERSITY, 1702.

THE Professors, previous to the year 1773, were elected by a Grace of the Senate; but there being several competitors for the office at that time, this mode of election became impracticable; and, as it appeared that no adequate provision had been made for such cases, it was decided that the election should, on that occasion, be "*more burgensium*:" by a Grace dated 24th October, 1793, it was determined that all subsequent elections to this Professorship should be in the same manner.

There is no endowment. The salary of £100 per annum was formerly paid by the Lords Commissioners of Her Majesty's Treasury, but is now an annual grant of Parliament.

It appears, by the Graces appointing the first Professors, that a house and apparatus were attached to this Professorship: but there is now no house nor apparatus exclusive of what is the private property of the Professor.

PROFESSOR CUMMING'S LECTURES.

A Course of Lectures, on the general principles of Chemistry, is given during the Lent Term, in the schools in the Botanical Garden.

The Medical Students are required to attend these Lectures under the same regulations as those of the Anatomical Professor.

1702 J. F. Vigani, of Verona.

 1794 W. Farish, M.A. Magdalene.
 1813 S. Tennant, M.D. Emmanuel.
 1815 J. Cumming, M.A. Trinity.

ASTRONOMY AND EXPERIMENTAL PHILOSOPHY.

THE Candidates may be bachelors, married men, Englishmen (*Nostrates*), or Foreigners. The election is not to be before the thirtieth, nor protracted beyond the sixtieth day after the schedule

is affixed. The electors are, the Vice-Chancellor, the Masters of Trinity, Christ's and Caius colleges, and the Lucasian Professor. If any of the Masters be Vice-Chancellor, the Master of St John's acts in his stead. Founded by Dr PLUME, Archdeacon of Rochester, 1704.

This Professorship was endowed with the rent of an estate situated at Balsham. The stipend was increased by the bequest of Dr Smith; a sum now amounting to about £46 per annum being left by him to the Plumian Professor, on condition of an examination for Smith's Prizes being annually made. The late Professor having represented to the University, that the income of the Professorship offered no adequate remuneration for the increased labours occasioned by the superintendence of the Observatory, a Grace of the Senate was passed Feb. 27, 1829, for granting annually to the Professor from the Common Chest (by Grace), such a sum as would raise the income of the Professorship to £500 per annum.

 1828 G. B. Airy, M.A. Trinity.
 1836 James Challis, M.A. Trinity.

PROFESSOR CHALLIS'S LECTURES.

The Plumian Professor gives a Course of Lectures on Practical Astronomy in the Lent Term. The object of the Lectures is to describe the parts and uses of Astronomical Instruments, and the methods of observing, and to prove and exemplify the mathematical formulæ required in the reduction of observations. In the course of the Lectures the Instruments of the Cambridge Observatory are described to the Class in the observing rooms.

ANATOMY.

At the period of election, the Vice-Chancellor, the two Proctors, and the junior Doctor in Divinity present, stand in scrutiny: in failure of the latter, the junior LL.D., and in the absence of such, the junior M.D. All members of the Senate have votes, and the majority of such decide the election. Founded by the UNIVERSITY, 1707. Salary, £100 per annum.

DR CLARK'S LECTURES ON HUMAN ANATOMY.

The Course consists of at least fifty Lectures, which are delivered in the Anatomical School in the Michaelmas and Lent Terms (after the division of each), between the hours of one and two. The terms of attendance are Five Guineas for each of two courses: afterwards *gratis*.

These Lectures (a certificate of attendance on which, provided

they amount to fifty in number, is required by the Senate from Candidates for medical degrees,) explain the general and special Anatomy of the human body, together with the principles of Physiology.

The pupils have the opportunity of dissecting in private.

DR CLARK'S LECTURES ON COMPARATIVE ANATOMY AND PHYSIOLOGY.

In accordance with the Regulations of the "Natural Sciences Tripos" a Course, consisting of twenty-four Lectures, on Comparative Anatomy and Physiology, is delivered in the Anatomical School on Mondays, Wednesdays and Fridays at One o'clock, during the October Term.

Members of the University who have not a General Ticket of admission to the Lectures of the Professors may attend these Lectures on payment of Two Guineas for each Course.

MODERN HISTORY.

THE Professor is appointed by the Queen, and holds the Professorship during pleasure. He must either be a Master of Arts, Bachelor in the Civil Law, or of a superior degree. Founded by GEORGE I. 1724. Salary, £371. 8s. per annum.

PROFESSOR HENSLow's LECTURES.

These Lectures are delivered during the Easter Term. The Professor occasionally makes herborizing excursions with his class, in the neighbourhood of Cambridge.

GEOLOGY.

THIS Professorship was founded by Dr WOODWARD, in the year 1727; and on January 31, 1731-2 the four executors of the Founder's will appointed Dr Conyers Middleton the first Professor. After their decease the election was vested in the members of the Senate;

in addition to whom the following persons were allowed, by the express direction of the Founder's will, to give their votes by proxy, *viz.* the Chancellor of the University, the Archbishop of Canterbury, the Bishop of Ely, the President of the Royal Society, the President of the College of Physicians, and the Members for the University.

1771 John Smith, D.D. Caius.

1795 W. Lax, M.A. Trinity.

1836 ³ George Peacock, M.A. Trinity.

PROFESSOR PEACOCK'S LECTURES.

These Lectures are given in the October Term or Midsummer, and the object proposed by them, is to make students acquainted with the present state of the science of Astronomy, and the theory of the processes followed for the purpose of determining the places of the fixed stars, the periodical or other changes to which they are subject, the elements of the planetary system, and relation of Astronomy with Geography and Navigation: the theory of astronomical instruments, which they formerly comprehended, has since been transferred to the lectures of the Plumian Professor, to whose province they more properly belong. As this Professorship was designed by the Founder to comprehend Geometry as well as Astronomy, it is proposed to give alternately with Lectures on Astronomy, others on Geometry and the general principles of Mathematical reasoning.

DIVINITY.

(Mr NORRIS's.)

THE Stewards of this institution are, the Master of Trinity, the Provost of King's, and the Master or President of Caius. The candidates for this Professorship give a written notice to the three Stewards within the first fourteen days of November. The Stewards select two, and signify their names to the Heads of Houses on or before the first day of February next ensuing, and the election of one of the two nominated must be within the first fourteen days of the succeeding May. The electors must be a majority of ten Heads of Houses. The Professor may have been educated at either University, may be lay or clerical, but cannot be elected

under his thirtieth, or re-elected after his sixtieth year. No person can continue in office longer than five years, but may be re-elected.—Founded by JOHN NORRIS, Esq. of Whitton in Norfolk, 1760. Salary, £105 per annum¹.

In conformity with the Founder's directions, the Norrisian Professor of Divinity delivers gratuitously fifty Lectures during the Michaelmas and Lent Terms, to those who have been matriculated or incorporated into the University, on three days in the week, at the Lecture-room under the Public Library. Candidates for Holy Orders are required to attend twenty Lectures in the same Term in order to obtain the Professor's certificate; and no Undergraduate is admitted to attend the Lectures, unless he have beforehand signified to the Professor his wish to attend.

By the will of the Founder, the Professor is required to read or cause to be read during each course of fifty Lectures, certain portions of Bishop Pearson's Exposition of the Creed.

NATURAL AND EXPERIMENTAL PHILOSOPHY.

THIS Professor is to be chosen by those Regent Masters of Arts only who have been resident in the University for the greater part of the year previous to the day of election (excepting only such Masters of Arts as are under one year's standing, who may vote though they have not been resident for that term); which said Regent Masters, on notice assigned by the Master, Fellows, and Scholars of Trinity College, shall assemble on a day, and choose, within one month after such notice is received, by a majority of votes given in writing under the hand of each voter, and taken by the Proctors, such a person as appears best qualified in Natural and Experimental Philosophy and the practical part thereof, and in Chemistry. A member of Trinity College is to be preferred (*cæteris paribus*), next a Staffordshire, Warwickshire, Derbyshire, or Cheshire man. In cases of disputes about the majority of the electors, the same is to be determined by the Vice-Chancellor, the Provost of King's, and the Master of Trinity, or if either of the two latter be Vice-Chancellor, by the Master of St John's. Founded by the Rev. RICHARD JACKSON, M.A. 1783. Salary, an estate about £140 per annum.

1783 Isaac Milner, M.A. Queens'.
1792 F. J. H. Wollaston, M.A. Trin. II.

MINERALOGY.

THIS Professorship was founded by the UNIVERSITY in the year 1808, and afterwards endowed by Government with a Salary of £100 per annum.

Lectures had been given by Dr Clarke for two years prior to the establishment of the Professorship, and specimens exhibited which had been collected during his travels.

After the death of Dr Clarke, the Senate decreed that the Professorship should be continued.

PROFESSOR MILLER'S LECTURES.

A Course of Lectures on Crystallography and Mineralogy is delivered during the Lent Term. These Lectures are given in the new Mineralogical Museum.

POLITICAL ECONOMY.

THE title of Professor of Political Economy was conferred by a Grace of the Senate, in May 1823, on George Pryme, Esq., M.A., late Fellow of Trinity College.

Lectures on this science had been given by him for some years previous, under the sanction of the University. They attempt to analyse the original and efficient causes of national prosperity—to shew by what measures of the Legislature, and by what conduct of

individuals in private life, it is augmented or diminished—and to assist the reader of history in explaining the phenomena of the strength or weakness, the rise or fall, of States.

They are of an elementary and popular nature, requiring no previous knowledge of the subject. They are intended to facilitate the study of a science, till lately inaccessible without the most arduous perseverance; to simplify the order, explain the obscurities, and point out the errors, of A. Smith's Inquiry into the Wealth of Nations; to combine with his discoveries what the experience of subsequent events, and the researches of subsequent authors, have taught, and to place some part of the subject in a point of view different from what any writer had then done. Their plan is—1st, To trace the history of national wealth from the rudest to the richest state of society, and to examine each change as it naturally arises in the progress of opulence and civilization; 2dly, Briefly to explain the systems of the ancients, of Dr Paley, of the French economists, and what is called the commercial system; and 3dly, To explain the principles of taxation and finance.

They are usually given in the Lent Term.

DISNEY PROFESSORSHIP OF ARCHÆOLOGY.

THIS Professorship was founded in 1851 by JOHN DISNEY, Esq. of the Hyde, Ingatestone, who also presented to the University a valuable collection of Ancient Marbles. The Professor must be a member of the University of Cambridge, and of the degree of M.A., or some higher degree. He is required to deliver Six Lectures at least during the academical year, on subjects of Antiquarian research and the Fine Arts, especially as connected with Greece and Rome. The appointment remains with the Founder during his life-time, and afterwards it is vested in the Vice-Chancellor and Heads of Colleges: the *locum-tenens* of the Head of any College being entitled to vote in his stead. The Professorship is tenable for five years, and the Professor may be re-elected. Salary: the interest of £1000, 3 per Cent. Consolidated Bank Annuities.

1851 J. H. Marsden, B.D., John's.

The subject of Professor Marsden's Lectures for the present year will be "Ancient Coinage as connected with Sacred History." The Lectures will be delivered in the Arts' School in the early part of May.

MUSIC.

THIS Professorship was founded by the University, in 1684, on the recommendation of the Crown. The election is by a Grace of the Senate, and occasionally by open poll. There is no endowment, and the only emolument is derived from fees for Degrees.

LADY MARGARET's PREACHER.

THIS preachership, value £10. per annum, was founded in 1503, and, according to the grant, is to be retained for only three years, but that practice is now dispensed with, and the preacher continues without a fresh election. When a vacancy does occur, an election must take place within fourteen days. The electors are the Vice-Chancellor and the Heads of Houses. Doctors, Inceptors, and Bachelors in Divinity, only are eligible to this office, and one of Christ's college is, *cæteris paribus*, to be preferred. The preacher is now required by his office to preach a *Concio ad Clerum*, before the University, on the day preceding Easter Term.

SADLERIAN LECTURES.

THE following seventeen Algebra Lectureships were founded by Lady Sadler, and the Lectures commenced in 1710.

The Lecturers, who are required to be Bachelors of Arts, at least, are severally nominated by the Masters of the respective colleges; are then examined and approved by the Plumian Professor; and before entering on the Lectureship, are required to subscribe a Declaration at St Peter's Lodge, before the Master of that college, to the effect that they will diligently perform the duties of the office. The stipend of the Lecturer nominated by the Master of Emmanuel college is £90., and that of each of the other Lecturers is £67. 10s. per annum. Every Lecturer produces a certificate signed by the Master of his college, that the Lectures have been by him regularly given, before payment of the stipend, which is annually at Lady-day, at St Peter's Lodge.

The Lectureships are tenable only for ten years.

MR HULSE'S FOUNDATIONS.

THE REV. JOHN HULSE was educated at St John's college, became Bachelor of Arts in 1728, and died in 1789, bequeathing his estates in Cheshire to the University for the advancement and reward of religious learning. The various purposes to which he appropriated the revenue of these estates, are—first, the maintenance of two Scholars at St John's college—secondly, to recompense the exertions of the Hulsean prizeman—thirdly, to found and support the office of Christian Advocate—and fourthly, that of the Hulsean Lecturer or Christian Preacher. The salaries of these offices vary according to the annual rent of Mr Hulse's estates, different proportions of which are set apart for each, the largest belonging to the Lecturer.

The trustees and electors of Mr Hulse's bequest are, the Vice-Chancellor for the time being, the Master of Trinity college, and the Master of St John's college. If the Master of Trinity or St John's be Vice-Chancellor, the Greek Professor supplies his place. The Bishop of Ely is visitor, with power to determine, in reason and equity, in all disputes¹.

CHRISTIAN ADVOCATE.

Extract from MR HULSE'S Will, dated July 21, 1777.

THE person to be elected into such office (on Christmas Day, or within seven days after, for a term not exceeding five or six years) to be a learned and ingenious person of the degree of Master of Arts, or of Bachelor or Doctor of Divinity of the age of 30 years, and resident in the University; who is to compose yearly, whilst in office, some proper and judicious answer or answers every year, to all such new and popular, or other cavils and objections, against the Christian or revealed religion, or against the religion of nature, as may, in the opinion of the trustees, or any two of them, seem best or most proper to deserve or require an answer, whether the same be ancient or modern objections, but chiefly such as are most modern, and especially such as have appeared in the English language of late years against Christianity, and which may not seem to have received a full and sufficient answer, if any such there shall be, unto the year preceding his election; as likewise to be ready to satisfy any real scruples or objections in a private way, that may be brought from time to time by any fair and candid enquirer against the same: such writer to be called the Christian Advocate, and such his written answers to be in English, and only against notorious infidels, whether atheists or deists, not descending to any particular controversies or sects among Christians themselves, except some new or dangerous error, either of superstition or enthusiasm, as of popery or methodism, either in opinion or practice, shall prevail: in which case only it may be necessary for

that time to write or reason against the same; and such treatise or treatises to be every year printed, the expense whereof shall be deducted out of the temporary stipend or salary: and the remainder of the said stipend or salary, or rents and profits, shall be paid or given every year to the several authors successively as a reward for the same; but if the person chosen into the said office shall neglect or not discharge his office as he ought to do, he is to forfeit and lose his salary for that year, which is, in such case, to be equally divided between the six senior fellows of St John's college.

The Christian Advocate is not afterwards eligible to the office of Hulsean Lecturer.

HULSEAN LECTURER OR CHRISTIAN PREACHER.

Salary, nearly £300 per annum.

THE election to this office is to take place on Christmas Day, or within eight days after. The persons eligible are, Masters of Arts of the University of Cambridge, under forty years of age. The office is only annual, but the same individual may, under certain circumstances, be continued for any successive number of years, not exceeding six. The duty of the Lecturer is, by Mr Hulse's will, to preach and *print* twenty sermons in each year, ten in April, May, and the former part of June, and ten in September, October, and the former part of November. The subject of the discourses is—to shew the evidence for revealed religion, or to explain some of the most difficult texts or obscure parts of Holy Scripture,—or both. The time and place of delivery are to be in Great St Mary's Church, and either on the Friday mornings or the Sunday afternoons of each week in the above-mentioned period; and if the duties be not discharged by the person appointed, his salary is divided amongst the six senior Fellows of St John's college. The Preacher is not afterwards eligible to the office of Christian Advocate.

By a decree of the Court of Chancery in 1830, it was ordered that the number of Lectures shall be reduced to *eight*, and that the time of printing be enlarged for the term of one year from the delivery of the last Lecture.

TRAVELLING BACHELORS.

WILLIAM WORTS, Esq. M.A. formerly of St Catherine's Hall, in this University, gave two pensions of £100 per annum each, to two recent Bachelors of Arts, presented¹ to the Vice-Chancellor by the Master of the College whose turn it is to nominate, and elected by the Senate. The Bachelors are required to visit foreign countries, to take different routes, and severally to write during their travels, one Latin letter in each year, giving an account to the University of the religion, learning, laws, politics, customs, manners and rarities, natural and artificial, which they shall find worth observing in the countries through which they pass: which Letters, as soon as received by the Vice-Chancellor, are laid before the Senate, and afterwards deposited in the University Library.

The income of these travellers is continued for the space of three years, the period during which they are to continue abroad.

The following Regulations have been made by the Trustees, with a view to insure greater regularity in the recurrence and filling up of vacancies:

1. That no election of a Travelling Scholar shall take place in any year, excepting between the second Tripos day and the end of the Easter Term in that year.

2. That no persons shall be eligible, excepting actual Bachelors of Arts, who shall have been admitted *ad respondendum quæstioni* not later than Ash-Wednesday in that year, and subsequently to Ash-Wednesday in the preceding year.

3. That the Travelling Scholarship of each person so elected shall be deemed to expire, if not sooner vacated by resignation or otherwise, on the second Tripos day in the third year after that in which his election took place; when he will be a Bachelor of Arts of three years' standing complete.

4. That, if any college, whose turn it is to nominate, shall not do so before the end of the Easter Term next ensuing after any vacancy, provided its occurrence shall have come to the knowledge of the Master of the college or his *locum tenens*, that college shall be held to have forfeited its right of nominating for that turn, and such right shall devolve in the succeeding year upon the college, whose turn follows next according to the appointed cycle.

5. That, if a vacancy shall occur by resignation or otherwise during the Easter Term of any year, it shall be at the option of the college, which has the next turn, either to nominate in that same Term or to defer nominating until the following year.

WHITEHALL PREACHERS.

THE Whitehall Preacherships were established by GEORGE I. in the year 1724. The preachers were originally 24 in number, twelve from each University. By a recent alteration they have been reduced to two, one from each, who are to hold the office for two years. They must be Fellows of colleges during their time of holding the office, to which they are appointed by the Bishop of London, as Dean of her Majesty's Chapel.

The Cambridge preachers since the alteration have been,

COMBINATION PAPERS, &c.

THE Sermons before the University at Great St Mary's, are preached by Bachelors in Divinity and Masters of Arts who have completed their first year, beginning with the former. The two papers, one published in July, and the other in December, are made out by the Esquire Bedells and signed by the Vice-Chancellor.

The *Prior Combinatio* contains the Sunday morning turns, and is made after the following order:—The colleges are divided into seven classes, each of which (Trinity Hall and Downing excepted, which send no morning preacher) provides a preacher every seventh turn. In the first three colleges the name is omitted, in the remaining twelve the preacher's name and college are set down.

Persons of sixty years of age, and upwards, are excused from preaching.

The *Posterior Combinatio* contains the Sunday afternoon turns and Saints' days, and is made according to the order in which the members stand in the Registry's book. The names as well as the colleges are here mentioned.

The Combination Papers are, immediately on their publication, sent to the Tutors of the respective colleges, who communicate to the persons named in the Paper the time appointed for them to preach. Substitutes procured by such as omit to preach in their turn, receive three guineas a sermon. The Vice-Chancellor appoints the preachers for the Lent and Summer Assizes, and for extraordinary Fasts and Thanksgivings. The payment is five guineas a sermon.

SELECT PREACHERS.

A GRACE having passed the Senate: "That those to whom the Sunday afternoon turns at St Mary's, and the turns for Christmas Day and Good Friday, are assigned, shall, from the beginning of November to the end of May, provide no other substitute than such as are appointed in conformity with that Grace:"—The following persons have been elected, each for the month to which his name is affixed:—

RAMSDEN SERMON.

MRS CHARLOTTE RAMSDEN, of Bath, having at the suggestion of J. H. MARKLAND, Esq., formerly Treasurer of the Society for the Propagation of the Gospel, proposed:

"To provide, by an adequate endowment (viz. by an investment in the Consolidated Fund of a sum which shall produce Five Guineas per annum) for an Annual Sermon at St Mary's Church, before the University of Cambridge, to be delivered on such Sunday of full Term, and by such Preacher as the Vice-Chancellor for the time being shall appoint, upon the subject of 'Church Extension over the Colonies and Dependencies of the British Empire:'"—

The proposal was accepted by the Senate on the 9th Feb. 1848.

ANNUAL PRIZES.

Classical.

CHANCELLORS' MEDALLISTS.

Two gold medals, value 15 guineas each, are given annually by the CHANCELLOR of the University, to two commencing ¹Bachelors of Arts, who having obtained Senior Optimes at least, shew themselves the greatest proficient in classical learning. On the day after the first Tripos Day, the candidates for these medals send in their names to the Vice-Chancellor, and other Examiners, and the examination always commences on the Monday following. The successful candidates declaim on the second Tripos Day, upon a subject appointed by the Vice-Chancellor. These prizes were established in 1751, by his Grace Thomas Holles, Duke of Newcastle, and have been continued by the succeeding Chancellors. The examiners appointed by the CHANCELLOR to determine these prizes are, the Vice-Chancellor, the Provost of King's, the Masters of Trinity, St John's, St Peter's, Clare, and Christ's, the senior resident Fellow of Trinity who has gained a medal², the Public Orator, the Greek Professor, and the Professor of Modern History.

MEMBERS' PRIZEMEN.

THE REPRESENTATIVES in Parliament of this University give four annual prizes of fifteen guineas each, which are adjudged by the Vice-Chancellor and Heads of Colleges, to two Bachelors of Arts, and two Undergraduates, who compose the best Dissertations in Latin prose, which are read publicly by them in the Senate-House on a day appointed near to the Commencement, and afterwards sent by them to the aforesaid Members. Of these prizes, two are open to all Bachelors of Arts, without distinction of years, who are not of sufficient standing to take the degree of M.A.;—and the other two are open to all Undergraduates who shall have resided not less than seven terms at the time when the exercises are to be sent in. The subjects are delivered out at the end of Michaelmas Term, and each candidate is to send his exercise privately to the Vice-Chancellor, on or before the 30th of April, in the same manner as the exercises for the Chancellor's Medal. These prizes, confined until 1827 to Senior and Middle Bachelors, were established by the Hon. EDWARD FINCH and the Hon. THOMAS TOWNSHEND, and have been continued by the succeeding Members.

SIR WM. BROWNE'S MEDALLISTS.

SIR WILLIAM BROWNE, Knt. M.D. directed three gold medals, value five guineas each, to be given yearly to three Undergraduates on the Commencement day, when the exercises are publicly read, and copies of them sent by the successful candidates to Sir W. J. B. Folkes, Bart. The first to him who writes the best Greek Ode in imitation of Sappho; the second for the best Latin Ode in imitation of Horace; the third for the best Greek and Latin Epigrams: the former after the manner of the Anthologia, the latter after the model of Martial¹. The subjects (delivered out at the end of Michaelmas Term) are appointed by the Vice-Chancellor, the sole adjudicator of these prizes. The exercises must be sent in on or before the 30th of April, in the same manner as the exercises for the Chancellor's Medal. The Greek Ode is not to exceed 25, and the Latin Ode 30 stanzas.

PORSON PRIZE.

THE REV. CHARLES BURNEY, D.D. and the Rev. JOHN CLEAVER BANKES, M.A. only surviving trustees of a fund raised by the friends of the late Professor Porson, and appropriated to his use during his lifetime, did, by deed, bearing date the 27th November, 1816, transfer to the University the sum of £400 Navy 5 per cents. upon trust, that the interest arising therefrom shall be annually employed in the purchase of one or more Greek books, to be given to such resident Undergraduates as shall make the best translation of a proposed passage in Shakspeare, Ben Jonson, Massinger, or Beaumont and Fletcher, into Greek verse.

The metre of the translation, if the selection be from a Tragedy, shall be *Tragicum Iambicum Trimetrum Acatalecticum*, or *Tragicum Trochaicum Tetrametrum Catalecticum*; if from a Comedy, the metre of the translation shall be *Comicum Iambicum Trimetrum Acatalecticum*, or *Comicum Trochaicum Catalecticum*. The exercises (the subjects of which are delivered out at the end of Michaelmas Term) must be distinctly written and accentuated, and accompanied by a literal Latin prose version of the Greek, and sent in privately to the Vice-Chancellor on or before the 31st of March, in the same manner as the exercises for the Chancellor's Medal. The examiners are, the Vice-Chancellor or his deputy, the Provost of King's, the Masters of Trinity, St John's, Christ's, and Caius colleges, the Greek Professor, and the Public Orator. The prize translation is to be printed at the expense of the author, and copies to be given to the Vice-Chancellor and Heads of Houses, previous to the Commencement, at which time it is to be recited in the Senate-House. And if in any year there be no translation worthy of the prize, the book or books provided for that year shall be reserved and given to the candidate who shall be considered second best in the subsequent year, and so from time to time the book or books provided in any year, and not given in that year as a prize, shall be reserved till the examiners shall adjudge the same to be given in some subsequent year to a candidate whose translation is second best, or third best to the prize translation, but worthy to be rewarded, and then shall be disposed of accordingly; provided also that they be printed and recited as in the case of the prize translation. All the prize translations, and every such second best or third best translations, shall be transcribed in a book to be kept by the Vice-Chancellor.

ADAMS PRIZE.

SEVERAL members of St John's College having raised by Subscription a Fund for the purpose of Establishing a Prize to be connected with the name of Mr Adams, in testimony of their sense of the honour he had conferred on his College and the University by having been the first among the Mathematicians of Europe to determine from perturbations the unknown place of a disturbing Planet exterior to Uranus, offered the said fund to the University for its acceptance under the following Regulations:—confirmed by Grace of the Senate, April 7, 1848.

1. That a Prize, to be called "THE ADAMS PRIZE," be awarded every two years, during the Michaelmas Term, to the author of the best Essay on some subject of Pure Mathematics, Astronomy, or other branch of Natural Philosophy.

2. That the Vice-Chancellor and the Plumian Professor of Astronomy and Experimental Philosophy be requested to undertake the office of Examiners and Adjudicators of the Prize, in conjunction with two persons to be nominated by Colleges in rotation, according to the cycle of Proctors, and to be approved by Grace of the Senate, provided always that not more than two of the Examiners be members of the same College.

3. That the Adams Prize be open to the competition of all persons who have at any time been admitted to a Degree in this University.

4. That the successful Candidate receive two years' Income of the Fund, and in case no Essay be considered deserving of the Prize, the Income of the past two years be added to the Capital of the Fund.

5. That the first two Examiners to be chosen by the Senate be elected at the second Congregation of the Lent Term of 1849, and that the future Examiners be in like manner elected every second year.

6. That as soon as may be after the election of the said two Examiners, or at least before the end of the Lent Term in which they shall have been elected, the four Examiners select and publicly announce the Subject for the next Essay.

7. That the Essays be sent to the Vice-Chancellor on or before the 16th day of December of the year next following that in which the subject is announced, in the same manner and form as are prescribed in the regulations for the Chancellor's English Medal; and that the prize be awarded before the division of the following Easter Term.

8. That the Essay be printed at the expense of the successful Candidate, and a copy be presented to the University Library, to the Library of St John's College, and to each of the four Examiners.

9. That if at any time hereafter it appear to the Senate to be expedient to alter the foregoing scheme, it be competent to the Master and Senior Fellows of St John's College, at the request of the Senate, to propose for its adoption an amended Scheme.

MORAL SCIENCES.

MORAL PHILOSOPHY PRIZES.

THE late Professor of Moral Philosophy, with the approval of the University, offered two Prizes of Fifteen pounds each, to be given every year, so long as he held the Professorship, to the two Persons who should shew the greatest proficiency in Moral Philosophy in the Examination for the Moral Sciences Tripos, provided that, in the judgment of the Examiners, they possessed sufficient merit.

CHANCELLOR'S MEDAL FOR LEGAL STUDIES.

THE Syndicate appointed by Grace of the Senate, October 27, 1854, to draw up a scheme of regulations for the institution of the Chancellor's Prize for the encouragement of Legal Studies, recommend that the Examination for the Prize in every year should be conducted according to the following Plan :

1. That the Examination shall commence on the third Monday after the general admission *ad respondendum quæstioni* in every year.

2. That the Examination shall be open (1) to all Students in Arts, who having passed the Examinations entitling to admission *ad respondendum quæstioni*, are not of sufficient standing to be created Masters of Arts; (2) to all Students who, having taken the degree of Master of Arts in right of nobility are not of more than seven years' standing from matriculation: and (3) to all Students in Law or Medicine of not more than seven years' standing from matriculation, who have passed the Examinations and kept the Exercises necessary for the degree of Bachelor of Laws or Medicine.

3. That no person, who has gained the Prize, shall be admitted as a Candidate for it a second time.

4. That the Examiners shall be the persons appointed to conduct the Examinations of Candidates for the degree of Bachelor of Laws in the same year.

In order to guide the studies of the Candidates for the Prize, a list of Books has been annexed to the Report with regard to which the Syndicate recommend that it should be revised and altered from time to time by the Board of Legal Studies, and that public notice of the Books and parts of Books so assigned for Examination in any year shall be given in the first week in the Lent Term of the preceding year.

* 1857 H. Shield, B.A. Jesus.

LIST of BOOKS proposed by the Board of Legal Studies (*Report*, Jan. 22, 1856), for the Examination in the Lent Term, 1857.

I. In the ROMAN LAW they propose the following books, viz.:

The 4th Book of Gaius's "Commentaries" and

The 4th Book of Justinian's "Institutes;"

which treat of "Remedies" by the Roman law.

As works of reference and in explanation of the matter contained in the above, they recommend Sandars's "Notes and Commentaries" on the Institutes of Justinian, and Lindley's "Introduction to the Study of Jurisprudence."

II. On the Principles of INTERNATIONAL LAW the special books and topics will be Grotius "De Jure Belli et Pacis," Book 3; and Wheaton's "Elements of International Law," Book 2.

Attention must be particularly directed to the following points, viz.:

The Declaration of War, the Law of Blockade, the Lex Talionis, and the Position of Neutrals.—In explanation of which points great assistance will be derived from Kent's "Commentaries," Vol. 1. part. 1.; "Story on Prize Courts," by Pratt; the article "Law" in the "Encyclopædia Metropolitana;" and the Judgments in the cases of the *Franciska*, and the *Johanna Maria*, reported in the "Weekly Reporter" for Dec. 8, 1855.

III. For the subject of CONSTITUTIONAL LAW the special books and topics will be

(1) The trial of Algernon Sydney, (Howell, State Trials); and, as connected therewith, the Law of High Treason (particularly as treated of in Sir M. Hale's "Pleas of the Crown") and its modern modifications; and

* The Examiners are unanimously of opinion that E. W. Stock, S.C.L. St John's College, acquitted himself in a manner deserving of special commendation.

the evidence of "Treasonable Papers" and of "Handwriting," for which reference may be had to Starkie, Phillips, or Taylor.

(2) Hallam's "Constitutional History," Vol. II. chaps. 11, 12, and 13; embracing the period of time contained in the reign of Charles II.—particularly with reference to the "Act of Uniformity," the "Test and Corporation Acts," the "Habeas Corpus Act," and the "Immunity of Juries."

IV. On the subjects of the LAW OF MAGISTRATES and the CRIMINAL LAW:

The Courts of Quarter Sessions, and Petty Sessions; the Law of Summary Convictions, Warrants, Bail, Prosecution by Indictment, Judgment and its consequences, and the Law of Larceny.—On these heads reference may be made to Hale's "Pleas of the Crown" and Blackstone's "Commentaries," Vols. I. and IV., as well as to Broom's "Commentaries on the Common Law," and to the Statutes 11 and 12 Vic. cc. 42, 43, and 44, and 18 and 19 Vic. c. 126, for the guidance of magistrates in proceedings for indictable offences and in summary convictions.

V. On the GENERAL LAW OF ENGLAND, the following are selected as the particular subjects:

The Law of Uses and Trusts, of Wills, and Descent of Lands, as treated in Joshua Williams's "Elements of the Law of Real Property," and of Marriage and Guardianship as explained in Blackstone's "Commentaries." But on all these subjects reference may advantageously be made to Kent's "Commentaries;" and under the heads of Marriage and Guardianship attention must be directed to Story's "Conflict of Laws," and to the doctrines of Equity, for which Smith's "Manual of Equity Jurisprudence," together with Story's "Commentaries," or Spence's "Equitable Jurisdiction of the Court of Chancery," may be referred to.

THEOLOGICAL.

NORRISIAN PRIZEMEN.

JOHN NORRIS, Esq. the Founder of the Divinity Professorship, by his Will bequeathed a premium of £12 per annum, £7. 4s. of which is to be expended upon a gold medal, the residue in books, to the author of the best prose Essay on a sacred subject, which is to be proposed by the Norrisian Professor.

The subject is delivered out early in November, and the Essay must be sent either to the Master of Trinity, the Master of Caius, or the Provost of King's college, on or before the tenth day preceding Palm Sunday. A sheet of paper, folded up like a letter, with the name of the candidate enclosed, and sealed, must be sent with the Essay; also a Greek or Latin motto must be inscribed on the Essay, and the same on the sheet inclosing the name. A candidate for this prize must be above twenty years of age, and under thirty at the time when the Prize is adjudged. He must be, or have been, a Student of this University; and must produce a certificate, under the hand of the Norrisian Professor, that he has attended twenty of the Norrisian Lectures in the course of some one year. The three above-mentioned persons compare and decide which is the best Essay, and are directed by its motto

to the letter which contains the name of the successful candidate, to whom the event is communicated on the Thursday in Passion week. The prize he receives within 14 days, giving at the same time a promissory note for the payment of £12 if he neglects to publish the Essay within two calendar months. The rest of the sealed papers are burnt unopened.

No doctrine must be advanced in the Essay contrary to the Liturgy, Articles, and Homilies of the Church of England.

HULSE's PRIZEMEN.

THE REV. JOHN HULSE, B.A. of St John's College, bequeathed to the University certain estates for the advancement of religious learning, and directed in his Will that out of the rents and profits, an annual premium of £40 (since increased to £100) should be given to any member of this University, under the degree or standing of M.A., who composed the best Dissertation in the English Language, on the Evidences in general, or on the Prophecies or Miracles in particular, or on any other particular argument, whether the same be direct or collateral proofs of the Christian religion, in order to evince its truth and excellence.

The subject is delivered out on Christmas-Day, or New Year's-Day, and the Dissertations are to be sent to the Vice-Chancellor, or to the Masters of Trinity and St John's, who are the trustees, on or before the 20th of the ensuing October, with the names of the respective authors, sealed up.

The writer of the Dissertation best approved is to print it at his own expense, and not to offer himself a second time for the premium.

SIR PEREGRINE MAITLAND'S PRIZE.

THE friends of Lieutenant-General Sir PEREGRINE MAITLAND, K.C.B., late Commander in Chief of the forces in South India, being desirous of testifying their respect and esteem for his character and principles, and for his disinterested zeal in the cause of Christian truth in the East; have raised a fund for the institution of a Prize in one of the Universities, and for the establishment of two native Scholarships at Bishop Corrie's Grammar School at Madras,—such Prize and Scholarships to be associated with the name of Sir PEREGRINE MAITLAND.

In pursuance of the foregoing scheme, the sum of £1000 has been given to the University of Cambridge for the purpose of instituting a Prize, to be called "Sir PEREGRINE MAITLAND'S PRIZE," for an English Essay on some subject connected with the propagation of the Gospel, through Missionary exertions, in India and other parts of the heathen world, subject to the following regulations:—

1. That the Prize shall be given once in every three years, and shall consist of the accruing interest of the principal sum during the preceding three years.

2. That the subject shall be given out in the Michaelmas Term by the Vice-Chancellor, and the exercises sent in before the Division of the Easter Term.

3. That the candidates for the Prize shall, at the time when the subject is given out, be Bachelors of Arts under the standing of M.A.; or Students in Civil Law or Medicine, of not less than four, or more than seven years' standing, not being graduates in either faculty, who shall be required, before they are admitted to become candidates, to produce from their respective Professors certificates that they have kept the exercises necessary for the Degree of Bachelor of Law or Medicine.

1 Lord Archbishop of Canterbury.

2 Lord Broughton, Author of Travels through Albania, &c.

3 Author of Jewish, Classical, and Oriental Antiquities, &c.

4 Regius Professor of Divinity.

4. That the Examiners for the Prize shall be the Vice-Chancellor and two other members of the University, either Masters of Arts, or of degrees superior to the degree of Master of Arts, to be nominated by the Vice-Chancellor and approved by the Senate, and that their names shall be announced together with the subject of the Essay.

5. That the Essay be printed at the expense of the successful candidate; and that fifty copies be distributed to each of the three following institutions:—The Society for the Propagation of the Gospel in Foreign Parts; the Church Missionary Society; Bishop Corrie's Grammar School at Madras.

Besides the £1000 before mentioned, the sum of £100 has been given for the first Prize.

1845 G. Nugée, B.A. Trinity.

1849 E. F. Fiske, B.A. Emman.

1852 C. K. Robinson, B.A. Cath.

BURNEY PRIZE.

THE late RICHARD BURNEY, Esq., M.A., of Christ's College, Cambridge, previously to his death on the 30th Nov. 1845, empowered his cousin, Mr Archdeacon Burney, to offer, through the Vice-Chancellor, to the University of Cambridge, the sum of £3,500 Reduced Three per Cent. Stock, for the purpose of establishing an Annual Prize, to be awarded to the Bachelor of Arts in his first year of standing, who should produce the best Essay on a subject to be set by the Vice-Chancellor.

On the day after this offer was communicated to the Vice-Chancellor, Mr Burney died; but his sister and executrix, Miss J. Caroline Burney, being desirous of carrying her brother's intentions into effect, generously renewed the offer, subject to the following regulations, which have been sanctioned by the Senate:

That the prize be awarded to the B.A. in his first year of standing, who shall produce the best English Essay "on some moral or metaphysical subject, on the Existence, Nature, and Attributes of God, or on the Truth and Evidence of the Christian Religion." That the successful Candidate be required to print his Essay; and that after having delivered, or caused to be delivered, a copy of it to the University Library, the Library of Christ's College, the University Libraries of Oxford, Dublin, and Edinburgh, and to each of the Adjudicators of the Prize, he receive from the Vice-Chancellor the year's interest of the Stock, from which sum the Candidate is to pay the expenses of printing the Essay.

That the Vice-Chancellor, the Master of Christ's College, and the Norrisian Professor of Divinity, be the Examiners of the Compositions and the Adjudicators of the Prize.

That in the event of the exercises of two of the Candidates being deemed by the Examiners to possess equal merit, if one of such Candidates be a member of Christ's College, the prize be adjudged to him.

LE BAS PRIZE.

A large number of Members of the Civil Service of India who were students at the East India College at Haileybury at various intervals during the thirty years that the Rev. C. W. LE BAS, M.A., formerly Fellow of Trinity College, was connected with that Institution, desirous of testifying their regard for Mr LE BAS, and of perpetuating the memory of his services, raised a Fund amounting to about £1920. three per cent. Consols, which they offered to the University of Cambridge for founding an annual Prize, to be called in honour of Mr LE BAS the *Le Bas Prize*, for the best English Essay on a subject of General Literature, such subject to be occasionally chosen with reference to the history, institutions, and probable destinies and prospects of the Anglo-Indian Empire.

The Prize is subject to the following Regulations, confirmed by Grace of the Senate, Nov. 22, 1848 :—

1. That the LE BAS Prize shall consist of the annual interest of the above-mentioned Fund, the Essay being published at the expense of the successful Candidate.
2. That the Candidates for the Prize shall be, at the time when the subject is given out, Bachelors of Arts under the standing of M.A.; or Students in Civil Law or Medicine of not less than four or more than seven years' standing, not being graduates in either faculty, but having kept the Exercises necessary for the degree of Bachelor of Law or Medicine.
3. That the subject for the Essay shall be selected and the Prize adjudicated by the Vice-Chancellor and two other Members of the Senate, to be nominated by the Vice-Chancellor and approved by the Senate at the first Congregation after the tenth day of October in each year.
4. That the subject shall be given out in the week preceding the division of the Michaelmas Term in each year, and the Essays sent in before the end of the next ensuing Easter Term.

CARUS GREEK TESTAMENT PRIZES.

Several friends of the Rev. WILLIAM CARUS, M.A., Canon of Winchester, and late Senior Fellow of Trinity College, desirous of testifying their regard to Mr Carus, raised a Fund amounting to £500, 3 per Cent. Consols; which they offered to the University for the purpose of founding a yearly Prize or Prizes for the encouragement of the accurate Study of the Greek Testament.

Soon after the Senate had accepted the Fund Mr Carus gave to the University the munificent sum of £500, 3 per cent. Consols, to augment the Prize Fund.

The following regulations were confirmed by Grace of the Senate, May 25, 1853.

1. That there shall be two yearly Prizes, to be called *The Carus Greek Testament Prizes*.

2. That one of the Prizes shall be open for competition to all Students who, having been admitted *ad respondendum questioni*, are not of sufficient standing to be created Masters of Arts, and to Students in Civil Law or Medicine, of not more than seven years' standing, who shall be required, before they are admitted to become Candidates, to produce certificates from their respective Professors that they have kept the exercises necessary for the degree of Bachelor of Law or Physic.

3. That the other Prize shall be open to all Students who are not of sufficient standing to be admitted *ad respondendum questioni*.

4. That the net proceeds of the Fund, after the Examiners have been paid, shall be divided into two equal parts (one for each Prize) to be laid out in standard Theological Books, the successful Candidates being allowed to choose the Books, subject to the approval of the Regius Professor of Divinity.

5. That one Examiner, who shall be a Member of the Senate, shall be nominated in every year by the Vice-Chancellor, the three Professors of Divinity, and the Regius Professor of Greek, to hold office for two years, and that his name shall be proposed to the Senate for election at the first Congregation after the B.A. Commencement.

6. That whenever a vacancy may occur, a new Examiner shall be nominated and elected in a similar manner.

7. That each Examiner shall receive five pounds yearly out of the proceeds of the Fund.

8. That the Examination for the Bachelors' Prize shall take place on the day (or, if Sunday interfere, on the day next but one) following the completion of the Theological Examination.

9. That the examination for the Undergraduates' Prize shall take place on the Thursday after the division of Michaelmas Term.

10. That the Candidates shall be required to send in their names to the Examiners at least a week before the day on which they are to be examined.

11. That each Examination shall consist of two printed papers, and shall be concluded in one day.

12. That the Examinations shall embrace Translation and Questions upon the Criticism and Interpretation of the Greek Testament.

13. That no Student shall be eligible for the Bachelors' Prize who has not passed the Theological Examination.

14. That the Prizes shall be first given in the year 1854, and that two Examiners shall be nominated and elected in the Lent Term of that year, of whom one shall hold office only for one year.

15. That a successful Candidate shall not be a second time elected to receive the same Prize.

POETICAL.

CHANCELLOR'S ENGLISH MEDALLISTS.

H. R. H. the Duke of Gloucester, formerly Chancellor, gave annually a gold medal, to be conferred upon a resident Undergraduate, who shall compose in English the best Ode or best Poem in heroic verse¹.

The present Chancellor continues this prize. The subject is given out at the end of Michaelmas Term, and the Exercises are to be sent in to the Vice-Chancellor on or before the 31st of March following, and are not to exceed 200 lines. Each candidate is to send his exercise privately: each is to have some motto prefixed; and to be accompanied by a paper sealed up, with the same motto on the outside, which paper is to enclose another, folded up, having the candidate's name and college written within. The papers containing the names of those persons who do not succeed are destroyed unopened. No prize will be given to any exercise which is written, wholly, or in part (or of which the title, motto, superscription, address, &c., are written), in the hand-writing of the candidate; nor to any one who has not, at the time for sending in the exercises, resided one term at least. Any candidate is at liberty to send in his exercise *printed or lithographed*. The successful candidate recites his Poem in the Senate-House on Commencement-day. UNIVERSITY SCHOLARSHIPS.

CRAVEN'S SCHOLARS.

JOHN, LORD CRAVEN, founded two classical Scholarships of £25 per annum each, arising from estates vested in the hands of six trustees. The Electors are, the Vice-Chancellor, the five Regius Professors, and the Public Orator. Whenever a vacancy occurs, any undergraduate may offer himself a candidate by signifying his intention in a Latin letter addressed to the above electors, within the time limited by the Programme which declares the vacancy. If any one of the name or kindred of the founder should be in indigent circumstances, and a Scholar of this University, he (by the Will) is to be preferred. This annuity cannot be enjoyed after fourteen years' standing in the University, nor by any one who may attain to preferment of double its value. The possessors are not allowed to be absent from the University above three months in the year, without the express permission of the Vice-Chancellor, or the major part of the electors then resident in the University.

These rules have been modified in part by the regulations enacted in 1817; which will be found at the end of this list of University Scholarships.

1 These Poems have been published in 2 Vols.
• Whenever there is an omission of a year, no prize was adjudged

2 Translator of Horace.

3 The Examiners also gave notice, that should any poem appear to them to possess distinguished merit, a premium of 100l. would be adjudged. The

above premium was this year awarded to Mr HANKINSON.

4 A second prize was this year adjudged to Mr J. Gorle, Clare.

5 A premium of 100l. was this year adjudged instead of the ordinary prize.

By a decree of the Court of Chancery, in 1819, the income of the Scholars was augmented to £50 per annum each, and three additional Scholarships founded, under the same regulations as the preceding, except that they cannot be held for more than seven years. And by a decree of the Court of Chancery, in 1841, the Scholarships have been further augmented to £75 per annum.

BATTIE'S SCHOLARS.

WILLIAM BATTIE, M.D. Fellow of King's college, left an estate, present value between £30 and £35 per annum, on a plan similar to the preceding, but subject to the following conditions: 1st. Every

- 1 Formerly Greek Professor.
- 2 Formerly British Minister at the Court of Denmark.
- 3 Founder of Battie's University Scholarship, and Editor of *Isocrates*.
- 4 Formerly Provost of Eton, and founder of Davies's University Scholarship.
- 5 Late Fellow of King's, and conductor of the Commemoration of Handel in Westminster Abbey.
- 6 Late Chief Justice of the Court of Common Pleas.
- 7 Late Provost of Eton, and Canon of Windsor.
- 8 Canon of Windsor, and late Head Master of Eton.
- 9 Lord Bishop of Manchester, late Head Master of King Edward the Sixth's School, Birmingham.
- 10 The Electors were unanimously of opinion that

Edward Shepherd Crensy of King's College, and Henry Goulburn of Trinity College, acquitted themselves in such a manner as to be deserving of special commendation.

11 The Electors were unanimously of opinion that W. Owen of St John's College acquitted himself in such a manner as to be deserving of special commendation.

12 Assistant Master at Eton.

13 The Electors were of opinion that the merits of E. L. Brown of Trinity College, were very nearly equal to those of the successful candidate.

14 The Electors were unanimously of opinion that Robert Charles Green, Trinity College, and Herbert Snow, St John's College, acquitted themselves in such a manner, as to be deserving of special commendation.

Scholar shall reside nine calendar months in the year, except he be a graduate in Physic, or one who designs to profess the same; in that case his residence may be dispensed with at the University, provided he produces once every year a certificate signed by one Hospital Physician in London, testifying his regular conduct and diligent attendance with the said Physician at the Hospital. 2nd. No Scholar is capable of being elected who has been admitted three years, or receives any benefit or advantage from either of Lord Craven's exhibitions; and if any one, after being admitted to this Scholarship, shall become entitled to any emoluments from the said exhibitions, his claim to this benefaction is void. 3rd. When any Scholar shall have entered nine years at the college to which he first belonged, or shall have obtained any ecclesiastical benefice or preferment, his right to this legacy shall then cease and determine, but it shall not be vacated by the holder obtaining a Fellowship. The electors to this Scholarship are, the Vice-Chancellor, the Provost of King's, the Regius Professors of Divinity, the Civil Law, and Physic, and the Proctors for the time being.

BROWNE's SCHOLARSHIP.

SIR WILLIAM BROWNE, Knt. M.D., left a perpetual rent-charge of £21 per annum, upon sundry estates for founding a Scholarship, to be paid clear of taxes and disbursements, to the Chancellor, Masters, and Scholars, of the University. A candidate for this Scholarship must offer himself for examination within a year from his Matriculation: public notice being given by the Vice-Chancellor a month before such election. The Scholarship, with all the arrears which may happen by vacancy, is tenable for seven years; but the possessor, if of another college, is obliged to remove to St Peter's, and reside there every entire term during his undergraduateship. Electors to this Scholarship the same as to Lord Craven's.

BELL'S SCHOLARSHIPS.

THE REV. WILLIAM BELL, D.D. Prebendary of the collegiate church of Westminster, and late Fellow of Magdalene college in this University, in the year 1810, transferred £15,200 stock, 3 per cents., to the University of Cambridge, in trust, to found eight new Scholarships. On the receipt of this benefaction, Scholars were elected in such a manner, and for such a period, that two Scholarships will become vacant every year.

The regulations of these Scholarships are, that candidates for them must have been admitted between the last and last but one Commencement preceding the Election, and also must have kept at least one Term, not being that in which they were admitted, nor that in which the Election takes place; for example, Candidates in 1852 must have been admitted between the Commencements of 1850 and 1851, and so on; and every Scholar elected on this foundation shall promise in writing to take the degree of B.A. in the most regular way. The Vice-Chancellor produces the certificates of admission on the day of Election. Where personal merits are equal, those are to be preferred who stand most in need of assistance. If any Scholar shall degrade or determine, and go out in a bye term, or declare for law, or be rusticated or expelled, his Scholarship shall be *ipso facto* vacant. The profits to continue for four years and no more. No person shall ever have two sons Scholars, nor shall there be two orphans, brothers, Scholars at the same time. If no sons or orphans of clergymen shall be found properly qualified for the Scholarships, then, and then only, the electors shall elect the sons of laymen, being undergraduates, who stand in need of assistance. No Scholar to be elected from King's College, or from Trinity Hall.

The electors are, the Vice-Chancellor, the Regius Professors of Divinity and the Civil Law, the Lucasian Professor of Mathematics, and the Public Orator: and the election takes place on the Friday after Midlent Sunday.

In the following list, wherever two or more gentlemen are recorded as *æquales*, their literary merits were considered by the electors as nearly equal. In this case the choice of the Scholar or Scholars was made simply on the ground of pecuniary circumstances, according to the express direction of the Supplemental clause to Dr Bell's Deed of foundation.

¹ The Electors were unanimously of opinion | Scholar of Trinity College, were very nearly equal
that the merits of James Leimpriere Hammond, | to those of the successful Candidate.

PITT SCHOLARSHIP.

Rules for the Foundation of the Pitt Scholarship, and for the Election of a Scholar, confirmed by Grace of the Senate, Dec. 9, 1813.

1.—THE sum of £1000 given by the SUBSCRIBERS to Mr PITT'S STATUE, for the purpose of founding the Pitt Scholarship, and which has since been augmented by a donation of £500 from the Pitt Club in London, shall be placed in the public funds, until the Syndics shall be able to vest it in land; and the clear annual income arising from it shall be paid to the Pitt Scholar.

2.—The Vice-Chancellor or his deputy, the Public Orator, the Greek Professor, and two members of the Senate, to be appointed by the different colleges in their turn, shall be the electors. Two colleges, according to the cycle of Proctors commencing with the year 1817, shall respectively nominate an elector. But if the Vice-Chancellor, the Public Orator, and the Greek Professor, or any two of them, be members of the same college, no elector in that case shall be appointed by the college according to the cycle of Proctors, but the appointment shall be made by the University. Or if the Public Orator or the Greek Professor shall be prevented by illness or otherwise from attending the examination, or if the colleges shall have neglected to signify to the Vice-Chancellor the appointment of the electors according to their respective turns, then Deputies shall be appointed by *Grace*.

3.—The first examination commenced on Monday, January 17, 1814; and the Vice-Chancellor or his deputy, the Public Orator, and the Greek Professor, shall, in future, on or before the 1st day of December after every vacancy, cause a writing under their hands, declaring the said vacancy and the time of examination, to be affixed to the door of the Public Schools; and they shall notify the same to the two colleges which are to nominate the electors, and the Heads of those colleges, or their deputies, shall, within one week after such notices, signify to the Vice-Chancellor the names of the electors so appointed.

4.—The examination, which shall be solely classical, shall always take place during the week of the public examinations in the Senate-House, previous to the Bachelors' Commencement, and the Scholar elected shall receive all the dividends or rents that shall have become due subsequent to the last vacancy.

5.—Any undergraduate, of whatever rank, may be a candidate for the Pitt Scholarship, provided he be not of more than three years' standing from the time of his first residence; but he shall, on or before the 31st day of December preceding the examination, signify, in a Latin epistle to each of the electors, his intention of becoming a candidate, and in case he shall omit sending such an epistle, he shall be considered as incapable of being elected at that time.

6.—The Pitt Scholar shall not hold any other University Scholarship.

7.—Every Scholar shall, during the time of his holding this

Scholarship, reside the major part of each term; and if he shall not have kept such residence, he shall vacate his Scholarship, unless he has been prevented by illness or any other cause which shall be approved of by the Vice-Chancellor, the Public Orator, and the Greek Professor.

8.—Every Scholar who shall obtain any ecclesiastical benefice or preferment, or shall be Master of Arts' standing, shall vacate his Scholarship.

PORSON SCHOLARSHIP.

THE Venerable CHARLES PARR BURNEY, D.D., Archdeacon of Colchester, the representative of the last surviving Trustee of a Fund, which was raised by the friends of the late Professor Porson for his benefit, proposes, in conformity with the intention of the said Trustee, to invest the residue of the said Fund now remaining in his hands, and the interest thereon, in the 3 per Cent. Consolidated Bank Annuities, in the names of the Chancellor, Masters, and Scholars of the University of Cambridge, upon certain trusts, for the purpose of founding a Scholarship, to be called the "Porson Scholarship," so soon as the money so to be invested shall have accumulated to such an amount as will produce the yearly sum of £65, and subject to the following regulations:—

1. That the person, who shall from time to time be elected into the said Scholarship, shall, during the time of his holding such Scholarship, receive out of the annual proceeds of the said stock an Exhibition of not less than £60 per annum, and that the residue or surplus of the said proceeds, together with the dividends which may at any time accrue during the vacancy of the said Scholarship, shall be invested in the like stock, and appropriated to the general purposes of the Trust.

2. That any Undergraduate shall be eligible to the said Scholarship, who shall have been matriculated, and shall not have resided in the University more than five Terms.

3. That on or before the 1st day of December, next after the occurrence of any vacancy, public notice shall be given declaring the said vacancy and the time of Examination; and that every Candidate shall signify his intention of presenting himself for Examination in a Latin Epistle to each of the Electors on or before the 31st day of December.

4. That the Electors shall be the Vice-Chancellor, the Provost of King's College, the Master of Trinity College, the Master of St John's College, the Master of Christ's College, the Master of Caius College, the Public Orator, and the Greek Professor.

5. That the Examination shall be exclusively Classical, and shall commence in the last week of January, at the same time as the Examination of the Candidates for the other University Scholarships.

6. That the Porson Scholar shall reside during the major part of every term, unless prevented by sickness or other cause to be approved of by the Vice-Chancellor and a majority of the other Electors.

7. That the Porson Scholar shall not hold any other University Scholarship; and that he shall vacate his Scholarship at the expiration of three years and a half from the Christmas-day preceding his election, so as to be entitled to Seven half-yearly payments.

TYRWHITT'S HEBREW SCHOLARSHIPS.

THE REV. ROBERT TYRWHITT, M.A. late Fellow of Jesus College, who died in 1818, by his Will bequeathed £4000 Navy 5 per cents. for the promotion and encouragement of Hebrew learning, the mode and disposition of this bequest to be left to the University.

The Senate in 1818 decreed the foundation of three Scholarships, which decree was revised in 1826, and the number increased to six; this was again revised in 1836, when the following Regulations passed the Senate:

DECREE OF THE SENATE, *April 29, 1836.*

1.—THAT there shall in future be six Scholarships, called Tyrwhitt's Hebrew Scholarships.

2.—That the candidates for these Scholarships shall be, first, (*actualiter*) Bachelors of Arts or Inceptors who are not of sufficient standing to be created Masters of Arts; or secondly, Students in the Civil Law or Medicine, of not less than four or more than seven years' standing, who shall be required, before they are admitted to become candidates, to produce certificates from their respective Professors, that they have kept the exercises necessary for the degree of Bachelor of Law or Physic.

3.—That out of the net annual proceeds of Mr Tyrwhitt's Benefaction the sum of £150 be divided among the six Scholars, in the proportions hereinafter specified.

4.—That the electors to these Scholarships shall be the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, and two members of the Senate, to be nominated by the different colleges according to the cycle of Proctors.

5.—That if the Regius Professor of Hebrew, or the Professor of Arabic, or both of them, shall decline, or be prevented from examining, a deputy or deputies shall be appointed by a Grace of the Senate.

6.—That if it shall happen at any time, that two of the offices severally constituting electors are united in the same person, the deputy for the elector in respect of one of the said offices shall be

the Lord Almoner's Reader in Arabic; but if in any case the Lord Almoner's Reader shall decline the office of deputy examiner, or shall be prevented from undertaking the said office, a deputy examiner shall be appointed in his place by a Grace of the Senate.

7.—That if the Vice-Chancellor, the Regius Professor of Hebrew, the Professor of Arabic, or any two of them, shall be members of the same college, no elector shall in that case be appointed by that college according to the cycle of Proctors; but the appointment shall be made by a Grace of the Senate.

8.—That the appointment, when requisite, of an examiner or examiners by Grace of the Senate take place at the first Congregation of the Lent Term of the year, and that the examiner or examiners so appointed continue in office until the first Congregation in the Lent Term of the following year.

9.—That the examination for these Scholarships commence annually on the second Wednesday in May; and that persons intending to be candidates send in their names to the Vice-Chancellor on or before the first day of May.

10.—That two Scholars be elected in each year; that the first in the order of merit of these two, receive an annual stipend of £30, and the second an annual stipend of £20, for three years from the time of election. That in case of equality of merit the stipend of each be £25.

11.—That should it appear in any case to the majority of the electors that no one of the candidates is deserving of a Scholarship with the stipend of £30 a year, it shall be competent for them to elect one Scholar only, with the stipend of £20 a year.

12.—That in case there shall be a deficiency of deserving candidates for the two Scholarships in any year, the electors shall have power, in the second or third succeeding year, to elect additional Scholars into the vacancy, or vacancies, thus occasioned; after which time the stipends, belonging to the Scholarships which have not been filled up, shall be appropriated in the manner appointed in the next regulation.

13.—That the residue of the net annual proceeds of Mr Tyrwhitt's benefaction, not already disposed of by the third regulation, together with all accumulations which may arise under the twelfth regulation, shall form a fund to be expended in the promotion and encouragement of Hebrew Literature, at the discretion of the examiners, provided that not more than a third part of such fund be expended in any year.

14.—That the accounts of this Bequest be kept distinct from the general Accounts of the University, and be annually audited by the electors in Michaelmas Term before the first of November; and being so audited, shall be laid on the Registry's Table in the Senate-House at the next Congregation, for the inspection of the Senate.

15.—That these Regulations shall be in force until the first Congregation in Lent Term, 1842.

On *December 15, 1841*, the following Grace passed the SENATE :—
 "That the existing regulations of the Tyrwhitt's Hebrew Scholarships be continued."

The following Grace passed the SENATE, *May 8, 1842*:—
 "That the Examiners shall publish the names arranged in the order of merit, of such candidates as pass the examination with credit."

CROSSE SCHOLARSHIPS.

THE REV. JOHN CROSSE, late Vicar of Bradford in Yorkshire, left to George Buxton Browne, Esq. in trust, the sum of £2000 free of legacy-duty, for the purpose of founding three Theological Scholarships, "for promoting the cause of true Religion,"—to be

under the following Regulations: which were confirmed by a Grace of the SENATE, *Dec. 4, 1832.*

1.—That they be called “The CROSSE SCHOLARSHIPS.”

2.—That the Candidates for the same be Bachelors of Arts in the first year from their degree; and that such Scholarships be tenable till the Scholars attain the standing of Masters of Arts, viz. for three years.

3.—That the first Elections be so arranged as to make one of them vacant yearly for ever; and for this purpose, that at the first Election the persons elected be a Junior, a Middle, and a Senior, Bachelor.

4.—That the annual Examination and Election take place in the Michaelmas Term after the division of the said Term.

5.—That in case of any vacancy of a Scholarship before the person is of Master of Arts’ standing, that at the next annual Election a Bachelor of Arts of the same year with the Scholar so vacating be elected into his room.

6.—That the sum of £2000 proposed to be transferred to the University be vested in Government securities, in the name of The Chancellor, Masters, and Scholars, the annual interest arising from the same to be divided equally among the three Scholars.

7.—The Electors to be the Vice-Chancellor, the Margaret Professor of Divinity, the Regius Professor of Divinity, the Regius Professor of Hebrew, the Regius Professor of Greek, the Norrisian Professor of Divinity, and the Professor of Arabic.

8.—The Examination to turn upon a knowledge of the Holy Scriptures in their Original Tongues, Hebrew and Greek, of Ecclesiastical History, of the earlier and later Heresies, and such other subjects of useful enquiry, as may be thought most likely to assist in the formation of valuable Characters, fitted to sustain and adorn “the Cause of true Religion.”

MUIR PRIZE.

A PRIZE of £500 on the Refutation of Hinduism, and establishment of the exclusive Claims and authority of Christianity, given to the University by a gentleman of the Bengal Civil Service, was adjudged in 1848 to Rowland Williams, M.A., King's College.

¹ The electors were unanimously of opinion that the merits of *Dr. Proby*, of Trinity college, were very nearly equal to those of the successful candidate, and that *Dr. G. F. Maclear*, of Trinity college, acquitted himself in such a manner as to be deserving of special commendation.

LUMLEY EXHIBITIONS.

THE Right Honourable ELIZABETH, Viscountess LUMLEY, by a deed bearing date October 8, 1657, directed certain Trustees therein named, to pay and allow yearly to *ten* poor Scholars of the Universities of Oxford and Cambridge, educated in the School founded by her at *Thornton* in the county of York, or in default of such, to any other poor Scholars, not exceeding *ten* in number (subsequently reduced to *five*), who should be nominated thereto by the respective Convocations of the said Universities for the time being, the sum of £4 a year each, to be continued until they should have time to become graduates in one of the said Universities.

By an Order of the Court of Chancery, issued in the year 1820, it was directed that, in consequence of the increased rents these five Exhibitions should in future be £15 per annum each, and that the rents not called for should accumulate.

REGULATIONS

RESPECTING

THE UNIVERSITY SCHOLARSHIPS.

[*Confirmed by a Grace of the SENATE, 1817.*]

ON the last Saturday in November in every year there shall be a meeting at the Vice-Chancellor's of the electors to the Craven's and Davies's Scholarships, and of the *permanent* electors to the Pitt Scholarship, to consider whether any one and which of those Scholarships shall be then declared vacant; and the examination for such vacant Scholarship shall commence in the last week of January following.

At this meeting, of the Scholarships which shall have become *voidable* by non-residence, that shall be declared *vacant* which has been held for the longest time; provided that no one Scholarship shall have become *necessarily* void before the day of this meeting, in which case no other shall be declared vacant for that year.

When it is decided at this meeting which of the Scholarships is to be declared vacant, the rules pointed out by the founder for notice, examination, and election, (where any such rules are particularly prescribed by the founder), will be pursued, so as to bring on the examination in the last week of January. Where no such regulations have been prescribed by the founder, the notice of the vacancy is to be affixed to the door of the Public Schools, on or before the 1st of December; and the candidates are to deliver their Latin Epistles to each of the examiners, on or before the 31st of December, as in the case of the Pitt Scholarship; and all prior regulations made by the University, inconsistent with these, are hereby repealed.

206 UNIVERSITY SCHOLARSHIP REGULATIONS, &c.

With respect to non-residence, it is to be understood that the holders of the Craven, Davies's and Pitt Scholarships, shall, generally speaking, have such leave of absence, as will enable them to retain their Scholarships until the holder becomes senior Scholar according to the above regulations.

But in case of any instance of non-residence in the University, for one whole term, before the Bachelor's degree, the electors, at their meeting, shall have the power of declaring vacant the Scholarship of the person so non-resident in preference to that of the senior Scholar: if it appear to them that such non-residence is without sufficient excuse.

UNIVERSITY AND COLLEGE PRIZES.

THE prizes for the encouragement of literature, free and open to competition for the whole University, amount to upwards of £1,500, three-fourths of which are given for Classics and English Composition.

The amount of the annual prizes in the different colleges is about £800, more than half of which are given for the encouragement of Classical Literature.

REGULATIONS RESPECTING UNIVERSITY PRIZES, CONFIRMED BY GRACE OF THE SENATE, *March 23, 1855.*

1. That a Prizeman, desiring to have Prize Books stamped with the Arms of the University, shall be required to submit to the Vice-Chancellor the proposed Books, with an account of the cost, within six months after the Prize is adjudged.

2. That the Sum allowed to be expended in Books (including the cost of binding) shall not exceed Fifteen Pounds.

3. That the Vice-Chancellor shall be authorized, if he approves of the Books submitted to him, to permit the arms of the University to be stamped thereon, with the Name and Year of the Prize, and the Name and College of the Prizeman; such permission to be recorded in a book to be kept for that purpose.

The Syndicate further recommend that the first and third of the foregoing Regulations shall apply to those Money Prizes which are now directed to be laid out in Books, provided that in no case the cost of the Books (including binding) exceed the amount of the Prize.

PATRONAGE

IN THE GIFT OF THE UNIVERSITY.

WHEN a benefice becomes vacant, the senior Proctor declares the vacancy, and a candidate is chosen by the Senate. In regard to the vicarage of Burwell, the University, within four months after a vacancy, names two candidates, and the Earl of Guilford presents one of them to the Bishop of Norwich.

CRANE'S CHARITY FOR THE RELIEF OF SICK SCHOLARS.

JOHN CRANE, Apothecary in Cambridge, and M.A., died in 1654, and left by his Will money to buy an estate of £62 per annum¹, to be settled on the five corporations following, *viz.* the University of Cambridge, the towns of Wisbech, Cambridge, Lynn, and Ipswich². The rents to be received in order, and to be applied by the University in their turn towards the relief of Sick Scholars. The distribution to be made by the Vice-Chancellor, the Professors of Divinity, the Civil Law, and Physic, and the Chief Apothecary of the town. The Master of Caius college is requested to assist the Distributors. Meetings of the distributors, to consider and determine the claims of applicants for the benefit of this charity, take place on the third Tuesday of *May*, and the third Tuesday of *November*, in every year, and all applications of Scholars must be made by the Tutors of their respective colleges.

The Trustees wish it to be understood that they are willing to apply to the "Institution for Nursing Sisters," in London, for nurses to attend poor sick scholars and to pay their wages in case of necessity; applications to be made to the Vice-Chancellor for the time being, or to the Regius Professor of Physic.

For an account of the various charitable Institutions, &c. connected with the town of Cambridge, see the *Cambridge Guide*.

PERSE FREE GRAMMAR SCHOOL.

Trustees, The Master and four Senior Fellows of Gonville and Caius College.

STEPHEN PERSE, M.D., senior Fellow of Caius College, by a clause in his Will³, dated September 27th, 1615, bequeathed certain property in charge to his executors, to purchase divers grounds and tenements, to be applied, amongst other purposes, to that of erecting and establishing within three years (if possible), after his decease, a convenient house capable of containing one hundred Scholars to be used for a Free Grammar School, with apartments for a Master and Usher, who are required to be graduates in this University; the former a Master, the latter a Bachelor of Arts at least. The Scholars are to be natives of Cambridge, Barnwell, Chesterton, or Trumpington.

Every Scholar on admission pays *twenty shillings*, and to the Assistant Usher, *ten shillings* entrance, and *ten shillings* each

¹ The present rent of the estate is above 300*l.* per annum.

² The first payment was made about the year 1660.

³ A Copy of the Will is in Baker's MSS. Vol. xxvi. p. 131.

half-year, for being taught Reading, Writing, Arithmetic, and elementary Mathematics.

The age of admission is 10 *years*. No free Scholar is to remain longer than till the Midsummer Vacation next after he has attained the age of 18 years.

None but free Scholars are to be instructed in the School, *unless* with further sufficient help besides the present Master, Usher, and Assistant Usher; and then according to the direction of the Trustees.

A List of the Rules of the School, and of the Names of the Scholars, is kept in the School Room.

The School is examined annually at Midsummer, by two Masters of Arts appointed by the Trustees, and prizes are awarded according to merit.

In case of a vacancy in the place of a Master or Usher, preference is to be given to one who has received his education at the School.

Scholars educated three years at least at this School, are to be admitted (*cæteris paribus*), before all others, to the Perse Fellowships and Scholarships at Caius College.

In 1842 the old School-house was taken down, and new buildings were erected, comprehending a school-room, and houses for the Master and Usher.

ADDENBROOKE'S HOSPITAL

WAS opened in the year 1766, having been founded by JOHN ADDENBROOKE, M.D., formerly fellow of Catharine Hall. It was further endowed in 1813 by MR JOHN BOWTELL, late bookseller and stationer in Cambridge, and is supported chiefly by the voluntary contributions of the public. It contains upwards of one hundred beds.

Certificates of attendance on the practice in it are recognized by the University, by the Royal Colleges of Physicians and Surgeons, and by the Society of Apothecaries in London.

During Term Clinical Lectures are delivered weekly by the Physicians, and a course of Lectures on the Principles of Surgery by Mr Humphry, the certificate of attendance on which is received of Candidates for L.M.

THE UNIVERSITY LIBRARY.

THIS magnificent Library, containing at present more than 170,000 volumes, has been enriched at different times by royal and private benefactors, amongst whom the name of Thomas Rotheram, Archbishop of York, and Lord Privy Seal to King Edward IV., and the royal names of George I. and II. may be mentioned as pre-eminently distinguished.

The permanent sources of its increase are as follows :

1. The Copyright Act (8th of Queen Anne, 54th Geo. III. and 6 & 7 Will. IV.) under which this Library, in common with the British Museum, the Bodleian Library at Oxford, the Library of the faculty of Advocates at Edinburgh, and that of Trinity College, Dublin, is entitled to demand a copy of every book published in Great Britain.

2. The Rustat Fund, arising from an estate at Ovington in Norfolk. This estate was bought with the money given to the University in 1666, by Tobias Rustat, Esq. M.A. Yeoman of the Robes to King Charles II., to be laid out in land, the rents to be applied in the purchase of *choice* books for the Public Library, and the income of it is nearly £200 per annum.

3. William Worts, M.A. Fellow of Caius College, ordered by his Will that the annual surplus of the rents and profits of his estate at Landbeach, in this county, producing about £500 per annum, after the discharge of the other outgoings (*see* p. 170), should be applied to the use of the Public Library.

4. The Rev. John Manistre, M.A. late Fellow of King's College, lately bequeathed £5000, to purchase books. This sum has been invested, and produces the annual income of £150.

5. A quarterly contribution of one shilling and sixpence each from all members of the University, excepting Sizars, is likewise made for the support of the Library.

The great want of accommodation for books in the present Library, and of Lecture-Rooms for the Professors, had long been

complained of; and, as the University was not itself in possession of funds to supply these deficiencies, a subscription was set on foot, and above £20,000 were collected from Members of the University and others, who felt an interest in the undertaking. The funds raised by this subscription, however liberal, being no more than are requisite to the erection of one side of the proposed Court, the further completion of the design must rest for the present.

The Rev. T. HALFORD, M.A. of Jesus College, has invested in the hands of Trustees the munificent sum of £2000 for completing a second wing of the New Library, to which have been added for the same purpose the following subscriptions:

The Right Rev. The Lord Bishop of Durham	£100.
The Rev. B. Chapman, D.D. Master of Caius College	50.
Robert Moon, Esq. M.A. Fellow of Queens' College	100.
The Rev. J. Power, M.A. Librarian	50.
Edwin Guest, Esq. LL.D. Master of Gonville and Caius College	50.

The portion of the New Library, lately erected, is according to part of a design by Mr C. R. Cockerell of London, for an entire Court, which it is intended should occupy the whole site of the present Library and Schools.

The management of the Library is committed to the Librarian under Rules and Regulations enacted by the Syndics.

The Syndics are the Vice-Chancellor, and sixteen members of the Senate, four of whom in rotation retire every year, and their places are supplied by four other members elected by the Senate. They meet in the Library on every alternate Wednesday in Term time; and to them, or the major part, not less than five, of whom the Vice-Chancellor or his deputy, must always be one, full powers are committed for regulating and augmenting the same.

MEMBERS OF THE SYNDICATE FOR 1854—1859.

The Vice-Chancellor, The Master of St Peter's College, Mr Bateson the Public Orator, Mr Hardwick of St Catharine's College, Mr Hort of Trinity College, to continue until November 3, 1856. Dr Jeremie, Professor Willis, Mr W. G. Clark of Trinity College, Mr J. E. B. Mayor of St John's College, to continue until November 3, 1857. The Master of Jesus College, Dr Leapingwell of Corpus Christi College, Professor Challis, Mr Brown of Pembroke College, to continue until November 3, 1858. The Provost of King's, Dr Paget, Mr Reyner of St John's College, Mr Wolfe of Clare College, to continue until November 3, 1859.

RULES AND ORDERS OF THE UNIVERSITY LIBRARY.

Published by Authority, Nov. 1854.

I. *For Books allowed to be taken out of the Library.*

1. That no person shall be allowed to take Books out of the Library, but those who, having been admitted to the Degree of M.B., LL.B., M.A., M.D., LL.D., or D.D. have their names on the Boards of their respective Colleges, or are "Commorantes in Villa."

2. That no one shall take or borrow any Book out of the Library without first delivering a note for the same to one of the Library Assistants, expressing his Name and College in his own handwriting, the title of the Book, and

the year and day of the month on which such Book is taken or borrowed, on pain of forfeiting Five Pounds, or double the value of such Book, at the discretion of the Vice-Chancellor.

3. That the Library Assistants shall preserve all such notes, till the Books so taken out are returned to the Library; and that when all the Books specified in each note are returned, the notes shall be delivered up to the persons by whom the Books are brought back: when only some Books specified in each note are returned, the titles of the Books so returned shall be erased from the note at the time.

4. That no person shall be allowed to have in his possession at one time more than Ten Volumes belonging to the Library; but that the Syndicate will dispense with this Order in any particular case, if they shall be of opinion that sufficient reasons have been assigned for such dispensation: that such dispensation however shall continue in force no longer than to the end of the Quarter for which it shall be granted; but upon fresh application may be renewed by the same authority.

5. That every one who shall borrow or take any Book out of the Library shall return it thither again on or before the next of the Four following Quarter days: viz. March 25th, June 24th, September 29th, December 21st, under penalty of Two Shillings for every Folio or Quarto, and One Shilling for every Book of less size: all penalties to be repeated every fortnight till the Books be returned, or others of the same editions and equal value placed in their room, such fortnight being first reckoned from the day on which the Library is re-opened after the Quarter Day.

If any one of the Quarter Days should fall on a Sunday, or on any other day on which the Library is closed by Rule 27, the day appointed for returning Books shall be the following day.

6. That no Books shall be taken out of the Library on the days appointed for the return of Books.

7. That every Tutor of a College (being a Member of the Senate or a Bachelor of Law or Physic) shall have the privilege of obtaining, for each resident pupil, who shall have been admitted *ad respondendum quæstioni*, any number of Volumes not exceeding Five from the Library: that each order for the Volumes so obtained shall bear the titles of the Books, and be dated and subscribed as follows:

For M. N., B.A.,—College.

185

C. D. Tutor.

That the Books so obtained shall not be taken out of the Library till the day after that on which the Library is re-opened for the Quarter, and that they shall be returned not later than the day before the next Quarter Day.

That the Tutor shall be responsible for the Books so obtained and for the penalties prescribed by Rule 5.

8. That a list of the Books omitted to be returned at the end of any Quarter, together with the names of the borrowers, shall be suspended in some conspicuous place in the Library.

9. That no person, from whom any fine is due to the Library, shall be allowed to take out Books until such fine has been paid.

10. That if any Book be injured or defaced by writing while in the possession of any person taking it out of the Library, he shall be required to replace it by another Book of the same edition and of equal value.

Persons taking Books out of the Library are required to report without delay to the Librarian any injury which they may observe in them.

II. *For Books not allowed to be taken out of the Library without a note countersigned by the Vice-Chancellor.*

11. That certain printed Books, of which a list is kept by the Librarian, shall not be taken out except by a note countersigned by the Vice-Chancellor or his deputy, nor until the day after that on which the note

is presented; nor shall any person have more than five volumes of such Books out of the Library at one time.

12. That a register shall be kept of all such Books taken out of the Library, and of the date at which they are returned; that after the Books are returned, the Plates in them shall forthwith be collated, and the collation be registered; that until such collation shall have been made, the Books shall not be accessible to persons using the Library, nor shall the countersigned note be given up to the persons by whom the Books are returned, but in lieu of it an acknowledgment signed by the Librarian or one of his Assistants; that the name of the person by whom the acknowledgment is signed shall also be registered.

13. That the penalties for not returning such Books at the Quarter Days shall be double of the penalties prescribed in Rule 5.

III. *For Manuscripts and for Books not allowed to be taken out of the Library.*

14. That no Manuscript whatever shall be taken out of the Library without a Grace for its removal being obtained from the Senate; nor without a Bond given by the borrower to the Librarian to return it uninjured within a certain time, to be specified in the Grace, under the penalty of Fifty Pounds at least.

15. That a selection of the more costly Books, together with Books containing Collections of Prints or Drawings, shall be locked up in compartments or cases by themselves, and not be taken out of the Library on any account whatever.

16. That, except in the instances referred to in the next Rule, access shall not be allowed to such Books in the Library unless the Librarian or some one deputed by him be present. Also that the Librarian himself shall have charge of the Keys.

17. That with a view to retaining the free use of such Books to those who are desirous of consulting them for the purpose of study and who may wish to have access to them for a considerable time at one visit, the Librarian, if he see cause, may allow such persons to use the Books without the continued presence of himself or one of the Assistants.

18. That certain printed Books, of which a list is preserved by the Librarian, shall be always kept in the Library.

19. That persons desirous of referring to any particular Manuscripts or scarce printed Books shall apply to the Librarian, who, if he see cause, may allow such Manuscripts or Books to be consulted, but not in the compartments in which the Manuscripts or scarce printed Books are kept.

20. That parts of Periodicals, Works in progress, Pamphlets, Quarto and Folio Books of a few pages, single Sermons, &c. until such time as is proper for binding them, shall be kept in store rooms under such a system of management that they may be produced, if required, after a few minutes' notice on application being made to the Librarian by means of an ordinary Library note, so that persons to whose literary researches such works are necessary may consult them in the Library with the consent of the Librarian.

IV. *For admission to the Library.*

21. That except on the day when the Library is re-opened for any Quarter, those persons, for whom Tutors of Colleges are allowed under Rule 7 the privilege of obtaining Books, shall be admitted into the Library for the purpose of selecting their Books, or otherwise consulting the Library, provided they appear in their Academical Dress.

22. That except on the day when the Library is re-opened for any Quarter, Undergraduates shall be admitted to consult Books in the Library during the two last hours that it is open each day, provided they appear in Academical Dress.

23. That other persons, who are not Members of the University, shall be admitted into the Library only when accompanied by a Member of the University, who shall remain with them during the whole time they are in the Library; but they shall not be allowed to examine the Catalogues or to take down Books from the shelves: if accompanied by an Undergraduate, they shall be admitted only during the last two hours that it is open each day.

24. That the Library Assistants shall not be allowed to receive any gratuities.

V. *Admission of Persons not Members of the University, for the purpose of study and Research.*

1. "That the Syndicate, before granting such Permission to any Person, require and receive recommendations in writing from *two* Members of the Senate, each of whom shall separately state;

i. "That the Person recommended is well known to him, and that he is a fit and proper Person to receive such permission:

ii. "What the particular branch of Study is, for which the Person recommended wishes to consult the Library.

2. "That the names of the Members of the Senate, upon whose recommendation any such permission shall be granted, shall be placed after the name of the Person receiving the permission in a List to be suspended at the entrance of the Library.

3. "That such persons be permitted to use the Library between the hours of 10 and 2, except on any day on which the Library is first opened for the quarter, or on any day when the Library is closed for the quarter.

4. "That this permission shall not entitle the holder to have access to the lock-up cases.

5. "That this permission shall expire on the 20th of October of each year."

VI. *For opening and closing the Library.*

25. That for the purpose of allowing the Librarian sufficient time to inspect the Books, the Library shall be closed for the twelve days (excluding Sundays) immediately following Michaelmas day; and also for the two days (excluding Sunday) next after each of the Three other Quarter Days.

26. That the Library shall be closed on the following days, viz. Sundays, Christmas-Day, St Stephen's Day, the Circumcision, the Epiphany, the Purification, Ash-Wednesday, Good-Friday, Easter-Monday and Tuesday, Ascension-Day, Whit-Monday and Tuesday, the Queen's Accession (June 20), All Saints'-Day, November 5th, days which may be appointed by authority for Public Fasts or Thanksgivings, the days mentioned in Rule 26; and on no other days.

27. That the Library shall be open on Saturdays from Ten till One; and on other days from Ten till Four.

THE UNIVERSITY PRESS.

THE management of the University Press is committed by the Senate to Syndics, who meet to transact business in the Printing-office, and cannot act unless five are present, the Vice-Chancellor being always one.

On the death of the Right Honourable WILLIAM PITT, many distinguished personal friends of that statesman and admirers of his public conduct, entered into a subscription for the purpose of erecting some memorial worthy of his name.

By means of the funds thus raised, a marble statue of Mr Pitt, executed by Westmacott, was erected in Westminster Abbey; and another bronze statue of him, executed after a model by Chantry, has been more recently placed in Hanover Square, London. A large sum still remained unexpended; and the Committee at whose disposal the Funds were placed, desiring to employ the surplus in some mode that might contribute to the honour and usefulness of the University in which Mr Pitt had received his education, offered, with a noble liberality, to erect a building after a design by Mr Blore, which should form the front of the University Printing Offices, and be designated by the name of the PITT PRESS.

This munificent offer was accepted; and a large sum of money was expended by the University in purchasing the necessary site. The first stone of the New Building was laid in 1831 by the Marquis Camden, the chairman of the before-mentioned Committee, attended by the Earl of Clarendon, the Earl of Harrowby, Lord Farnborough, and Henry Bankes, Esq. M.P.; also Members of that Committee.

The edifice was completed in 1833.

Strangers and persons *in statu pupillari* are admitted to this Establishment on *Tuesdays, Thursdays, and Saturdays*, from Twelve to One o'clock, if accompanied by a Master of Arts.

THE FITZWILLIAM MUSEUM.

RICHARD, Viscount FITZWILLIAM, formerly of Trinity Hall, (M.A. 1764,) who died 5th February, 1816, bequeathed to the University his splendid collection of books, paintings, drawings, engravings, &c., together with the dividends or annual proceeds of £100,000 South Sea Annuities, for the erection of a Museum for their reception.

The dividends on the above-mentioned Stock having accumulated to a sum exceeding £40,000, the existing building was commenced on the 2nd of November, 1837, from the designs of George Basevi, Esq., and carried on under his superintendence until his death in 1845, when C. R. Cockerell, Esq., the architect of the Public Library and many other works, was appointed to succeed him, and to this gentleman are due the designs for the interiors of the Entrance-hall and Library; for which the late architect had left no drawings. In the course of the year 1847, it became evident that the available funds would not suffice for the entire finishing of the Hall, the farther works were therefore suspended for a period of years sufficient to allow of the accumulation of the requisite sum,

and the Pictures, Books, and other articles which comprise the Fitzwilliam Collection, together with the Mesman Collection described below, and other donations were removed into the new building, where they are now open for inspection.

The late Mr MESMAN bequeathed a valuable collection of Pictures to the University. His brother, the Rev. Mr Mesman (to whom they were bequeathed for his life,) having given up his life-interest in the bequest, the collection came into the immediate possession of the University. These pictures were for many years deposited in one of the apartments of the Pitt Press, but are now removed into the Fitzwilliam Museum. The collection amounts in number to 248 Paintings and 33 Drawings and Prints. Among the Painters are many very distinguished names, Vandyck, Schidoni, P. Brill, Ruysdael, Canaletti, Teniers, Gerard Dow, Cuyp, Wouvermans, Tintoretto, the Carracci, Holbein, L. Van Leyden, Castiglioni, Van Goyen, &c. &c. &c. The majority of the Pictures are of the Flemish and Dutch schools; and they are considered to be a very *genuine* collection of the masters whose names they bear.

On the 16th of April, 1850, JOHN DISNEY, Esq., F.R.S., F.S.A., of the Hyde, near Ingatestone, Essex, presented a valuable Collection of Ancient Marbles, eighty-three in number; and on the 29th of July, JOHN KIRKPATRICK, Esq., M.A. of Trinity College, presented a Collection of thirty-four first-rate Casts of Antique Statuary.

The Museum has been augmented by many other valuable presents of Paintings, Prints, Books, Statues, Models, and Curiosities; a list of which may be seen in the donation book.

REGULATIONS of the FITZWILLIAM MUSEUM.

A.

1. That the general management of the Fitzwilliam Museum should be entrusted to a Syndicate composed of the Vice-Chancellor and eight other members of the Senate, to be elected by Grace.

2. That of the said eight members two should retire by rotation on the day of division of the Michaelmas Term in every year, and that their places should be supplied by two other Members of the Senate, elected by Grace at the next ensuing Congregation, the retiring Members not being re-eligible at that election.

3. That the Order of rotation for retirement should be that of priority of election.

4. That in the case of a vacancy occurring in any year by the death of a Member or otherwise, a new Member should be elected as soon as possible to supply the vacant place, and that the person so elected should continue to be a Member of the Syndicate for the same period as that during which the person, whose substitute he is, would have continued.

5. That there should be at least two meetings of the Syndicate in every Term; and that four Members (the Vice-Chancellor or his deputy being one) be requisite to constitute a quorum; but that in cases of emergency arising at times when the Members of the University are for the most part absent from Cambridge, a smaller number be authorized to act, provided they be unanimous.

6. That the Syndicate should be empowered —

To provide generally for the care of the Building, and to direct ordinary repairs and cleaning :

To provide for the care of the Collection, and to make arrangements for the placing of the various articles at any time composing it :

In the case of presents being offered to the Collection, to decide whether they shall be at once accepted or rejected, or whether the question shall be referred to the Senate :

To carry into effect the regulations for admission ; and on special occasions to modify or suspend them :

To examine and audit the accounts of all receipts and disbursements ; it being distinctly understood that in any question of considerable or extraordinary expense, application shall be made to the Senate for its express sanction and authority :

In cases of misconduct or incompetency, to reprimand, and, if need be, to dismiss the Curators or servants ; but not without the concurrence of a majority of the whole Syndicate :

And to order generally all such things as shall be necessary for better regulating and securing the Museum ; it being understood that the Syndicate shall in especial cases decide whether the question shall be referred to the Senate :

Also should make an Annual Report to the Senate of the state of the Building and Collection, together with a statement of the accounts, and such other particulars as may appear to require notice.

B.

I. *For the Picture and Sculpture Galleries and Entrance Hall.*

1. The Museum shall be open for inspection every day (with the exceptions after-mentioned) from ten to four during the whole year ; and also, except on Saturdays, from five to half-past six from the first of May to the first of September.

2. Every Graduate of the University shall have admission during the whole time that the Museum is open, provided he appear in his academical habit.

3. Every Undergraduate shall have admission after twelve o'clock, provided he appear in his academical habit.

4. There shall be two days appointed in every week, namely, Wednesday and Saturday, which shall be called Public Days, upon which all persons respectably dressed shall be freely admitted between the hours of twelve and four, upon condition that, if required, they give their names and addresses. Children under fifteen years of age may not be admitted unless accompanied by older friends.

5. Every Graduate of the University may introduce any strangers or friends, provided he accompany them and (if strangers) remain with them during the whole time they are in the building.

6. Every Undergraduate of the University may, during the time that the Museum is open, introduce any strangers or friends who do not belong to the University, on delivering a ticket signed by himself and countersigned by the Tutor or Head of his College, containing the name and address of at least one of the party so introduced. He must also accompany the party and remain with them during the whole time they are in the building.

7. Any person desirous of copying the pictures must first obtain express permission from the Vice-Chancellor. Application for such permission shall be accompanied with a written recommendation from some Member of the Senate. The permission shall be granted by means of a ticket, signed by the person applying, and countersigned by the Vice-Chancellor, and specifying the time to which the permission shall extend; it being understood that copyists shall be subjected to rules hereafter to be prepared by the Managing Syndicate.

The bearer of such a ticket will be required to insert his signature in a book to be kept for the purpose; and, if a stranger, must be accompanied upon the first visit to the building by some Resident Member of the Senate.

8. The days upon which the building shall be closed to be the following:—Sundays, Christmas-day, Epiphany, Purification, Ash-Wednesday, Good-Friday, Ascension-day, and November 5. It shall also remain closed for the purpose of cleaning and verifying the state of the collection on the first Thursday of every month, or oftener if deemed necessary by the Managing Syndicate. Also on the day appointed for the annual inspection by the Syndicate.

II. *For the Library.*

9. The Library shall remain open during the same days and hours as the Museum.

10. Every Graduate of the University shall have admission to the Library for the purpose of consulting or examining its contents.

11. Any Undergraduate may obtain admission on the delivery of a ticket signed by himself and countersigned by the Tutor or Head of his College.

12. Every Graduate of the University may introduce any strangers or friends into the Library for the purpose of consulting or examining its contents, provided he remain with them during the whole time they are in the apartment. But the rule (4) for the admission to the Museum on public days, and the rule (6) for the admission of strangers by Undergraduates, shall not extend to the Library.

13. Any person who wishes to examine or copy the Prints or Manuscripts may apply for permission to do so in the manner prescribed in rule (7).

III.

14. Regulations for examining and copying the Pictures, Prints, and Manuscripts, as well as forms for the tickets required by rules (6), (7), (11), (13), shall be prepared by the Managing Syndicate.

15. No money shall be received from Visitors by any of the officers or servants.

C.

1. That there shall be three Curators of the Fitzwilliam Museum.

(1) The Curator of the Pictures, Sculptures, and Antiquities.

(2) The Curator of the Library.

(3) The Curator of the Building.

2. That the Curator of the Pictures, &c., shall remain in the galleries during the hours of exhibition, and shall be assisted by two other persons, one of whom shall remain in and about the south gallery, and the other in and about the north gallery and entrance-hall; the duty of all these persons being, not to explain the collection or conduct parties round the galleries, but to watch their respective departments.

3. That the Curator of the Library shall remain therein during the hours of exhibition, and his duty shall be to assist visitors, and generally to take care that the rules which may be hereafter drawn up for the management of the Library be observed.

4. That the Curator of the Building shall manage the admission of persons according to the rules laid down for that purpose, and shall attend to the warming apparatus, and generally to the care and cleaning of the building and fixtures. One servant shall be assigned to him.

The present Managing Syndicate consists of the following gentlemen:—

The Vice-Chancellor, the Master of St Catharine's College, Mr Searle of Queens' College, the Master of Downing College, Mr Gibson of Jesus College, the Master of Sidney College, Mr Cope of Trinity College, Mr Hopkins of St Peter's College, and Mr Besant of St John's College.

Curator of the Library—John Massey.

Curator of the Building—T. Smith.

Curator of the Pictures—Henry Shackle.

THE BOTANIC GARDEN

WAS founded by Dr RICHARD WALKER, formerly Vice-Master of Trinity College. The original site having become insufficient, the collection of plants has been removed to a new garden situated at the outskirts of the town, where a greatly enlarged space is appropriated to their cultivation.

This Garden is under the government of the Vice-Chancellor, the Provost of King's, the Masters of Trinity and St John's, and the Professor of Physic.

Curator—James Stratton.

THE CAMBRIDGE OBSERVATORY

WAS erected in 1822-4, after the designs of Mr J. C. Mead, of London, at an expense of upwards of £18,115. About £6000 of this sum was contributed by subscriptions, and the remainder was granted from the public chest of the University.

The principal instruments in the Observatory are a Transit Instrument of 10 feet focal length, by Dollond, a Mural Circle of 8 feet diameter, by Troughton and Simms, which was graduated on its pier; and an Equatoreal of 5 feet focal length with Declination Circle of 3 feet diameter, and Hour Circle of 2 feet Diameter, by Jones. The Transit Clock is by Hardy. There are also two other clocks, one by Molyneux and Cope, and one by Graham, with several smaller instruments, of which some have been purchased by the Plumian Professors according to the regulations of their foundation, and others have been bought by the University, or have been presented to the Observatory by individuals.

On Feb. 27, and March 18, 1829, Graces passed the Senate by which the former regulations for the appointment of the Assistants were revoked, and the following substituted. The Plumian Pro-

fessor (under whose superintendence the Observatory is placed) is authorised to appoint, with the consent of the Vice-Chancellor, one or two Assistant Observers, as he may see necessary; and they or either of them are removable from the office by the authority of the Plumian Professor with the consent of the Vice-Chancellor: and their annual salaries are to be determined by Graces of the Senate, and to be paid out of the common chest. The annual salaries of the Assistants are fixed by Grace at £70, when they enter upon their duties, and are afterwards increased. The salary of the senior Assistant is at present £110.

By the Grace of Feb. 27, 1829, it was also ordered, that on the first Congregation of November in each year, a Syndicate should be appointed by Grace of the Senate, who with the Plumian Trustees and the Plumian and Lowndean Professors, should visit the Observatory at least once in each Term; and should in the month of May (after inspecting the instruments, &c., with such Members of the Senate, and strangers distinguished for their knowledge of Astronomy, as the Vice-Chancellor and the Plumian Professor might invite to assist them) make a report to the Senate of the state of the Observatory, and the proceedings of the previous year.

The volumes of Observations made in the years 1828—1848, have been published (the expense of which was defrayed by the Press Syndicate,) and copies have been distributed to the principal Observatories and Academies in Europe, as well as to several private Observers.

The Observatory is open to members of the University and their friends every day (except Sunday), between half-past Twelve and half-past One. No stranger is admitted except in company with a Member of the University.

In the Spring of 1835, a magnificent telescope, of nearly twelve inches aperture and twenty feet focal length, made by M. Cauchoix of Paris, was presented to the Observatory by his Grace the Duke of Northumberland. His Grace at the same time intimated his wish to be allowed to present the telescope in a complete working state. A building was accordingly erected near the Observatory, with a revolving dome, twenty-seven feet in diameter, and the equatoreal mounting of the telescope was completed under the superintendence of the Astronomer Royal, late Plumian Professor.

THE ANATOMICAL MUSEUM.

THIS rich and interesting Collection, now placed in commodious buildings lately erected at great cost by the University, is under the care and superintendence of the Professor of Anatomy for the time being. It is used by him and by the Regius Professor of Physic for the illustration of their respective lectures. It originated in a small number of choice preparations which were pre-

sented to the University by Mr Lawrence. The Museum of the late Sir Busick Harwood was afterwards added to it by purchase : and further acquisitions were made at various times, with grants of money from the common chest, particularly on occasion of the sale of Mr Brook's Museum, and when a series of models in wax was executed under the direction of the present Professor at Florence and Bologna. From these sources, and from the donations of many friends of the University, this portion of the Collection consists of more than thirteen hundred specimens.

In the year 1836, the rare and valuable collection of Dr Macartney, Professor of Anatomy in Trinity College, Dublin, was purchased by the University. This consists of more than two thousand specimens, and is an acquisition by which the riches of the Museum have in every department, except the osteological, been more than doubled.

A descriptive Catalogue of the entire Museum is in course of preparation. It will distinctly record the names of each of the donors, or authors of the works, which it enumerates.

By a Grace of the Senate, passed Nov. 16, 1836, the Museum is at all times open to the Regius Professor of Physic; to the other Professors of Medicine or Natural Science, to Doctors and Bachelors of Physic, and to all Students attending the Lectures of the Regius Professor of Physic, and of the Professor of Anatomy, or of any of the above-described Professors, from *Eleven to Twelve* every day, with the exception of Sundays, Christmas-day, and Good Friday. It is also open to all Graduates, and to Visitors introduced by any Member of the Senate, from *Two till Three* on Tuesdays, Thursdays, and Saturdays.

The Museum is visited by the Vice-Chancellor, the Regius Professor of Physic, and one other Inspector appointed by the Vice-Chancellor, on some day in the Michaelmas Term previous to the 1st of November in each year, who examine and report upon its condition to the Senate.

THE GEOLOGICAL MUSEUM.

THE original collection in the Geological Museum consisted exclusively of those specimens, English and Foreign, which are described in Dr Woodward's Catalogues, printed in 1729. The English Fossils were bequeathed by him to the University ; and by a Grace of the Senate, dated Feb. 26, 1728-9, the Vice-Chancellor was empowered to purchase of his heirs, for a sum not exceeding £1000, the foreign fossils described in the above-mentioned catalogues. This purchase having been carried into immediate effect, the whole collection came into the possession of the University, and remains nearly in the same order in which the Doctor first arranged it. Two Graduates of the University are annually appointed to

inspect its condition, and their report is delivered on the 1st of May to the Heads of Houses, who form a board of Auditors under the provisions of the Founder's will.

This collection is now deposited in the north-eastern corner of the Museum, under the new wing of the Public Library. It not merely possesses a great historical value, as representing the condition of a progressive science during the latter half of the 17th century; but it contains such a large series of organic remains, with the locality of each British specimen carefully recorded, that almost every part of secondary geology may still derive from it very important illustrations. Out of respect to the Founder it is preserved in its original state, unmixed with the more recent additions to the Museum.

Professor Green added a few valuable organic remains to the Woodwardian cabinets: but Professor Hailstone, after his appointment, formed another distinct collection, composed of many rare and beautiful simple minerals, and of specimens illustrative of the physical structure both of the British Isles and of some portions of the Continent. In this labour he was assisted by the munificence of various friends of the University.

During the last thirty-eight years continual additions have been made to the collection; partly by the personal labours of the present Professor; partly by munificent contributions from Cambridge Graduates, several of whom are noticed in the Report of the University Commission; and partly by the purchase of specimens made from time to time, under the sanction of the Board of Auditors, out of the Woodwardian surplus fund. By such means a collection has at length been formed in the Museum, containing many thousand specimens of organic remains illustrating the natural history of the British rocks, from the newest beds above the chalk, to the lowest fossiliferous strata of Cumberland and North Wales. It contains also a noble series of many thousand rock-specimens collected by the present Professor from the various formations of the British Isles. The Museum also contains some good foreign collections, among which may be specified, (1) A miscellaneous series of many thousand fossils, purchased (in 1840) of Count Münster; (2) A good series of organic remains from the Muschelkalk; (3) A series of specimens, illustrating the tertiary geology of France, partly collected, and partly purchased by the present Professor.

All the palæontological collections added to the Museum during the last thirty-eight years have been excellently arranged and classified by Professor McCoy, and are open to the public; and his systematic and descriptive catalogue of the Palæozoic fossils is now published, along with an introductory Essay by the Woodwardian Professor. The Professor's course is given in the October Term in one of the rooms of the Museum.

To the previous description of the collection of specimens added from time to time to the Geological Museum we have now to add

(1) An excellent secondary collection, chiefly cretaceous, which was last year purchased of the Rev. T. Image, formerly of Caius College, out of a fund raised by subscription.

(2) A series of recent shells dredged up from deep water off the northern coast of Norway and off the western coast of Greenland, by L. Barrett, Esq. and presented by him to the Museum.

(3) A great and instructive series of Saurians of the Lias, presented by T. Hawkins, Esq.

(4) A very fine series of Palæozoic Fossils purchased of Monsieur Barrande and named after his descriptive catalogue.

The arrangement of the above additions is now in good progress, and before long will be, it is hoped, completed by the labours of Mr Barrett.

THE MINERALOGICAL MUSEUM.

THE Collection of Minerals formed by the late Dr Edward Daniel Clarke was purchased after his death by the University for the sum of £1500.

The Museum contains, besides many rare and fine minerals presented by the Marquis of Northampton, the Rev. C. Francis, J. Hibbert, Esq., and others, a very extensive and complete collection of minerals well adapted for the purpose of instruction, presented by Professor Whewell.

Soon after the completion of the Museum, Viscount Alford gave the University the rich collection of minerals and diamonds formed by the late Sir Abraham Hume, Bart. This collection is arranged in the Mineralogical Museum, but kept distinct from the rest of the minerals belonging to the University.

ST PETER'S COLLEGE.

(FOUNDED 1257.¹)

Copies of the Statutes in the British Museum; Old Statutes, MSS. HARLEY, No. 7032, p. 187. New,—No. 7046, p. 132.

THIS most ancient College or House was founded by HUGH DE BALSHAM, Bishop of Ely, for a Master and fourteen Fellows.

The Fellowships are open without restriction to natives of any part of the British dominions, but no one is eligible who is M.A. or of sufficient standing to take that degree. The Bishop of Ely appoints to the Mastership one of two candidates presented to him by the Society. The candidates must be Doctors or Bachelors of Divinity, and must be selected, if possible, from the Fellows on the foundation. Formerly, there could not be more than two Fellows of a county, (except of Cambridge or Middlesex); and seven Fellowships were confined to the northern, and seven to the southern division of England and Wales; but these restrictions were removed by letters patent which came into operation in June 1839.

One fourth part only of the Foundation Fellows are required to be in priest's orders. By Queen Elizabeth's licence, the five senior Clerical Fellows may hold any livings with their Fellowships, provided they are not more than £20 in the *Liber Regis*, and within 20 miles of the University of Cambridge. The bye Fellowships, which are perfectly open and unrestricted, are distinct from the former: the possessors of them are not entitled to any office or voice in the affairs of the College. Two, founded 1589, by Andrew Perne, D.D. Two, 1601, by Lady Ramsay. And four, 1637, by Thomas Parke, Esq.

Two Fellowships of about £70 per annum each, and four new Scholarships of £30 per annum each, have recently been added to the College, from the donation of the Rev. Francis Gisborne, M.A. late Fellow of St Peter's.

This foundation bears the name of the donor. The two Gisborne Fellowships are tenable for seven years, and any person may be elected from either of them into a foundation Fellowship before he is of standing to take his M.A. degree. Any candidate for a Gisborne Fellowship must have been either a scholar of this

¹ The date of the Charter is A.D. 1294.

foundation, or a scholar of the College. These Fellowships are vacated by marriage, or by the possession of any permanent income amounting to £250 per annum.

The rest of the Scholarships, fifty-eight in number, of different value, are paid in proportion to residence. A few of them are in the patronage of Lord Melbourne, and preference is given to scholars from Hertford School. There is an exhibition from the Company of Cloth-workers, and one from the Ironmongers. The Society elect one sizar annually, after an examination at the beginning of the October term. The candidates must be in the first year of their residence, and must have been previously admitted as pensioners.

Annual Prizes are given, together with the vacant Scholarships, to those who are most successful in the Midsummer Examination. A deserving candidate may obtain more than one Scholarship at the end of his first year, and may also be elected to others at the end of his second and third years.

CLARE COLLEGE.

(FOUNDED 1326.)

Copies of the Statutes in the British Museum, New Mss. HARLEY, No. 7932, p. 319. Old,—No. 7041, p. 53. New University Library, Mss. MM. 3. 5.

THIS very ancient College, founded by Lady ELIZABETH, sister and co-heir of GILBERT, Earl of CLARE, consists of a Master, ten Senior or Foundation Fellows, nine Junior, and three Bye Fellows, besides Scholars, Students, and Foundation Servants. All these Fellowships, with the exception of the three Bye-Fellowships, are perfectly open to all persons who are Bachelors of Arts, or of a higher degree, no one being superannuated, or incapable of being a candidate on account of age or length of standing in the University. An election must take place within ten weeks and three days after a Fellowship has become vacant. The electors are, the Master, Senior and Junior Fellows; and, in case there be an equal division, the Master has the casting vote. The Master is elected by the above-mentioned Fellows within eleven days after a vacancy is known, and a candidate must be either a Bachelor or Doctor in Divinity. The Seniors must all profess the faculty of Divinity except two, who, with the consent of the Master and major part of the Fellows, may practise Law and Physic. Six of the Seniors must be in Priest's Orders.

The nine Junior Fellowships were founded by different benefactors, (*viz.* three by Lord Exeter in 1612, two by John Freeman, Esq. in 1622, and four from the estates bequeathed to the college by Joseph Diggons, Esq. in 1658). Of these, two may be held by laymen, the other seven require Priest's Orders after a certain standing. They enjoy the same privileges as the Seniors.

The Three Bye Fellows have no voice in any college business, can hold no college office, and are incapable of being ever elected into any other Fellowship. They are obliged to take Priest's Orders within seven years after they are Bachelors of Arts. Two of these Fellowships, founded by Mr Philpot, are appropriated to natives of Kent, with a preference to those born in the hundred of Blackheath. The third was founded by Mr Borage, for his name and kindred, or a Norfolk or a Norwich man. This Fellowship is not tenable by a Non-Regent Master of Arts.

SCHOLARSHIPS.

The Scholarships at this College are as follows:

Four, of £50 per annum each with a weekly allowance in the butteries of 3s. 3d. during residence.

Four, of £20 per annum with an allowance of 3s. 3d.

These eight are so arranged that one on each foundation shall be vacant every year.

There are also,

One founded by Sir John Trott, value £20 per annum, and tenable till M.A.

One founded by Mr Ralph Scrivener, value about £14 per annum.

Two by Mr Cave, appropriated to Scholars from Wakefield School, value one guinea each per week during residence.

One by Alexander Metcalfe, appropriated to a Scholar from Hull School, value 12s. per week during residence.

One by Benjamin Cherry, Esq. of £40 per annum, appropriated to natives of Hertford; or in case of there not being a candidate from thence sufficiently qualified, open to general competition.

One by the Rev. J. Hinman, formerly Fellow, of £40 per annum, with a preference *cæteris paribus* to natives of Rutland.

Besides these there are upwards of thirty other Scholarships, varying in value from two to six shillings per week, and being allowances in the butteries during residence.

The Examination for Scholarships takes place in January at the same time as the Senate-House Examination for the degree of B.A.

EXHIBITIONS.

Three of £30 per annum each.

Three of £20 per annum each.

These six are open to Freshmen only, and are so arranged that one of £30 and one of £20 shall be vacant every year, to be given to the first and second in Mathematics at the May Examination, provided they are considered by the Examiners as sufficiently deserving.

Four of £24 per annum each, founded by Archdeacon Johnson, with a preference to persons educated at Oakham and Uppingham Schools.

ANNUAL PRIZES.

ONE of ten pounds, left by Mr Greaves of Fulbourn, to any Bachelor of Arts (not a Fellow) of the college who shall compose the best Dissertation on the character of King William III. It must be sent to the Master on or before Michaelmas-day, with the name under seal in the ordinary manner. This prize was adjudged last year to Ds Lloyd.

Two silver cups, with appropriate inscriptions, value £6 each, left by Dr Robert Green, of Tainworth; the first as the reward of regularity of conduct, the second of general learning. In the present year the cup for regularity has been awarded to Ds Brunyee, that for general learning to Ds Abram.

Prizes are given for the best declamation and theme; and to the best reader in chapel.

There is also an annual examination about the division of the Easter Term, when two prizes of £20 and £10 respectively are given to the first and second man in Mathematics in each year if considered sufficiently deserving. Also a prize not exceeding £10 to the first man in Classics, of the second and third years, provided they pass their examination with credit. In addition to the above, prizes in books, bearing the college arms, are given to all such as may be thought deserving.

PEMBROKE COLLEGE.

(FOUNDED 1347.)

THIS College was founded under the name of VALENCE-MARY, by Mary de St Paul, the widow of Aymer de Valence, Earl of Pembroke; and King Henry VI. was so liberal a benefactor to it, as to obtain the name of a second Founder.

There are *fourteen* Foundation Fellowships open to persons of every *nation*, and unrestricted as to counties, except that in the election to that Fellowship which was established by Archbishop Grindal, formerly Master of the College, a preference is given to a Scholar educated at St Begh's School in Cumberland.

Although there may be no Fellowship vacant, yet a candidate is never considered as superannuated.

When more than twelve of the Fellowships are filled, six of the Fellows must be in Orders; when less than twelve are filled, four of the Fellows must be in Orders.

There are also *two* Bye-Fellowships, one founded by William Smart, Esq. of Ipswich, with a preference for the Scholars on his own foundation in this College; the other founded by Benjamin Lany, D.D. formerly Bishop of Ely and Master of the College.

The Scholarships belonging to the College are,

Six Foundation of the yearly value of £28 each.

Three, founded by Archbishop Grindal, of the yearly value of £28 each, for Scholars educated at St Begh's School.

Eight Greek, seven founded by Thomas Watts, D.D. formerly Archdeacon of Middlesex, and the other by Thomas James, Esq. Of these the four Senior Scholarships are of the yearly value of £20 each, and the four Junior of the yearly value of £16 each.

Six others, two founded by William Smart, Esq., and four by Ralph Scrivener, Esq. of the yearly value of £5 each, with a preference for those who have been educated at the Grammar School at Ipswich.

*Three*¹, founded by William Moses, who presided over the College during the time of the Commonwealth, of the yearly value of £50 each.

¹ These three *open* Scholarships have been placed by an order of the Court of Chancery at the disposal of the College in lieu of its interest in the *class* Exhibitions, which were founded by Sergeant Moses for Scholars coming to the College from Christ's Hospital.

*One*¹, founded by William Stuart, D.D., formerly Chancellor of the Diocese of Exeter, of the yearly value of £20.

*Three*², founded by Charles Parkin, M.A., formerly Rector of Oxburgh in Norfolk, of the yearly value of £40 each.

One, also founded by Mr Parkin, of the yearly value of £60, for a Scholar coming to the College from the Free School of Bowes in Yorkshire, and having previously been two years at least at that School. When there is no properly qualified Candidate from the School, this Scholarship is at the free disposal of the Master of the College.

The Exhibitions belonging to the College are—

One, of the yearly value of £70, founded by Mr John Holmes, for a Scholar educated at Blackrode School in Lancashire. This Exhibition is given by the Governors of the School, and the Scholar who holds it also receives from the College an additional Exhibition, the gift of Mr Warren, formerly a Blackrode Scholar, of the yearly value of £5.

One, of the yearly value of £6, founded by Roger Long, D.D., formerly Master, for a Scholar appointed by the Master to keep the key of the room in which Dr Long's sphere is placed.

Besides the above there are other Exhibitions, given to the College by Robert Mapletoft, D.D., formerly Master, and by others, to which the College have made such an addition that *three* Sizars may have £12 each yearly.

The enjoyment of one Scholarship or Exhibition does not preclude a deserving person from holding others *on different Foundations*.

There is an annual Examination at the division of the Easter Term, when prizes in books are given to the best proficient in each year.

A prize of books is also given annually to the author of the best Compositions in Latin Verse and Prose.

GONVILLE AND CAIUS COLLEGE.

(FOUNDED 1348.)

THIS College, originally styled Gonville Hall, was founded in 1348, by EDMUND GONVILLE, son of Sir Nicholas Gonville, rector of Terrington, in Norfolk, and endowed for a Master and three Fellows. The original site was between Free-School Lane and the churchyard of St Botolph's.

The name of the College and its situation were both changed by William Bateman, Bishop of Norwich, whom Gonville had appointed to be his executor. In 1353, Bateman established the College where the Gonville Court at present stands; and previously to this removal he had changed Gonville's statutes for statutes of his own, and altered the name to the "Hall of the Annunciation of Blessed Mary the Virgin." Thus, and by certain endowments, he made himself a SECOND FOUNDER.

The revenues were afterwards increased by various Benefactors.

In 1558, JOHN CAIUS, M.D., the THIRD FOUNDER, obtained the Royal Charter by which the former Foundations were all confirmed, and his own foundation was established. By this charter the College was thenceforward to be called GONVILLE and CAIUS College.

FELLOWSHIPS.

There are now *twenty-nine* FELLOWSHIPS¹. Twelve of these are called Senior Fellowships: viz.

THREE, of the old Foundation, open without restriction as to profession or place of birth.

ONE, by Dame Mary Pakenham, founded in 1393, open to natives of all counties.

ONE, by Stephen Smith, Rector of Blo' Norton, in 1478, for one in priest's orders.

ONE, by Mrs Elizabeth Clere, in 1487, for one in priest's orders, born in the Norwich diocese.

ONE, by the Lady Ann Scroope, in 1502, for one in priest's orders, born in the Norwich diocese.

ONE, by Thomas Willowes, in 1503, for one in priest's orders.

ONE, by John Bayly, D.D., in 1534, for one studying Theology or Medicine.

THREE, by Dr Caius, in 1558, for two studying medicine and one studying Theology, for natives of Norfolk.

¹ A bequest has recently been made to the Col. for founding a thirtieth Fellowship. The arrangements by the late Rev. S. C. Smith, Rector of Denver, respecting this are not yet completed.

The government of the College is vested in the Master and these *twelve* senior Fellows.

The other Fellowships are as follows:

ONE, founded by Dr Wendy in 1559.

SIX, founded by Mrs Joyce Frankland in 1586, open without restriction as to profession or place of birth.

ONE, by Mr Matthew Stokys, Fellow, by will, dated 1631, for one in priest's orders.

SIX, by Stephen Perse, M.D., by will, dated 1615; open without restriction as to profession or place of birth; but with a preference in favour of his own Scholars.

THREE, by Mr Bartholomew Wortley, Rector of Bratton Fleming, N. Devon, in 1742. To one of these N. Devon has a claim; another is confined to Norfolk.

SCHOLARSHIPS.

The SCHOLARSHIPS in the gift of the College were founded by Dr Caius, Mr Willows, Mrs Frankland, Mr Stokys, Dr Perse, Mr Sigo, Mr Gale, Mr Atkin, Mrs Hore, Mr Hewet, Mrs Trapps, Dr Bisby, Abp Parker, Mr Willison, Mr Cutting, Dr Harvey, Dr Branthwaite, Dr Gostlin, Bp Cosins, and Mr Stockton. They are as follows:

Three of £54 a year. (Two confined to Norfolk, One open.)

Three £36

Six, Perse, £30 together with the option of rooms, rent-free, in the Perse Building.

One.....£28 a year.

One.....£22

Two.....£20 One of these, which was founded by Mr Mickleburgh, is given annually for proficiency in Chemistry.

Twenty.....£20. 6s. 8d. Three of these are given for proficiency in Anatomy and Physiology; and five of these scholars have rooms in the Caius Court, rent-free, except a small reserve.

Two.....£13. 6s. 8d.

One£12. 15s. 8d.

One£12. 1s. 8d: with rooms in the Gonville Court, rent-free, except a small reserve.

Four.....£10 each (for natives of the City of Norwich.)

One.....£8.

The annual stipends of the Scholars receive a small augmentation from the Tancred bequest.

The Scholarships are held in general till the Lady-day after B.A. degree; but, if a Scholar obtain certain honours in the examinations for B.A. degree, he retains his Scholarship either until he is elected into a Fellowship, or until the Lady-day previous to his taking the degree of M.A.

Elections to Scholarships and Exhibitions are made by the Master and Senior Fellows in the month of June. They are guided in the election by the joint results of the two examinations, in Classics and Theology, and in Mathematics, in the first or second year of the student's course; or by his progress in study at a later period.

EXHIBITIONS.

The EXHIBITIONS are eighteen in number. They may be held either by Scholars or by others.

THREE, on the Wortley foundation, each £18 per annum.

The appointment to these is made by the Master.

FOUR, on the Peters' Foundation, each £20: to which the Master presents. They are tenable for a year after the B.A. degree.

THREE, founded by the College, £10 each.

FOUR, founded by Dr Belward, who died 1803, each £14, (the appointment to be made by the Master,) for Students, being Norfolk men, and in need. They may be held until the time of taking the degree of M.A.

ONE, by Dr Moss, £5 per annum, in the gift of the Master: to be held until the exhibitor is Master of Arts.

ONE, by Bishop Gooch, in 1750, £4; in the gift of the Master.

ONE, by Mr Parham, in 1711, £6.

ONE, by Mr Fairclough, 1689, of £5.

These Exhibitions, with the exceptions specified, are held until the Lady-day subsequent to the degree of B.A.

TANCRED STUDENTSHIPS.

There are also connected with the College:

FOUR STUDENTSHIPS in Medicine, founded by Christopher Tancred, Esq. each of the annual value of £113. 8s.

The Candidate who is elected to one of these Studentships is obliged to enter at this College within a month from the time of election; or to remove hither, if he be a member of any other College.

These Students are required to take the degree of Bachelor in Physic as soon as they are of sufficient standing for the same; and they may hold the Studentship for three years after their degree. Those therefore who are elected previous to admission at any College, can hold them eight years. The electors to these Studentships are, the Masters of Caius and Christ's Colleges, the President of the College of Physicians, the Treasurer of Lincoln's Inn, the Master of the Charter-House, and the Governors of Greenwich and Chelsea Hospitals. The Trustees hold their meetings at Lincoln's Inn, on Wednesday in Whitsun-week, and on the Wednesday after St Martin's day¹.

HARROW SCHOLARSHIPS AND EXHIBITIONS.

TWO SCHOLARSHIPS, founded A.D. 1830, by John Sayer, M.A., Barrister-at-Law, and formerly a Senior Fellow of the College, of the annual stipend £52. 10s. The Scholars are elected by the Governors of Harrow School, and proceed to this College.

TWO EXHIBITIONS, founded at Harrow School, by John Lyon, A.D. 1590. Each exhibitor at present receives £10 yearly, for four years.

¹ Information respecting vacancies, and the mode of application, may be obtained from B. J. L. Flete, Esq., New Square, Lincoln's Inn.

LECTURES.

In subjects of the Mathematical course Lectures are given to the Students of each year daily; in the Classical and Theological subjects fixed upon, twice or thrice in the week; there are also three Lectures in the week for practice in Composition.

A Course of Lectures in Moral Philosophy is given to the Junior Sophs by the Catechist each year in the Easter Term.

Lectures in Hebrew are given by the Hebrew Lecturer.

The Medical Lecturer, whose office is to direct the studies of declared 'Medical Students,' gives Examinations in the subject of the Professor's Lectures, and once a year he gives a course of Lectures on Medical Jurisprudence.

The Sadlerian Lecturer gives a Course of Lectures on Algebra each year.

EXAMINATIONS, ANNUAL PRIZES, &c.

The Examination in Classics is held at the end of the Lent Term. The Mathematical Examination takes place about the division of the Easter term. After each of these examinations prizes, in books, of five and three guineas value, are given to the first and second of the Junior Sophs; and, of the same value, to the first and second of the Freshmen. There is also an examination in Theology at the end of the Lent Term, when prizes, in books, of £3 and £2 value, are assigned to the first and second, both of the Junior Sophs and of the Freshmen.

The Senior Sophs are examined at the end of the Lent Term and at the division of the Easter Term, in the Theological subjects appointed for their B.A. degree; and prizes, in books of £3 and £2 value, are given to those who are placed first and second.

There is an Examination in Moral Philosophy also, about the division of the Easter Term, for the Junior Sophs; the first on the list made in the order of merit obtains £10. In 1856 awarded to Fosbery.

An Examination in Anatomy and Physiology is held at the beginning of May. To the student who after his seventh term displays the greatest proficiency is assigned one of the Caiian Scholarships, tenable for three years. All the Medical Students are required to pass this Examination between their seventh term of residence and the period of taking the B.M. degree. The Scholarship in 1856 was awarded to E. C. Willis.

The Examination in Chemistry takes place about the same time. Medical Students must pass this examination before the degree of B.M. The Student who answers best obtains the Mickelburgh Scholarship, and holds it for one year. All Students who have not entered on their sixth year are eligible to this Scholarship. Bachelors of Arts may be candidates in the next two examinations after their degree. In 1856 the Scholarship was adjudged to Liveing.

The Thruston speech, upon the progress of Medicine since the time of Dr Caius, is made on May 11, at Dr Wendy's commemoration. The speaker is presented with the sum of £18; he is chosen by the Master and Fellows out of the Medical Graduates, the appointment being made in rotation according to seniority

among the Doctors in Medicine. If there be none of that Degree who have not had the appointment, it is given to the Licentiate or Bachelor of Medicine who presents the best English Essay on a Medical subject proposed by the College in the preceding October.

The Wortley Speech, on some literary or philosophical subject, is delivered on Feb. 23, the commemoration of Mr Wortley, by one of the Fellows on his Foundation.

The Tancred Speech, in Latin, in perpetual remembrance of the foundation, is delivered annually on October 21, by one of the Tancred Students.

PLATE to the value of £10, the gift in 1774 of Dr Schuldham, is awarded each year to one judged worthy amongst the commencing Bachelors of Arts.

TRINITY HALL.

(FOUNDED 1350.)

Copies of the Statutes in the British Museum.

MSS. HARLEY, No. 7029, p. 385.

AT this College, at which the Study of Common and Civil Law is encouraged as well as that of the usual University Subjects, there are, in all, thirteen Fellowships, open to all her Majesty's subjects, wheresoever born, without restriction. Bishop BATEMAN, the founder and noble benefactor of this institution, originally intended to have founded twenty fellowships; but dying before the designed foundation was completed, (*viz.* A.D. 1355, at Avignon,) his legacy was only deemed sufficient for the maintenance of a Master, three Fellows, and two Scholars. The remaining Fellowships were founded by the following Benefactors:—Two by Simon Dalling; three by Bishop Nix; one by Robert Goodnape; one by Dr Hewke; one by Dr Mowse; and one by the College. Of the above Fellows, who are on a footing of perfect equality, it is usual that ten should be laymen, and two in holy Orders. Graduates in Arts, not of less standing than within one year of the time of incepting as M.A., and Students of three years' standing in Law, are eligible.

Horatio Goodbehere, in the year 1821, left to the College, subject to a life interest, funded property now producing upwards of £100. per annum, for the purpose of founding a Fellowship. The Society, on coming into possession of the property in the year 1849, determined to apply these funds, augmented by the College, to the foundation of a Clerical Fellowship, subject to residence for a certain part of each term. The Goodbehere Fellow may be elected into either of the other Clerical Fellowships, his admission into such vacating the Goodbehere Fellowship; he may also be appointed to College Offices and presented to livings. Any Graduate in Arts or student in Law who has performed the exercises for the LL.B. may be a candidate for this fellowship.

LAW STUDENTSHIPS.

Some Law Studentships of the value of £50 per annum, were established by the College in the year 1849, tenable for two or three years, as the Society may determine. Graduates in Arts and also Students of Law who have kept their terms and performed the exercises requisite for the LL.B. degree, are eligible to these Studentships, provided they be *bona fide* prosecuting the study of the Law with a view to practising as barristers, or as advocates in Doctors' Commons. The election takes place soon after the publication of the Lists of Honours in the four University Triposes, and there will in general be at least one vacancy in every year.

SCHOLARSHIPS.

There are in all sixteen Scholarships, namely,

Three of the First Class of 50 guineas a year each;

Three of the Second Class of 30

Eight of the Third Class of 12

Two of £18 a year each founded by Dr Allen, with preference *cæteris paribus*—first, to founder's kin; secondly, to Scholars from the Free Grammar School at Richmond, Yorkshire; thirdly, to Scholars from any other School in Yorkshire; fourthly, to Scholars from the Norwich Diocese; and fifthly, to Scholars from the town or county of Cambridge.

The Scholarships are awarded according to merit to Undergraduates who distinguish themselves at the College Examinations in the Lent and Midsummer Terms of their first or second year, and are tenable during residence.

There is also an Exhibition, worth about £30 a year, to which the duties of Chapel Clerk are annexed, arising in part from a bequest of Sir George Oxenden, formerly Master of the College. This Exhibition is given away annually to one of the more distinguished of the Scholars; agreeably to the will of Sir George Oxenden, a certain preference is to be given, first, to the sons of Kentish Clergymen, secondly, to the sons of Clergymen in general.

The Scholarships were founded by the following Benefactors, and have been subsequently augmented by College grants: Two as above by Bishop Bateman; one by Simon Dalling; one by Mr Spicer; two by Bishop Niece; one by Lawrence Maptide; one by Gabriel Dunne; two by Dr Hervey; one by Archbishop Parker; two by Dr Bushby; one by Dr Mowse; two by Dr Allen.

CORPUS CHRISTI COLLEGE.

(FOUNDED 1352.)

The Statutes have been printed in Dr Lamb's edition of Masters' History of the College. A Copy is in the University Library. Mss. GG. 4. 8.

THIS College was founded by the benevolence of two Societies or GUILDS in Cambridge termed "GILDA CORPORIS CHRISTI," and "GILDA BEATÆ MARIÆ VIRGINIS:" there are twelve Fellowships: eight are open to all the Queen's subjects wherever born; two are appropriated to natives of Norfolk, and two to the Norwich Scholars on Archbishop Parker's foundation. All the Fellows are required to take Holy orders within three years after their election, and the degree of B.D. within eight years after that of M.A.

The Scholarships and Exhibitions are as follow: and, when it is not otherwise specified, are unappropriated and in the gift of the Master and Fellows.

* Four of £50, four of £40, and four of £30 a year, founded by Bishop Mawson. Of these, four are given annually to such Freshmen as most distinguish themselves in the College Examination. They are tenable for three years, and are payable weekly according to residence.

* Four of £25 a year, founded by Roger Manners, Esq. Two are given annually after the College Examination to two Junior Sophs. They are tenable for two years, and with any other Scholarships.

Eight of £18 a year, on the Old Foundation, payable at the rate of 10s. 6d. weekly during residence, except in the Long Vacation. Six of these are given as they become vacant to deserving Students of any year. Two are held by the Bibliotistæ, who are also Chapel-clerks and receive £10 a year each in addition to the Scholarship. One of the Chapel-clerks is required to be competent to superintend the musical part of the service.

§Two of £20 a year, founded by Dr Spencer, in the patronage of the Master.

* Scholars on these foundations are required to reside twenty-six weeks.

§ To these Scholarships one set of rooms is appropriated.

Three founded by Alice Caston; the names of Caston, Clench, Brownrig, and Amfield, to have a preference.

†Three founded 1567, two 1569, by Archbishop Parker; patrons, the Mayor and Aldermen of Norwich. The former are appropriated to men born at Norwich; the latter to natives of Norwich, Wymondham, or Aylsham, students of their respective schools.

†Three, 1569—The right of nomination belongs, 1st, To the Dean and Chapter of Canterbury, who are to appoint such sons of their Norfolk, Suffolk, and Lincolnshire tenants as are educated at the school of that city. 2dly, To the Dean and Chapter of Westminster, for students from Westminster School. 3rdly, To the Master and Fellows, for students from any seminary in the province of Canterbury. Value £20 a year.

†Two, 1569, patrons, the Master of Eastbridge Hospital and the Dean of Canterbury, appropriated to natives of Kent, educated at Canterbury School.

†One, 1574, patrons, the Mayor, and Aldermen of Norwich: appropriation the same as in the other scholarships of this patronage.

One, 1569, by John Mere, appropriated to a native of Cambridgeshire.

†Six, 1577, by Sir Nicholas Bacon, Lord Keeper: patrons, 1st, Heirs male of Sir Nicholas, with the advice of a Fellow sent by the College, and the Master of Redgrave School. 2dly, The Master and Fellows. Appropriation, 1st, To students from Redgrave School. 2dly, In default of such, to any students.

Three, 1580, by John Parker, Esq.; patrons of one, the Archbishop of Canterbury: of the others, the Master and Fellows. Appropriation, the Archbishop to appoint a native of Canterbury, from the School there; the Master and Fellows, natives of Aylsham and Wymondham, educated at their respective schools.

One, 1636, by John Borage, value £5 a year; the name and kindred of the founder to be preferred; in default of such, a native of Norfolk or Norwich.

One, 1659, by Edward Colman, value £20 a year; appropriated to one or more of the founder's name: in default of such, to four Scholars from Norwich and Wymondham Schools.

Two, 1677, by Archbishop Sterne, value £10 a year each; appropriated to natives of York and Mansfield; 2dly, To natives of the York Diocese.

Three, 1700, by Samuel Chapman, value 1s. a week.

Four, 1766, by George Sykes, value £10 a year each; appropriated to students from St Paul's School.

One, 1781, by John Stock, Esq., in the gift of the Mercers' Company; value £30 a year, with the accumulation during a vacancy, except £15 paid to the college; appropriated to a student from St Paul's School.

† To these scholarships nine sets of rooms are appropriated.

ANNUAL PRIZES.

Five silver cups, value five guineas each, the gift of Dr John Green, formerly Bishop of Lincoln, are awarded annually: one to that Bachelor of Arts who takes his degree with most credit; one to that Junior Soph or Freshman who makes the best Latin Declamation; and three to those Students who, in their respective years, pass the best Examination at the division of the Easter Term.

The Second and Third men also of each year obtain Prizes of Books, if considered deserving.

KING'S COLLEGE.

(FOUNDED 1441.)

Copies of the Statutes in the British Museum, Mss. HARLEY, No. 7323.—A Specimen in the University Library, Mss. BAKER, Vol. XXXII. p. 219.

THIS royal foundation consists of a Provost and seventy Fellows and Scholars; the latter are supplied by a regular succession from Eton College, which was founded and endowed about the same time by King HENRY VI. The Society of Eton now consists of a Provost, seven Fellows, and seventy Scholars; and the vacancies at King's for the last twenty years have averaged under four in the year. The time of electing scholars into the royal foundation of Eton, is about the end of July or beginning of August; at which time a general examination as to their proficiency in classics and mathematics takes place, before the Provost of each college, the Vice-Provost and Head Master of Eton, and two *posers* or examiners nominated by King's. After such examination the Scholars are placed in the order of their future succession to King's, and on a vacancy in the latter, they are admitted upon that foundation; and after the expiration of three years from the day of their admission, they are chosen ¹Fellows, or are no longer Members of the College.

Some peculiar privileges appertain to King's. The Provost has absolute authority within the precincts, and by special composition between this Society and the University, its undergraduates are exempt from the power of the Proctors and other University Officers, within the limits of the College.

ANNUAL PRIZES.

Dr COOKE (formerly Provost) left £6 to such scholar or scholars as shall be adjudged to have deserved well by application to their studies and general orderly behaviour.—Last year adjudged to Ward, Dupuis, and Coldham.

Dr GLYNN, in the year 1800, bequeathed £20 to be equally divided, towards the end of Easter Term, between such scholars of the College as have in the course of the year been most distinguished for learning and regularity of conduct.—Last year adjudged to F. Whitting and Shirley.

There are two £5 prizes for Latin Declamations, founded in 1786, by T. James, D.D., formerly Fellow.

There are also two £5 prizes for English Declamations, given annually by the College.

¹ This and Trinity Hall are the only colleges at which undergraduates can be elected Fellows. Here, however, they are obliged to take both Bachelor's and Master's degree in the University

when of sufficient standing, or otherwise they are not entitled to the full proportion of their dividends.

Books to the value of Five guineas are given by the College for the best translation of an English subject into Greek Iambics. Last year adjudged to F. Whitting.

A piece of plate of the value of Ten guineas is given annually by the College to such Bachelor as shall have most distinguished himself in the Mathematical and Classical Triposes. Last year adjudged to Ds Stone.

There are also two prizes of £5 each to the best readers of the Lessons in Chapel. Last year adjudged to Burnaby and Morton.

GEORGE RICHARDS, Esq., (formerly Fellow) bequeathed to the College in the year 1848 the annual sum of £50, "of which sum thirty pounds shall be given annually in his third year to such Scholar who shall have most distinguished himself in his own College and University in Divinity and Classics, and twenty pounds also annually in his third year to such Scholar who shall have excelled and passed the best examination in Mathematics, particular respect being had in both cases to moral and religious conduct." Last year adjudged to F. Whitting, for Classics and Divinity. No second Prize awarded.

Annual Examinations.

At the end of the Easter Term the Scholars are publicly examined in the Hall, and divided into classes according to their respective merits.

Books bearing the college arms, to the value of twenty pounds, are given to the three first scholars, in the classical and mathematical examination.

There is also an annual examination in Divinity; at which the three scholars, who are placed highest in the first class, and who have deserved well in other respects, receive prizes: provided by the yearly interest arising from the sum of £500 (given for this purpose to the College in the year 1832, by the Rev. Sir G. W. G. Craufurd, Bart., M.A., formerly Fellow), divided into three unequal portions.

QUEENS' COLLEGE.

(FOUNDED 1448—RE-FOUNDED 1465.)

The Statutes have been printed, for the use of the Society. Copies exist in the University Library, Mss. BAKER, XXXII. p. 241, also British Museum, Mss. COLE, XLVII. p. 357.

THIS College was founded in 1448 by Queen MARGARET of Anjou, consort of Henry VI., and refounded in 1465 by ELIZABETH WIDVILLE, consort of Edward IV.

The Society consists of a President and nineteen Foundation Fellows.

The President is elected by a majority of the existing Society, on the eighth day after a vacancy, and is required by the Statutes to be in Priest's orders, and a Bachelor of Divinity at least. He must also be possessed of property to the amount of £20 per annum if not a Fellow at the time of his election.

All the Fellows within four years from commencing B.A. must proceed to M.A.; those who are on the ecclesiastical foundation must, within two years from M.A., be in Holy Orders, and within nine years from M.A. proceed to B.D. Only two Fellows may remain laymen, who proceed to M.A. like the rest, and within twelve years from M.A. the one must proceed to LL.D. the other to M.D.

The Vice-President and the five Seniors hold their Fellowships with property; the others recede from the Society when possessed of a real annual income stated in the oath before admission. The five senior Divines may hold livings whose value in the King's Books does not exceed £20 per annum, provided they be within twenty miles of Cambridge.

A *Fellowship* was founded in 1694, by D. Edwards, gent. This may be held by a Layman, and is tenable with any property or preferment, except ecclesiastical to a certain amount.

SCHOLARSHIPS, EXHIBITIONS, &c.

The Scholarships, which were consolidated some years ago, have been again consolidated and augmented by college grants; and it has been agreed by the President and Fellows that there shall in future be at least 15 Scholarships, tenable till B.A., two of which may be £50 a year, two £40, and eleven £15. vacated *ipso facto* by non-residence of two consecutive terms.

These Scholarships are disposed of as follows:

To the five Freshmen who pass the best examination at the division of the Easter Term, provided they be considered worthy of such distinction, Scholarships of £15.

To the two Junior Sophs who pass the best Examination, provided as above, Scholarships of £40.

And to the two Senior Sophs who pass the best Examination, provided as above, Scholarships of £50.

It has been further agreed, that if there be any Students deserving of Scholarships besides those contemplated in this plan, they shall have supernumerary Scholarships; and that if any Students be deemed worthy of Scholarships of more value than those above mentioned, their Scholarships shall be augmented at the discretion of the President and Fellows.

The election to these Scholarships takes place on the 11th of October in each year, and one year's Scholarship is paid at the Christmas following.

The Society has also founded an annual Exhibition called the Penny White Exhibition, value £20, for the encouragement of classical learning. This Exhibition is awarded to that Undergraduate who passes the best examination in Classics at the Christmas examination, provided he be considered worthy of such distinction, and may be held with any other Exhibition or Scholarship.

¹Two *Sedgwick's Scholarships*, average £15 per annum, capable of increase to £20, but subject also to diminution; (sons of poor Clergymen to be preferred). Require residence of *whole* terms; vacated *ipso facto*, by non-residence of *two* terms.

¹One *Clark's Scholarship and Librarianship*, £15 per annum.

²One *Sandys' Exhibition*, £12 per annum.

The President has at his disposal funds to the amount of £120 per annum with which he assists poor and deserving Students.

EXAMINATIONS AND ANNUAL PRIZES, &c.

At the division of the Easter Term there is an Examination of the Senior Sophs, Junior Sophs and Freshmen, in Mathematics, Classics, and Theology. Prize-books to the amount of ten guineas are given to the best proficient in Mathematics of the Senior and Junior Sophs, and to the amount of six guineas to those Freshmen who pass the best Examination in Mathematics and Classics.

At the end of the Michaelmas Term there is an Examination of the Senior and Junior Sophs in Mathematics, and of the Senior Sophs, Junior Sophs, and Freshmen in Classics, at which additional prizes are given.

At the same time prize books to the amount of two guineas are given to that Undergraduate who passes the best Examination in a specified subject of Theology or Moral Philosophy.

The Subject for 1857 is Pearson on the Creed, Articles III, IV.

The Rev. Thomas Penny White, M.A. late Fellow of this College, founded in 1842 a prize of the value of £30 to be given to

¹ The Scholarships thus marked are in the sole appointment of the Master; the rest are in the appointment of the Master and Fellows present.

² This Exhibition was founded in 1840, by the Rev. J. Sandys, late Fellow of Queens' College, and is in his sole appointment.

that commencing Bachelor who has taken the highest degree, provided he be among the first four Wranglers, or among the first four in the Classical Tripos, and have kept seven terms at the College. The accumulations within certain limits are given to a Senior Wrangler or a Senior Classic. In 1857 three years accumulations were given to Ds Finch.

The Rev. D. Hughes, D.D. formerly Fellow and Vice-President of the College founded an annual prize of ten guineas for the best composition in divinity by a Bachelor of Arts.

He also founded two prizes of five guineas each, one for the best Latin, and the other for the best English Dissertation, by an Undergraduate who is not a Questionist.

ST CATHARINE'S COLLEGE.

(FOUNDED 1473.)

THIS College or Hall was founded by ROBERT WODELARKE, D.D., Chancellor of the University, and Provost of King's College, for a Master and three or more Fellows. Accordingly, the Visitors who were sent down to the University by King Edward VI. ordained that there should be then six Fellows, and that for the future there should be a greater or less number in proportion to the revenues of the College. The Fellows must be natives of England; and there cannot be more than two of the same county Fellows at the same time. Two of the Fellows at least must be in Priest's and one in Deacon's Orders. Whenever a vacancy occurs, the senior Fellow who is not in such Orders must take them in the course of a twelve-month, (unless a junior does of his own accord,) or he vacates his Fellowship.

There are also eight Bye Fellowships, founded by subsequent benefactors:—

One by Mr Frankland, which is appropriated to a person educated at Coventry School; and who is in other respects properly qualified. The Master and Fellows, who are the electors, are required by the Founder to have a careful regard to the recommendation of the Mayor and Aldermen of Coventry.

One by Mr Holway, which is called the Conduct Fellowship.

Six by Mrs Mary Ramsden, with a preference first to natives of Yorkshire, then of Lincolnshire; and in case no such candidates duly qualified offer themselves, these Fellowships are open to men of any county. Fellows on this foundation are not required to take Orders. All persons are ineligible to these Fellowships who are 28 years of age.

The Fellows on this foundation are called Skirne Fellows.

Mrs Ramsden also founded ten Scholarships, with the same preference to Yorkshire and Lincolnshire men. These Scholarships are now £35 per annum each, with chambers rent free.

Mr Frankland founded a Scholarship of £10 per annum, which is appropriated to a person educated at Tamworth School.

Mr Holway founded two of £6 per annum each, which are appropriated to persons educated at Eton, or Merchant Tailors' School.

There are also three Scholarships at £20 14s. 4d.;—three at £20;—eight at £18;—one at £5, one at £4, one at £6 13s. 4d., one at £5 6s. 8d., which are usually given as one Scholarship of £21;—three at £12; which are all perfectly open.

Bishop Sherlock founded the Librarianship, worth £20 per annum, with Chambers rent free. He also considerably augmented the salary of the Master's Sizar, the present value of which is £46 per annum, with Chambers rent free. The Chapel Clerk receives £11 per annum and Commons, with Chambers rent free.

ANNUAL PRIZES.

A prize, called the Corrie Prize, for the encouragement of the study of Theology, being the interest accruing from a sum of money subscribed by certain Graduates of the College formerly pupils of the Rev. Professor Corrie, late President and Tutor.

Books to the value of £5 are given on the Thursday preceeding the division of Easter Term, to the best proficient in classics on Mrs Ramsden's foundation. Last year the prize was adjudged to Burrow.

There is annually a Classical and Mathematical examination of the Junior Sophs and Freshmen at the division of the Easter Term, when prizes in books are adjudged to the best proficient in each year.

JESUS COLLEGE.

(FOUNDED 1496.)

At this College, founded by JOHN ALCOCK, Bishop of Ely, there are sixteen Foundation Fellowships, open to all her Majesty's subjects, without any restriction or appropriation whatsoever; five of the original foundation, four founded by Dr Fuller, Master of the College, and the rest by various benefactors. Six of the Fellows are required to be in Orders. On every vacancy of a Fellowship, the Master and Fellows nominate two candidates, of whom the Bishop of Ely elects one. To one of the Fellowships, however, founded by James Stanley, Bishop of Ely, the Bishop has an exclusive right both to nominate and appoint. The Mastership of this College is in the absolute appointment of the Bishop of Ely.

Mrs Sarah Jones, of Newport, Salop, bequeathed by her will, dated 21st February, 1825, the sum of £6000 in trust, the interest thereof to be paid to Mrs Mary Gregory during her life; and after her decease to be equally divided in three fellowships, to be founded at Jesus College, Cambridge, in memory of the Rev. Thomas Dummer Ley, late of Hingham, in the county of Norfolk, and formerly member of that College. Mrs Gregory died in August, 1837, and three Bye Fellowships, called "Ley" Fellowships, have, in conformity with Mrs Jones' bequest, been founded.

The Ley Fellows must be graduates of this University, and they cease to be Fellows upon this foundation at the expiration of 12 years from the time at which they were of sufficient standing to complete the B.A. degree.

If a Ley Fellow be elected upon the foundation of the College, the Ley Fellowship which he holds will become vacant upon his admission into the foundation Fellowship.

The following is a list of the principal Scholarships and Exhibitions, founded by different benefactors:—

Fifteen foundation, perfectly open, which are generally given to those who most distinguish themselves in the College examination at the division of the Easter Term. The Scholars are allowed their commons free during residence.

Four, £10 per annum each, appropriated to natives of Nottinghamshire and Yorkshire.

Fourteen, about £30 per annum each, for clergymen's orphans of all counties in England and Wales. These Scholars must be admitted before they have completed their nineteenth year. The possessors of these Scholarships, founded by Tobias Rustat, Esq. have an annual classical examination at the beginning of the Easter term, at which time, according to their respective merits, a gratuity

to each from £20 to £30 (in addition to the above sum) is given. The Visitors are, the Vice-Chancellor, the Provost of King's, the Master of Trinity, and the Master of Jesus; and in case of the non-attendance of any of these four, the Master of St John's (*a*).

One, £40 per annum, or thereabouts, to the son of a living clergyman, with preference to a native of Nottinghamshire or Lancashire, *cæteris paribus*. The possessor of this Scholarship is subject to the same examination and rules of residence as the Rustat, but receives no gratuity.

One, £15 per annum, or thereabouts, to the son of a clergyman, with preference to an orphan, equally open to all counties. Examination and rules of residence similar to the Rustat, but no gratuity.

Three, £8 per annum each, or thereabouts, open to all.

One, £2 per annum, open to all.

One, £10 per annum, or thereabouts, for a scholar from Doncaster or Arksay Free Schools.

Two, at present £50 per annum each, for persons educated at Seven Oaks and Tunbridge Schools.

Two, £16 per annum each, left by Dr Gatford, open to all clergymen's orphans, and tenable from the degree of B.A. to that of M.A.

One, £6 8s. 6d. per annum, for persons from Caistor, Louth, or Alford Schools, or to natives of Lincolnshire.

One, £3 6s. 8d. per annum, to a native of Lancashire, Hereford, Cumberland, or Essex.

One at present £30, or two £15 per annum, each; one to the county of Anglesea or Merioneth, the other to St Peter the Poor, or St Foster, in London.

One of £60, or two of £30 per annum, or thereabouts to persons educated at Loughborough School.

ANNUAL PRIZES.

Prizes of books, each to the value of £3 3s., for the best Latin and English Declamations.

Rev. Frederick Keller, formerly Fellow, left £20 per annum to one or more deserving Bachelors. Of this sum £10 in plate to the best proficient in Mathematics, if a Wrangler, this year adjudged to Ds Kindersley; and £10 in plate or books to the best proficient in Classics, if in the first class of the Classical Tripos. Last year adjudged to Ds Aikin.

Rev. Edward Otter, formerly Fellow, gave the dividend of one year's Fellowship, which, increased by the college, forms a Divinity prize of £21 open every two years to Bachelors.

There is an annual examination of the Senior Sophs, Junior Sophs, and Freshmen, about the division of the Easter Term, when prizes of books are given to the best proficient in Classics, and in Mathematics, in each year.

The Master and Fellows intend to grant to six deserving students of the College, additional rewards in the form of money payments not to exceed £12 per annum each; given last year to Kindersley, Satterthwaite, Luckock, Robertson, and Oakeley.

CHRIST's COLLEGE.

(FOUNDED 1505.)

Copies of the Statutes in the British Museum, MSS. HARLEY, No. 7046, p. 155.—No. 7044, p. 61.—No. 3848, and No. 7352.

THIS College was originally founded by King HENRY VI., under the name of God's House; and consisted of a Master and three Fellows.

In 1505, The Lady MARGARET, Countess of Richmond and Derby, mother of King Henry VII., changed the name, incorporated the former Society and its revenues with the present College, and endowed it liberally, to maintain a Master, twelve Fellows, and forty-seven Scholars. This foundation is for Divinity, and the Fellows are required to take Priest's orders within twelve months after they have attained the proper age. The only appropriation of these Fellowships is to the counties of England and Wales; and the restrictions are, that there shall not be two natives of the same county Fellows at the same time, and that there shall be *six*, and only *six*, of the following nine counties, *viz.* Northumberland, Cumberland, Durham, Westmoreland, Lancashire, Derbyshire, Nottinghamshire, Yorkshire, and Richmond, (this *cum adjacentibus* the Foundress calls a county.)

King Edward VI. added another Fellow, who shares in emoluments with those on the original foundation. He may be of any county, and is not obliged to take Holy Orders.

Sir John Finch and Sir Thomas Baines founded two more Fellowships, unappropriated as to county, but with preference to the kindred of the founders; the revenues are independent of Lady Margaret's Foundation. They may be held by laymen.

These fifteen Fellows have an equal claim to the college patronage, and are allowed by the statutes to hold preferment with their Fellowships, provided it does not exceed the value of ten marks, after the deductions found in the *Liber Regis*.

The Scholarships founded by Lady Margaret are now augmented in value to 15*s.* weekly, with £2 each Term during residence. There cannot be more than three Scholars of the same county at the same time.

King Edward VI. added to the Lady Margaret's foundation three Scholarships, which are now perfectly open.

Sir Maurice Berkeley also added a Scholarship, appropriated to natives of Gloucestershire.

Dr Thomas Patynson also added a Scholarship with preference to a native (1) of Northumberland, (2) of the Diocese of Durham. To this Scholarship the Dean and Chapter of Durham may nominate within a limited interval after a vacancy.

Sir John Fineh and Sir Thomas Baines founded two Scholarships, with preference to the kindred of the founders, but in other respects open. Value £10 1s. per annum each.

Besides these, various other Exhibitions and Scholarships have been founded by private Benefactors: viz.

(1) Dr Otway, Bishop of Ossory, in Ireland, founded three Scholarships of £7 a year each, for Scholars from Kirkby Lonsdale School; or in default of such, from Sedbergh School; with preference, *cæteris paribus*, to those of the name of Otway and of the Township of Middleton.

(2) Lady Drury, of Pinkney Hall, Norfolk, founded two Exhibitions of about £30 a year each; with preference, *cæteris paribus*, to Students who have been brought up at one of the Free Schools of Scarning, Holt, Swaffham, and Norwich.

(3) Mr Richard Bunting founded three Scholarships of £5 a year each; with preference to Students born (1) in South Creak, (2) in North Creak, (3) in Burnham Westgate, (4) in Norfolk generally.

(4) The Rev. Thomas Jenens left about £19 a year to be distributed amongst deserving Students of the College, special regard being had to Essex men.

(5) The Rev. Dr Widdrington founded four Exhibitions of £5 a year each, to be given to four of the Lady Margaret's Scholars.

(6) Mr William Petyt left about £18 a year for the augmentation of Scholarships; with preference to Scholars from the Free Grammar School of Skipton, in Craven, Yorkshire.

(7) The Rev. Dr Hawford, formerly Master of the College, left £2 8s. a year, to be divided amongst three Scholars.

(8) Sir Walter Mildmay founded six Scholarships of £2 a year each; of the six, one to be born in Essex, and another in Northamptonshire, if there be any meet for the same.

(9) Mr Philip Rawlins founded a Scholarship of £3 a year; with preference to a native (1) of Suffolk, (2) of Norfolk.

(10) The Rev. Richard Carr founded eight Scholarships of £5 a year each, and two Fellowships of £13 6s. 8d. a year each, for Scholars from Giggleswick School, and either born in the Parish of Giggleswick, or connected with Mr Carr by certain degrees of relationship and lines of descent. In default of properly qualified claimants, Mr Carr's bounty is given to deserving Students of the College in three Scholarships of £22 a year each.

(11) Mr Robert Broadbanke founded a Scholarship, with preference to a native of the Town of Huntingdon; value £20 a year.

(12) The Rev. Thomas Wilson founded three Scholarships of about £20 a year each for Scholars from Kirkby Lonsdale School.

(13) Christopher Tancred, Esq., founded an Exhibition of about £40 a year; with preference to a Student born (1) in Newmarket, (2) in Cambridgeshire.

(14) The Rev. Christopher Clarke founded an Exhibition of £10 a year, with preference to a Student born in Norwich or Norfolk, and brought up at Norwich School.

(15) Mr Sylvester Petyt left £20 a year to be equally divided amongst three Scholars from Skipton School.

(16) John Harvey of Thurleigh, in Bedfordshire, Esq., founded a Scholarship of about £9 a year, with preference to a Student born (1) at Thurleigh, (2) in Bedfordshire.

(17) The Rev. Thomas Laughton founded the Library Scholarship, value of £3 6s. 8d. a year, for a native (1) of Thorp Arnold, (2) of Lincolnshire.

(18) The Rev. Richard Risley founded a Scholarship of about £30 a year for a Student (1) of his own surname or kindred, (2) born in Lancashire.

(19) Mr Risley also founded two Scholarships of £1 a year each, with preference to natives of Lancashire.

(20) Dr Seth Ward, Lord Bishop of Sarum, founded four Scholarships of £12 a year each, to be called the Buntingford Scholarships of his Foundation; appropriated in the first instance to persons born in Hertfordshire, and educated in some free or licensed School in that County, with preference, *cæteris paribus*, to those educated in the Grammar School of Buntingford, and of them to such as have been born in the Parish of Aspeden, or the Town of Buntingford.

(21) The Rev. Dr Plume founded a Scholarship of £6 a year, for a Student educated (1) at Maldon, (2) at Chelmsford, (3) at Brentwood, (4) in any part of Essex.

(22) Mrs Beridge left to the College £4 a year for the promotion of Scholarships.

In disposing of the preceding Scholarships and Exhibitions, the range of choice is in the first instance limited to Students possessing the qualifications described by the respective Benefactors, if any such be found fit as to learning and moral character.

But if none of a Benefactor's description offer, or if, of those offering, none be found fit, the emoluments are distributed generally amongst the Students of the College, according to merit.

Any of these Scholarships and Exhibitions may be held with a foundation Scholarship; and more than one may be held by the same person.

The Master and Fellows are thus enabled to bestow each year considerable pecuniary rewards upon the most distinguished and deserving Students of the College.

Christopher Tancred, Esq., founded four Divinity Studentships, to which the Governors and Trustees of his Charities, viz.

The Master of Christ's College,

The Master of Caius College,

The President of the College of Physicians,

The Treasurer of Lincoln's Inn,

The Master of the Charter-House,

The Governor of Chelsea Hospital,

The Governor of Greenwich Hospital,

are the Electors.

A Student, when admitted to the Charity, must have attained the age of 16 years, and be under that of 22 years.

He must take the Degree of Bachelor of Arts, as soon as he is of proper standing, and may hold his Studentship for three years after, but no longer. He must reside in the College six lunar months in every year.

The annual income of each Student is £107 8s. The present Students are Ds Lamb, Ds Ebdon, Ds Fisher, and Nicolas.

ANNUAL PRIZES.

At the division of the Easter Term there is an annual examination of the Senior Sophs, Junior Sophs, and Freshmen. A set of books, of the value of three guineas, is given to each of the three Undergraduates who are the best proficient of their respective years. A prize of books, of the value of two guineas, is given to the second in each year. There is at the same time a voluntary Classical Examination of the Senior and Junior Sophs, at which prizes of books are awarded to the first and second in each year.

ST JOHN'S COLLEGE.

(FOUNDED 1511.)

THIS College was founded by Lady MARGARET, Countess of Richmond and Derby, mother of King Henry VII. and Foundress of Christ's College. The original endowment was for fifty Fellows; but part of the foundation estates having been seized by King Henry VIII. the funds were found to be sufficient for thirty-two only. These Fellowships are (by Letters Patent from George IV.) now open to natives of England and Wales, *without any restriction or appropriation whatsoever*; one only excepted, which is in the appointment of the Bishop of Ely: but the Bishop is required, agreeably to an arrangement between James Stanley, Bishop of Ely, and the Executors of the Countess of Richmond, to elect according to the statutes in every respect. In this case, the Master is Visitor to the Bishop.

There are also twenty-one Fellowships founded by different benefactors, which have all the privileges of the former, and give an equal claim to the College patronage.

Candidates for Fellowships must be B.A. at least; and no person is superannuated, provided he has proceeded regularly to his degrees. This being a Divinity college, all the Fellows are obliged to be in Priest's Orders within six years from the degree of M.A. except four, who are allowed by the Master and Seniors to remain Laymen; two for the practice of Physic, and two for Law. The rest must proceed to the degree of B.D. at the regular time. The electors are, the Master and eight Senior resident Fellows, in whom is vested the entire management of all college concerns. The day of election is the second Monday after Mid-lent Sunday.

The following are the appropriated Fellowships, with their founders:

Four by Mr Ashton; two appropriated to the county of Lancaster or Diocese of Chester; one to the county or Diocese of York; and one to the Bishopric or Diocese of Durham.

One by Mr Bailey, which was augmented by his executor, to the parish of Tamworth, or to the county of Stafford or Derby, of the Diocese of Lichfield and Coventry. The person elected must be a Priest at 24 years of age, or within twelve months after.

Two by Mr Beresford, to the name and kin of the founder; then to the parishes of Chesterfield, Wirksworth, and Ashbourne, Derbyshire; or Alconfield, Staffordshire; and next to the counties; and for default of such, to the most apt and able within the University, after the form of the statutes of the college.

One by Sir M. Constable, to a priest of the county of York.

One by Bishop Dee, to his name and kin from Peterborough or Merchant Tailors' School.

One by Dr Fell, to Furness Fell, Lancashire.

Two by Mr Gregson, one to the county of Lancaster, and one to the county of Norfolk.

Two by Dr Lupton, and one by Mr Hebblethwaite, to scholars on their foundation from the Free Grammar School of Sedbergh, Yorkshire.

Two by Dr Keyton, to the choristers of Southwell, Notts.

One by Lady Rokeby, to Beverley, or the county of York. The person elected must be in Priest's Orders within six months after election.

One by Mr Halytreholm, to Beverley, or any place in the county of York adjacent to the same. The Fellow must be in Priest's Orders within twelve months from the time of election.

One by Mr Simpson to Cumberland, Northumberland, Westmoreland, or Richmond, Yorkshire.

One by Dr Thimbleby, to the county of Cambridge.

To most of the preceding appropriations, however, is added the following, or a similar limitation:—"If any such person in learning and manners be found, and virtuous, and disposed to learning," &c.; and in default of these qualifications, then the said Fellows to be chosen of such persons "as be most singular in manners and learning, of what county soever they be, and be then abiding in the said college and University."

In addition to the preceding Fellowships there are three founded by Mr Platt, which have been increased in number by the college; open to all candidates, but perfectly distinct from the rest. These Fellows are not entitled to the same privileges as the others; they cannot hold any college office, or succeed to Foundation Fellowships; or be presented to any Living in the College Patronage, except those acquired by the bequests of the Rev. W. Winthrop, B.D. and the Rev. J. Palmer, B.D., formerly Fellows of the College.

A Fellowship, tenable for ten years, for a B.A. who must take the degree of M.A. at the usual time, and a Scholarship for the most deserving of the Commencing Bachelors of Arts, tenable for one year, have recently been founded by the Rev. James Webster, B.D., who left funds especially appropriated to their maintenance.

All livings under £30 in the King's books are tenable with College Preacherships, which are thirteen in number.

A Sermon is preached by one of the Fellows every year at Hatfield, on the second Sunday after the Feast of St Michael, and at Burghley, on the Sunday after St Luke's day.

SCHOLARSHIPS, EXHIBITIONS, &c.

THE number of Scholarships at this College is one hundred and twenty-three, twenty-seven of which were founded by Lady Margaret. Four founded by Mr Platt have been since increased

to seven; and are tenable, like the Fellowships founded by him, by candidates born in any county. Those founded by the Duchess of Somerset have been augmented to twenty-four; five of which are appropriated to Scholars from Hereford School, with preference to natives of Somersetshire, Wilts, and Herefordshire; or to natives of the three said counties, though of any other School. The rest are appropriated to those educated at Marlborough, Hereford, or Manchester Schools.

The remaining Scholarships were founded by various benefactors.

There is also a considerable number of Exhibitions of different value, the principal of which are the following:—

One, about £100 and two £15 per annum each, founded by Mr Nadin, for students in Divinity; founder's kin, or men born in the province of Canterbury.

One, £12 per annum, left by Mrs Jones, to her kindred, or natives of Shropshire.

Two, about £10 per annum each, founded by Mr Robins, to founder's kin, or men born in Kent, with preference to scholars from Sutton Valence School.

Two, £20 per annum each, for scholars from Grantham School, Lincolnshire.

Four, about £9 per annum each, left by Mr Hewytt, for scholars from Linton School, Yorkshire.

Two, about £10 per annum each, by Dr Gower, for Clergymen's sons, with preference to those educated at St Paul's, London, or the Free School, Dorchester.

Two, about £35 per annum each, left by Mr Cardinall, for Scholars from Dedham School.

Four, about £24 per annum each, by Archdeacon Johnson, for scholars educated at Oakham, or Uppingham Schools.

Thirty unrestricted, £14 per annum each, left by Sir Ralph Hare, Knight of the Bath.

Six, about £8 per annum each, left by Mr Baker, with preference to founder's kin.

Two, about £28 per annum each, for scholars from Shrewsbury School.

Three, about 7s. per week during residence, by Mr Mount Stephen, with preference to scholars from Peterborough School.

Four, £70 per annum each, for seven years, for scholars from Shrewsbury School. Electors, the Trustees of that School.

Two, £20 per annum each, by Mr Vidal, for scholars from Exeter School.

One, of £4 per annum, payable by the Fishmongers' Company, who generally considerably augment this exhibition.

Mr Wright left about £120 per annum, to be disposed of at the discretion of the Master and four Seniors.

Sir Isaac Pennington directed by his Will that good Exhibitions should be given to students born in the parishes of Hawkshead and Colton. Their number and value are at the discretion of the Master and Seniors.

The Very Rev. Dr Wood, late Dean of Ely and Master of the College, founded nine Exhibitions of £40 per annum each. The Exhibitioners are to be chosen annually at Midsummer, from those students of the College, (not being either Bachelors of Arts, or of standing sufficient for that degree), "who are most in want of pecuniary assistance, and who are at the same time most distinguished for their regularity of conduct, industry, and learning."

An Exhibition, called the St John Port Latin Exhibition, value £50 per annum, has been founded for the best proficient in Classical learning among the Freshmen, whose names shall have been entered on the College boards before the end of the Easter Term next preceding their residence. The Examination takes place annually in the early part of the Michaelmas Term.

The Sizars at this College are chosen by an Examination, which takes place in the summer previous to their commencing residence. The Subjects are the Elements of Geometry, Arithmetic and Algebra, certain Greek and Latin Authors fixed upon in the preceding January, and Latin Prose composition.

There are nine Sizars, called *Proper Sizars*, on Dr Dowman's Foundation, who have their Commons free, and usually hold Exhibitions. They are chosen from the other Sizars, (after a residence of, at least, three terms,) by the Master and Seniors, preference being usually given to those who have ranked high in the classes at the general examinations, and by their conduct have obtained the approbation of the College.

ANNUAL PRIZES.

FIVE pounds to the best proficient in Moral Philosophy, among the commencing Bachelors of Arts, whose names have appeared in the list of honours. The examination, and decision of the prize, are usually before the publication of the first Tripos.

Those who are in the first class of the two general College examinations, one about the 16th of December, the other about the 1st of June, are entitled to a prize of books.

Those whose Themes, Verses, and Declamations, are thought deserving of notice, receive a similar reward.

There is also a Voluntary Classical Examination of those who are in their second and third years, at the beginning of the Easter Term; and such as distinguish themselves in this, and the two general Examinations of the same year, receive additional prizes of books.

Prizes of Books are also given to the three Students in the third year who pass the best examination in the Greek Testament and Ecclesiastical History; and to such Students as in the judgment of the Hebrew Lecturer shew proficiency in the Hebrew language.

About £160 is allotted annually for the above purposes.

The Rev. W. Wilson, B.D. formerly Fellow, has given prizes of books to the best readers of the Lessons in Chapel, whose general good conduct entitles them to the approbation of the College.

MAGDALENE COLLEGE.

(FOUNDED 1519.)

A Copy of the Statutes in the British Museum.

Mss. SLOANE, No. 3644—10.

IN this College, founded by THOMAS, Baron AUDLEY of Walden, there are four Foundation and Thirteen Bye Fellowships, which (two excepted) are equally unrestricted as to counties. All the Fellows are required to take Orders within three years after election "*si ita Magistro videatur bonum.*"

The Foundation Fellowships were left by Lord Audley. The Bye Fellowships were founded by the following benefactors:—

Two by Mr Smith, and an estate at Longstanton, Cambridgeshire, left for their maintenance; the Fellows are obliged, by the will of the Founder, to proceed to the degree of B.D. at the regular time.

Two by Dr Goch, may be held by laymen, if the Master pleases.

Two by Mr Dennis, ditto.

Two by Sir Christopher Wray, ditto.

One by Lady Ann Wray, ditto.

One by Mr Spendluffe, tenable for five years only.

Two by Dr Millington, appropriated to Shrewsbury School.

One, a Travelling Fellowship, left by the Rev. Drue Drury, worth upwards of £250 per annum, but tenable for only nine years, and appropriated to the county of Norfolk. The Master has the sole appointment to this Fellowship, and the person must either be in Holy Orders, or designed for such, and must travel on the Continent the greater part of the time that he holds this Fellowship.

One by the Countess of Warwick.

Mrs Margaret Dongworth, by a legacy, augmented four of the smallest Bye Fellowships.

The Mastership of this College is in the gift of the possessor of the estate at Audley End.

The following Scholarships were founded by the undermentioned benefactors.

No.	£	s.	d.

2 Countess of Warwick	25	0	0	
6 Mr Smith	4	0	0	

In default of Shrewsbury men, the Scholarships on Dr Millington's foundation are open.

The annual Pepysian Benefaction, value £50, is in the Master's gift.

The foundation estate of Lord Audley consists of the impropriate parsonage of St Catherine Cree Church, in London; and also a considerable part of the city, anciently called Covent Garden, Christ Church.

ANNUAL PRIZES.

Books to the amount of £2. 12s. 6d. are given to the best proficient in each of the three years, at the annual examination in Classics and Mathematics at the end of the Easter Term.

TRINITY COLLEGE.

(FOUNDED 1546.)

Copies of the old Statutes are in the British Museum, Mss. SLOANE, No. 659.—(Printed in the 5th Report of the House of Commons on Education, p. 363.) Mss. HARLEY, No. 3890; and in the University Library, Mss. BAKER, Vol. xxix. p. 131. 179.—Vol. xxxi. p. 277. A Copy of the Statutes as confirmed by Letters Patent of the 7th of Queen Victoria, is given to every Fellow of the College on his Election.

THIS noble and magnificent College, the Mastership of which is in the appointment of the Crown, was originally endowed by King HENRY VIII. and afterwards augmented by his daughter Queen MARY, for the maintenance of a Master, sixty Fellows, and sixty Scholars, since increased to seventy-two¹.

The government of the College is vested in the Master and the eight senior Fellows; and to such of these as are absent the resident Fellows next in seniority succeed as deputies, without any express appointment.

The Fellows of this Society are chosen from the Scholars, ineligible if M.A., or of sufficient standing to take that degree: there is no appropriation whatsoever: all are required to go into Priest's Orders within seven years after they commence Masters of Arts, except two, who are permitted by the Master to remain Laymen. The one is supposed to study Law, the other Physic. The Scholarships are open to natives of any county, but two or three are usually filled up annually by Scholars chosen from Westminster School; and one of £50 per annum, founded by Mr Newman, for a native of Kent and Cambridgeshire alternately, at present held by a native of Kent.

Of the value and number of the Exhibitions, the following is a statement.

Five, Mr Perry, £13 per annum each, to Scholars from St Paul's School, London.—Lobb, Lord, Hensley, Kempthorne, and Kingdon.

One, Rev. R. B. Podmore, value about £27, for the name and kindred of the founder. In default of such to a native of the county of Salop, educated for four years at least at the Grammar School of Shrewsbury.—Purton.

Three, Mr Jeston, £6. 13s. 4d. each for poor Scholars.—Arthur, Wyatt, and Johnson.

¹ In the year 1850 three of these Scholarships, on the same footing and with the same privileges as the others, were created, in conformity with a provision in the Statutes, 'ex aliorum Benefactorum fundatione.'

¹One, Mr Hope, £3. 8s. 8d. for Scholars from Lynn School.

†Two, Lady Verney, (estate at S. Littleton,) for Scholars from Combrook, or Warwick School.

†Lady Campden founded exhibitions from St Paul's School to Trinity College, one of £100 per annum, and one of £80 per annum: besides other Exhibitions to any College at Oxford or Cambridge, one of £120, and one or more of £50 per annum.

There are sixteen Sizars upon the foundation, who are entitled to commons and allowances of the value of more than £50 per annum each.

The Sub-Sizars succeed to the Sizars in order of merit, as vacancies occur. And to such of them, whether Sizars or Sub-Sizars, as pass with credit the annual College Examination, at the close of the Academic year, pecuniary rewards are assigned; namely, to each of those who are placed in the first Class, £25; in the second Class, £15; in the third Class, £10. And when any of them are elected Scholars, and are subsequently placed in the three specified Classes, the same rewards are given to them as if they were still Sizars or Sub-Sizars.

ANNUAL PRIZES.

Dr Paris left a prize of £4 for the best *Latin Declamation*. The successful student delivers, on a day appointed in the month of December, a panegyric upon some illustrious character. A second Latin Declamation prize has been instituted by the College. —These prizes were last year adjudged to T. W. Lee and G. M. Platt.

Dr Hooper left three silver goblets as prizes, one of £20 the other two of £10 value each, for the three best *English Declamations*, upon subjects relating to the History of England. The person who gains the first prize delivers on the Commemoration-day another Declamation on a general subject. Last year adjudged to Summers, Somerset, and T. W. Lee.

Any Junior Bachelor of Arts who writes the best Essay on *The Conduct and Character of King William III.* is entitled to a prize of £10 left by Mr Greaves of Fulbourn. Last year adjudged to Ds Gully.

Three Prizes are given by the College, for the best compositions in *Latin Verse*, in *Lyrical*, *Heroic*, and *Elegiac metres*: a subject is proposed at the beginning of each term, and a prize is awarded to the author of the best Exercise in each subject. An additional prize is awarded if there be a second Exercise of especial merit on any of the subjects.—Last year adjudged for Lyrics and Hexameters, Hope-Edwardes; Elegiacs, W. Ellis.

Dr Walker left a rent-charge of £10 for one or more poor Scholars, who shall appear to the Master, Vice-Master, and Senior Dean, most deserving at the time of taking the Bachelor's degree. —This year adjudged to Somerset.

The best Reader in Chapel receives a prize of £4, the second ditto a prize of £2, at the discretion of the Senior Dean.—Last year adjudged to R. C. Green, and G. M. Platt.

¹ Exhibitions marked † are paid by the representatives of their respective founders.

A prize has been instituted by the College for the best *English Essay*, by a Senior Soph, on some Literary, Moral, or Antiquarian subject.

Archdeacon Wrangham in the year 1842 founded a Prize to be given to one of the commencing Bachelors of Arts, who should have been in the first Class at each of the three annual College Examinations, and also in the first Class of the Mathematical and Classical Triposes.

The Rev. Peter Leigh, in the year 1849, gave £515, 3 per cent. Consols, as an augmentation of the Wrangham prize, the Interest of which is payable to the best commencing B.A. qualified as above.

The Rev. E. Yeats founded two Prizes of ten pounds each, to be given in Books; one to the Scholar on the Foundation who shall stand highest on the Mathematical Tripos; the other to the Scholar who in the opinion of the Master, Vice-Master, Deans, and Head Lecturer, shall have most distinguished himself for general regularity of conduct.—First prize this year adjudged to Brandreth; the second to Gilbert.

The friends of the late Archdeacon Dealtry in the year 1850 founded two prizes of about fifteen guineas each, to be called the Dealtry Prizes, and given to the Senior and Junior Soph who shall pass the best examination in the Greek Testament, and also be placed in the First Class.—Adjudged this year to Summers, Senior Soph, and McClellan, Junior Soph.

There is an Examination of all the Sophs, Junior Sophs, and Freshmen in the College hall soon after the division of the Easter Term. The Junior Sophs are also examined at the end of the Michaelmas Term. The persons examined are arranged in classes according to their respective merits; and those who are in the first class of each year (of the Junior Sophs, those who are in the first class in both their examinations) receive a prize of books, which are distributed on the Commemoration-day. Thirty-five pounds is likewise given in Books to a number of the Senior Sophs, not exceeding five; and twenty-five pounds to a number of Junior Sophs, not exceeding five, who shall pass the best Examination in the Greek Testament. The examiners are, the Head-Lecturer, the Greek, Latin, Greek Grammar, and Mathematical Lecturers, and the four Sub-Lecturers. The following are the respective first classes, as settled at the last Examination. The names are arranged alphabetically:—

EMMANUEL COLLEGE.

(FOUNDED 1584.)

Copies of the Statutes in the British Museum.

MSS. SLOANE, No. 1739.

THIS College was founded by Sir WALTER MILDMAI, Chancellor of the Exchequer and Privy Counsellor in the reign of Queen Elizabeth. The number of Foundation Fellowships is twelve; besides one founded by Mr Gillingham, the possessor of which receives a dividend arising from a distinct estate, but is in most other respects on an equality with the Foundation Fellows. These thirteen Fellowships are (by a recent alteration of the Statutes) open to Englishmen of all counties, *without any restriction whatever*; and a person becomes eligible to them on proceeding to the degree of B.A. All the Fellows are obliged to proceed to the degrees of M.A. and B.D. as soon as they are of sufficient standing. The four Seniors are obliged to take Priest's Orders.

Beside these thirteen there are two on Sir Wolstan Dixie's foundation, who are obliged to proceed to their degrees equally with those on the original foundation, but they have no vote in any college affairs, nor any claim to the offices or dividends of the college. Candidates for these Fellowships must have taken the degree of B.A. and must be related to the Founder, or have been educated at Market-Bosworth School in Leicestershire. The heirs of the Founder nominate, and the College admits the nomination. There are likewise four Scholarships of Sir W. Dixie's foundation of £10 per annum, subject to the same restrictions.

SCHOLARSHIPS.

The Scholarships at this College are as follows:

(1) Open Scholarships.

Number.	By whom founded.	Value.
*14.	College	£60 per annum
5.	Dr Thorpe	£30
1.	Mr Chamberlin	£26
2.	Lady Romney	£12
2.	Rev. J. Brown	15s. a week during residence.
4.	Dr Whichcot	5s.

* N.B. The number of the Foundation Scholars | by the number of deserving candidates: fourteen
is not defined by the Statutes, and is only limited | is the average number.

(2) *Scholarships for which Candidates from certain Schools have a preference.*

No.	By whom founded.	Value.	Preference.
4.	Archdeacon Johnson	£24 per annum	{ Oakham and Uppingham.
10.	Mr Ash	£10	{ Derby and Ashby de la Zouch.
1.	Dr Smith	£16	{ Durham and Newcastle.
*2.	Mr Richards	£12	Christ's Hospital.

Also one founded by Sir Busick Harwood, of £10 per annum, with preference to a medical Student.

And one by Mr Hubbard, of £12 per annum, appropriated to the best of Dr Thorpe's Scholars.

The above Scholarships, with very few exceptions, are tenable till M A. and are given away at the general Examination at the division of the Easter Term, and the dividends are paid from the preceding Lady Day.

EXHIBITIONS.

There are likewise exhibitions founded by the Rev. H. Aspinall, Rev. W. Branthwaite, Mr Hobbs, Lady G. Mildmaye, Mr J. Wells, Mrs Titley, &c., which, in addition to the former, are given to the most deserving candidates.

ANNUAL PRIZES.

At the division of the Easter Term there is a general Examination of the Undergraduates, when a prize of Books is given to the best proficient in each year.

<i>First Year.</i>	PRIZEMEN, 1856.	<i>Third Year.</i>
Jones	<i>Second Year.</i>	Porcher
Roberts	Hewitt	
	Skipworth	<i>Composition Prize.</i>
		Phillips

Books to the amount of five guineas are given to the best Dissertation upon some Theological or Historical subject, and to the amount of three guineas for the second.

Latin Essay Prizes, 1856.

None adjudged.

In addition to the above Prizes books of the value of £5. 5s. are given to the Freshman and Junior Soph who respectively pass the best Examination in the Greek Testament, at the general Examination at the division of the Easter Term. Prizemen 1856, Bull and Jones.

Also a Prize of the same value to the Senior Soph who passes the best Examination in a Moral Subject.—Subject for 1856, Butler's Analogy, Part I. Prizeman, Norris.

* These Scholars receive an allowance towards the expense of the B.A. and M.A. degree.

To the best proficient in Mathematics among the commencing Bachelors of Arts, a piece of plate to the amount of £6 was given by the Rev. John Sudbury, D.D., Dean of Durham. This prize was increased to £12 by the Rev. Henry Hubbard, B.D., formerly Fellow of the College, and Registrar of the University; and still further increased in 1850 to £18 by the Rev. John Cooke, M.A. of the College. This year adjudged to Porcher.

The Rev. W. Hardyman, B.D. late Fellow, instituted a prize to be given in plate or books, to the best proficient in Classics: to the amount of £12 if in the first class of the Classical Tripos, of £6 if in the second. Last year adjudged to Chapman.

SIDNEY SUSSEX COLLEGE.

(FOUNDED 1598.)

A Copy of the Statutes in the British Museum.

Mss. COLE, XLVI. p. 193.

AT this College, founded by Lady FRANCES SIDNEY, Countess of Sussex, there are nine Foundation Fellowships, all open to the Natives of any part of her Majesty's dominions. Besides the Foundation Fellowships, there are two founded by Mr Peter Blundell, appropriated to his scholars of this College; and one Fellowship founded by Leonard Smith, the nomination of which is vested in the Warden and Company of Fishmongers. The Blundell Fellowships are tenable for only ten years after the degree of M.A., but in other respects the Fellows have the same privileges, authority, &c. as the Foundation Fellows.

A Mathematical Lectureship, present value £200 per annum, was founded by Mr Taylor. The Lectureship is not tenable with a Fellowship, but may be held by a layman.

This is a Divinity College, and all the Fellows of every description are obliged to take Orders within three years from the time of their election, and the degree of Bachelor in Divinity, at the regular period prescribed by the University Statutes¹.

No Fellow of this College derives any benefit from his Fellowship unless he be a Master of Arts complete.

SCHOLARSHIPS.

TWENTY Foundation Scholarships, perfectly open, value 7s. each per week during residence.

Two Scholarships founded by Mr Peter Blundell, appropriated to Scholars from Tiverton School.

Two Scholarships founded by Dr Micklethwaite, £6 per annum each.

Two Scholarships founded by Mr Edward Montagu, £4 per annum each.

EXHIBITIONS.

ARCHDEACON Johnson left four Exhibitions, now about £24 per annum each, with preference to those educated at the Schools of Oakham or Uppingham, in Rutland.

Mr Lovett founded two Exhibitions for Clergymen's sons, now above £40 per annum each. Preference is given to Candidates who have been three years at Grantham or Oakham School.

¹ Seven years after M.A.—*Stat. Acad.* p. 166.

Mr Barcroft left two Exhibitions for Clergymen's sons, value £12 each per annum.

The College has also two Exhibitions, value £12 each per annum, from the Company of Haberdashers.

Six Mathematical Exhibitions on the foundation of Mr Taylor; the yearly value of each of which is £50 with rooms rent free. The Election to these Exhibitions takes place after the Annual College Examination at Midsummer. In case of two or more candidates being equal in merit, or of there being no candidates deemed worthy of having Exhibitions assigned to them, the election is deferred to the following year, and the amount of the vacant exhibitions is divided amongst the most deserving of the candidates. These six exhibitions continue till the exhibitioner is of sufficient standing to take the degree of M.A., if he be a wrangler.

PRESENT EXHIBITIONERS.

Machray, B.A. 1855. Whitlow, B.A. 1855. Ellis, B.A. 1856. Candy, B.A. 1856. Bridge, B.A. 1857.

Three other Mathematical Exhibitions of equal annual value, but of shorter duration and assignable after either of the Annual College Examinations.

There are also benefactions, the Candidates for which are required to be natives of Bedfordshire or Yorkshire.

ANNUAL PRIZES.

A PRIZE of £10 for the best proficient in Mathematics at the time of taking the degree of B.A., provided his name appear on the first Tripos. This year adjudged to Ellis.

There are two examinations in each academical year; the first takes place at the end of the Michaelmas Term, and the other immediately before the division of the Easter Term.

At these examinations prizes are adjudged to those who distinguish themselves in Divinity, Classics, Mathematics, and General Physics.

There are likewise prizes for the best Latin and English Declarations, the best Latin Theme, and for the best Reader in Chapel.

DOWNING COLLEGE.

(FOUNDED SEPT. 22, 1800.)

The Charter and Statutes are printed.

THIS College will consist of a Master, two Professors (one of the Laws of England, and one of Medicine), sixteen Fellows, (two of which only are Clerical), and six Scholars. The objects of the foundation are stated in the Charter to be students in Law, Physic, and other useful arts and learning. At present only the Master, Professors, and three Fellows, are appointed, for the purpose of taking possession of the estates, administering the revenues, superintending the building of the College, and for the other necessary purposes. The appointment of the remaining Fellows is reserved until after the erection of the buildings necessary for the College.

The Scholars will also be elected after that period; but not more than two in each year. There are also two Chaplains, nominated by the Master.

The Master is elected by the Archbishops of Canterbury and York, and the Masters of St John's and Clare College, from among those who are or have been Professors or Fellows. The electors to the Professorships are the same as to the Mastership, with the addition of the Master.

The Professor of Law must be, at the time of his election, LL.D., M.A., or LL.B., of Cambridge or Oxford, of ten years' standing from matriculation, and a Barrister-at-Law. The Professor of Medicine must be M.A. licensed to practise Physic for two years, or M.D. or M.B. of Cambridge or Oxford, or a Member of a Scotch University of seven years' standing, and twenty-five years of age, and who shall have attended the medical lectures in one of the Scotch Universities for four years. The Professors are bound to read a course of lectures in their respective faculties, on the usual terms upon which public lectures are given in the University. The Professorships are not vacated by marriage, or by the possession of any property, and the Professors are capable of holding any of the lay offices in the College.

The electors to the Fellowships are, the Master, Professors, and Fellows of the degree of M.A. After the building of the College

is completed, the election will be annually on the 21st of February. All graduates of Cambridge or Oxford are eligible; but after the completion of the College, Lay Fellows must be under the age of 24, and Clerical Fellows under 30, and above 23, at the time of election. The only restriction is, that there shall never be eight Fellows natives of the same county at one time. While the College remains uncompleted, the elections to Fellowships are at uncertain times, depending upon the vacancies, and not subject to the conditions of the Statutes.

The Clerical Fellowships will be tenable for life; and subject to residence for a certain part of each term. The Lay Fellowships continue only for twelve years, and are not subject to any residence. Every Lay Fellow must declare either for Law or Physic. Those who declare for Law must be called to the bar within eight years after their election; and the Medical Fellows must take the degree of M.D. within two years after they are of sufficient standing. A Lay Fellow may also take orders after six years, without thereby vacating his Fellowship. Under certain circumstances, the four electors to the Mastership have a power to suspend the vacancy of a lay Fellowship; but this power is limited to two Fellows living at any one time.

The sole founder of this College was Sir GEORGE DOWNING, Bart.,¹ of Gamlingay Park, in this county; who, by a Will, dated 20th December, 1717, devised his estates in the counties of Cambridge, Bedford, and Suffolk, first to Sir Jacob Gerrard Downing, and afterwards to other relations in succession, and in failure thereof, to build and found a College in this University, upon a plan to be approved by the two Archbishops and the Masters of St John's and Clare College. This direction was the reason for giving them the power which they possess in elections and other matters, by the Charter and Statutes.

Sir George died in 1749, and Sir Jacob in 1764, and (the other devisees having previously died without issue) upon this event the foundation ought immediately to have been carried into execution. But the estates were in the possession of Lady Downing, and afterwards of her devisees, without any real title; and when the University sued in Chancery for the establishment of the College, the party in possession resisted the suit in that court. In 1769, a decree was obtained in favour of the foundation.

The persons named as trustees in the Founder's Will having died in his lifetime, the execution of the trusts devolved upon the heirs at law; who after combating a long series of opposition and litigation, and overcoming obstacles of various descriptions, preferred a petition to the Crown for a Charter; and at length, in 1800, the Privy Council decided to recommend the foundation to his Majesty.

¹ He was installed a Knight of the most Honourable Order of the Bath, June 30, 1732.

On the 22nd of September, 1800, the Great Seal was affixed to the Charter by Lord Loughborough. By this Charter the College is incorporated, with all the privileges belonging to any College in the University, and endowed with the estate devised by the founder, with power to hold landed property (in addition thereto) to the value of £1500 per annum.

The Charter directs Statutes to be framed for the government of the College, which was done in July 1805, and shortly afterwards the stipends of the members began to be paid.

By the Statutes, no beneficial leases of the College estates are allowed, nor any fine to be taken for a grant or renewal. It is also provided that no new foundation shall be ever engrafted on this College, which shall be inconsistent with the Charter and Statutes. But the College may accept any additions to their property in augmentation of the number or value of their present appointments, or to be applied in any other manner consistent with their present constitution.

There is also power given to the four electors and the Master to alter the Statutes, on application by a certain portion of the College.

The members appointed in the Charter were, Francis Annesley, LL.D. *Master*: Edward Christian, M.A. and Barrister, *Law Professor*; Busick Harwood, M.D. *Professor of Medicine*; John Lens, Sergeant at Law, and M.A., William Meeke, Barrister, and M.A., and William Frere, B.A., *Fellows*.

The late Mr John Bowtell, of this town, who gave by his Will a considerable property to charitable uses, bequeathed to Downing College a collection of books, manuscripts, fossils and antiquities, with a request that the book-cases containing them might be placed in the college library. Among the manuscripts is a History of the Topography and Antiquities of this town, prepared for publication by Mr Bowtell.

A piece of land nearly thirty acres having been purchased for the site, and for grounds and walks, on the 18th of May, 1807, the first stone was laid; since which time the building has proceeded at intervals, at the expense of above £60,000. In 1821, buildings sufficient for opening the College, and comprising nearly two sides of a large court, were completed; and in May, 1821, undergraduates were admitted to reside and keep Terms.

TUESDAY, *January 6, 1857.* 9...12.

1. PARALLELOGRAMS upon the same base, and between the same parallels, are equal to one another.

ABC is an isosceles triangle, of which A is the vertex : AB, AC , are bisected in D and E respectively ; BE, CD , intersect in F : shew that the triangle ADE is equal to three times the triangle DEF .

2. In any triangle, the square on the side subtending either of the acute angles is less than the sum of the squares on the sides including this angle, by twice the rectangle contained by either of these sides, and the straight line intercepted between the acute angle and the perpendicular drawn to this side, produced if necessary, from the opposite angular point.

The base of a triangle is given and is bisected by the centre of a given circle, the circumference of which is the locus of the vertex : prove that the sum of the squares on the two sides of the triangle is invariable.

3. The opposite angles of any quadrilateral figure inscribed in a circle are together equal to two right angles.

Prove also that the sum of the angles in the four segments of the circle exterior to the quadrilateral is equal to six right angles.

4. Inscribe a circle in a given triangle.

Circles are inscribed in the two triangles formed by drawing a perpendicular from an angle of a triangle upon the opposite side, and analogous circles are described in relation to the two other like perpendiculars : prove that the sum of the diameters of the six circles together with the sum of the sides of the original triangle is equal to twice the sum of the three perpendiculars.

5. Similar triangles are to one another in the duplicate ratio of their homologous sides.

Any two straight lines, BB', CC' , drawn parallel to the base DD' of a triangle ADD' , cut AD in B, C , and AD' in B', C' : $BC', B'C$, are joined : prove that the area ABC' or $AB'C$ varies as the rectangle contained by BB', CC' .

6. If two parallel planes be cut by another plane, their common sections with it are parallel.

A triangular pyramid stands on an equilateral base, and the angles at the vertex are right angles; shew that the sum of the perpendiculars on the faces from any point of the base is constant.

7. SP is the focal distance, PT the tangent, and PG the normal of any point P of a parabola: state the characteristic property of the tangent, and shew that $SP = ST = SG$, and that the subnormal of P is equal to the semi-latus rectum.

If the triangle SPG is equilateral, prove that SP is equal to the latus rectum.

If the ordinate of a point P bisects the subnormal of a point P' , prove that the ordinate of P is equal to the normal of P' .

8. Prove that, in the parabola, $SY^2 = SP \cdot SA$.

A circle is described on the latus rectum as diameter, and a common tangent QP is drawn to it and the parabola: shew that SP, SQ , make equal angles with the latus rectum.

9. Prove that the focal distances of any point of an ellipse make equal angles with the tangent at the point.

PG is a normal to an ellipse, terminating in the major axis; the circle, of which PG is a diameter, cuts SP, HP , in K, L , respectively: prove that KL is bisected by PG , and is perpendicular to it.

10. The perpendiculars from the foci of an ellipse upon the tangent meet the tangent in the circumference of a circle.

Prove also that if from H a line be drawn parallel to SP , it will meet the perpendicular SY in the circumference of a circle.

11. If tangents be drawn at the vertices of the axes of an hyperbola, the diagonals of the rectangle so formed are asymptotes to the four curves.

Prove that a perpendicular, drawn from the focus of an hyperbola to the asymptote, will intersect it in the directrix.

12. Shew that all sections of a right cone, made by planes parallel to a tangent plane of the cone, are parabolas, and that the foci lie on a cone having with the first a common vertex and axis.

TUESDAY, January 6, 1857. 1½...4.

1. THE imperial gallon contains 277·27 cubic inches, and a cubic foot of water at its maximum density weighs 62·42lbs.; find the weight of a pint of water correctly to two places of decimals.

2. Supposing the cost of digging a trench to vary as the depth to which it is sunk and the quantity of earth taken out, and that the cost of digging a trench 3 feet broad by 8 feet deep is 9 pence per yard, what should be the cost of digging a trench 120 yards long, 5 feet broad, and 10 feet deep?

3. Define a fraction; and from your definition prove a rule for adding together two fractions with different denominators.

Add together the fractions,

$$\frac{a^2 - bc}{(a + b)(a + c)}, \quad \frac{b^2 - ca}{(b + c)(b + a)}, \quad \frac{c^2 - ab}{(c + a)(c + b)}.$$

4. Prove a rule for extracting the square root of a compound algebraical quantity.

Shew that, if

$$x^4 + ax^3 + bx^2 + cx + d$$

be a complete square, the coefficients satisfy the equation

$$c^2 - a^2d = 0.$$

Is it necessary that the coefficients satisfy any other equation?

5. Solve the equations,

$$\frac{1}{2}\left(x - \frac{a}{3}\right) - \frac{1}{3}\left(x - \frac{a}{4}\right) + \frac{1}{4}\left(x - \frac{a}{5}\right) = 0 \dots\dots\dots (1)$$

$$(x-1)(x-2)(x-3) - (6-1)(6-2)(6-3) = 0 \dots\dots\dots (2)$$

$$\left. \begin{aligned} \frac{x+y}{m} + \frac{m}{x-y} - p &= 0 \\ \frac{x-y}{m} + \frac{m}{x+y} + \frac{1}{p} &= 0 \end{aligned} \right\} \dots\dots\dots (3)$$

6. Find the number of permutations of n things taken r together.

If the number of permutations of n things taken r together be denoted by the symbol

$${}^n P_r;$$

shew that the number of such permutations, in which p particular things occur, will be

$${}^r P_p \cdot {}^{n-p} P_{r-p}.$$

7. Define a logarithm, and find $\log_5 3125$.

Prove that $\log_a N = \log_a b \cdot \log_b N$; and, having given $\log_{10} 2 = \cdot 301030$ and $\log_{10} 7 = \cdot 845098$, find $\log_{10} 98$, and $\log_{1000} \sqrt[5]{\frac{4}{343}}$.

8. Define the sine of an angle, and prove from your definition that for all values of θ numerically less than π , $\sin(\pi - \theta) = \sin \theta$.

Trace the variation in sign of the expression $\cos(\pi \sin \theta) \cdot \cos(\pi \cos \theta)$, as θ varies from 0 to $\frac{\pi}{2}$.

9. Find an expression for all the angles which have the same sine. Hence, if $\sin 3\theta$ be given, find the number of values of $\tan \theta$ which will be generally obtained; and illustrate the result geometrically.

10. Prove the formula

$$\cos(A - B) = \cos A \cdot \cos B + \sin A \cdot \sin B,$$

A being greater than B , and each angle less than 90° .

Also shew that

$$\cos \alpha + \cos \beta + \cos \gamma + \cos(\alpha + \beta + \gamma) = 4 \cos \frac{1}{2}(\beta + \gamma) \cdot \cos \frac{1}{2}(\gamma + \alpha) \cdot \cos \frac{1}{2}(\alpha + \beta),$$

and

$$\frac{\sin \alpha + 2 \sin 3\alpha + \sin 5\alpha}{\sin 3\alpha + 2 \sin 5\alpha + \sin 7\alpha} = \frac{\sin 3\alpha}{\sin 5\alpha}.$$

11. Determine the expression for the cosine of an angle of a triangle in terms of the sides, and deduce the expression for the sine.

If θ and ϕ be the greatest and least angles of a triangle, the sides of which are in arithmetic progression, prove that

$$4(1 - \cos \theta)(1 - \cos \phi) = \cos \theta + \cos \phi.$$

12. A quadrilateral can be inscribed in a circle; find the tangent of half of one of its angles in terms of its sides. If a circle can be inscribed in the quadrilateral, shew that the fourth root of the product of its sides is a mean proportional between its semi-perimeter and the radius of the inscribed circle.

WEDNESDAY, January 7, 1857. 9...12.

1. ASSUMING that the resultant of two forces, acting at a point, is represented in direction by the diagonal of a parallelogram, the sides of which represent the forces in direction and magnitude; shew that the diagonal will also represent the resultant in magnitude.

Shew that within a quadrilateral, no two sides of which are parallel, there is but one point, at which forces, acting towards the corners and proportional to the distances of the point from them, can be in equilibrium.

2. Shew that if three forces acting in one plane hold a body in equilibrium, they either pass through a point or are parallel to each other.

✓ A heavy equilateral triangle, hung up on a smooth peg by a string the ends of which are attached to two of its angular points, rests with one of its sides vertical; shew that the length of the string is double the altitude of the triangle.

3. Find the relation of the Power to the Weight in the single moveable pulley, when the strings are not parallel.

An endless string hangs at rest over two pegs in the same horizontal plane, with a heavy pulley in each festoon of the string; if the weight of one pulley be double that of the other, shew that the angle between the portions of the upper festoon must be greater than 120° .

4. Find the ratio of the Power to the Weight in the Wheel and Axle, in order that there may be equilibrium.

Explain the meaning of the terms 'mechanical advantage' and 'efficiency,' as applied to the machines; and shew that, in the Wheel and Axle, what is gained in power is lost in velocity.

5. Define the centre of gravity of a heavy body; and determine the position of the centre of gravity of a pyramid on a triangular base.

Find the centre of gravity of the solid included between two right cones on the same base, the vertex of one cone being within the other; and determine its limiting position if the vertices approach to coincidence.

6. State the laws of friction; and explain what is meant by the term 'coefficient of friction.'

A uniform rod is held at a given inclination to a rough horizontal table by a string attached to one of its ends, the other end resting on the table; find the greatest angle at which the string can be inclined to the vertical without causing the end of the rod to slide along the table.

7. Define uniform motion and uniformly accelerated motion, and explain how they are measured.

If f be the measure of a uniform acceleration, when t minutes and a feet are taken as the units of time and space, and f' the measure of the same acceleration, when a' feet are taken as the unit of space, find the number of minutes in the unit of time.

8. State the second law of motion; and apply it to prove that a force, of uniform intensity and direction, acting on a given particle originally at rest, produces a uniform acceleration of its motion.

State the convention with respect to units which is necessary, in order that the equation $P = Mf$ may represent the relation between the numerical measures of force, mass and acceleration; and supposing the unit of force to be 5lbs, and the unit of acceleration, referred to a foot and a second as units, to be 3, find the unit of mass.

9. An elastic ball A , moving with a given velocity on a smooth horizontal plane, impinges directly on a ball B of the same radius at rest; determine the velocity of each after the impact, indicating at what points of your reasoning any law of motion or other result of experiment is assumed.

The balls being equal in mass as well as in volume, shew that, if B afterwards impinge perpendicularly on a smooth wall, the original distance of which from the nearest point of B is given, the time, which elapses between the first and second impact of the balls, will be independent of their radius.

10. Shew that a particle, projected in any direction not vertical, and acted upon by gravity only, will describe a parabola.

An inclined plane passes through the point of projection; find the condition that the particle may impinge perpendicularly on the plane; and, in that case, shew that its range on the plane is equal to

$$\frac{2v^2}{g} \cdot \frac{\sin \alpha}{1 + 3 \sin^2 \alpha},$$

where v is the velocity of projection, and α the inclination of the plane to the horizon.

11. Two given weights are connected by an inextensible string, which passes over a smooth pulley; determine the motion of each weight and the tension of the string.

The system being initially at rest, find the weight which, let fall at the beginning of the motion from a point vertically above the ascending weight, so as to impinge upon it, will instantaneously reduce the system to rest. Will the system afterwards remain at rest?

12. A seconds pendulum is carried to the top of a mountain 3000 feet high; assuming that the force of gravity varies inversely as the square of the distance from the Earth's centre, and that the Earth's radius is 4000 miles, find the number of oscillations lost in a day.

Also determine how much the pendulum must be shortened in order that it may oscillate seconds on the mountain.

WEDNESDAY, January 7, 1857. 1½...4.

1. GIVE the meanings of the several symbols which are employed in the formula $p = g\rho z$.

If one second be the unit of time, what must be the unit of length, in order that the above formula may give the pressure in pounds, supposing the unit of volume of the standard substance to weigh 16 lbs?

2. Prove that the pressure of a fluid on any surface is equal to the weight of a column of the fluid, the base of which is equal to the area of the surface, and altitude equal to the depth of the centre of gravity of the surface below the surface of the fluid.

The inclinations of the axis of a submerged solid cylinder to the vertical in two different positions are complementary to each other; P is the difference between the pressures on the two ends in the one, and P' in the other position: prove that the weight of the displaced fluid is equal to

$$(P^2 + P'^2)^{\frac{1}{2}}.$$

3. Describe an experiment to shew that the pressure of a given mass of air at a given temperature varies as its density. How is this ratio to be modified when the temperature, as well as the density, varies?

A volume of air of any magnitude, free from the action of force, and of variable temperature, is at rest: if the temperatures at a series of points within it be in arithmetical progression, prove that the densities at these points are in harmonical progression.

4. A body of given volume is immersed totally in a given fluid; find the magnitude and direction of the resultant fluid pressure.

A body is floating in a fluid; a hollow vessel is inverted over it and depressed: what effect will be produced in the position of the body, (1) with reference to the surface of the fluid within the vessel, (2) with reference to the surface of the fluid outside?

5. Describe the Diving Bell, and find the volume of the air in the bell at any depth below the surface.

If P be the weight of the bell, P' of a mass of water the bulk of which is equal to that of the material of the bell, and W of a mass of water the bulk of which is equal to that of the interior of the bell, prove that, supposing the bell to be too light to sink without force, it will be in a position of unstable equilibrium, if pushed down until the pressure of the enclosed air is to that of the atmosphere as W to $P - P'$.

6. Explain the principle of the common Barometer. Given the pressure of the air at a given time on a square inch, shew how to find the height in inches of the barometric column.

Why is the rising or falling of a barometer generally an indication of coming fair or foul weather? Why is a sudden fall a sign of a coming gale?

7. Find the geometrical focus (1) of a pencil of rays incident directly upon a plane refracting surface, and (2) of a pencil of incident directly upon a refracting plate.

A ray, passing through a point Q , is incident upon a refracting plate; q is the intersection of the emergent ray, produced backwards, with the normal to the plate through Q : if the angle of incidence be equal to $\tan^{-1}\mu$, and t be the thickness of the plate, prove that

$$Qq = \frac{\mu^2 - 1}{\mu^2} \cdot t.$$

8. A ray of light passes through a prism in a plane perpendicular to its edge: shew that, if ϕ and ψ be the angles of incidence and emergence and i the refracting angle of the prism, the deviation is equal to

$$\phi \pm \psi - i, \text{ or } \psi - \phi - i,$$

according as the incident ray makes an acute angle with the face of the

prism towards the thicker end or the edge. Under what convention will these expressions for the deviation be all represented by $\phi + \psi - i$, and with this convention for what value of ϕ will ψ change sign?

9. Explain the formation of an image by reflection, and find the magnitude and position of the image of a given object placed before a plane mirror.

The faces of two walls of a room, meeting at right angles, are covered with plane mirrors: shew that a person will be able to see but one complete image of himself in either wall.

10. A diverging pencil of rays is incident directly upon a concave spherical refractor: find the geometrical focus of the refracted pencil.

A short object is placed perpendicularly on the axis of the refractor, and at a distance from it equal to $\frac{f}{\mu}$, f being the focal length: prove that the linear magnitude of the virtual image is half that of the object.

11. Describe the human eye as an optical instrument. When a pencil of rays is refracted through the eye, at what point of its passage does it experience its principal modification of form; and what is the most probable hypothesis in regard to the change of configuration of the eye by which it adjusts itself to distinct vision at different distances?

An eye is placed close to a sphere of glass, a portion of the surface of which, most remote from the eye, is silvered: prove that, assuming eight inches to be the least distance of distinct vision, the eye cannot see a distinct image of itself unless the diameter of the sphere be at least ten inches in length.

12. Describe Galilen's telescope, and trace a pencil of rays through it. State what would be the effect on the image—

- | | | |
|-----|--|---------------------------|
| (1) | of increasing the size of the object-glass | } eye-glass unaltered; |
| (2) | „ focal length | |
| (3) | „ size of the eye-glass | } object-glass unaltered. |
| (4) | „ focal length | |

THURSDAY, *January 8, 1857.* 9...12.

1. ENUNCIATE and prove Newton's fourth Lemma.

Apply this Lemma to shew that the volume of a right cone is one-third of that of the cylinder on the same base and of the same altitude.

2. Enunciate Lemma XI, and prove it when the subtenses are parallel.

An arc of continuous curvature PQQ' , is bisected in Q ; PT is the tangent at P ; shew that ultimately, as Q' approaches P , the angle $Q'PT$ is bisected by QP .

3. Shew that, if a subtense be drawn from the extremity of an arc of finite curvature, in any direction, the chord of curvature parallel to that direction is the limit of the third proportional to the subtense and the arc.

Hence find the chord of curvature through the focus at any point of an ellipse; and prove that half this chord is a harmonic mean between the focal distances of the point.

4. State and prove Proposition 1.

Will the velocity of the body or the rate at which areas are swept out about the centre of force be affected by any sudden change in the law of force?

A body moves in a parabola about a centre of force in the vertex; shew that the time of moving from any point to the vertex varies as the cube of the distance of the point from the axis of the parabola.

5. A body is revolving in an ellipse, find the law of centripetal force tending to the centre of the ellipse.

Shew that the time in which any given area will be swept out by the radius vector is independent of the eccentricity of the ellipse, if the area of the ellipse be given.

6. If any number of bodies revolve in ellipses about a common centre, and the centripetal force varies inversely as the square of the distance; the squares of the periodic times are proportional to the cubes of the major axes.

A particle moves in an ellipse about the centre of force in the focus S : when the particle is at B , the extremity of the minor axis, the centre of force is changed to S' in SB , so that $S'B$ is one-fifth of SB , and the absolute force is diminished to one-eighth of its original value; shew that the periodic time is unaltered, and that the new minor axis is two-fifths of the old.

7. Define the term "zenith," and explain some method for determining the zenith of a given observatory.

How would an increase in the Earth's velocity of rotation affect the latitude of a given place, supposing the form of the Earth to remain unaltered?

8. What conditions must be satisfied in order that the transit instrument may be in accurate adjustment?

Shew how by aid of this instrument the difference in right ascension of two stars may be determined; and state the principal astronomical assumptions on which the truth of this determination depends.

9. Explain the phrases "mean solar time" and "equation of time".

Shew that in the month of February the equation of time is additive.

Account for the fact that the time of the Sun's setting as given in the ordinary Almanacs is not the latest on the longest day?

10. Prove that generally the apparent place of a star will depend upon the ratio of the velocity of the Earth in her orbit to the velocity of light.

Find the least diurnal velocity of rotation of the Earth, which will render sensible to an observer at the equator the aberration due to this cause, the least appreciable angle being $1''$.

11. Describe the apparent motion of the Moon among the stars, and the real motion of its centre of gravity about the Sun, illustrating the latter description by a figure.

What is inferred from the fact that, with slight variations, the same portion of the Moon's surface is always presented to the Earth? How much should the Moon's rate of rotation about its centre of gravity be increased, in order that its whole surface might be seen in the course of one orbital revolution?

12. Explain the method of determining the longitude by means of Lunar Distances.

On January 1st, 1855, at the mean time 9 hrs. 42 min. 8 secs. P.M., the distance of α Arietis from the Moon's centre was calculated from observations to be $45^{\circ} 30' 16''$: at noon and at 3 P.M. Greenwich mean time, the distances are $44^{\circ} 56' 11''$, and $46^{\circ} 23' 39''$ respectively: find the longitude of the place of observation.

THURSDAY, January 8, 1857. 1...4.

1. THREE circles, A, B, C , intersect in a common point, the other intersections of $(B, C), (C, A), (A, B)$, being α, β, γ , respectively. If b, c , be points in B, C , respectively, such that b, α, c , lie in a straight line, prove that a , the intersection of $b\gamma, c\beta$, produced, lies in the circle A .

2. Shew that the sum of all the harmonic means, which can be inserted between all the pairs of numbers the sum of which is n , is

$$\frac{1}{2} (n^2 - 1).$$

3. Eliminate θ between the equations

$$\frac{x}{a} = \cos \theta + \cos 2\theta,$$

$$\frac{y}{b} = \sin \theta + \sin 2\theta.$$

4. From a point on a hill-side of constant inclination the angle of elevation of the top of an obelisk on its summit is observed to be α , and, a feet nearer to the top of the hill, to be β ; shew that, if h be the height of the obelisk, the inclination of the hill to the horizon will be

$$\cos^{-1} \left\{ \frac{a}{h} \cdot \frac{\sin \alpha \sin \beta}{\sin(\beta - \alpha)} \right\}.$$

5. Each of three circles, within the area of a triangle, touches the other two, touching also two sides of the triangle: if a be the distance between the points of contact of one of the sides, and b, c , be like distances on the other two sides, prove that the area of the triangle, of which the centres of the circles are the angular points, is equal to

$$\frac{1}{4} (b^2 c^2 + c^2 a^2 + a^2 b^2)^{\frac{1}{2}}.$$

6. The acute angles, which the distances of two points of an ellipse from the same focus make with the respective tangents at the points, are complementary to each other: prove that the square on the semi-axis minor is a mean proportional between the areas of the two triangles, of which the two points are the respective vertices, and the distance between the foci the common base.

Shew that the problem is impossible unless the axis minor is less than the distance between the foci.

7. CP, CD , are two conjugate semi-diameters of an ellipse: Tt is a tangent parallel to PD : a straight line CIJ cuts at a given angle PD, Tt , in I, J , respectively: prove that the loci of I, J , are similar curves.

8. A fine string $ACBP$, tied to the end A of a uniform rod AB of weight W , passes through a fixed ring at C , and also through a ring at the end B of the rod, the free end of the string supporting a weight P : if the system be in equilibrium, prove that

$$AC : BC :: 2P + W : W.$$

9. A picture is hung up against a rough vertical wall by a string fastened to a point in its back, so that the picture inclines forwards; apply the principle of the triangle of forces to find the inclination of the string to the wall, when its tension is the least possible.

10. A lamina, cut into the form of an equilateral triangle, is hung up against a smooth vertical wall by means of a string attached to the middle point of one side, so as to have a corner in contact with the wall; shew that, when there is equilibrium, the reaction of the wall and the tension of the string are independent of the length of the string, and that, if the string be beyond a certain length, equilibrium in such a position is impossible.

11. A ball is projected from the middle point of one side of a billiard table, so as to strike in succession one of the sides adjacent to it, the side opposite to it, and a ball placed in the centre of the table; shew that, if a and b be the lengths of the sides of the table and e the elasticity of the ball, the inclination of the direction of projection to the side a of the table from which it is projected must be

$$\tan^{-1} \left\{ \frac{b}{a} \cdot \frac{1+2e}{1+e} \right\}.$$

12. A perfectly elastic ball is projected at an inclination β to a plane inclined to the horizon at an angle α , so as to ascend it by bounds; find the inclination to the plane at which the ball rises at the n^{th} rebound, and shew that it will rise vertically if

$$\cot \beta = (2n+1) \tan \alpha.$$

13. A string, charged with $n+m+1$ equal weights fixed at equal intervals along it, and which would rest on a smooth inclined plane, with m of the weights hanging over the top, is placed on the plane with the $(m+1)^{\text{th}}$ weight just over the top; shew that, if a be the distance between each two adjacent weights, the velocity which the string will have acquired, at the instant the last weight slips off the plane, will be

$$\{nag\}^{\frac{1}{2}}.$$

14. A perfectly elastic ball is projected with a given velocity from a point between two parallel walls, and returns to the point of projection, after being once reflected at each wall; prove that its angle of projection is either of two complementary angles.

15. A particle is attracted to one centre of force and repelled from another, both forces varying as the distance: prove that, if the absolute intensities of the forces are equal, the path of the particle is a parabola.

16. When a body arrives at a point P of an elliptic orbit, which it is describing about one focus S , the centre of force is suddenly transferred to the other focus H : supposing the orbit to remain the same as before, prove that, μ denoting the absolute force in the former, and μ' in the latter case,

$$\mu : \mu' :: SP^2 : HP^2.$$

17. A solid triangular prism, the faces of which include angles α, β, γ , is placed in any position entirely within an inelastic gravitating fluid: if P, Q, R , be the pressures on the three faces, which are respectively opposite to the angles α, β, γ , prove that

$$P \operatorname{cosec} \alpha + Q \operatorname{cosec} \beta + R \operatorname{cosec} \gamma$$

is invariable so long as the depth of the centre of gravity of the prism is unchanged.

18. A heavy sphere is placed in a vertical cylinder, filled with atmospheric air, which it exactly fits. Find the density of the air in the cylinder when the sphere is in a position of permanent rest.

19. A solid formed of two co-axial right cones, of the same vertical angle, connected at their vertices, is placed with one end in contact with the horizontal base of a vessel: water is then poured into the vessel; shew that if the altitude of the upper cone be treble that of the lower, and the common density of the spindle four-sevenths that of the water, it will be upon the point of rising when the water reaches to the level of its upper end.

20. A fish is floating in a cubical glass tank filled with water, with its head in one corner and its tail towards the one diagonally opposite; describe the appearance which will be presented to an eye looking towards the corner in the direction of the length of the fish, and in the same horizontal plane with it.

21. Two rays emanate from a point in the circumference of a reflecting circle, in the plane of the circle: supposing that their n^{th} points of incidence are coincident, prove that the angle between their original directions is any one of a series of $n-1$ angles in arithmetical progression.

22. A luminous globe falls from a point above the Earth's surface in a dark night: shew that it will look like a bright falling column, elongating as it descends.

If c_1, c_2, c_3 , be the lengths of the apparent column at the ends of times t_1, t_2, t_3 , from the commencement of the fall, prove that, gravity being considered constant, and the resistance of the air being neglected,

$$t_1(c_2 - c_3) + t_2(c_3 - c_1) + t_3(c_1 - c_2) = 0.$$

MONDAY, January 19, 1857. 9...12.

1. DEFINE a couple, and find the condition that two couples acting on a body in the same plane may hold it in equilibrium.

Find the moment of the couple which is sufficient to sustain a right cone, with its vertex on a rough plane of given inclination and its base parallel to the plane; the roughness of the plane being just sufficient to prevent the vertex from sliding.

2. Assuming that any system of forces acting upon a rigid body may be reduced to a resultant force and a resultant couple, find the relation which must subsist among the forces that these resultants may be equivalent to a single force.

When this condition is satisfied, find the locus of a point in the body by fixing which the body will be held at rest.

3. A heavy string of uniform density and thickness is suspended from two given points; find the equation of the curve in which the string hangs when it is at rest.

Compare the curvatures at the lowest points of two catenaries formed by an inextensible and by an extensible string, the tension at the lowest point of each catenary being τ , and the modulus of elasticity w .

4. A particle of mass m describes a plane curve under the action of forces of which the components parallel to the tangent and normal are $m \cdot T$ and $m \cdot N$: shew that

$$T = \frac{d^2s}{dt^2}, \quad N = \frac{1}{\rho} \left(\frac{ds}{dt} \right)^2.$$

If ϕ be the angle which the tangent at any point of the path makes with a fixed line, the differential equation of the path will be

$$\frac{d}{ds} \left(N \frac{ds}{d\phi} \right) = 2T.$$

5. A heavy particle, suspended from a fixed point by an elastic string, makes vertical oscillations in a medium of which the resistance varies as the square of the velocity: determine the velocity of the particle for any position, neglecting the weight of the string and supposing the motion to commence when the string is unstretched, and the particle to have no initial velocity.

Deduce the greatest extension of the string, supposing the motion to take place in a vacuum.

6. Two particles connected by a stretched inextensible string are constrained to move in a fine curvilinear tube in a vertical plane: determine the motion.

If the tube be cycloidal, the axis of the cycloid being vertical and the vertex upwards; shew that the tension of the string is constant throughout the motion.

7. Every point of a fluid at rest is acted upon by impressed forces the resultant of which always tends to a fixed centre: prove that at a point, the distance of which from the fixed centre is r ,

$$dp = -\rho F dr,$$

where p is the pressure at the point, ρ the density, and F the resultant of the impressed forces, referred to a unit of mass.

If the resultant force varies as r^{3n} , and the fluid be homogeneous and of given mass, shew that the pressure on a diametral plane varies as ρ^{-n} .

8. A body floats in a fluid: determine the position of its metacentre with reference to a vertical plane of displacement dividing the body symmetrically through its centre of gravity.

A cylindrical diving bell is suspended with its axis vertical at a depth such that the water rises half way up the bell: find the least distance of the centre of gravity of the bell from the centre of its upper surface, consistent with the condition that the equilibrium may be stable with reference to an angular displacement of the axis.

9. A small pencil of rays is incident obliquely on a plane refracting surface; find the positions of the primary and secondary foci of the refracted pencil.

If the pencil consist of common light, shew that the primary foci of the pencils of different colours will lie on a curve of the third order.

10. Obtain an equation for determining the equatoreal interval of a given wire and the mean wire of a transit instrument by observations on the transit of the pole star.

Explain how the determination of this value for all the wires enables an observer to find the time of transit across the mean wire, when the time across some of the wires is not noted.

11. Describe Flamsteed's method of determining the position of the first point of Aries, mentioning the astronomical instruments required for the purpose.

MONDAY, *January 19, 1857.* 1½...4.

1. SHEW that, if

$$A + Bx + Cx^2 + \dots = a + bx + cx^2 + \dots$$

for all values of x , and if the coefficients do not increase without limit,

$$A = a, \quad B = b, \quad C = c, \quad \&c.$$

Find the sum of the series

$$1^4 + 2^4 + 3^4 + \dots + n^4;$$

and prove that, when n is indefinitely increased,

$$\Sigma_1^n (r^4) : n^2 \Sigma_1^n (r^2) :: 3 : 5.$$

2. Expand $(\cos \theta)^{2n}$ in a series of cosines of multiples of θ , n being a positive integer. Hence deduce the expansion of $(\sin \theta)^{2n}$ in a series of cosines of multiples of θ .

3. Prove that the base of Napier's system of logarithms is incommensurable.

Prove also that it cannot be a root of a quadratic equation the coefficients of which are rational.

4. Prove that impossible roots enter rational equations by pairs.

If $e^{\alpha\sqrt{-1}}$ be a root of the equation

$$x^n + p_1 x^{n-1} + p_2 x^{n-2} + p_3 x^{n-3} + \dots + p_n = 0,$$

prove that

$$p_1 \sin \alpha + p_2 \sin 2\alpha + p_3 \sin 3\alpha + \dots + p_n \sin n\alpha = 0.$$

5. Describe Horner's method of approximating to the roots of equations; and apply it to find the cube root of 37 to four places of decimals.

6. Find the expression for the distance of a given point from a straight line of which the equation is given.

The distance of a point (x_1, y_1) from each of two straight lines, which pass through the origin of co-ordinates, is δ ; prove that the two lines are represented by the equation

$$\frac{(x_1 y - x y_1)^2}{x^2 + y^2} = \delta^2.$$

7. Shew that the equations

$$x = a \sec \phi, \quad y = b \tan \phi,$$

represent an hyperbola, and give a geometrical interpretation of the angle ϕ .

If P, Q , be points in the one, and P', Q' , in the other of two confocal hyperbolas, and if the values of ϕ at P', Q' , be respectively equal to those at P, Q ; prove that $P'Q'$ is equal to $P'Q$.

8. State Napier's rules for the solution of right-angled spherical triangles, and prove them for the case in which the complement of the hypotenuse is the middle part.

If three arcs of great circles AP, BQ, CR , intersect at right angles the sides BC, CA, AB , in P, Q, R , respectively, prove that they all pass through the same point O , and that

$$\frac{\tan AP}{\tan OP}, \quad \frac{\tan BQ}{\tan OQ}, \quad \frac{\tan CR}{\tan OR}$$

are respectively equal to

$$1 + \frac{\cos A}{\cos B \cdot \cos C}, \quad 1 + \frac{\cos B}{\cos C \cdot \cos A}, \quad 1 + \frac{\cos C}{\cos A \cdot \cos B}.$$

9. Find the polar equation of the tangent at a point of the conic section.

$$\frac{c}{r} = 1 + e \cos \theta.$$

Find the polar equation of the straight line through the foot of the directrix perpendicular to the tangent, and shew that the locus of its intersection with the radius vector at the point of contact is a circle.

10. The perpendicular from the origin on a plane is of given length and makes given angles with the axes; find the equation of the plane.

Find the equation of the plane which passes through the origin and through the line of intersection of the planes

$$Ax + By + Cz = D, \quad A'x + B'y + C'z = D';$$

and determine the condition that it may bisect the angle between them.

11. Shew that through any point of the surface

$$\frac{y^2}{b^2} - \frac{z^2}{c^2} = \frac{2x}{a},$$

two straight lines can be drawn, entirely coincident with the surface.

Prove that the points on the surface, the straight lines through which, coincident with the surface, are at right angles to each other, lie in a plane parallel to the plane yz , and at a distance from it equal to

$$\frac{c^2 - b^2}{2a}.$$

12. Investigate the positions of the centric circular sections of an ellipsoid.

If θ, ϕ , be the inclinations of the normal of a centric plane section of the ellipsoid

$$x^2 \left(\frac{1}{b^2} - \frac{1}{f^2} \right) + \frac{y^2}{b^2} + z^2 \left(\frac{1}{b^2} + \frac{1}{f^2} \right) = 1$$

to the normals of the planes of the circular sections, find the equation of the trace of the plane of the section on the plane of zx .

TUESDAY, January 20, 1857. '9...12.

1. ELIMINATE x, y, z , between the equations

$$\frac{y}{z} + \frac{z}{y} = a, \quad \frac{z}{x} + \frac{x}{z} = b, \quad \frac{x}{y} + \frac{y}{x} = c.$$

2. From a bag containing a counters, some of which are marked with numbers, b counters are to be drawn; and the drawer is to receive a number of shillings equal to the sum of the numbers on the counters which he draws; if the sum of the numbers on all the counters be n , what will be the value of his chance?

3. P is any point in the plane of an ellipse: P' is such a point that perpendiculars from it upon the focal distances of P intersect the major axis in points equidistant from the centre and at a given distance from each other: prove that the distances of P, P' , from the axis minor are in a constant ratio.

4. The foci of a given ellipse A lie in an ellipse B , the extremities of a diameter of A being the foci of B : prove that the eccentricity of B varies as the diameter of A .

5. C is the centre of an ellipse, G the foot of a normal at any point P , and O the corresponding centre of curvature: find the distance of P from the axis minor, in order that the area of COG may be the greatest possible.

6. The corners of a leaf of a book are turned down so as to meet and to make the length of one crease always n times that of the other; shew that each corner will describe a portion of the curve

$$x^2\{y^2 + (c-x)^2\}^3 = n^2(c-x)^2(x^2 + y^2)^3,$$

the outer edge of the leaf, the length of which is c , being taken as the axis of x , and the lower edge as the axis of y .

7. A heavy ring is suspended from a point by any number of equal strings attached to it symmetrically; and another ring of the same weight but of smaller radius is in equilibrium when resting on the strings at their middle points; if R, r , be the radii of the rings and $2l$ the length of each string, shew that

$$4R^2 - 8Rr + 3r^2 - 3l^2 = 0.$$

8. A thread without weight carrying a heavy bead has its extremities fastened to two points in the same vertical line; if the bead and thread be made to revolve uniformly about this line with an angular velocity ω ; shew that, when the bead is in equilibrium relatively to the thread, its distance below the horizontal plane midway between the points of attachment of the thread will be

$$\frac{g}{\omega^2} \cdot \frac{l^3}{l^2 - a^2},$$

$2l$ being the length of the thread, and $2a$ the distance between the points of attachment.

9. A flexible chain, the ends of which are united, hangs over two pegs, in a horizontal line, in the form of two festoons; if P, P' , be the tensions at the vertices of the festoons, and α, α' , the inclinations of the festoons to the horizon at either peg, prove that the weight of half the chain is equal to

$$P \tan \alpha + P' \tan \alpha'.$$

Prove also that the weight of a piece of the chain, equal in length to the distance between the vertices of the festoons, is equal to $P \sim P'$.

10. A triangular lamina has a small ring at each of its angular points, which slides on a smooth wire occupying the position of the circle circumscribing the triangle; determine the motion of the triangle when the wire is held in any position, and find the time of a small oscillation when the wire is so held that the triangle is nearly in its position of stable equilibrium.

11. Shew, by aid of the formulæ

$$2 \cot 2x = \cot x - \tan x, \quad 2 \operatorname{cosec} 2x = \cot x + \tan x,$$

that if $\tan x = a_1x + a_3x^3 + a_5x^5 + \dots$,

then $\cot x = \frac{1}{x} - \frac{a_1}{2^2-1}x - \frac{a_3}{2^4-1}x^3 - \frac{a_5}{2^6-1}x^5 - \dots,$

and $\operatorname{cosec} x = \frac{1}{x} + \frac{2-1}{2^2-1} \frac{a_1}{2}x + \frac{2^3-1}{2^4-1} \frac{a_3}{2^3}x^3 + \frac{2^5-1}{2^6-1} \frac{a_5}{2^5}x^5 + \dots$

12. Circles are described upon the radii vectores of the loop of a lemniscate as diameters, passing through the pole; find the locus of their ultimate intersections, and shew that its area is double that of the loop.

13. A semicircular tube of very small bore containing an elastic string fastened to one of its extremities is revolving with a uniform angular velocity ω about a vertical axis through that extremity perpendicular to its plane, and the string in its stretched state subtends an angle α at the centre of the circle the radius of which is a ; shew that, if the modulus of elasticity be the weight of a length l of the unstretched string, and $lg = 4a^2\omega^2\cos^2\frac{\alpha}{2}$, the unstretched length of the string will be

$$2a \cos \frac{\alpha}{2} \log \tan \frac{\pi + \alpha}{4}.$$

14. Two spheres, the molecules of which attract according to the law of the inverse square, were originally in contact; if W , W' , W'' , be the labouring forces which have been expended in pushing them asunder in the line of their centres, when the distances between their centres are respectively a , a' , a'' ; prove that

$$W\left(\frac{1}{a'} - \frac{1}{a''}\right) + W'\left(\frac{1}{a''} - \frac{1}{a}\right) + W''\left(\frac{1}{a} - \frac{1}{a'}\right) = 0.$$

15. Normals to an ellipsoid through a curve traced on its surface intersect a principal plane in a circle of given radius: prove that the projection of the curve on the plane encloses an invariable area.

16. A curve is traced upon a terrestrial globe, of such a form that the longitude of any point is equal to its north polar distance; prove that the whole length of the curve between the north and south pole is equal to the meridian distance between the north and south poles of an oblate spheroid, the eccentricity of which is $\frac{1}{\sqrt{2}}$ and axis equal to the diameter of the globe.

17. A closed vessel in the form of a right cone is placed with its base on a horizontal plane: supposing it to be filled with fluid through a small orifice at its vertex, prove that the horizontal tension of the vessel at any point varies as the area of the circular section through the point.

18. A luminous point is placed at one of the foci of a semi-elliptic arc bounded by the axis major; prove that the whole illumination of the arc varies inversely as the latus rectum.

19. A homogeneous globe is placed upon a perfectly rough table, very near to a centre of force in the surface of the table, the law of attraction being that of the inverse square; prove that the square of the time of an oscillation varies as the volume of the sphere.

20. An inelastic ball, of given radius, is dropped from the window of a carriage, travelling uniformly along a level road, upon the wheel, which it hits at the highest point; determine the subsequent motion of the ball relatively to the carriage, the rim of the wheel being perfectly rough.

TUESDAY, *January 20, 1857.* 1½...4.

1. An object is viewed through a lens by an eye placed on the axis: describe the several defects to which the image is subject, assuming the light to be homogeneous.

Illustrate the defect of angular distortion by a figure, and explain generally how this defect is diminished by using Huyghens' eye-piece.

2. Explain the nature of the difficulty which prevents the formation of a completely achromatic combination of lenses.

A pencil of light is refracted, centrally, and with small obliquity, through two thin lenses in contact; find the condition of achromatism. If such a combination be used as a microscope, determine which of the lenses has the greater dispersive power.

3. Determine the interval from sunrise to sunset at a given place.

If the increase of the sun's declination from noon to noon be Δ^0 , and t, t' , be the times from sunrise to noon and from noon to sunset respectively, shew that

$$t' - t = t \cdot \frac{\Delta}{180} \cdot \frac{\sin l \sec \delta}{\sqrt{\cos(l - \delta) \cos(l + \delta)}} \quad \text{nearly,}$$

where l is the latitude of the place, and δ is the Sun's declination at Sunrise.

4. Calculate the aberration in right ascension of a star, the right ascension and declination of which are given, and find its greatest value.

5. A particle, acted upon by given forces, moves on a given smooth surface; shew how to determine its motion, and the pressure on the surface.

If the surface be a smooth cone, placed with its axis vertical and vertex downwards, and if gravity be the only force acting, shew that the differential equation of the projection on the horizontal plane of the path of the particle, is

$$\frac{d^2 u}{d\theta^2} + u \sin^2 \alpha = \frac{g \sin \alpha \cos \alpha}{h^2 u^2},$$

where u is the reciprocal of the distance of the particle from the axis, θ the angle between this distance and a fixed vertical plane, h constant, and α the semi-vertical angle of the cone.

6. Determine the motion of a body revolving about a fixed horizontal axis under the action of gravity; and shew that there is a point in the straight line through the centre of gravity perpendicular to the axis such that, if the whole mass of the body were there collected, and hung by a weightless string from the axis, the angular motion of the point would under the same initial circumstances be the same as that of the body.

How would the pressure on the axis be affected by such a supposed change in the arrangement of the mass?

7. Investigate the equations of fluid motion, referred to rectangular axes.

An elastic fluid, not acted upon by any impressed forces, flows uniformly through a cylindrical tube; compare the pressures of the fluid for two different velocities, and hence explain the following experiment.

To one end of a tube is fitted a plane disc which is capable of sliding on wires projecting from the end of the tube in directions parallel to the axis: if the disc be placed at a small distance from the end, and a person blow steadily into the other end, the disc will remain nearly stationary.

8. A perfectly flexible and slightly extensible cord is stretched between two fixed points, at which its extremities are fastened: if a small disturbance be excited in it, obtain equations for calculating the motion; and determine the velocities with which transversal and longitudinal vibrations are respectively propagated along the cord.

9. A particle revolves about a centre of force in an orbit nearly circular; determine approximately the angle between two consecutive apsidal distances.

Hence shew that the mean central disturbing force of the Sun will cause the apses of the Moon's orbit to progress, assuming the Earth's orbit to be circular.

10. Assuming the following equation for determining the Moon's longitude,

$$\frac{d^2u}{d\theta^2} + u = \frac{P}{h^2u^3},$$

where
$$\frac{P}{h^2u^3} = \frac{\mu}{h^2} - \frac{m'u'^3}{2h^2u^3} [1 + 3 \cos \{ (2-2m)\theta - 2\beta \}],$$

find the term of the second order, in the expression for θ , of which the period is one year.

Considering only the effect of this term, and assuming

$$e' = \frac{1}{8} \text{ and } \sin m\pi = \frac{1}{4},$$

find approximately in minutes the difference between the greatest and least periodic times of the Moon.

WEDNESDAY, *January 21, 1857.* 9...12.

1. SHew that the circle, which cuts orthogonally three given circles lying in a plane, has its centre at the radical centre of these circles.

2. If
$$\frac{a \sin^2 \theta + b \sin^2 \phi}{b \cos^2 \theta + c \cos^2 \phi} = \frac{b \sin^2 \theta + c \sin^2 \phi}{c \cos^2 \theta + a \cos^2 \phi} = \frac{c \sin^2 \theta + a \sin^2 \phi}{a \cos^2 \theta + b \cos^2 \phi};$$

then will
$$a^3 + b^3 + c^3 = 3abc.$$

3. A parabola slides between two rectangular axes; find the curve traced out by any point in its axis; and hence shew that the focus and vertex will describe curves of which the equations are

$$x^2y^2 = a^2(x^2 + y^2), \quad x^2y^2(x^2 + y^2 + 3a^2) = a^6,$$

$4a$ being the latus rectum of the parabola.

4. Shew that, if in the equation

$$ax^2 + by^2 + 2cxy - f = 0,$$

the parameter f alone vary, the focus of the conic represented will lie in either of two straight lines; if, either a or b vary, the other coefficients remaining constant, the focus will lie in a rectangular hyperbola; and, if c alone vary, the focus will lie in the curve

$$ab(x^4 + y^4) - (a^2 + b^2)x^2y^2 + f(a - b)(x^2 - y^2) = 0.$$

5. A right vertical cylinder with circular ends carries a hand upon its upper face, equal in length to a radius of the end, and moveable about an axis coincident with the axis of the cylinder: the extremity of the hand is attached by a fine elastic thread to a point in the circumference of the lower

end of the cylinder; and, when the thread is vertical, it is stretched to its natural length; if the hand be made to revolve through any angle α , and then let go, find its angular velocity in any subsequent position; and shew that, if the angle of displacement, α , be very small, the time of an oscillation will be

$$n \int_0^\alpha \frac{d\theta}{(\alpha^4 - \theta^4)^{\frac{1}{2}}},$$

where n is constant.

6. A narrow smooth semicircular tube is fixed in a vertical plane with its vertex upwards; and a heavy flexible string, passing through it, hangs at rest; shew that, if the string be cut at one of the ends of the tube, the velocity, which the longer portion of the string will have attained when it is just leaving the tube, will be

$$(ag)^{\frac{1}{2}} \left\{ 2\pi - \frac{a}{l} (\pi^2 - 4) \right\}^{\frac{1}{2}};$$

l being the length of the longer portion, and a the radius of the tube.

7. If a, b, c, a', b', c' , be the cosines of the inclinations of the faces of a tetrahedron, a and a' , b and b' , c and c' , belonging respectively to the edges which do not meet; shew that

$$1 + a^2 a'^2 + b^2 b'^2 + c^2 c'^2 = a^2 + b^2 + c^2 + a'^2 + b'^2 + c'^2 + 2a'b'c + 2b'ca + 2c'ab + 2a'b'c' + 2bc'b'c' + 2cac'a' + 2aba'b'.$$

8. Shew that the determination of the circular sections of the cone

$$\frac{a}{x} + \frac{b}{y} + \frac{c}{z} = 0$$

may be made to depend upon the solution of the cubic equation

$$abc\mu^3 - (a^2 + b^2 + c^2)\mu^2 + 4 = 0;$$

and that the circular sections of the cone

$$\left(\frac{b}{c} + \frac{c}{b}\right)yz + \left(\frac{c}{a} + \frac{a}{c}\right)zx + \left(\frac{a}{b} + \frac{b}{a}\right)xy = 0$$

are parallel to the planes

$$ax + by + cz = 0, \quad \frac{x}{a} + \frac{y}{b} + \frac{z}{c} = 0.$$

9. Shew that, if

$$\alpha = 0, \quad \beta = 0, \quad \gamma = 0,$$

be the equations of three planes which form a trihedral angle, the equation of a cone of the second order, which has its vertex at the angular point and touches two of the planes at their intersections with the third, is

$$\gamma^2 - k\alpha\beta = 0;$$

and that the equation of a surface of the second order enveloped by the cone is

$$\delta^2 + \mu(\gamma^2 - k\alpha\beta) = 0,$$

$\delta = 0$ being the equation of the plane of contact, and μ being constant.

Shew that if the enveloping cone of a series of ellipsoids be the asymptotic cone of a series of hyperboloids of two sheets, the curves of intersection of any ellipsoid with the series of hyperboloids will lie in planes parallel to the plane of contact of the cone and ellipsoid.

10. A rigid spherical shell is filled with homogeneous inelastic fluid every particle of which attracts every other with a force varying inversely as the square of the distance; shew that the difference between the pressures at the surface and at any point within the fluid varies as the area of the least section of the sphere through the point.

11. A uniform beam is revolving uniformly in a vertical plane about a horizontal axis through its middle point; and, at the instant it is passing through its horizontal position, a perfectly elastic ball, the mass of which is one-third that of the beam, is projected horizontally from a point vertically above the axis, so as to hit the beam at one extremity, then to rebound to the other, and so on for ever, bounding and rebounding along the same path; shew that if θ be the angle, on each side of its horizontal position, through which the beam revolves, θ will be given by the equation

$$\theta \tan \theta = 1.$$

12. A homogeneous sphere, of elasticity e , rotating uniformly about a horizontal diameter, falls upon a perfectly rough inclined plane through such a height h that its angular velocity is not affected by the first impact, and then proceeds to descend the plane directly by bounds; if u_n be the velocity of the sphere along the plane after the n^{th} impact, shew that

$$u_n = (2gh)^{\frac{1}{2}} \sin \alpha \left(1 + \frac{1}{2} \cdot \frac{e - e^n}{1 - e} \right),$$

and that the range which the sphere describes upon the plane before it ceases to hop will be

$$4h \sin \alpha \frac{e}{(1-e)^2} \left(1 - \frac{1}{2} \cdot \frac{e^2}{1+e} \right),$$

α being the inclination of the plane to the horizon.

WEDNESDAY, January 21, 1857. 1½...4.

1. STATE clearly the meaning of "the limit of $f(x)$ when $x=0$:" and shew that, if two quantities approximate simultaneously to limiting values, and always bear to each other a certain ratio, then their limits are in that ratio. When are two quantities said to be nearly equal? Give some test of the ultimate equality of two quantities which ultimately vanish.

Assuming that $1'_{x=0} (1 + x)^{\frac{1}{2}} = e$, find the differential coefficient, with respect to x , of a^x .

2. Given that, under certain conditions,

$$\frac{F(x_1 + h) - F(x_1)}{f(x_1 + h) - f(x_1)} = \frac{F'(x_1 + \theta h)}{f'(x_1 + \theta h)},$$

derive the equation

$$\phi(x_1) = \frac{x_1^n}{[n]} \phi^n(\theta x_1),$$

stating fully the conditions for its truth.

Hence find the limiting value of the ratio of $x - \sin x$ to x^3 , as x is indefinitely diminished.

3. Shew that the values of x , which render $\phi(x)$, a continuous function of x , a maximum or a minimum, are given by the condition that $\phi'(x)$ for

such values, vanishes or is infinite; and shew how to distinguish between a maximum and a minimum.

Determine in each case the sign of $\phi''(x)$ for values of x very nearly equal to those which make $\phi'(x)$ infinite.

4. Give some definition of an asymptote of a curve, and employ it to shew how to determine the asymptotes of polar curves.

If the equation of the curve be

$$u = \frac{1}{r} = f(\theta),$$

shew that there may be as many asymptotes as there are unequal roots of the equation $f(\theta)=0$: and that, if α be one of these roots, the equation of the corresponding asymptote will be

$$u = f'(\alpha) \sin(\theta - \alpha).$$

5. Find the magnitude and position of the circle which has the closest possible contact with the curve $y=f(x)$ at a given point; and shew that it generally cuts the curve at the point.

Prove that the chord of curvature, parallel to the axis of x , of the curve

$$\sec \frac{y}{a} = e^{\frac{x}{a}}$$

is constant, and that

$$\sec \left(\frac{3y}{a} \right)^{\frac{1}{3}} = e^{\frac{x-a}{a}}$$

approximately represents the evolute of this curve for the part near the origin.

6. Investigate the analytical conditions for the existence of multiple points in a curve of which the equation is $u=0$, u being a rational function of x and y ; and shew how the degree of multiplicity may be determined.

Prove that, if

$$\frac{d^2u}{dx^2} + \frac{d^2u}{dy^2} = 0,$$

at a double point, the co-ordinates of which are x, y , the two branches of the curve are at right angles to each other; and that, if the point be the origin, the equation of the tangents to the branches will be

$$\frac{d^2u}{dx^2}(\eta^2 - \xi^2) - 2 \frac{d^2u}{dx dy} \eta \xi = 0,$$

ξ, η , being current co-ordinates of the tangent.

7. Find the values of the integrals,

$$\int \frac{dx}{\sqrt{x^2 - a^2}}, \quad \int \frac{dx}{(x+2)(x^2+x+2)}, \quad \int \frac{d\theta}{\sin \theta},$$

$$\int \frac{\tan x dx}{1 + m^2 \tan^2 x}, \quad \text{and} \quad \int_0^{2a} \frac{x^m dx}{(2ax - x^2)^{\frac{1}{2}}}.$$

8. Find the equation of the locus of tangent lines at a point (x, y, z) of a surface, the equation of which is $u=f(x, y, z)=0$.

Common tangent planes are drawn to the ellipsoids

$$\frac{x^2}{a^2} + \frac{y^2}{b^2} + \frac{z^2}{c^2} = 1, \quad \frac{x'^2}{a'^2} + \frac{y'^2}{b'^2} + \frac{z'^2}{c'^2} = 1;$$

shew that the perpendiculars upon them from the origin lie in the surface of the cone

$$(a^2 - a'^2)x^2 + (b^2 - b'^2)y^2 + (c^2 - c'^2)z^2 = 0.$$

9. Shew how to integrate the equation

$$\frac{dy}{dx} + Py = Q,$$

P and Q being functions of x .

The normal at a point P of a curve meets the axis of x in G , and the locus of the middle point of PG is the parabola $y^2 = lx$; find the equation of the curve, supposing it to pass through the origin.

10. Prove that the differential equation of the surfaces generated by a straight line which passes through the axis of z and through a given curve, and which makes a constant angle α with the axis of z , is

$$x \frac{dz}{dx} + y \frac{dz}{dy} = (x^2 + y^2)^{\frac{1}{2}} \cot \alpha.$$

11. Prove that the expansion of the function

$$\frac{t}{e^t - 1}$$

can involve no odd powers of t above the first, and define Bernoulli's numbers.

If B_{2n-1} be the n^{th} of these numbers, prove that it is equal to

$$(-1)^n \left\{ \frac{1}{2} \Delta 0^{2n} - \frac{1}{3} \Delta^2 0^{2n} + \frac{1}{4} \Delta^3 0^{2n} - \&c. \right\}.$$

THURSDAY, January 22, 1857. 9...12.

1. If p, p' , be the reciprocals of the perpendiculars from the centre of an ellipse upon SP, HD , where S, H , are the foci respectively nearest to P, D , the ends of two conjugate semi-diameters, prove that, b being the reciprocal of the semi-axis minor,

$$\frac{(pp' - b^2)^2}{(p - b)^2 + (p' - b)^2}$$

is a constant quantity.

2. If forces P, Q, R , acting at the centre O of a circular lamina along the radii OA, OB, OC , be equivalent to forces P', Q', R' , acting along the sides BC, CA, AB , of the inscribed triangle, prove that

$$\frac{P \cdot P'}{BC} + \frac{Q \cdot Q'}{CA} + \frac{R \cdot R'}{AB} = 0.$$

3. A fine thread just encloses, without tension, the circumference of an ellipse: supposing a centre of force, attracting inversely as the square of the distance, to be placed at one of the foci, prove that the sum of the tensions of the thread at the ends of any focal chord is invariable, and that the normal pressure on the ellipse at any point varies inversely as the cube of the conjugate diameter.

4 Prove that the eccentricity of a section of an ellipsoid, made by a plane through its least axis, varies inversely as the distance, from this axis, of the point in which it cuts a centric circular section.

5. OA', OB' , are two quadrants on the surface of a sphere, at right angles to each other: a great circle cuts them in A, B , respectively: from A', B' , through any point P of the great circle, are drawn arcs $B'PM, A'PN$, cutting OA', OB' , in M, N , respectively; if $PN = \phi$, $PM = \psi$, $\angle OAB = \lambda$, $\angle OBA = \mu$, prove that

$$\sin^2 \lambda \cdot \cos^2 \phi - 2 \cos \lambda \cos \mu \sin \phi \sin \psi + \sin^2 \mu \cos^2 \psi = 1.$$

6. If a polygon of a given number of sides be inscribed in the orbit of a planet, such that all its sides subtend equal angles at the Sun, prove that the sum of the angular velocities of the planet about the Sun, at the angular points of the polygon, is independent of the position of the polygon.

7. A uniform homogeneous wire PAP' , of which A is the middle point, is bent into the form of an arc of a loop of the lemniscate of which A becomes the vertex: prove that the resultant attraction on the wire, arising from a centre of force at the node O , attracting according to the law of the inverse square, varies as

$$\left(\frac{1}{OP^2} - \frac{1}{OA^2} \right)^{\frac{1}{2}}.$$

8. A small light is placed at the focus of a perfect reflector in the form of a paraboloid of revolution: prove that the brightness, due to reflection, at any point within the volume of the paraboloid, varies inversely as the square of the focal distance of the end of the diameter through the point.

9. A hollow homogeneous cylinder, of given material, which is perfectly brittle and incompressible, is partially inserted into a fixed horizontal tube just wide enough to admit it: prove that the greatest length which the free portion of the cylinder can have, without snapping off, varies as the square root of the radius of its external surface.

10. A centre of force, repelling inversely as the square of the distance, lies below the surface of a homogeneous inelastic fluid, which is also acted on by gravity and is at rest: the intensity of the force, at a point in the surface of the fluid vertically above its centre, is equal to that of gravity: prove that the external surface of the fluid has a horizontal asymptotic plane, and that the centre of force is environed by an internal cavity, the summit of which is at the external surface of the fluid.

Find the volume of the cavity in terms of its length.

11. A carriage is travelling along any level road: prove that the sum of the squares of the shadows cast on the ground by any two spokes of a wheel, which are at right angles to each other, varies during the journey as the square of the secant of the Sun's zenith distance.

Prove also that, if the road run due east and west,

$$\sin \alpha = \frac{\tan 2\theta}{\tan 2z},$$

α being the azimuth and z the zenith distance of the Sun, and θ the corresponding inclination of a spoke to the horizon when its shadow is greatest or least.

12. OA, OB, OC , are meridians on a surface of revolution, passing through three points A, B, C , which are connected together by the shortest

arcs BC, CA, AB : BC cuts OB, OC , at angles λ_1, λ_2 ; CA cuts OC, OA , at angles λ_3, λ_4 ; and AB cuts OA, OB , at angles λ_5, λ_6 : prove that

$$\sin \lambda_1 \cdot \sin \lambda_3 \cdot \sin \lambda_5 = \sin \lambda_2 \cdot \sin \lambda_4 \cdot \sin \lambda_6.$$

13. A little animal, the mass of which is m , is resting on the middle point of a thin uniform quiescent bar, the mass of which is m' and the length $2a$, the ends of the bar being attached by small rings to two smooth fixed rods at right angles to each other in a horizontal plane: supposing the animal to start off along the bar with a velocity V , relatively to the bar, prove that, θ being the inclination of the bar to either rod, the angular velocity initially impressed upon the bar will be equal to

$$\frac{3m}{3m + 4m'} \cdot \frac{V \sin 2\theta}{a}.$$

14. A narrow tube, in the form of a common helix, is wound round an upright cylinder, initially at rest, which is pierced by two smooth fixed rods, parallel to each other and horizontal: supposing a molecule to be placed within the tube, at a point of which the distance from the axis of the cylinder is parallel to the rods, find the velocity of the cylinder when the molecule arrives at any proposed point of the tube.

Prove that, m, m' , being the masses of the molecule and cylinder, the velocities which the cylinder has acquired, at the successive arrivals of the molecule at points most distant from the plane in which the axis of the cylinder moves, will have their greatest values when, α being the inclination of the helix to the horizon,

$$\tan^2 \alpha = \frac{m'}{m + m'}.$$

THURSDAY, *January 22, 1857.* 1½...4.

1. ONE plane curve rolls on another, the planes of the two curves coinciding, and their convexities being opposed to each other: if r, r' , are the radii of curvature of the fixed and rolling curves respectively, at their point of contact, ρ the distance of any point P in the moving plane from the point of contact, α the angle between ρ and the common normal to the two curves, prove that the corresponding radius of curvature of P 's path is equal to

$$\frac{\frac{1}{r} + \frac{1}{r'}}{\frac{1}{r} + \frac{1}{r'} - \frac{\cos \alpha}{\rho}} \cdot \rho.$$

Shew also that the directions of motion of all the points in the moving plane, fixed relatively to the rolling curve, which at any instant are going through points of inflection in their respective paths, pass through a single point.

2. Prove the following relation between the sides and angles of a spherical triangle,

$$\frac{\cos \frac{A+B}{2}}{\sin \frac{C}{2}} = \frac{\cos \frac{a+b}{2}}{\cos \frac{c}{2}}.$$

3. Integrate the simultaneous differential equations :

$$\left. \begin{aligned} a \frac{dx}{dt} + b \frac{dy}{dt} + a'x + b'y &= 0, \\ a' \frac{dx}{dt} + b' \frac{dy}{dt} + ax + by &= 0. \end{aligned} \right\}$$

4. If $\Gamma(n)$ denote $\int_0^\infty e^{-x} x^{n-1} dx$, where n is a proper fraction, shew that

$$\Gamma(n) \Gamma(1-n) = \frac{\pi}{\sin n\pi};$$

and hence deduce the value of $\int_0^\infty e^{-ax^2} dx$.

5. Determine the change in the position of the axis and in the eccentricity of the Moon's orbit indicated by the terms

$$e \cos(c\theta - \alpha) + \frac{15}{8} me \cos\{(2-2m-c)\theta - 2\beta + \alpha\},$$

in the expression for the Moon's parallax.

6. A free rigid body, the mass of which is m , is at rest : its moments of inertia about the principal axes through its centre of gravity are A , B , C : supposing the body to be struck by an impulsive force R through its centre of gravity, and by an impulsive couple G , prove that it will revolve for an instant about an axis, the velocity of which is in the direction of its length and is equal to

$$\frac{\frac{L \cdot X}{A \cdot m} + \frac{M \cdot Y}{B \cdot m} + \frac{N \cdot Z}{C \cdot m}}{\left(\frac{L^2}{A^2} + \frac{M^2}{B^2} + \frac{N^2}{C^2}\right)^{\frac{1}{2}}},$$

X , Y , Z , being the components of R , and L , M , N , of G , along the principal axes.

If θ be the inclination of R 's direction to the spontaneous axis, prove that

$$\cos \theta = \frac{\frac{L \cdot X}{A \cdot R} + \frac{M \cdot Y}{B \cdot R} + \frac{N \cdot Z}{C \cdot R}}{\left(\frac{L^2}{A^2} + \frac{M^2}{B^2} + \frac{N^2}{C^2}\right)^{\frac{1}{2}}}.$$

7. Two luminous points which emit light of the same colour and of equal intensity, are placed very near to each other before a plane screen and at exactly equal distances from it : investigate the appearance on the screen.

8. Prove the following equation for the determination of the major axis of the orbit of a disturbed planet,

$$\frac{da_1}{dt} = -\frac{2na^2}{\mu} \cdot \frac{dR}{d\epsilon}.$$

FRIDAY, January 23, 1857. 9...12.

1. IF $\alpha=0$, $\beta=0$, $\gamma=0$, be the equations of the sides of a triangle, shew that the equation of a conic touching the sides of the triangle is

$$(l\alpha)^{\frac{1}{2}} + (m\beta)^{\frac{1}{2}} + (n\gamma)^{\frac{1}{2}} = 0.$$

If $\alpha=0$, $\beta=0$, $\gamma=0$, $\frac{\alpha}{a_1} + \frac{\beta}{b_1} + \frac{\gamma}{c_1} = 0$, $\frac{\alpha}{a_2} + \frac{\beta}{b_2} + \frac{\gamma}{c_2} = 0$, $\frac{\alpha}{a_3} + \frac{\beta}{b_3} + \frac{\gamma}{c_3} = 0$, be the equations of the sides of a hexagon which circumscribes a conic, shew that

$$a_1(b_2c_3 - c_2b_3) + a_2(b_3c_1 - c_3b_1) + a_3(b_1c_2 - c_1b_2) = 0.$$

2. Transform the triple integral $\iiint f(\alpha, \beta, \gamma) d\alpha d\beta d\gamma$ into one in which x, y, z , are the independent variables, having given

$$\alpha = F_1(x, y, z), \quad \beta = F_2(x, y, z), \quad \gamma = F_3(x, y, z).$$

If $\alpha x = yz$, $\beta y = zx$, $\gamma z = xy$, shew that

$$\iiint f(\alpha, \beta, \gamma) d\alpha d\beta d\gamma = 4 \iiint f\left(\frac{yz}{x}, \frac{zx}{y}, \frac{xy}{z}\right) dx dy dz.$$

3. Shew how to integrate the equation of differences,

$$u_{x+n} + p_1 u_{x+n-1} + \dots + p_n u_x = f(x),$$

where p_1, p_2, \dots, p_n , are independent of x .

Shew that a solution of the equation

$$u_{x+n} \cdot u_{x+n-1} \cdot \dots \cdot u_{x+1} \cdot u_x = a(u_{x+n} + u_{x+n-1} + \dots + u_{x+1} + u_x),$$

is included in that of

$$u_{x+n+1} - u_x = 0,$$

and is consequently

$$u_x = C_1 \alpha^x + C_2 \alpha^{2x} + \dots + C_{n+1} \alpha^{(n+1)x},$$

where α is one of the imaginary $(n+1)^{\text{th}}$ roots of unity, the $n+1$ constants being subject to an equation of condition.

4. Shew how to find the differential equation of a class of surfaces, which cuts at right angles all the surfaces represented by the equation

$$f(x, y, z, a) = 0,$$

where a is an arbitrary parameter.

If the class of surfaces have an envelope, shew how we may find it without solving the differential equation.

5. Disturbances are excited in the air contained in a cylindrical tube of given length by a plate vibrating isochronously at one end, the other end being closed: assuming expressions for the velocity and condensation at any point, find the time of vibration, in order that a musical note may be produced; and determine the points in the tube at which openings may be made without affecting the pitch.

Supposing a vibrating plate also at the closed end, how must the time of vibration of the first plate be modified, and how must the times of vibration of the two plates be related, that musical notes may be produced?

6. Assuming that the Sun causes an angular acceleration of the Earth, proportional to the sine of twice the Sun's north polar distance, about the equatorial diameter perpendicular to the line joining the centres of the Sun and the Earth, shew that the line of equinoxes will have a precessional movement.

How will the amount of precession, as deduced from observation, aid in determining the ratio of the mass of the Earth to the mass of a pound weight?

7. What is meant by secular variations of planetary elements?

Shew how to find the condition that the secular variations of the longitudes of the lines of nodes of two mutually disturbing planets may be periodic.

The following equations, connecting the inclinations and longitudes of the nodes, may be assumed:

$$\begin{aligned} \tan i \sin \Omega &= p, & \tan i \cos \Omega &= q, \\ \frac{dp}{dt} &= na^2a'm'C(q' - q), & \frac{dq}{dt} &= na^2a'm'C(p - p'), \end{aligned}$$

with corresponding equations for the planet to which the accented symbols refer.

If the squares of the masses of the two planets were to each other inversely as their mean distances, then the nodes would oscillate through equal angles.

8. Describe some method of obtaining a circularly polarised beam of light, from light polarised in one plane.

Circularly polarised light is incident, at a slight inclination, upon a plate of uniaxial crystal cut perpendicularly to its axis, and the emergent pencil is analysed; explain generally the phenomena produced. What will be the effect produced by turning round the analysing plate?

FRIDAY, *January 23, 1857.* 1¹...4.

1. INVESTIGATE formulæ for the determination of the umbilici of surfaces.

Prove that the radius of normal curvature of the surface $xyz = a^3$ at an umbilicus is equal to the distance of the umbilicus from the origin of co-ordinates.

2. Integrate the equations

$$\frac{d^2u}{dx^2} + \frac{d^2u}{dy^2} - \frac{d^2u}{dz^2} + 2 \frac{d^2u}{dxdy} = xyz, \dots\dots\dots (1),$$

$$u_{x+1} \cdot \sin x\theta - u_x \cdot \sin (x+1)\theta = \cos (x-1)\theta - \cos (3x+1)\theta \dots (2);$$

and find a general value of $\phi(x)$ from the equation

$$\phi(m^2x) - (a+b)\phi(mx) + ab\phi(x) = cx\dots\dots\dots (3).$$

3. State and prove the principle of Vis Viva, and describe the different kinds of forces which do not appear in the equation of Vis Viva.

A circular wire ring, carrying a small bead, lies on a smooth horizontal table; an elastic thread, the natural length of which is less than the diameter of the ring, has one end attached to the bead and the other to a point in the wire; the bead is placed initially so that the thread coincides very nearly with a diameter of the ring: find the Vis Viva of the system when the string has contracted to its natural length.

4. If V be a given function of $x, y, \frac{dy}{dx}, \frac{d^2y}{dx^2}, \dots$ find the conditions that $\int V dx$, between given limits, may be a maximum or minimum.

When a particle is attracted towards a fixed centre of force and moves in the brachistochrone, prove that the area described round the centre of force varies as the "action."

5. Describe the terms in the expansion of the disturbing function, which are of the greatest importance in calculating the variations in the elements of a planetary orbit, and explain fully what is meant by the long inequality of two planets.

What principle is used to ascertain the disturbing effects produced on a planet by several other planets?

6. Define the potential function V , and shew that, at any point (x, y, z) external to the attracting mass, it satisfies the equation

$$\frac{d^2 V}{dx^2} + \frac{d^2 V}{dy^2} + \frac{d^2 V}{dz^2} = 0.$$

Hence prove that, if S be any closed surface to which all the attracting mass is external, dS an element of S , and dn an element of the normal drawn outwards at dS ,

$$\iint \frac{dV}{dn} \cdot dS = 0,$$

the integral being taken throughout the whole surface S .

7. Assuming the formulæ

$$la + m\beta + n\gamma = 0,$$

$$\frac{l}{a(v^2 - a^2)} = \frac{m}{\beta(v^2 - b^2)} = \frac{n}{\gamma(v^2 - c^2)},$$

investigate the equation of the wave-surface in a biaxal crystal.

Prove that the direction of the vibration at any point of this surface coincides with the projection of the distance of the point from the centre of the surface upon the tangent plane at the point.

EXAMINATION PAPER

FOR

SMITH'S PRIZES.

February 2, 1857.

BY THE REV. JAMES CHALLIS, M.A.

Plumian Professor.

1. WHAT is necessary to constitute an exact definition? In the demonstration of Prop. XVIII. of Book V. of Euclid, is it legitimate to assume the converse of the fifth definition of that Book? Does a mathematical definition admit of proof on the principles of the science to which it relates?

2. Taking as the definition of parallel straight lines that they are equally inclined to the same straight line towards the same parts, prove that "being produced ever so far both ways they do not meet."

Prove also Euclid's Axiom XII. by means of the same definition.

3. From the equation

$$H = \cos(m + e\sqrt{1 - H^2}),$$

obtain by trigonometrical formulæ three terms of the development of H in a series proceeding according to powers of e .

4. Prove that if two roots of an equation $f(x)=0$ be nearly equal, the mean between them nearly satisfies the equation $f'(x)=0$, and more nearly the equation

$$3f'(x)f''(x) - f(x)f'''(x) = 0,$$

and that if the mean be a , their difference is very nearly

$$\left\{ - \frac{24f'(a)}{f'''(a)} \right\}^{\frac{1}{2}}.$$

5. A curve is described by setting off on the focal radius-vectors of an ellipse distances inversely proportional to them, and having equal greatest and least values. Find the ratio of the mean of all its radius-vectors to the mean of all the radius-vectors of the ellipse, and the ratio of their areas.

6. Describe the double-image object-glass of a telescope, and the double-image erecting eye-piece, and state generally the principle of double-image combinations of lenses.

7. The centre of oscillation of a pendulum is retarded by a constant force equal to ng : shew that in small oscillations the decrement of the angle of ascent is nearly equal to $2n$.

8. In the case supposed in the preceding question, the arc of vibration is maintained at a constant value by impulses, which impress a velocity V on the centre of oscillation when at its lowest point: shew that if a be the length of the simple pendulum, and 2α the angular excursion, the value of V for small oscillations is nearly

$$\sqrt{ga} \{ \sqrt{a^2 + 2na} - \sqrt{a^2 - 2na} \}.$$

9. A heavy particle is projected in the interior of a smooth vertical circle at its lowest point, so that it just reaches the highest point: required the velocity of projection.

What kind of path will the particle describe if the velocity of projection carry it higher than the centre of the circle, but not so high as the vertex?

10. From the equations

$$x = r \cos \theta + 2r \sin(\theta - \nu) \sin \nu \sin^2 \omega,$$

$$y = r \sin \theta - 2r \sin(\theta - \nu) \cos \nu \sin^2 \omega,$$

$$z = 2r \sin(\theta - \nu) \sin \omega \cos \omega,$$

obtain $\frac{d\phi}{dx}$, $\frac{d\phi}{dy}$ and $\frac{d\phi}{dz}$ in terms of $\frac{d\phi}{dr}$ and $\frac{d\phi}{d\theta}$, ϕ being any function of x , y and z .

11. From observations made at an occultation, the times of the coincidences of Jupiter's centre, and of one of his satellites, with the Moon's limb at disappearance and reappearance, are known, and the relative horary apparent motions in Right Ascension and Declination of the Moon and Jupiter, and of Jupiter and his satellite, are given: from these data and the given apparent semi-diameter of the Moon, calculate the difference of the Right Ascensions and Declinations of Jupiter and the satellite at a given time.

12. Required the segment of a sphere the attraction of which on a point at its vertex is half that of the whole sphere on the same point.

Shew that, a being the radius of the sphere, the solution of the question conducts to the cubic equation

$$x^3 - \frac{9ax^2}{2} + 3a^2x - \frac{a^3}{2} = 0,$$

the three roots of which are possible and positive. By what considerations are two of the roots excluded?

13. The attraction of a sphere, whose density is a function of the distance from the centre, on a point at its surface, is $1 - n$ times the attraction on a point at a small depth c below the surface: shew that the ratio of the density (δ) at the surface, to the mean density (Δ) of the sphere, is given by the equation

$$\frac{\delta}{\Delta} = \frac{2}{3} - \frac{na}{3c},$$

a being the radius of the sphere.

14. By experiments made in the Harton Colliery, a pendulum at the depth of 1256 feet gained 2.24 per day on a pendulum at the surface, and the mean density of the surrounding superficial strata was 2.5. Hence calculate approximately the Earth's mean density.

15. Shew how to find positions of inflected torsion, and inflected curvature, in a curve of double curvature.

16. Prove that when the effective moving forces of a connected system of material particles estimated in three rectangular directions vanish, the centre of gravity passes through a point of inflected curvature, and its velocity is a maximum or minimum.

Shew also that when the velocity is a maximum or minimum, the centre of gravity does not always pass through a point of inflected curvature.

17. Describe the operation by which the level error of a Transit is obtained by the collimating eye-piece.

18. Give methods of obtaining the collimation errors of a Mural Circle, and an Equatorial.

19. To calculate the horizontal attraction of gravity on a point at the Earth's surface, the surrounding irregular ground was divided into small slices by vertical cylindrical surfaces having a common axis through the point, and by vertical planes passing through that axis, and each slice was considered to be a frustum of a pyramid having its vertex at the attracted point. Shew that if ϕ be the mean azimuth of any slice, $\tan \epsilon$ the ratio of its mean altitude above the level of the point to its mean distance from it, α its angular width, l its length, and Δ its density, the required attraction in the direction to which ϕ is referred, is

$$\Sigma . \Delta l \alpha \cos \phi \sin \epsilon .$$

20. If $U=f(t, a, b, c)$, a, b and c being implicit functions of t , and if U_1 be the complete value of $\int U dt$, and U_0 the value on the supposition that a, b and c are constant, shew that

$$U_1 = U_0 - \int \left(\frac{dU_0}{da} \cdot \frac{da}{dt} + \frac{dU_0}{db} \cdot \frac{db}{dt} + \frac{dU_0}{dc} \cdot \frac{dc}{dt} \right) dt.$$

21. The following equations being given,

$$\frac{da}{dt} = \phi(t, a, b, c), \quad \frac{db}{dt} = \psi(t, a, b, c), \quad \frac{dc}{dt} = \chi(t, a, b, c),$$

shew how by means of the foregoing theorem to obtain by successive approximations the values of a, b and c as explicit functions of t and constants, the variable parts of these quantities being supposed to be small.

22. Assuming that the rate of sailing of a ship is simply a function of the point of the compass to which the course is directed, shew by the Calculus of Variations that the swiftest course from one point to another makes a constant angle, or its supplement, with the parallels of declination.

23. The form of a drop of mercury resting on a horizontal plane is assumed to be such that the total curvature of the surface at any point at the height x above the plane is $k(h-x)$. Hence shew that if A be the volume of the drop, b the radius of the circle of contact with the plane, and α the exterior angle of contact,

$$(A - \pi b^2 h) k = 2\pi b \sin \alpha.$$

24. Obtain the following equation in the Planetary Theory :

$$\frac{de}{dt} = \frac{na\sqrt{1-e^2}}{\mu e} \left(\frac{dR}{de} + \frac{dR}{d\pi} \right) - \frac{na(1-e^2)}{\mu e} \cdot \frac{dR}{de}.$$

Shew that this equation is exact, whatever be the eccentricities and inclinations, and whatever be the number of disturbing bodies.

February, 1857.

BY THE REV. WILLIAM WHEWELL, D.D.

Master of Trinity College.

1. WHAT are the problems of the duplication of a cube, and of the trisection of an angle? Give an account of any of the attempts which have been made to solve these problems geometrically. Shew that the one may be reduced to the other.

2. Of two vessels *A* and *B*, *A* contains *a* gallons of wine, and *B* contains *b* gallons of water: one gallon is taken from the one and poured into the other alternately, the mixture being uniform after each transfer: find the quantity of wine and water in each vessel after any number of transfers: and shew that it tends in each vessel to the ratio *a* : *b*.

3. Give a method of finding the number of real roots of an equation, and of determining them numerically. Apply this to the equation

$$x^5 - 15x^3 + 3x^2 + 4x - 1 = 0.$$

4. Trace the curve of which the equation is

$$y = \frac{abc}{x\sqrt{(x-a)(b-x)}},$$

and find the area from $x=a$ to $x=b$.

5. Trace the curve of which the equation is

$$x^3 - 3xy + x^5 = 0,$$

near the origin.

6. Prove the analytical condition requisite that a surface may be capable of being unwrapped so as to become plane. Shew that this condition is verified in every conical and cylindrical surface. Explain the general form of such surfaces.

7. A conical surface is cut by a plane and then unwrapped: find that curve the section becomes in the cases of the different Conic Sections.

8. Shew that it is always possible to find a curve which by rolling upon one given curve shall generate another given curve. What is the curve which by rolling upon a straight line generates another straight line?

9. A rectangular table *ABCD* has a weight *W* placed so that its distance from the edge *AB* is a fraction *m* of the length *AC*, and its distance from the edge *AC* is a fraction *n* of the breadth *AB*: find the greatest and least possible resulting pressure on each of the legs *A*, *B*, *C*, *D*. On what does the actual pressure on each leg depend?

10. A barometer tube is suspended from the arm of a balance; what is the weight which will produce equilibrium?

If the tube be conical, or of any other form, what will be the requisite weight?

11. Shew how the density of the earth may be determined by comparing the times of oscillation of a given pendulum, at the surface, and at a given depth below the surface.

12. A planet revolves in a circle in the plane of the earth's orbit, given two geocentric observations, to determine the orbit.

When the plane of the orbit is inclined, can the orbit be determined from three geocentric observations?

13. Shew whether the oblateness of the central body will or will not produce a motion of the nodes in a body revolving in an orbit of which the plane is inclined to the plane of the equator.

What effect will the oblateness produce on the motion of the apse of the orbit?

14. An upright conical cup of which the angle is 2α , has in it a depth h of water: a sphere of which the radius is r , and weight w , is placed in the cup: find the pressure where it touches the cup.

15. When waves are propagated through water, what is the nature of the motion of the particles? Give a formula which expresses this motion.

16. When a conical pendulum oscillates in a curve deviating from a circle, find the motion of the apsides:

(1) when the motion is nearly circular;

(2) when it is nearly plane.

17. Describe the general phenomena of Double Refraction; and give the explanation of them afforded by the Undulatory Theory.

18. A point A moves always directly towards a point B , which moves in a straight line: the ratio of the velocities being constant, find the curve of pursuit.

19. If iron filings be placed near a magnet, they arrange themselves into curves: what is the cause of this? Determine the form of these curves.

20. If a linear iron bar be kept at a given temperature at its two extremities, find the temperature at any intermediate point.

21. If a point oscillate in a cycloid in a medium of which the resistance is as the velocity, the vibrations are isochronous.

22. A body is projected in a vertical plane with a given velocity u , and is acted upon by a vertical force ($-mx$) which varies as x , the horizontal distance of the body from the point of projection: find the curve described, and the greatest height attained by the body.

BY GEORGE GABRIEL STOKES, Esq. M.A.

Lucasian Professor.

1. If $a > b > c$, then $\frac{a}{c} + \frac{b}{a} + \frac{c}{b} > \frac{a}{b} + \frac{b}{c} + \frac{c}{a}$.

2. Shew that every imaginary plane contains one and but one real straight line.

3. Prove that the mean of n positive quantities which are not all equal is greater than the n th root of their product.

4. When the sum of a series according to ascending powers of x is known, shew how to deduce the sum of the series obtained by taking terms of the former at regular intervals.

Example. From the series

$$\tan^{-1} x = x - \frac{x^3}{3} + \frac{x^5}{5} - \dots$$

deduce the value of $1 - \frac{1}{5} + \frac{1}{9} - \frac{1}{13} + \dots$

5. Obtain a series for the ready calculation of $\int_0^{\infty} e^{-x^2} dx$ for large values of x .

6. Given that

$$y \frac{dz}{dx} = x \frac{dz}{dy}, \text{ and } cz = (x - y)^2 \text{ when } x + y = a,$$

required the relation between x, y, z .

7. Trace the curve

$$(x + y)^2 (x^2 + y^2) - a^3 x - b^3 y = 0,$$

and shew how it passes into what it becomes when $b = a$.

8. If the equation of a curve be given implicitly by two equations of the form $x = \phi(t)$, $y = \psi(t)$, where $\phi(t)$, $\psi(t)$ are free from radicals, shew how to find (1) the double points; (2) the cusps, regarded as singular double points; (3) the cusps, by a method not introducing the double points.

Apply your method to the example

$$a^2 x = (t + a)^2 (t - b), \quad b^2 y = (t + b)^2 (t - a).$$

9. Explain the generation of a developable surface (1) by lines, (2) by planes of which it is the envelope; and point out the mutual relations of the generating lines, the enveloping planes, and the cuspidal edge. Explain also the form of the surface about such an edge.

10. Explain the effect of the sun's disturbing force in rendering the moon's orbit oval, supposing the undisturbed orbit circular; and find the ratio of the axes of the oval orbit.

11. A uniform flexible string is suspended by one end, and performs small movements in a vertical plane; form the differential equation of the motion, and thence obtain, in a series, the transcendental equation whose roots determine the periodic times of the various possible symmetric oscillations.

12. Obtain the equations of motion of a rigid body moveable about a fixed point, in terms of the angular velocities about the principal axes through that point.

Prove that the rotation of a free body revolving round a principal axis through its centre of gravity is stable or unstable according as that axis is one of greatest or least, or else one of mean moment of inertia.

13. Shew that a small lunar atmosphere would affect the duration of an occultation, but not sensibly affect the apparent diameter of the moon.

14. How do you account for the remarkable effect of wind on the intensity of sound?

15. Find the condition of achromatism of an eye-piece composed of a solid block of glass with a thin lens of different glass cemented to it on the end next the eye, the surfaces being worked spherical.

16. Find the attraction of a prolate spheroid on an internal particle.

A mass of homogeneous fluid is subject to the mutual gravitation of its particles, and to a repulsive force tending from a plane through its centre of gravity and varying as the perpendicular distance from that plane; shew that the conditions of equilibrium will be satisfied if the surface be a prolate spheroid of a certain ellipticity, provided the repulsive force be not too great.

17. Account for the spectra formed by a fine grating; and supposing the grating placed obliquely to the incident light, find an expression giving the length of a wave of light in terms of quantities which may be observed.

18. If a continuous medium be continuously displaced, shew that the most general displacement of an element of the medium consists of a displacement of translation, the same as that of a point P taken in the element, a rotation round some axis through P , and three elongations along three rectangular axes passing through P .

19. Expressing the equations of motion of a fluid in a form in which the particle is supposed to remain the same in differentiations with respect to the time, and supposing the density either constant or a function of the pressure, and the forces such that $Xdx + Ydy + Zdz$ is a perfect differential, obtain first integrals of the three equations resulting from the elimination of the pressure. Are these equations altogether independent of each other? What important theorem may be proved by means of these integrals?

20. Describe fully some one experiment by which it may be shewn that two streams of light from the same source, polarized in rectangular planes, and afterwards brought to the same plane of polarization, do or do not interfere according as the light from the primitive source is or is not polarized.

N.B. It is not to be assumed that the colours of crystalline plates in polarized light are due to interference.

Into GREEK PROSE :

INDEED it is difficult to conceive a more moving scene than the embarkation of these unhappy veterans. They were themselves extremely averse to the service they were engaged in, and fully apprized of all the disasters they were afterwards exposed to; the apprehensions of which were strongly marked by the concern that appeared in their countenances, which was mixed with no small degree of indignation, to be thus hurried from their repose into a fatiguing employ, to which neither the strength of their bodies nor the vigour of their minds were any ways proportioned, and where, without seeing the face of an enemy, or in the least promoting the success of the enterprise they were engaged in, they would in all probability uselessly perish by lingering and painful diseases; and this too after they had spent the activity and strength of their youth in their country's service. And I cannot but observe, on this melancholy incident, how extremely unfortunate it was, both to this aged and diseased detachment, and to the expedition they were employed in, that amongst two thousand men the most crazy and infirm only should be culled out for so fatiguing and perilous an undertaking.

ANSON's *Voyage round the World*.

Now therefore I think that without the risk of any further serious objection occurring to you, I may state what I believe to be the truth,—that beauty has been appointed by the Deity to be one of the elements by which the human soul is continually sustained; it is therefore to be found more or less in all natural objects, but in order that we may not satiate ourselves with it, and weary of it, it is rarely granted to us in its utmost degrees. When we see it in those utmost degrees, we are attracted to it strongly, and remember it long, as in the case of singularly beautiful scenery, or a beautiful countenance. On the other hand, absolute ugliness is admitted as rarely as perfect beauty; but degrees of it more or less distinct are associated with whatever has the nature of death and sin, just as beauty is associated with what has the nature of virtue and life. This being so, you see that when the relative beauty of any particular forms has to be examined, we may reason, from the forms of nature around us, in this manner:—what nature does generally is sure to be more or less beautiful; what she does rarely, will either be *very* beautiful, or absolutely ugly; and we may again easily determine, if we are not willing in such a case to trust our feelings, which of these is indeed the case, by this simple rule, that if the rare occurrence is the complete fulfilment of a natural law, it will be beautiful, if of the violation of a natural law, it will be ugly.

For GREEK IAMBICS:

- ACHATES. THE air is pleasant, and the soil most fit
For cities, and society's supports;
Yet much I marvel that I cannot find
No steps of men imprinted in the earth.
- VENUS. Hlo, young men! saw you, as you came,
Any of all my sisters wandering here,
Hlaving a quiver girded to her side,
And clothed in a spotted leopard's skin?
- ÆNEAS. I neither saw nor heard of any such.
But what may I, fair virgin, call your name,
Whose looks set forth no mortal form to view,
Nor speech bewrays aught human in thy birth?
Thou art a goddess that delud'st our eyes,
And shroud'st thy beauty in this borrowed shape:
But whether thou the Sun's bright sister be,
Or one of chaste Diana's fellow-nymphs,
Live happy in the height of all content,
And lighten our extremes with this one boon,
As to instruct us under what good heaven
We breathe as now, and what this world is call'd
On which by tempests' fury we are cast.

MARLOWE's *Queen of Carthage*.

For GREEK HEXAMETERS:

There reassembling we shall see emerge
From the bright Ocean at our feet an Earth
More fresh, more verdant than the last, with fruits
Self-springing, and a seed of man preserved,
Who then shall live in peace, as now in war.
But we in Heaven shall find again with joy
The ruined palaces of Odin, seats
Familiar, halls where we have supped of old;
Re-enter them with wonder, never fill
Our eyes with gazing, and rebuild with tears.
And we shall tread once more the well-known plain
Of Ida, and among the grass shall find
The golden dice with which we played of yore;
And that will bring to mind the former life
And pastime of the gods, the wise discourse
Of Odin, the delights of other days.

Into LATIN PROSE:

I HAVE writ as my friends would have me, for I had much rather be governed than govern. But otherwise I have really so much esteem and kindness for him and have so much knowledge of the place you would have for him, that I have my apprehensions he will be very uneasy in it; and that, when it is too late, you will be of my opinion, that it would have been much happier if he had been employed in any other place of profit and honour. I have formerly said so much to you on this subject and to so little purpose, that I ought not now to have troubled you with all this, knowing very well that you rely on other people's judgment in this matter. I do not doubt but they wish him very well; but in this they have other considerations than his good, and I have none but that of a kind friend that would neither have him nor my daughter uneasy.

COXE's Life of Marlborough.

Thus it is that while ignorance of a man's special business is instantly detected, ignorance of his great business as a man and a citizen is scarcely noticed, because there are so many that share in it. Thus we see every one ready to give an opinion about politics, or about religion, or about morals, because it is said these are every man's business. And so they are, and if people would learn them, as they do their own particular business, all would do well: but never was the proverb more fulfilled which says that every man's business is no man's. It is worse indeed than if it were no man's; for now it is every man's business to meddle in, but no man's to learn. And this general ignorance does not make itself felt directly,—if it did, it were more likely to be remedied; but the process is long and round about; false notions are entertained and acted upon; prejudices and passions multiply; abuses become manifold; difficulty and distress at last press on the whole community; whilst the same ignorance which produced the mischief now helps to confirm it or to aggravate it, because it hinders them from seeing where the root of the whole evil lay, and sets them upon some vain attempt to correct the consequences, while they never think of curing, because they do not suspect the cause.

I. FOR LATIN HEXAMETERS:

He sung what spirit thro' the whole mass is spread,
Everywhere all: how Heavens God's laws approve
And think it rest eternally to move:
How the kind Sun usefully comes and goes,
Wants it himself, yet gives to Man repose:
He sung how Earth blots the Moon's gilded wane
Whilst foolish men beat sounding brass in vain,
Why the grent waters her slight horns obey,
Her changing horns not constanter than they:

He sung how grisly comets hung in air,
 Why swords and plagues attend their fatal hair,
 God's beacons for the world, drawn up so far
 To publish ill, and raise all earth to war:
 What radiant pencil draws the watery bow,
 What ties up hail, and picks the fleecy snow;
 What palsy of the Earth here shakes fix'd hills
 From off her brows, and here whole rivers spills.
 Thus did this Heathen Nature's secrets tell,
 And sometimes missed the cause, but sought it well.

When, Goddess! thou lift'st up thy waken'd head
 Out of the morning's purple bed,
 Thy quire of birds about thee play
 And all the joyful world salutes the rising day.

A crimson garment in the rose thou wear'st
 A crown of studded gold thou bear'st:
 The virgin lilies in their white
 Are clad but with the lawn of almost naked light.

With flame condens'd thou dost thy jewels fix,
 And solid colors in it mix:
 Flora herself envies to see
 Flowers fairer than her own, and durable as she.

Ah, Goddess! would thou could'st thy hand withhold
 And be less liberal to gold!
 Didst thou less value to it give
 Of how much care alas! might'st thou poor man relieve!

AN ALPHABETICAL LIST OF Members of the University.

* * MEMBERS of the SENATE have asterisks before their Names.

The figures after the name denote the date of the B.A. degree, except where any other degree is mentioned. This date is from the *final determination on the Second Tripos day*, and is therefore frequently a year later than the date of actual admission.

N.B. Every person admitted "*ad respondendum quæstioni*" after Ash-
Wednesday in any year, is a Bachelor of Arts of the following year.

LAWS AND BYE LAWS

OF THE

CAMBRIDGE PHILOSOPHICAL SOCIETY.

THE CAMBRIDGE PHILOSOPHICAL SOCIETY was established November the 15th, 1819, for the purpose of promoting scientific enquiry, and of facilitating the communication of facts connected with the advancement of Philosophy and Natural History; and became a Body Corporate by virtue of a CHARTER granted by His late Majesty King WILLIAM the Fourth. This Charter, bearing date the 3d day of August, 1832, was formally accepted by the Society at a general Meeting held after due notice for that express purpose, Nov. 6th, 1832.

ABSTRACT OF THE LAWS

PRESCRIBED BY THE CHARTER.

IT is expressly provided by the Charter—

1. THAT the Society shall consist of such Graduates of the University as were then Fellows thereof, or shall at any time become Fellows thereof, agreeably to the Bye Laws of the Society.

2. That there shall always be a Council to manage the concerns of the Body Corporate, and that the said Council consist of a President, three Vice-Presidents, one Treasurer, not more than three Secretaries, and not more than twelve nor less than seven other Fellows, to be elected out of the Fellows of the said Body Corporate.

3. That General Meetings of the Body Corporate shall be held once in the year, or oftener; for the purpose of electing the Officers and Council of the Society, and determining the period of their continuance in office; and also of enacting such Bye Laws as may seem useful and necessary for the regulation of the said Body Corporate—for fixing the days on which the ordinary Meetings of the Society shall be held—for determining the mode in which Fellows and Honorary Members shall be elected, admitted, or expelled—and for managing the affairs of the said Body Corporate.

4. That the Fellow who has filled the office of President for two successive years shall not be again eligible to the same

situation until the expiration of one year from the termination of his office.

5. That it shall be lawful at the General Meetings of the Body Corporate to alter or revoke former Bye Laws, and to make such new Bye Laws as they shall think good and expedient.

6. That no such General Meeting shall (without the consent of the Council) have the power of altering or repealing any Bye Law or making any new one, unless the Fellow or Fellows of the Society desirous of altering or repealing any Bye Law or of making any new one shall have given to the Council one month's previous notice of such his or their intention.

7. That no Bye Law shall on any pretence whatsoever be made in opposition to the true intent of the Charter, the Laws of the Realm, or the Statutes of the University of Cambridge.

8. That the Council shall (in conformity with the Charter and Bye Laws of the Society) have the sole management of the Funds and affairs of the Society, and do all such acts as shall appear to them necessary to carry into effect the objects and views of the Body Corporate.

9. That the whole property of the Body Corporate shall be vested in the Fellows thereof: but that no disposition of any lands, tenements, or hereditaments belonging to the said Body Corporate shall be made except with the approbation and concurrence of a General Meeting.

BYE LAWS

OF THE

CAMBRIDGE PHILOSOPHICAL SOCIETY.

I. OF THE ELECTION OF THE MEMBERS OF THE COUNCIL.

1. THE President, Vice-Presidents, Treasurer, Secretaries, and at least three ordinary Members of the Council, shall be annually elected by ballot from amongst the Fellows of the Society.

2. The same Fellow shall not be eligible to fill the office of Vice-President, for more than two years successively.

3. The three senior ordinary Members of the Council shall retire annually.

4. No Fellow under the degree of M.A., M.B., or LL.B., shall be a Member of the Council.

II. OF THE ELECTION, ADMISSION, WITHDRAWAL, AND EXPULSION OF FELLOWS.

1. ANY Graduate of the University of Cambridge desirous of becoming a Fellow of the Society, shall be proposed and recommended by a certificate in writing, signed by three or more Fellows. The certificate shall specify the Christian and surname of the Candidate, his Degree, the name of his College and his usual place of residence; all of which must be certified from the personal knowledge of at least one of the subscribing Fellows.

The following shall be the Form of the Certificate.

<i>Name.</i>	<i>Degree.</i>	<i>College and place of residence.</i>
--------------	----------------	--

.....

being desirous of becoming a Fellow of the Cambridge Philosophical Society, we, whose Names are underwritten, do recommend him as a proper person to be a Fellow of the said Society.

(Signed) _____ from personal knowledge.

This certificate shall be read by one of the Secretaries at the Meeting at which the Candidate is proposed, be suspended in the Library of the Society, and remain there till he be balloted for.

2. The Ballot shall take place on the second Meeting (Ordinary or Extraordinary) after that at which the Candidate is proposed: but all Heads of Colleges, Doctors, and Professors of the University, and all persons who have been admitted to Honorary Degrees, shall be balloted for at the Meeting at which they are proposed.

3. No person shall be declared elected, unless he have in his favour at least two-thirds of the Fellows voting by ballot, and if it appear upon the ballot, that the person proposed is not elected, no notice thereof shall be taken in the minutes.

4. The Vice-Chancellor for the time being, when regularly proposed, shall be admitted a Fellow without a ballot.

5. No person who has been elected a Fellow shall be entitled to any of the privileges of the Society, till he has paid his admission fee, and also his subscription for the current year, or the sum specified in lieu of his annual contributions.

6. If the annual subscription of any Fellow be twelve months in arrear, the Treasurer shall make application for it, and if it be not paid within one month, a notice of the same shall be suspended in the Library, and the Secretary shall inform the Fellow thereof; and if the said subscription be still due at the expiration of the succeeding twelve months, the name of such person shall be announced at the next Annual General Meeting as having been struck off the list of the Society.

7. Any person whose name has been removed from the list of the Society on account of the non-payment of his subscription, may, on payment of the arrears due from him at the time when his name was removed from the list of the Society, be re-admitted by ballot without a fresh admission fee.

8. The death or withdrawal of any Fellow having been signified to one of the Secretaries, he shall preserve a record of it, and cause it to be announced at, and entered upon the minutes of the next Annual General Meeting.

9. No Fellow shall be understood to have withdrawn himself from the Society until he shall have signified such his intention by

letter, under his hand, addressed to one of the Secretaries, or to the Treasurer, and shall have paid all such sums of money as may be due from him to the Society.

10. If any Fellow of the Society shall, contemptuously or contumeliously, disobey the Laws, Bye Laws or other regulations of the Society; or shall by speaking, writing or printing, publicly defame the Society; or advisedly, maliciously or dishonestly, do anything to the damage, detriment or dishonour thereof, he shall be liable to expulsion from the Society.

11. Whenever there shall be cause for the expulsion of any Fellow from the Society, the President shall, at some ordinary or extraordinary meeting, propose the expulsion of such Fellow; and at the next General Meeting, either Annual or special, the question shall be put to the ballot, and if two-thirds of the Fellows present vote for it, the President shall pronounce such person to be expelled from the Society; the Secretary shall record the expulsion of such person in the Minute Book of the Society, and his name, as expelled, shall be read at the next Annual General Meeting.

12. All persons expelled from the Society shall be thereby rendered incapable of belonging to it in future.

III. OF HONORARY MEMBERS.

1. No Graduate or Member of the University of Cambridge shall be an Honorary Member.

2. The number of Honorary Members shall not exceed fifty; not more than twenty-five of whom shall be British subjects or usually resident in the British Dominions.

3. Honorary Members shall be proposed, after a sanction of the Council, by at least six Fellows of the Society. The Certificate of recommendation shall specify the grounds on which each Honorary Member is proposed; and the mode of his election shall be subject to the same regulations as that of the Fellows.

IV. OF THE FUNDS OF THE SOCIETY.

1. THE annual subscription of each Fellow shall be one guinea, and shall be due, in advance, on the first of January in every year.

2. Every Fellow, upon his election, shall pay an admission fee of one guinea, and also the subscription for the current year: but a Fellow elected in the latter half of the October Term in any year shall not be required to pay the subscription which became due on the preceding first of January.

3. Any Fellow, or Fellow elect, may compound for all annual subscriptions by the payment of ten guineas.

4. Fellows of ten years' standing, if non-resident, may compound for all future annual subscriptions to the Society by the payment of five guineas; it being understood, that their subscription is to be renewed, or a second sum of five guineas paid, in case of their returning into residence.

5. The Society shall not make any dividend, gift, division, or bonus in money unto or amongst any of its members.

V. OF THE COUNCIL.

1. THE Council shall meet at the house of the Society, at least once in every fortnight during full term, and not less than five shall constitute a quorum. Due notice of each Meeting shall be sent to every member of the Council.

2. All questions shall be determined in the Council by open vote, unless a ballot be demanded. The determination of the Council shall, at the desire of any two members present, be deferred to the next succeeding Meeting. If the number of votes be equal, the Chairman shall have the casting vote.

3. Nothing shall be published by the Society, which has not been previously approved by the Council; and the Council shall be at liberty to call in the aid of any Fellow of the Society, well skilled in the particular branch of science, which may happen to be the subject of any paper under consideration.

VI. OF THE ORDINARY MEETINGS.

1. THE Meetings of the Society shall be held on Mondays, once in every fortnight, during full Term.

2. The President shall take the Chair at Seven P.M. and shall quit it before Nine.

3. The business of each Meeting shall be conducted in the following order:

- (1) The Minutes of the preceding Meeting read and approved.
- (2) Notices of new Motions presented.
- (3) Members proposed.
- (4) Members balloted for.
- (5) Presents acknowledged.
- (6) Miscellaneous business.
- (7) Communications read.

4. Each Fellow shall be at liberty to introduce a visitor on delivering his name to the President or Chairman at the time.

5. The Treasurer's Accounts for the past year, having been examined and approved by two Fellows of the Society appointed by the Council for that purpose, shall be laid before the first Ordinary Meeting in the Lent Term.

VII. OF THE ANNUAL GENERAL MEETING.

THE Annual General Meeting of the Society shall take place on the last Monday in October. At this Meeting the Officers shall be elected for the succeeding year.

VIII. OF SPECIAL GENERAL MEETINGS.

1. THE Council may at any time call a Special General Meeting of the Society.

2. At least three days' notice of such Meeting shall be given by one of the Secretaries to the Members of the Society resident in Cambridge.

3. The Council, on receiving a requisition to that effect, signed by not less than six Fellows of the Society, shall call a general Meeting, to take place within a week after the expiration of the month's previous notice prescribed by the Charter.

IX. OF THE DUTIES OF THE PRESIDENT AND VICE-PRESIDENTS.

1. THE duty of the President shall be, to take the Chair at the Meetings of the Society and Council; to regulate and keep order in all their proceedings; to state questions and propositions to the Meeting; to report the result of ballots; and to carry into effect the regulations of the Society.

2. In the absence of the President, the Chair shall be taken by one of the Members of the Council in the following order; viz. the Senior Vice-President, Treasurer, or Senior Ordinary Member of the Council then present.

X. OF THE DUTIES OF THE TREASURER.

THE Treasurer shall receive all sums of Money due to the Society, transact all its pecuniary affairs, and keep a regular account of receipts and payments, in the mode which may seem most proper to the Council.

XI. OF THE DUTIES OF THE SECRETARIES.

1. THE Secretaries shall have the management of the correspondence of the Society and Council.

2. They shall attend all Meetings of the Society and Council; take minutes of their proceedings, and enter them in books provided for that purpose; transact the business of the Ordinary Meetings according to the mode specified in Section VI. Rule 3; have the care of the Library and Museum of the Society; examine and sign all tradesmen's bills due from the Society, and send them to the Treasurer for payment.

3. The Secretaries shall have the charge, under the direction of the Council, of printing the Transactions of the Society, and of correcting the press.

XII. OF THE SOCIETY'S PROPERTY.

THE Common Seal, Charter, and Deeds of the Society, shall be kept in an Iron Chest with two locks and two different keys, the one to be kept by the President, and the other by the Treasurer.

XIII. OF THE SOCIETY'S LIBRARY.

1. No Book newly acquired shall be taken out of the House, until it has remained there one entire calendar month; or if it be part of a periodical publication until the succeeding number of the same has been received.

2. A Fellow, upon taking any volume of a Work from the House, shall enter in a book, provided for that purpose, the title of the volume, signed and dated by himself.

3. Every Book taken out of the House shall be returned on or before the first Tuesday in each month, under a penalty of one shilling for each folio or quarto, and of sixpence for each Book of less size; the penalty to be repeated every week until the Book be returned or another of the same edition, and of equal value, placed in its room.

4. To allow time for inspection, the Books shall remain in the House on the Wednesday succeeding the Tuesday aforesaid. A notice of the approach of the period for returning Books shall be placed in the Library during the last seven days of the period.

5. Any Fellow having damaged a Book shall replace it by a fresh copy of the same.

6. The Library shall be closed during the whole of every Sunday.

XIV. OF BENEFACTORS.

The names of Benefactors to the Society shall be read at the annual General Meeting, and shall be inserted in the Society's Memoirs.

XV. MISCELLANEOUS REGULATIONS.

1. ALL communications, presents, &c. shall be sent to one of the Secretaries, if not personally presented by a Fellow at a Meeting of the Society.

2. The Author of any communication, if a Fellow, shall have the liberty of reading his own paper.

L A W S.

I.—THAT the Society be for the encouragement of the study of History, Architecture, and Antiquities; and that such Society be called "THE CAMBRIDGE ANTIQUARIAN SOCIETY."

II.—That the object of the Society be to collect and to print information relative to the above-mentioned subjects.

III.—That the Subscription of each Member of the Society be *One Guinea* annually; such Subscription to be due on the first day of January in each year: on the payment of which he shall become entitled to all the Publications of the Society, during the current year.

IV.—That any person who is desirous of becoming a Member of the Society, be proposed by two Members, at any of the ordinary Meetings of the Society, and balloted for at the next Meeting: but all Noblemen, Bishops, and Heads of Colleges, shall be balloted for at the Meeting at which they are proposed.

V.—That the management of the affairs of the Society be vested in a Council, consisting of a President, (who shall not be eligible for that office for more than two successive years,) a Treasurer, a Secretary, and not more than twelve nor less than seven other Members, to be elected from amongst the Members of the Society who are graduates of the University. Each Member of the Council shall have due notice of the Meetings of that body, at which not less than five shall constitute a quorum.

VI.—That the President, Treasurer, and Secretary, and at least three ordinary Members of the Council, shall be elected annually by ballot, at a General Meeting to be held in the month of May; the three senior ordinary Members of the Council to retire annually.

VII.—That no Member be entitled to vote at any General Meeting whose subscription is in arrear.

VIII.—That, in the absence of the President, the Council at their Meetings shall elect a Chairman, such Chairman having a casting-vote in case of equality of numbers, and retaining also his right to vote upon all questions submitted to the Council.

IX.—That the accounts of the receipts and expenditure of the Society be audited annually by two auditors, to be elected at the Annual General Meeting; and that an abstract of such accounts be printed for the use of the Members.

X.—That the object of the usual Meetings of the Society be, to read communications, acknowledge presents, and transact miscellaneous business.

XI.—That the Meetings of the Society take place once at least during each term: and that the place of Meeting and all other arrangements, not specified in the Laws, be left to the discretion of the Council.

XII.—That any Member be allowed to compound for his future subscriptions by one payment of *Ten Guineas*.

XIII.—That Members of the Society be allowed to propose Honorary Members, provided that no person so proposed be either resident within the County of Cambridge, or a Member of the University.

XIV.—That Honorary Members be proposed by at least two Members of the Society, at any of the usual Meetings of the Society, and balloted for at the next Meeting.

XV.—That nothing shall be published by the Society, which has not been previously approved by the Council, nor without the author's name being appended to it.

XVI.—That no alteration be made in these Laws, except at the Annual General Meeting or at a Special General Meeting called for that purpose, of which at least one week's notice shall be given to all the Members; and that one month's notice of any proposed alteration be communicated, in writing, to the Secretary, in order that he may make the same known to all the Members of the Society.

It is requested that all Communications intended for the Society and the names of Candidates for admission, be forwarded to the Secretary or the Treasurer, St. John's College.

Subscriptions received by the Treasurer, or by his Bankers, Messrs. Mortlock and Co., Cambridge; or at the Bank of Messrs. Smith, Payne and Smith, London, "To the Cambridge Antiquarian Society's account with Messrs. Mortlock and Co., Cambridge."

CAMBRIDGE ARCHITECTURAL SOCIETY.

LAWS.

I. THAT the object of this Society shall be, to promote the study of Ecclesiastical Architecture, Arrangement, and Decoration.

II. That this Society shall consist of Ordinary and Honorary Members, being in communion with the Church of England.

III. That each of their Lordships the Bishops, together with the Chancellor and High Steward of the University, and every Head of a College or Hall, shall be considered a Member of the Society on his signifying his desire to become so, and shall forthwith be added to the list of Patrons.

IV. That every other person desirous of joining the Society shall be proposed and seconded in writing at a Meeting of the Society, and be balloted for at the next Meeting; one black ball in five to exclude.

V. That every Member, resident in the University, shall pay a Terminal Subscription of Seven Shillings; and every other Member an Annual Subscription of Half-a-Guinea. Terminal Subscriptions to be due on the first day of Term, and Annual Subscriptions on the 1st of January. And that every Member who has paid Subscriptions to the amount of £5. 5s. shall be considered a Member for life without further payment.

VI. That if any resident Member's subscription be in arrear for one Term, or any other Member's for one year, he may, after due notice, be removed from the Society at the discretion of the Committee.

VII. That any Member desirous of retiring from the Society shall deliver his resignation in writing to the Treasurer, and shall at the same time pay whatever sum he may owe to the Society, and any Member so resigning may, on signifying such a desire, again become a Member of the Society without being balloted for.

VIII. That all Honorary Members shall be proposed through the Committee, and be elected in the same manner as the Ordinary Members. That such Honorary Members shall neither be eligible as Officers of the Society, nor vote in any matter

affecting its constitution or finances; but that in all other respects they shall enjoy the same privileges as the Ordinary Members.

IX. That at the first Meeting in every Academical year, the Society shall elect a President, Vice-Presidents, a Treasurer, two Secretaries, and a Curator; and shall also elect not more than eight other Members, who (together with the above Officers) shall form the Committee, and have the management of the Society's affairs. That the Society shall also elect annually, at the same time with the Committee, two Members, not being Committee-men, to audit the Society's accounts. All vacancies during the year to be filled up as occasion shall require, in accordance with the provisions of this rule.

X. That the Committee on resigning office shall present to the Society a Report of their proceedings during the past year, and at the first Meeting in every Term the Treasurer's account for the preceding Term shall be produced and read; and that at every Meeting the minutes of the last preceding Meeting shall be produced and read.

XI. That at the commencement of every Academical year it shall be the duty of the Secretaries, or one of them, to draw up a list of the days of Meeting for the year, which after it has been approved of by the Committee shall be circulated among the Members, and that the Secretaries shall also give due notice of every Meeting a reasonable time before it occurs.

XII. That all extraordinary expenditure of the Society's funds shall be first approved of by the Committee and then submitted to a General Meeting; and that no such expenditure take place without having received the approbation of the majority of such Meeting.

XIII. That any Member taking out a Volume from the Library of the Society shall enter his name, the title of the book, and the date of his taking it out, and returning it, in a book kept at the Rooms for that purpose, under a penalty of the value of the volume taken; and that he shall not keep any such Volume out of the Library longer than one month, under a penalty of sixpence a week.

XIV. That no new law shall be passed, and no alteration made in any existing law, unless notice of the proposed new law or alteration, shall have been given at the preceding Meeting, such notice having first received the sanction of the Committee.

XV. That the Officer in the Chair shall be the sole interpreter of the Rules, and have unlimited authority on every question of order.

XVI. That each Member shall have the right of introducing a friend at any Meeting of the Society, which is not summoned for transaction of private business, by giving the name of such friend, *in writing*, to any member of the Committee then present.

XVII. That the Society shall from time to time admit other Societies of the like nature to the same privileges with respect to its Meetings and the use of its Rooms, as are granted to its own Members; the right of introducing a friend, and of voting, being excepted.

The Society invites its Members to examine every Ecclesiastical Building in their power, and to read Notes and exhibit Drawings thereof at the Meetings; to read before the Society Original Papers on any of the subjects connected with its design; and to contribute Books and Drawings to the Library and Portfolio.

[The Societies admitted into Union under Law XVII, are the Ecclesiological late Cambridge Camden Society, the Oxford Architectural Society, the Exeter Diocesan Architectural Society, the British and West of England Architectural Society, the Architectural Society for the Archdeaconry of Northampton, the Buckinghamshire Architectural Society, and the New York Ecclesiological Society.]
